Talk about wasted bandwidth....you quoted and reposted the whole thing!
This bulletin is a useful tool. If you don't like it, don't read it.
I use it quite often, but when I don't need it I just don't bother to
open it and read it. It's just that simple. No complicated filters or
anything. Much simpler than bitching about it and further "wasting
bandwidth".

We are ALL entitled to transmit on ANY ham radio frequency!

Bandplans are purely voluntary. There is NO such thing as a
reserved frequency - for ANY purpose. Nor can there ever be.

There are a great many hams who are NOT interested in silly
two-second "DX QSO's". It is appalling that they should be in
any way banned from using a specific frequency, just because
the DX chasers claim to own it.

It is NOT Nino who is in the wrong here. It is all the jammers, with
their foul language, music and all the rest. ALL of them are
transmitting without ident - and therefore illegally. It is the jammers
who are blocking the frequency - not IT9RYH.

Young Nick

1333. Amateur Radio Newsline™ Report 1418 October 15, 2004

Newsgroup: rec.radio.amateur.dx
Date: 2004-10-18 15:48:06 UTC
From: radionews@aol.com
Message-ID: <20041018114806.19078.00002784@mb-m29.aol.com>

Amateur Radio Newsline™ Report 1418 October 15, 2004

Amateur Radio Newsline report number 1418 with a release date of
Friday, October 15, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

The FCC acts on B-P-L amd the IEEE readies a standard for Broadband
Over Powerline hardware. Find out the impact on ham radio on on
Amateur Radio Newsline report number 1418 coming your way right now.

(Billboard Cart Here)

**

THE BPL FIGHT: THE FCC RELEASES ITS BPL REPORT AND ORDER

The FCC has acted to make Broadband Over Powerline a part of the
telecommunications landscape. Amateur Radio Newsline's Paul
Courson, WA3VJB, in Washington and Mark Abramovich, NT3V, in Philadelphia take
an in depth look at the FCC decision and its impact on Amateur
Radio:

-

FCC Michael Powell: "Would all members in favor of the item
signify
by saying aye? All those opposed? The item is adopted, thank you
very much (sound of gavel banging down)"

--

(WA3VJB report) Although several took note of interference concerns,
none of the Commissioners voted against the proposal, and only one
Commissioner voted any dissent at all. His issue was thet utility
companies might improperly try to raise your light bill to help pay
for BPL. The measure passed, and BPL can now be built and marketed to
real customers nationwide.

The system thet's been in the prototype stage for a while now uses
the power lines as a way to transmit and receive telemetry with
computers such as those used in the home. In sending that data over
the wiring in a house or on the poles outside, small amounts of
signal radiate and can cause interference to users of the same
frequencies BPL uses on the power grid.

The ham radio community, led by the research of ARRL laboratory
manager Ed Hare W1RFI, documented the potential for electrical noise

during this prototype and testing phase. The League submitted what many consider alarming findings to the FCC as a protest and challenge to the BPL proposal on ham radio's behalf.

FCC Commissioner Michael Copp addressed that point before he voted to approve:

--

FCC Commissioner Michael Copp: "I remain concerned with the question of interference to amateur radio users. I take the concerns of this community very seriously, and I believe the FCC has an obligation to work hard to monitor, investigate and take quick action to resolve harmful interference. "

--

When Copp voted approval, his dissent focused only on whether there were safeguards to keep utilities from using electricity revenue to help pay for BPL.

The proposal from FCC technical staff calls for interference mitigation procedures, including an online public database to help identify by zip code where BPL might be a source of interference, The database also will name a contact person at the company running the system in that zip code, to negotiate and resolve complaints.

Commissioner Copp said he hopes the processs will be quick:

--

FCC Commissioner Michael Copp: "If an amateur radio user makes a complaint, and an agreement between the BPL provider and the amateur radio user cannot be reached, the FCC should step in and resolve the matter. These cases must not take years to resolve. I hope we'll have some really effective rapid-turnaround procedures here in place..."

--

FCC Chairman Michael Powell has been an early flag-waver for BPL, and spent time leading up to the vote praising its potential as a competitive force against existing high-speed data distribution systems. The noise made by those concerned about BPL noise must have reached the top desk, because Powell took time to acknowledge BPL's potential negative impact, although he never said the word interference in his remarks:

--

FCC Chairman Michael Powell: There are users of spectrum that are affected by this. We've taken that seriously from the very beginning. I want to particularly say to all those wonderful amateur radio operators out there. They're still an important resource to the

American communications landscape. They're ones that we continue to care about, continue to want to foster and prosper. And we have taken great care to ensure that the protections in this item are necessary to allow that service to continue. We will continue to be vigilant about it, and put the tools in place for that.

--

But then Powell returned to his celebration that BPL would soon provide another way to bring high-speed data to the masses, citing advantages for homeland security, the reliability of the nation's power grid, and the U.S place in the world.

--

FCC Chairman Michael Powell: "Let me underscore that the potential
for America, and the American economy is too great too enormous, too potentially groundbreaking to sit idly by and allow any claim, or any possible speculative fear keep us from continuing to drive this technology drive America into the broadband future."

--

For reaction to the FCC's approval of Broadband over Power Lines, we turn to Mark Abramowicz, NT3V:

--

(NT3V report) For the American Radio Relay League, the FCC's decision in the BPL proceeding wasn't a surprise.

The ARRL's leader says now, more than ever, amateur radio operators will have to be vigilant about any BPL interference that appears and be prepared to act with a complaint that could go all the way to the FCC.

ARRL president Jim Haynie W5JBP says there were some encouraging comments from commission members about the value of the Amateur Radio service. And, for the first time, an admission from the panel that BPL technology is far from perfect.

--

Jim Haynie, W5JBP: "You go back a year, a year and a half ago, there was all this talk about: What interference? There is no interference," Haynie recalled. "And fully half of the meeting was how to deal with the interference issue.

"So the commission now has finally realized that what we've been saying all along does exist and I'm sure the N-T-I-A had a lot to do with that, too."

--

Haynie says among the restrictions the FCC placed on the BPL providers is establishing a database of utility and system operators who will be accountable for neighborhood interference complaints.

He says it appears that provision may have come out of the ARRL's direct lobbying of commissioners.

--

Jim Haynie, W5JBP: "We've actually had personal meetings with a number of the commissioners," Haynie says. "And Commissioner (Michael) Copps is one of them. Kevin Martin was another. Ms. (Kathleen) Adelstein was another one.

"And these were all held in the past couple of months so it's fresh on their mind. They know where we're coming from. That's what the league has been doing on a direct basis rather than just file a written petition or comments, which we did."

--

Haynie also credited the direct lobbying efforts aimed at members of Congress - many of whom look favorably on the Amateur Radio service.

--

Jim Haynie, W2JBP: "They've made their feelings known to the commission and while they support inexpensive broadband for America, you know, on the other hand they understand the infrastructure that's involved with Amateur Radio and public safety," Haynie says.

--

Finally, while Haynie says he'll reserve additional comment until reading the full FCC document, he feels some sense of relief at what finally emerged.

--

Jim Haynie, W5JBP: "I know there's some detractors out there that for whatever reason think the league probably lost and sold them down the river. And that's not the case at all," Haynie says. "When we look at what happened at the commission meeting and actually read the details of the report and order, I think what the league has been doing for the last couple of three years will be quite evident.

"So I think we did a good job. Did we get what we want, no - not entirely. But we also knew going in that you can't just say: 'I don't want BPL at all.' It's going to be done in some form or fashion, now the only question is how much?"

--

Over at CQ Magazine, Editor Rich Moseson, W2VU, is feverishly studying what the FCC has done and what impact it will have on Amateur Radio.

He tells me the FCC's press release on the subject seems to contradict the commissioners' assurances that interference mitigation should be done in a timely fashion.

Moseson notes that in the same sentence such resolution of interference problems would be done without disruptions of service to BPL subscribers.

--

Rich Moseson, W2VU: "So, in other words, the users of this non-licensed service have priority over licensed users," Moseson says. "This is what we were afraid of to begin with."

--

Moseson says he's also concerned about the closing comments of FCC Chairman Michael Powell that were not included in the public statement released on the commission's website.

--

Rich Moseson, W2VU: "He starts out practically pandering to hams and then turns around and tells us not to stand in the way of progress," Moseson says.

--

While sounding pessimistic, Moseson says we'll have to wait and see what's in the actual FCC report and order.

With my colleague, Paul Courson in Washington, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

By the way, you'll find the audio comments made by some of the commissioners as a Web Extra feature. You can find them by pointing the browser on your computer to our website, www-dot-arnewsline-dot org. (ARNewsline (tm))

THE BPL FIGHT: IEEE READIES BPL STANDARD

The Institute of Electrical and Electronics and Engineers -- thats the IEEE -- it has begun to develop standard 1675 for Broadband Over

Powerline hardware.

According to immformation at the organizations website, the scope of this standard will be to provide Utilities and Manufacturers standards for the commonly used hardware for BPL installations. Also to provide standard installation, maintenance and operation methods to ensure the safety of both Utility and Non-utility personnel working on BPL equipment.

This project will not cover data transmission, protocols, or other aspects of BPL related to the internal workings of this technology. More information is on-line at http://grouper.ieee.org/groups/bop/ (IEEE)

**

THE BPL FIGHT: HAMS AND CB'ERS UNITE - DOWN UNDER

Still with Broadband Over Powerline issues, word that ACREM, the Australian Citizens Radio Emergency Monitors, have joined the fight against B-P-L. WIA Newsman Martin Howells, VK2UMJ, reports:

--

Following reports that the ACA may be considering the removal of interference protection for some HF radio users, ACREM New South Wales forwarded an official written protest to the ACA, the Minister for Communications, the Shadow Minister for Communications, and the leaders of both major political parties.

This was followed up with a further submission lodged by e-mail outlining the Japanese report that showed interference from BPL as high as 300 MHz. Although ACREM is primarily a CB emergency monitoring group, the interests of all radiocommunications users, including amateur operators, is also a concern especially given the potential safety-of-life issues of widespread interference to HF and VHF frequencies. ACREM New South Wales will continue to play an active role in the BPL fight, alongside the WIA and other groups.

This has been Martin Howells, VK2UMJ, for WIA National News.

--

Asn B-P-L looms in more and more places, users of many radio services are banding together to fight it. The joint efforts of hams and CB'ers in Australia is just one example of what's happening, worldwide. (WIA News)

**

ENFORCEMENT: $10,000 FINE AGAINST JACK GERRITSEN, Ex-KG6IRO, AFFIRMED

The FCC has affirmed its earlier tentative fine of $10,000 against unlicensed Los Angeles area radio operator Jack Gerritsen, the former KG6IRO. This for operating radio transmitting gear after the agency

set aside his license.

As previously reported, on June 15th of this year the Commission's Los Angeles Field Office issued a Notice of Apparent Liability for Forfeiture to Gerritsen in the amount of ten thousand dollars. This, for Gerritsen's apparent, willfull and repeated violating of Section
301 of the Communications Act by operating a radio station in the Amateur Radio Service without authorization from the Commission to do so.

Gerritsen sent in a response to the notice on July 13th. In his filing Gerritsen claimed that he has a valid amateur license that permits him to operate on all of the radio frequencies detailed in the Notice of Apparent Liability and that that the FCC's earlier action to set aside of his amateur license and KG6IRO call sign was unfounded. He also claimed the set aside did not prohibit him from transmitting on the amateur radio bands given his claim that his amateur license was valid. Also, that any possible suspension of his license is also pending a hearing before an Administrative Law Judge and that it makes the Notice of Apparent Liability moot until any suspension occurs.

Well that might be Gerritsens interpertation of the FCC's decision
but its not shared by the agency. In affirming its decision to require him to pay the ten thousand dollar fine the FCC says that Gerritsen has no license. Just a pending application. Therefore there is no license for the Commission to suspend that the correspondence sent to Gerritsen from the FCC informed him that his amateur license had been set aside. As such the FCC did not grant him an Amateur license nor any authorization to use the amateur frequencies.

In closing, it found that Gerritsen is fully liable for a monetary forfeiture of in the amount of ten thousand dollars. It gave him 30 days fropm the October 5th release of its decision to pay. If he fails to do this in thr alloted or the FCC says it may be referred to the Department of Justice for collection. The full story is on line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3183A1.doc (FCC)

**

ENFORCEMENT: TO MANY CALL SIGN CHANGES

The FCC wants to know why a California couple has been requesting and then cancelling call signs. The agency's Daryl Duckworth, NN0W, explains:

--

Duckworth: "NN6AA, Edward Beluso, of Redding, California, has
been
asked to provide information on about a dozen licenses that have been
granted and canceled since June of 1999. These filings raise
questions as to whether these are being filed in order to block
future assignments of the call signs and the legitimacy of those that
were issued for clubs.
At the same address, WA6JAN, Janet Beluso, has also been asked to
supply information regarding five call signs."
This is Daryl Duckworth, NN0W, reporting."

--

The FCC gave the Beluso's the usual amount of time to respond.
(FCC,
RAIN)

RESCUE RADIO: KKOB TOWER HIT BY HOT AOR BALLOON

KKOB-AM radio in Albuquerque, New Mexico, had to shut down its 50,000-
watt transmitter for several hours on Sunday, October 10th. This,
after a hot air balloon got tangeled at the top of the stations 700
foot high broadcast tower. Amateur Radio Newsline's Norm Seeley,
KI7UP, has more:

--

According to news reports, Bill Chapel was flying the hot-air balloon
when it blew into the tower near a park where the Albuquerque
International Balloon Fiesta was being held. The lines supporting
the airships canopy got wrapped around the triangular shaped tower.
This left the gondola resting up against the antenna structure with
the straps securing it to the balloon tangled in the antenna
structure.

Chapel, and passengers Aaron Whitacre, 10, and Troy Wells, 14,
successfully got out of the gondola and onto the tower. They then
began the long climb down the antenna structures ladder.

At the 100 foot level they were met by a group of trained rescue
worker. The rescue team secured the trip with safety gear, and
helped them into a utility truck bucket for the last of the trip back

to mother Earth. Tower maintenance crews then got to work removing the remainder of the balloon from the antenna structure.

Nobody was hurt in the incident and the station resumed normal operation once the remnants of the balloon were removed.

For the Amateur Radio Newsline, Norm Seeley, KI7UP, in Scottsdale, Arizona.

--

The Federal Aviation Administration and National Transportation Safety Board are reportedly investigating the incident. The Albuquerque International Balloon Fiesta has been flying since 1972. (Published news reports)

**

RESCUE RADIO: WAYS TO WARN

Scott Marks, KI4GGU, says via the WIA News that Israel has developed an emergency public notification system called Silent Radio. This is a regular FM station that remains silent until some kind of emergency situation takes place. Once it receives an alert, it takes to the air to issue any required information to the Israeli public which already knows where to tune in. Kind of the the old Emergency Broadcast System we had here in the U-S-A before the 1990's upgrade
to E-A-S that is supposed to warn a lot more people but is also requires special decoding equipment and is very complex. (WIA News)

**

RESCUE RADIO: WAY NOT TO WARN

Meantime, over in the U-K, Bob Sayers, G8IYK says the Emergency Planning community in the that nation has tried to have something like the Israeli alert system established for many years. Unfortunately, they always get the same response from government officials ewho say that it would be prohibitively expensive.

In fact not so long ago the nation-wide warning siren network, set up in World War 2 but retained and improved upon throughout the Cold War period, was scrapped. The reason was the same. No money to maintain it. (WIA News)

**

ON THE WEB: NO MORE FREE E-MAIL OFF-LINE CLIENT RIDE

If you are a user of Juno's no-charge e-mail service, part of your
free ride is coming to an end. This as the Internet service provider announces that as of December 1st free members will be required to use webmail to get and send e-mail. In other words you will need a

web accoumt someplace else to use Juno e-mail.

This change only affects Juno Free members who currently download e-mail to their computer using Juno software, Outlook Express or other "offline" e-mail clients. These changes to Juno e-mail will
not affect Juno SpeedBand, Platinum, or MegaMail members or Juno Free members who already read and write Juno e-mail exclusively on the Web.

According to a release from the company, to continue being able to use an off-line client with Juno e-mail current free members will need to upgrade to one of Juno's premium services. More information
is on line at www.juno.com/emaildiscount. E mail discount is spelled as one word. (Juno press release)

**

THE SOCIAL SCENE: PACIFICON IN OCTOBER

Turning to the ham radio social calander, Pacificon, the 13th annual ARRL Pacific Division Convention is happening as this newscast goes to air. The venue is The Mariott Hotel in San Ramon California. Those attending will probably get a first hand report on the FCC decision on B-P-L that took place on Thursday the 14th. (Worldradio)

**

THE SOCIAL SCENE: MICHIGAN IN NOVEMBER

And Michigan's Holland Area Amateur Radio Club is hosting the State
ARRL Convention again this year. The date is Saturday November 6th. Talk in will be on the K8DAA 147.060 Mhz repeater that requires CTCSS access tone of 94.8 Hz (E-mail)

RADIO HEALTH REDUX: IS THERE A CANCER CONNECTION TO HIGH POWER RADIO TRANSMISSIONS

A follow up to last weeks story on the risks associated to R-F exposure from living near a high power broadcast station. Bob Gonsett, W6VR, points a report in his C-G-C Communicator that discused the same subject. Amateur Radio Newslie's Bruce Tennant,
K6PZW, reports:

--

Two years ago an Italian study found death rates from leukemia increased dramatically for residents living within two miles of Vatican Radio's powerful array of transmitters in Rome. Now, as reported last week, Wired Magazine says that Korean researchers have looked at the death rates in 10 regions with AM radio transmitting towers broadcasting at more than 100 kilowatts. They compared them with control areas without transmitters, and claim to have found substantially higher cancer mortality rates among those who lived within two kilometers of the high power transmitters.

But says the CGC Communicator, the problem with the Vatican study is that it was relatively small in the size and lacked exposure data. Also, the new Korean study has not even been published. As a result, this is all speculative and based on some rather sketchy pre release information.

Clouding the picture is the statement of Epidemiologist Mary McBride of the British Columbia Cancer Agency also reported in Wired magazine. It quotes Mc Bride as saying that there have been many studies like these, and they just are not very convincing.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

The bottom line to all this. Its going to take more than just scientific speculation to know foe certain if there is any affect at all from living close a a high power broadcast transmitter. (CGC)

**

RADIO ON THE NET: NEW 2 METER SIMPLEX REMAILER

Interested in 2 meter simplex operation? Well you might want to join a new remailer and discussion group in cyberspace. Located on the popular Yahoogroups hosting service the sponsores describe the new remailer as one for everyone who is a ham and who has a two meter rig of some sort laying around and a lot of time not being used much of the time.

Through the group you should be able to set up contact attempt schedules with other members. If your looking for a way to put that 2 meter fm rig of yours to good use go to http://groups.yahoo.com/group/2fmsimplex and sign up. (Repeater Reflector)

**

NAMES IN THE NEWS: AMSAT ELECTIONS RESULTS ANNOUNCED

Some new names and some old will be running AMSAT North America the next year. This, with word that Rick Hambly, W2GPS, has been elected President of the Amateur Radio space authority at the organizations October 7th Board of Directors meeting.

Hambly replaces Robin Haighton, VE3FRH, who has headed up AMSAT North Ameriuca the last seveal years. Also elected or re-elected are are Lee McLamb, KU4OS as Executive Vice President, Mike Kingery, KE4AZN as Vice President Operations, Stan Wood, WA4FNY taking the task of Vice President of Engineering, Barry Baines, WD4ASW as Vice President Marketing and User Services, and Frank Bauer, KA3HDO as Vice President Human Sapceflight. Gunther Meise, W8GSM, will be taking the Treasurers spot for the coming year as well.

Also at the meeting status reviews were presented of several undertakings. These including ongoing projects such as the Echo satellite and the launch of future hamsats including Eagle. The Board also had continuing discussions on regulatory matters, most importantly the impact of FCC Report and Order 04-130 which deals with the subject of Orbital Debris. (ANS)

**

RADIO IN SPACE: MESABA THE IRANIAN SATELLITE

SpaceDaily reports that Iran intends to launch its first satellite in April 2005. The bird named Mesbah is said to be a tewenty in square cube weighing in at 132 pounds.

Plans are to put it int a Low Earth Orbit at about about 560 miles. The satellite will be used to identify natural resources, control the nations electrical and energy network and can also be used by communications and crisis management teams the press reports said. (ANS)

**

WORLDBEAT: SA HAMS DID NOT LOOSE 2.4 OR 5.6 GHZ

South African Amateurs have not lost access to either the 2.4 and 5.6 GHz band. Its just a government typo. At least thats what South Africa Radio League president, Graham Hartlett, ZS6GJH, is saying ane he should know. Thats because he set out to investigate why both pieces of spectrum were not listed to that nations ham radio community.

Now Harlett says that he has in hand a communication from the nations radio regulatory body. It tells him that the 3.4 and 5.6 GHz allocations for amateurs had been accidentally omitted from the last publication of the band plan in the Government Gazette. Harlett was assured that this will be rectified in the next band plan

publication. (WIA News)

**

SPECIAL EVENTS: KØAIR/KØGRL TO CELEBRATE VETERANS DAY

To recognize Veterans Day and the birthday of the legandary General Curtis E. LeMay, the Strategic Air Command Memorial Amateur Radio Club will be operating K0AIR and K0GRL on Thursday, November 11th. The stations will be on the ait 1200 to 2400 hours UTC in the general phone bands on or near to the following frequencies ending in 47. Thhis 3.947, 7.247, 14.247, 21.347, and 28.347 Mhz depending on propagation and time of day. Six and two meters will also be activated 51.47 and 146.46 Mhz. For QSL information please visit www.sacmarc.org on the World-Wide-Web.

**

DX

In D-X, word that a group of seven German operators is active from the Chesterfield Islands for eight days beginning about the 16th of October depending on weather conditions in the area. The Chesterfield Islands are located between Australia and New Caledonia. Once on the air, activity will be on 160 to 6 metres using CW, SSB and RTTY. The callsign will not be announced before operations start. QSL as directed on the air. (OPDX)

And YT1CS is active portable 5Z4 from Kenya until 18th of November. He orks only SSB on 20 and 15 metres. Previously he was signing the rather convoluted call of 5Z4YT1CS until the Kenyan licensing authority re-inserted the 'stroke' mark in the callsign. (RSGB)

Lastly, seven operators from Germany and Poland are active as TJ3SP and TJ3FR through October 20th. They have four stations on all bands and modes, except 160 and 6 meters. These two bands are not licensed for use in Cameroon. (OPDX)

**

THAT FINAL ITEM: THE HISTORY OF JOTA

And finally this week, its the time of year for Jota -- the scouts annual ham radio Jamboree on the Air. Last week we told you about the event as it is today. Now we take a look back in time to the beginning of the Jamboree with John Williams, VK2BUI.

--

Jamboree On The Air is the largest annual international event in the Guides and Scouts event calendar, when thousands of Girl Guides and Scouts from all over the world gather for a weekend to contact each other by radio, share ideas, participate in many activities, make friends and learn new skills.

Like a lot of successful ventures, JOTA had a small beginning, and whilst Scouting utilised radio in its program in some areas for a number of years, it was not accepted as an official part of the Scout program until the 1957 Jubilee Jamboree at Sutton Park Coldfield, near Birmingham in the United Kingdom.

It was here that a very successful amateur radio station was set up, but amongst the sixty plus operators present, only two were in uniform, one of whom Mr Les Mitchell G3BHK.

As this was the only activity at the Jamboree not conducted with a full Scouting Staff he was rather disappointed, feeling that in the true spirit of such a wonderful international Scout activity all Scouters should have been involved in the manning and operation of this station.

His concern led him to call a meeting of overseas Scout radio Amateurs present at the Jamboree and during one of their meetings they decided to keep in touch with each other on air and ensure their availability, if possible, as station operators at future World Jamborees.

Initially one day a year was proposed, but thinking this over later Their nominated Organiser Les Mitchell suggested they consider inviting amateur radio operators throughout the world to join them instead in a special weekend each year for a Jamboree on the Air at which, hopefully, Scouts and leaders would be able to talk to each other throughout the world

1334. Re: IT9RYH NINO WHAT TO DO ?

While I *am* a DXer and *do* enjoy "silly" two-second DX QSO's...

I also agree with Nick. The amateur bands are too narrow to allow ANY group to reserve unoccupied frequencies for their own pursuits. If W9WI/KP1 finds 14.195 occupied -- well, they're just going to have to find some other frequency. Yes, that means those chasing the DX are going to have to actually tune their receivers. (or use the Cluster...) Yes, that means there's a chance W9WI/KP1 won't find *any* available frequency and won't be able to work 20 phone. "Them's the breaks"...

W9WI/KP1 has no more right to take over 14.195 from IT9RYH's existing QSO than IT9RYH has to start a QSO on 14.195 if I'm is already there. "Do unto others..."

(Disclaimer: I rarely work 20 phone and am not familiar with IT9RYH. It is possible he's engaging in other unacceptable behaviors of which I'm unaware.)

Amateur Radio Newsline™ Report 1419 October 22, 2004

Amateur Radio Newsline report number 1419 with a release date of
Friday, October 22, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. A ham down-under finds a way to evaluate
the effect of B-P-L on your station while hams in California keep a
hospital in contact with the outside world. Find out the details on
Amateur Radio Newsline report number 1419 coming your way right now.

THE BPL FIGHT: AUSTRALIAN HAM DEVELOPS ON-LINE BPL IMPACT EVALUATION
TOOL

A new tool to help hams evaluate the impact of Broadband over
Powerline has just been made available on the Internet by an
Australian radio amateur. Its based on the work of a European
consortium that's trying to set a world standard for B-P-L
radiation
limits. Owen Duffy, VK1OD, is the ham who made it happen:

--

Current BPL technology works by conduction of signals in the radio
frequency spectrum up to about 100 MHz. Existing power lines
networks are not ideal RF transmission networks, they will radiate
radio frequency energy causing interference to radio communications
services, and they will be susceptible to interference from nearby
transmitters -- radio or otherwise.

The European Committee for Electrotechnical Standardization,
CENELEC, are developing a standard for "Electromagnetic emissions
from access powerline communications networks". Access powerline
communications networks are commonly termed Broadband over Power
Lines or B-P-L.

The proposed CENELEC standard does not automatically apply globally,
though countries like Australia draw heavily on international
standards, such as CENELEC's for their own jurisdiction.

This proposed standard would set limits for the conducted energy and
radiated energy of B-P-L systems. The radiation limit is specified
for example as a field strength in dBuA/m in a measurement bandwidth
at a specified distance on particular frequency, and its impact will
not be immediately apparent to most radio users.

Do you know what the impact of +4dBuA/m in 9KHz at 3m is on your receiver?

The B-P-L Interference Evaluation Tool allows evaluation of the impact of B-P-L interference under the proposed CENELEC standard given a set of location / application specific parameters.

Go to the BPL Interference Evaluation Tool at www.vk1od.net/bpl and enter the details for your site and discover the impact. The URL again is www.vk1od.net/bpl .

--

Again, the VK1OD B-P-L Interference Evaluation Tool is on the web at www.vk1od.net/bpl. (WIA News)

**

THE BPL FIGHT: FCC RULE CHANGES TO PROMOTE BROADBAND

Back here in the United States, very little attention appears to have been paid to two other FCC actions amid last weeks FCC decision on BPL. But both are designed to help promote different forms of broadband Internet access. This is important because they will be giving Broadband Over Powerline a run for the corporate dollar profit. Amateur Radio Newsline's Bruce Tennant, K6PZW, has more:

--

In another vote taken at their October 14th meeting, the FCC loosened restrictions on fiber-optic networks built by local phone companies, encouraging them to make greater investments in so-called "fiber-to-the-curb" and "fiber-to-the-home" networks. According to the Commission, and as reported in a bulletin from C-Q, the ruling will encourage deployment of fiber optic broadband networks capable of delivering advanced data, video and voice service" by local telephone companies.

Prompted by the decision, several big telephone companies said they would move more rapidly to build fiber networks to homes. S-B-C says it now plans to provide 18 million households higher speed Internet services in two to three years, rather than five years as previously announced. . So far, Verizon Communications has been the most active in building residential fiber networks.

And there is more. The day after the BPL vote was taken, the FCC's Wireless Telecommunications Bureau announced a joint effort with the U.S. Department of Agriculture's Rural Utilities Service. This, to advance the deployment of broadband wireless telecommunications across rural America.

Its called the "Rural Wireless Community VISION Program. Its purpose is to bring experts from both agencies into rural communities selected as models to help provide technical, financial and other assistance in launching wireless broadband services in those areas.

All of this adds up to a lot of competition for B-P-L from the day it gets going.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

As we go to air, it is unclear whether either of these actions are efforts to promote multiple types of broadband, or, possibly a no confidence vote in the long-term potential of B-P-L.

More information on the program is available online at http://wireless.fcc.gov/outreach/ruralvision/index.html. (CQ)

**

RESTRUTURING: NEW UK INTERNET LINKING RULES

Across the Atlantic, some new procedures have been announced by United Kingdom radio regulator Ofcom. This, for the issuing Internet-linking Notices of Variation for U-K hams. Jeramy Boot, G4NJH, is in Nottingham with more.

--

Following a period of consultation, the following new procedures have been agreed between Ofcom and the RSGB. All current Internet linking NoVs will expire on 31st December 2004. Existing NoV-holders and new applicants will be able to apply for new NoVs from 1st October. The three-month period between 1st October and 31st December will allow for the continuity of the present
network to be maintained.

If you currently hold an Internet linking NoV and you wish to continue providing an Internet gateway beyond 31st December now is the time to apply for your new NoV. If you do not apply for a new NoV, the service you currently provide to the amateur radio community must cease on 31st December.

The method of application is totally web-based, and further details and a series of 'FAQs' can also be found on the RSGB website.

Jeramy Boot, G4NJH

--

Here in the U-S-A we take Voice over I P interconnects for granted. In most other nations hams are required to get special permission to connect their stations to the Internet. (GB2RS)

**

Break 1

Its time for you to identify four station. Linda Reader, N7HVF, if you please:

"From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world, including the W7FP repeater serving Salt Lake City, Utah."

(5 sec pause here)

**

RESCUE RADIO: HAMS SUB FOR PHONES IN SOCAL HOSPITAL OUTAGE

Its ham radio to the rescue once again. This, when a construction accident takes out telephones, faxes, Internet and all other outside wireline communications at a southern California hospital. Amateur Radio Newsline's Joe Moell K0OV has the details.

--

Imagine that you're a nurse in the Intensive Care Unit of a hospital. You need to contact a doctor at his home or office, but you can't get an outside line on the phone at your nurses' station. That's what happened on October 6 at Tustin Hospital Medical Center in southern California. At a construction site next to the hospital, earthmoving equipment dug up 50 feet of telephone trunk lines, severing a 400-pair cable and damaging a 200-pair cable.

Following its previously-drilled procedures, the hospital's Director of Safety contacted the Hospital Disaster Support Communications System -- HDSCS -- an ARES group dedicated to the support of medical facilities in Orange County. In 30 minutes, the first ham had gotten through rush-hour traffic and arrived at the hospital to set up a communications link to the outside.

As more hams arrived, they deployed to the emergency Command Post, switchboard, Medical/Surgical unit, Pediatric unit, Intensive Care Unit, and the new Emergency Department. Meanwhile, the group's leader, April Moell WA6OPS, and two other base station operators prepared to make and receive phone calls in behalf of the THMC. Message traffic began to flow immediately after the operators got on station, as hospital staff members re-established links with their patients' physicians on the outside.

--

WA6OPS: "Go ahead, W6KOS."

"Please advise ICU, I got the service, it was a message machine. I put a message on that machine to call the number that you gave. I also gave it my number. If there's any other way they want us to try to get hold of him, we'll do it. Please advise them that we have called."

W6KOS: "Will do, W6KOS."

--

When phone company workers stated that repairs would take at least six hours, HDSCS began calling more members to provide relief to the first responders. By 9:30 AM the next morning, when the last telephone pair was spliced and the outage was declared to be over, four shifts of HDSCS operators had worked within the facility. Twenty-four hams participated in all.

This was the 85th time that HDSCS has activated to provide support when telephones failed or overloaded at hospitals, for reasons ranging from equipment failure, to cut cables, to natural disasters such as earthquakes, floods, and wildfires. It was the fifth activation so far in 2004. Each of the 80 members has his or her own Go-Kit, ready to take to any of the 34 supported hospitals to establish communications.

For more information on HDSCS -- and how hams in your community can organize to provide rapid response like this to hospitals -- point your Web browser to www.hdscs.org. Those are the initials for Hospital Disaster Support Communications System, followed by dot-org. From southern California, this is Joe Moell K-zero-Oscar-Victor, for Amateur Radio Newsline.

--

Among the hams responding to this emergency were Newsline's 2003 Young Ham of the Year Jay Thompson W6JAY and his father Richard, WA6NOL. They, and all of the others who volunteered are another good example of Amateur Radio ready and able to step in when commercial lines of communications fail. (K0OV, ARNewsline™)

**

RESCUE RADIO: STUDY SAYS THAT CELL PHONES IN HOSPITALS MAY PRESENT RELATIVELY FEW RFI HAZARDS

Cellular telephones may not pose the big risk in hospitals that was once thought. At least according to Dr. John Halamka who is the chief medical information officer for the Harvard Medical School.

According to Dr. Halamka, three years ago the school held a conference on the subject of hospital versus cellular telephone RFI issue. Attending were some 100 engineers, the Food and Drug Administration, wireless providers and businesses.

At that meeting the group determined that cell phones only pose a threat if they are within three feet of medical equipment. So, says Dr. Halamka, the current widespread hospital restrictions on cell phone use are probably greatly overblown except at locations where phones may audibly disturb patients or staff.

So will this report ease restrictions against cellular phone use in hospitals? Probably not because no study can cover all eventualities and most hospital administrators feel it better to safe than sorry.

The full story is on-line at
http://www.usatoday.com/tech/wireless/phones/2004-09-27-hospital-phone-use_x.htm (CGC)

**

COORDINATION: SERA RESCINDS MANDATORY TONE POLICY

According to the Repeater Users Internet remailer, the South Eastern Repeater Association has rescinded a controversial mandatory tone access policy enacted last summer. One that would have required tone receive and transmit on all new FM voice repeaters now, and on existing repeaters by July of 2006. Postings to the remailer say that numerous complaints lead the SERA Board of Directors to repeal the policy at a meeting on October 4th. (Repeater Owners / Users Remaler)

**

ENFORCEMENT: FLAT SCREEN TV FOOLS RESCUE SATELLITE

An Oregon resident has been told he could face a $10,000 fine if he continues to use a new flat screen television set that is radiating a high power spur on the International Distress Channel of 121.5 MHz. This, after an October 2nd visit by a contingent of local police, civil air patrol and search and rescue personnel.

Chris van Rossmann of Corvallis owns the year old Toshiba flat screen T-V. Unknown to him, the set was radiating a signal that was strong enough to be heard by the orbiting Sarsat Cospas search and rescue
satellite. From there it was relayed the Air Force Rescue Center at Langley Air Base in Virginia which activated a search.

Van Rossmann found out about his broken television set when the search team knocked on his door. They were expecting to find a malfunctioning portable emergency transponder like those carried on boats and in light plans. Instead their T-hunting gear lead them to the college students T-V.

This is not the first time that an errant piece of ground based electronic gear has fooled the Sarsat Cospas rescue satellite. About 12 years ago the crystal oscillator in an inadequately shielded broadcast graphics machine brought a similar response to a production studio in New Jersey. In that case the Ampex Digital Optics unit was quickly retired from service.

Van Rossmann is faring a lot better. Toshiba has contacted him and offered to provide him with a replacement set, for free of charge. (Published reports)

**

ENFORCEMENT: SANTA CRUZ PIRATE SHUT DOWN BY FORCE

Government agents have shut down another unlicensed broadcaster. On September 29th agents of the U.S. Marshals Service served a warrant on a Santa Cruz, California pirate radio station.

The target was Free Radio Santa Cruz, an FM station running 35 to 40 watts of power while offering round-the-clock music, activism and other local programming.

The marshals, along with agents of the Federal Communications Commission, dismantled the station's equipment and carted it away in a pickup truck. The warrant bore no names, listing as defendant any and all radio station equipment used in connection with the transmissions.

Those running the station face the possibility of further punitive action in the form of hefty fines and even time in jail. The search warrant gave the station operators 20 days to respond in court. The value of the equipment seized is estimated at $5,000, including the antenna agents removed from the roof.

More on this raid is on-line at www.mercurynews.com/mld/mercurynews/news/9797653.htm?1c (CGC, Mercury News)

**

COMMUNICATIONS LAW: TELEMARKETERS LOOSE IN SUPREME COURT

The Supreme Court has turned away a challenge to the federal do-not-call registry. The ruling came on Monday, October 4th and upholds the lower court ruling that says the list does not in any way violate telemarketers rights to freedom of speech.

Under a federal law passed in 2003, telemarketers face fines of up to $11,000 if they call people who sign up for the registry unless they have recently done business with them. Charities, those conducting polls and callers on behalf of politicians are exempt. (Published reports)

**

ALERT: POSSIBLE E-MAIL SCAM TARGETING HAM RADIO

If you get an e-mail with a subject line saying Golden Trust telling you that you have won a lot of money, and its from hamemergency at some unknown dot com, toss it. It may well be another Internet scam targeted to Amateur radio.

Ray Shatzel, W2XC, says over the Internet that he received such a solicitation recently. It told him that he had won $1,500,000 in the Lottery Winners International program held on the July 7th of this year.

Curious, Ray checked it out on the fraud watch international dot com website. There he found out that it is nothing more than another of

the many e-mail scams aimed at getting people like you and me to part with personally identifiable information that could be used in an identity theft scheme. They will also ask for payment of taxes, legal fees or other charges before the winnings can be released. People who fall for it loose what they send in and maybe a lot more.

Our thanks to W2XC for posting this warning to the Internet . He's
one of the good guys who took the time to find out and to pass along the information so that nobody in the ham radio community gets stung. (via Internet)

**

ON THE AIR: HAM RADIO TO CELEBRATE DEDICATION OF CLINTON MUSEUM

Turning to the ham radio happenings, word that special event station W5C will take to the airwaves on November 13th and 14th from the Historic Arkansas Museum. This, to help celebrate the dedication of the William Jefferson Clinton Presidential Library. Operation will be on 40 through 15 meters using various modes including PSK 31. Those making contact will receive a special certificate in exchange for their Q-S-L card sent to Dennis Schaefer, W5RZ, 181 Schaefer Drive, Dover, Arkansas, 72837. (Via E-mail)

**

THE SOCIAL SCENE: GREAT LAKES SUPER SWAP IN MICHIGAN IN NOVEMBER

And the combined 2004 Great Lakes Super Swap and ARRL Michigan State Convention takes place November 5th and 6th at the Harbor Lights School in Holland, Michigan. This years special guest is League President Jim Haynie, W5JBP, who will speak both at the ARRL forum and at the Saturday night banquet. For more information on this fun event take your web browser over to www.hollandarc.org and click on the words swap info. (Via E-mail)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United
States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

HAM RADIO HELP: ARRL JOINS HOLIDAY TOY DRIVE

The ARRL is joining with the United Way in a project to brighten the lives of kids who lost everything in the recent hurricanes that ravaged Florida.

--

Thats right Don. The ARRL is joing forces with a special United Way drive aimed at brightening the coming holidays for kids in central Florida who might not otherwise be able to enjoy the season. They are the youngest victims of the fall hurricanes that ravaged the area. Suddenly living out of a tent or car.

To help these kids, hams nationwide are being asked to purchase a new child's toy and send it to this special United Way campaign. Be sure to include a QSL card or 3x5 file card showing your name and callsign.

Send your donated toy before Thanksgiving to Ham Radio in care of the The United Way White Dove Project at 50 Kindred Street, Suite 207 in Stuart, Florida. The zipcode is 34994.

As we have often said, children are the future of the nation and the world. They, more than any others, really deserve your support.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF.

--

Again, between now and Thanksgiving, purchase a new child's toy. Send it with a QSL card or 3x5 showing your callsign to Ham Radio, in care of The United Way White Dove Project, 50 Kindred Street, Suite 207, Stuart, FL 34994. We will and we hope that you will too. (ARRL)

**

ON THE AIR: HZ1AB PERMANENTLY QRT

The Dhahran Amateur Radio Club has been permanently shut down. This, as the result of telecommunications regulatory changes in Saudi Arabia.

For close to sixty years the Dhahran Amateur Radio Club operated station HZ1AB. Club Secretary Thomas Carlsson, AB5CQ reported that due to revisions made in Amateur Service licensing requirements by the Saudi Arabia Communications and Information Technology Commission, operations were no longer possible.

The HZ1AB callsign has already been reissued to Bandar Salah AL-Harby. Carlsson says that the clubs QSL manager, Leo Fry, K8PYD still has all the logs and will process any outstanding QSL card requests. (WIA News)

**

CONTESTS: RCA QSO PARTY - NOVEMBER 6TH

From the contest calendar, word that Saturday, November 6th is the date for this years Radio Club of America 20 and 75 meter QSO Party. The event will start at 4 p.m. Eastern Standard Time on 14 point 280 MHz upper sideband and at 8 p.m. E-S-T move to 3 point 910 lower sideband. Both frequencies are plus or minus any Q-R-M. During the party, W2RCA which is the club station of the Radio Club of America will also be activated. Logs and suggestions for this contest go to W2ZE by e-mail to mrraide@cbs.com (W2ZM)

**

CONTESTS: FISTS COAST TO COAST ON NOVEMBER 24

The 4th annual Fists Coast to Coast contest takes place October 24th from 0000 U-T-C to 2400 UTC. This is a CW only event with the object being to contact as many Fist affiliated clubs on as many bands as you can. The contest is sponsored by Northwest Fists club K7FFF. Full rules and certificate information may be found at //www.tomochka.com/k7fff/fnw_c2c04.html (FISTS)

**

DX

In D-X, OH2BH and OH2PM will be in Albania from October 26th to the 31 finalizing Project Goodwill Albania and related activities with the hope of bringing a number of new students on the air. Both operators will be on the air from Albania during the C-Q World Wide SSB contest on October 30th and 31st signing portable Zed A. During this trip the two will be accompanied by representatives of the I-A-R-U folks assisting Albanian Telecom in variety of regulatory issues. QSL cards for contacts made go to the operators home call address. (N4GN)

Also on for the CQ Word Wide SSB contest will be eight operators from the North-East calling themselves Team Antigua. will again activate as V-26-B from Antigua and Barbuda on October 30th and 31st and plan to enter the multi-operator two-transmitter category. Operation will be on all bands with a possibility of some satellite contacts on AO-7 and AO-51 More information is on line at http://n3oc.dyndns.org/v26b/ (KA2AEV)

**

WITH THE YOUNG: THE NORTH AMERICAN YOUTH NET

The North American Youth Net meets every Friday at 23: 00 UTC on 14.329 MHz. According to Steve Anness, KD5OWO, the purpose of this on the air gathering is to get young hams together for technical discussions or just a chance to meet and get to know one another. If you are interested in becoming a Net Control for this gathering e-mail Steve at kd5owo@arrl.net. You can also visit the groups website at http://groups.yahoo.com/group/nayn (KD5OWO)

**

THAT FINAL ITEM: HAMVENTION 2004 THROUGH TEENAGE EYES

And finally this week, its the Dayton Hamvention as you have never seen it before. This is because its through the eyes of the young. And while we can't show you the pictures here, we can bring you some
of the sound:

--

Sara K3OOO: "So you are probably thinking, OK I'm into this, but how
do I get my license? Well, there lots of stuff. There's study guides. Real cheap. Real easy. You go home. You study for a while and do take your test and you pass and you get your license. No Internet. No wires required."

--

That's 15 year old Sara Saeger, K3OOO, who, along with 18 year old
Trevor Conroy, W7TDC, are hosts of a new video about Hamvention 2004 produced for Icom America by of John Webb, W7NWH. But this show is not a commercial for Icom brand ham radio gear. In fact, its as if John borrowed a bit from Cole Porter's grand old Broadway musical.
The one whose title is "Anything Goes":

--

Trevor W7TDC: "Right over here we have DX Engineering, a manufacturer of components that actually allows you to build your own antenna. Antennas can be big. Antennas can be small. But theres one thing thats true about all of them. They all get your signal in the air."

--

Thats the other half of the anchor team and if Trevor sounds excited about building antennas it's because he knows just how much fun it
can be. And while Sara and Trevor are our guides, they are not only young people in the new Icom show. Meet Rebekah Dorff, WG4Y, of Alabaster, Alabama:

--

Rebekah W4GY: "Ive been a ham since I was 8. I got my Tech when I
was 8, my Extra when I was 9 and then I got my DXCC when I was 10 and then I got appointed as the Assistant Section Manager this year."

--

The bottom line. This is a new world of Amateur Radio and a lot of young people are getting excited about it once they find out just how much fun it can be. Thats because it gets you away from a computer screen and gives you new friends all over the world:

--

Unidentified youngster: "Hopefully I will get my license today and I
will finally be able to talk to Russia."

--

If you are one of those who really care about the future of ham radio and want to see what it looks like through Sara and Trevor eyes, then go to www.icomamerica.com/amateur/video and have a look for yourself. Better yet, have your kids -- or your friends kids watch the show with you. Once you do, we guarantee that none of you will ever view ham radio the same way -- ever again.

Our thanks to Ray Novak, N9JA, and the fine folks at Icom America for funding this important new ham radio video and making it available on-line. Again that URL is www.icomamerica.com/amateur/video on the World Wide Web. (ARNewsline™)

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's WIA News, that's all from the Amateur Radio Newsline(tm). >with 2 greenstamps and SASE

Why 2 US $ AND a SASE ? Aren't 2 US $ more than enough? Why bothering to
get JA stamps as well?

1343. Re: V85SS QSL Manager?

Sorry I meant to say a Self Addressed Envelope. As for the $2, its what he wants. He's in the driver seat as he has something you want and he most likely doesn't need what you have. Also the dollar is not what it used to be and many countries have raised the cost of international postage by allot in the last few years. Largely I suspect because e-mail has cut into the profits.

DX Bulletin No. 682
BID: $OPDX.682
October 25, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K2KW, N3SIG, NG3K, W3HNK, W3UR & The Daily DX, K4WLS, N4AA & QRZ DX, N4GN, W4DTA, N5AU, W6SJ, K8YSE, CE6TBN, DJ2MX, DL1EK & The DX News Letter, DL6KAC, F5CWU & La Gazette du DX, F5NQL & UFT, F6FVY, G0IAS, HA0HW, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, JI3ERV/NH2C, JI6KVR & JA-IOTA Islands News, MM0DFV, OH2BH, ON4UN, OZ5AAH, PA7FM, PF5X, UA0SR, VA3RJ & ICPO, VE3DZ and XE1L for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 17th/October, through Sunday, 24th/October there were 227 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FK/C, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J7, JA, JD/o, JT, JW, K, KG4, KH0, KH6, KH8, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2, FUJI. Team Vertical will be operational from Taveuni Island (OC-016), Fiji from November 20-30th. Operations will be on 160-10 meters, mainly on CW. The group will have 6 low-power stations and ocean-front vertical

arrays on all bands. The team will focus on working Europeans on all bands. A special emphasis will be given to 80 and 160 meters operations. The 160m frequency will be 1825.5 kHz, "up 2" for EU/USA, and "down 2" for JA. The group will also operate in the CQ WW CW Contest as 3D2XA in the Multi-Multi category. Operators include: 3D2EE/AG9A, 3D2KW/K2KW, 3D2OK/WA6O, 3D2SS/W2VJN, 3D2TS/N6BT and 3D2XA/KE7X. More information is available at: http://www.k2kw.com/3d2/
QSL all Team Vertical 3D2 stations via WA4WTG.

5B/C4, CYPRUS. Marios, 5B4WN, will be active as C4W in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/All-Band/High-Power entry. The QSL route is via LoTW.

5B, CYPRUS (QRP Contest Effort). The contest team of RADIOTECHNIKA Magazine will operate from Limasol, Cyprus, during the 2004 HA-QRP Contest between November 2-9th. The contest station will work on 80 meters as 5B/HA5RT/QRP with 10 watts. The operators are: HA6NL/Laci, HA6PS/Zsolt, HA6ZV/Tibor and HA7JJS/Al They will work on other bands, too, with 5B/homecall. QSL info: 5B4/HA5RT/QRP via HA6NL, and all other cards should go via operator's home callsign, or via the HA QSL Bureau. For details on the HA-QRP Contest, please visit the Web page: http://www.radiovilag.hu/haqrp.htm

5Z4, KENYA. Miki, YT1CS, continues to be active from here as 5Z4YT1CS from Nairobi. He was heard this past weekend on 10 meters SSB (yes, the band has been open) on 28467 kHz at 1100z. Look for Miki to participate in CQ WW SSB Contest as 5Z4YT1CS. Remember, the day after the contest he will leave to go to Lamu Island (AF-040 - Coast Province North Group), where he will stay until November 11th. The callsign will be 5Z4YT1CS/M. QSL via YT1CS, by the bureau or direct.

6W, SENEGAL. Dany, F5CW, will be here November 18-30th and operate from the ham shack/QTH in "Le Calao", 6W7RV. His activity will include the CQWW DX CW Contest as a Single-Op/Low-Power/Single-Band (band to be choosen later) entry. "Le Calao" ham shack can be viewed on the Web page at: http://www.le-calao.com

7Q, MALAWI (Update). Allan, G0IAS, updates OPDX that Les, 7Q7LA, will once again be on the air. He is hand carrying some (ham) stuff for Ron, 7Q7RM, to make sure that it arrives safe and sound and doesn't get lost, broken, or what mostly happens, stolen, on its way there.!! Les will leave the UK, on the 28th of this month and is expected to arrive at the Lakeshore on the 30th. Harry, 7Q7HB, should be at Lillongwe International to meet him there where he will either fly him to the Lakeshore or be driven up there to Club Makokola. Les will stay here with his XYL Faye until the early part of January 2005. However, Harry, 7Q7HB, will leave for the UK on November 10th. The two 7Q stations will try their best to put something up for 80 and 160 meters. OPDX was told these two bands are very hard to operate on due to the noise level. More details about their 160/80 operations are forthcoming. QSL Route for 7Q7LA remains via DIRECT ONLY to G0IAS (not allowed to use the RSGB and there is NO BUREAU in 7Q).

8P, BARBADOS. Tom, W2SC, will be active as 8P1A in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/All-Band/High-Power entry. QSL via NN1N.

9L, SIERRA LEONE. Ivo, 9A3A, is now active as 9L1ADA from Freetown until November 1st. Activity will be on 160-10 meters using only 100 watts into a long wire antenna. He has been heard over the past week on 160, 40, 30, 20, 17 and 12 meters CW at various times. QSL info is available on QRZ.com (search for 9L1ADA, send direct to his address in Italy). Do not send cards to 5B4ADA. Ivo moved to Italy two years ago.

9V, SINGAPORE. Enno, PF5X, informs OPDX that on October 21st, he received his license from the local authorities, and his station was inspected and approved for active usage. His callsign is 9V1CW, and Enno will be in Singapore for about 3 years. He is using a FT1000MP and a broadband vertical (GPM-1500 by WiMo). If the vertical does not work out satisfactorly, he will try to hang out a G5RVjr (10-40m version). Due to a heavy travel schedule, Enno cannot be active very often. Look for him on 80-10 meters (30, 17m in particular), 99.9% CW as indicated by his callsign. All QSLs via PA0KHS (Bureau is OK). The QSL cards are already printed (high quality glossy cards, design based upon the Singapore flag and printed by ON5UR). If you like to get a QSL direct, please send SAE + sufficient return postage (for airmail return to non-EU destinations, please enclose 2USD/Euro, otherwise 1 USD/Euro).

A5, BHUTAN. This is just a reminder. By the time you read this, members of the Clipperton DX Club, composed namely of Gerard/F2VX, Jean-Louis/F9DK, Vincent/G0LMX and Alain/F5LMJ, will be active as A52CDX. The team will be active from two different locations (divided into two time periods) during their stay there. From October 24-31st, the team will be active from the Ham Center in Thimphu. An entry the CQWW SSB Contest is scheduled as part of the activity. They expect to have 2 or 3 stations active at the same time on 80-10 meters on CW, SSB and Digital modes (PA 1 kW, Yagi, verticals and wires antennas). From November 2-11th, the team will be setting up a new amateur radio club station at Jakar High School (Central Bhutan). A 100 watt transmitter and wire antennas will put them on the air. The members of the expedition will once again be active as A52CDX. For both operations, QSL via F9DX, either direct or via the French REF Bureau. For more info, visit the Web page at:
http://www.cdxc.org/dxp/2004-Bhoutan/a5-en.htm

AH2, GUAM. Aki, JI3ERV/NH2C, Chairperson of Guam Contest Club, informs OPDX that the Guam Contest Club will be on the air as AH2R during CQ WW DX SSB Contest at the end of this month (October 30-31st). This time they set a target as the Oceanic leader in the Multi-OP 2-TX category and World Top 5. Also, they are trying to build an Oceanic record in this category. They will operate 40m on 7075-7100 kHz because of the band plan limitation. Please listen carefully to these frequencies. Operators mentioned are: Aki/JI3ERV/NH2C, Toshi/JR7OMD/WI3O, Kaz/JG3RPL/N1BJ and Nozomu/JE8KKX/AH2K. QSL via JH7QXJ, direct (see QRZ.com) or by the JA Bureau ("NOT" KH2 bureau). The Sunrise/Sunset are: 2014/0755z.

ANTARCTICA RECORD TRIP (Attention Stamp Collectors!). On September 14th, 2004, the famous yacht "Apostol Andrey" started a new circumnavigation trip. The yacht will travel around the shores of the Antarctica without going further to the North beyond the 60th parallel which is the border of the Antarctic region in accordance with the International Agreement. The crew will try to establish a record of penetrating sailing yachts to the south - to cross the 70th parallel of the south latitude. The skipper, Nikolay Andrey, has the callsign of R3AL/MM and has the QSL cards already printed for this expedition. He will transmit from the Antarctica starting December 2004 until March 2005. The ship also has an official Russian postmark onboard and a special postal stationary envelope for this expedition. Thanks to the friends who are helping the WAP Staff, they are trying to set up a regular schedule (with Nikolay), and as soon as available, they will let all of the Antarctic chasers know what it is. For details on the World-Wide Antarctic Program (WAP) and the "Apostol Andrey" expedition, please visit the following Web pages:
http://www.ddxc.net/wap
http://www.shparo.com/yacht_2004_2005/yacht_2004-2005_main.htm

BV0, TAIWAN. Members of the Taiwanese Amateur Radio and Japanese Amateur Radio Clubs will do a friendship BV-JA joint operation in the CQWW DX SSB Contest (October 30-31st) as BV0J. Operators mentioned will be BV3BW, BW0IR, BW2/JR1FWR, BW2/JH0KHR and BW3/JD1BKQ. They will enter the contest as a Multi/2-TX entry. Activity will be on 80/40/20/15/10 meters. QSL route for BV0J is via BW0IR, direct or by the Bureau.

C6, THE BAHAMAS. Randy, W6SJ, will be active as C6AWS from November 26th through December 2nd. Activity will include a Single-Op/All-Band/Low-Power entry in the CQ WW DX CW Contest. During non-contest periods, he will concentrate on the WARC bands. QSL to his home call.

EA6, BALEARIC ISLANDS. Tomas, LY1DF, will be active as EA6/LY1DF in the CQ WW DX SSB Contest (October 30-31st) possibly as a Single-Op/All-Band or Single-Band entry. QSL via LY1DF. Look for activity before and after the contest on CW on all bands.

EA8, CANARY ISLANDS. The OH2U Contest Team (along with a few other operators) will be active as EA8ZS in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Multi entry. Operators mentioned are OH1MA, OH1JT, OH1RY, OH2HE, OH2IW, OH2JA, OH2MM, OH2UA, OH4JFN, OH6EI, OH7JR, OH7RR, OH0XX and EA8ZS. QSL "ONLY THIS OPERATION" to OH1JT.

FM5/TO7, MARTINIQUE. Laurent, F5MUX, will be active as FM5BH during the CQ WW DX SSB Contest as Single-Op/All-Band/High-Power or Single-Op/All-Band/Assisted category. All stations which contact him on a minimum of 4 bands will receive a QSL DIRECT automatically. All others will be confirmed via the bureau. He also mentions that he will be active as TO7X before and after his contest activity.

FY, FRENCH GUIANA. Operators FY1FL, F1HAR, F5HRY, F5MZN, F6EPY, F6FGZ and F6FVY will be active as FY5KE in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Single entry. QSL direct or via the bureau.

GM2, SCOTLAND. Look for Jurij, MM0DFV, to be active as GM2Z from Hardgate (Clydebank) in West Dunbartonshire during the CQ WW DX SSB Contest as a Single-Op/All-Band/High-Power entry. QSL cards for contacts with GM2Z should be sent via RSGB QSL Bureau or direct to MM0DFV: Jurij Phunkner, P.O. Box 7469, Glasgow, G42 0YD, Scotland, U.K.

HB0, LIECHTENSTEIN. Christian, DL6KAC, will be active starting October 25th until October 29th as HB0/DL6KAC. Later he will join the contest team (DJ2YE and friends) as a Multi-Multi entry signing HB0/HB9AON. Expect activity on all bands (160-10 meters, no WARC) before and during the contest. As they have to build up the antennas, activity before the contest will not be "fulltime", but expect at least some hours per day. Antennas will be monobanders for 40-10 meters (2/4/4/5 elements) and dipoles for 160/80m + the usual hi-power setup for the contest.

HC8, GALAPAGOS ISLANDS. Operators Lawrence/K5OT, John/AB6BH, Barbara/K6BL, Tony/K6MC, Rich/N6AA, Earl/N6TW, Philip/N6ZZ, David/W6NL and Art/W6XD will be active as HC8L in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Multi entry. QSL via W5UE.

HI8, DOMINICAN REPUBLIC. Hiro, JA6WFM/HI8, and a group of Dominican operators plan to be active as HI3CCP in the CQ World Wide SSB DX Contest as a Multi-Multi entry. The team plans to set up two stations per band. QSL via AD4Z (Please do not send it to HI bureau).

IOTA NEWS.....
AS-008. JO1DPQ will activate Miyake Island (JIIA AS-008-006) from now through November 5th. QSL via his home callsign.

SA-NEW. (Update) Marco, CE6TBN, informs OPDX that Mike/K9AJ, Mario/ CE6NE, Lucas/LU1FAM and himself plan to activate Rennell Island in the Ultima Esperanza Province South Group, February 11-15th. Activity will be on all bands. He does have a yacht contacted to go to the island.

J7, DOMINICA. Denis, K7GK, will be active as J79A in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/*?*/Low-Power entry. QSL via K7GK.

KC4, ANTARCTICA. Chris, N3SIG, informs OPDX that he has been redeployed to the Antarctica to McMurdo Station some time in the 1st week of November. He is expected to be there until March 5th. However, Chris adds that the ham shack's antennas there were destroyed, and they also suffered damage to the main HF rig. He plans to hand carry a HF rig from home in PA to Antarctica. When Chris gets there, he will construct a dipole and will be on the air as KC4/N3SIG mainly on 14243 kHz (The unofficial Antarctica ham freq). He may also be on 40 meters, too. ADDED NOTE: Chris has created an Antarctic Ham Radio mailing list group under Yahoo Groups. Here he will post his operating schedules and other Antarctic topics. He invites everyone to join. To subscribe, send an e-mail to: AntarcticHamRadio-subscribe@yahoogroups.com

LY, LITHUANIA. Ben, OZ5AAH, will be active as LY/OZ5IPA from here between November 3-8th. He will also take part in this year's International Police

Association (IPA) Contest November 6-7th. Contest info is available at:
http://ipa-rc.de
His activity will be on CW and SSB. QSL via OZ5AAH. Skeds can be arranged.
Please, visit the following Web page for details at: http://iparc.dk

MJ0, JERSEY. Mat, F5SHQ, will be active as MJ0ASP during the CQ WW DX
SSB Contest (October 30-31st) as a Single-Op/Single-Band (20m) entry.
QSL via F5SHQ.

OD, LEBANON. Operators DF7TH, DJ5CL, DJ5IW, DL2DVE, DL4RDJ and DL4YAO
are expected to be active during the CQ WW DX CW Contest (November 27-28th)
possibly as a Multi-Single or a Multi-2 entry. Callsign has not yet been
confirmed at the moment. QSL via DJ5CL.

PJ4, NETHERLANDS ANTILLES. Dany, T93M, will be active from Bonaire Island
(SA-006) between October 27th and November 2nd. He will be active in the
CQWW DX SSB Contest as PJ4J. Activity outside of the contest he will be
active as PJ4/T93M. QSL via DJ2MX.

QSL INFO AND NEWS.....
Egidio, IZ8BRI, one of the WAP Staff informs: QSLs for IA0PS, IK7JGQ/KC4
and IK7JGQ/MM are now ready by request via Luigi, IK8OZZ. The WAP Staff
also states that Michele, IK7JGQ has been active from the Antarctica,
Terra Nova Bay, which counts for the WADA Awards as ITA-01.

UA4WHX PACIFIC TOUR QSL CARDS. Larry, K4WLS, reports that Vlad, UA4WHX,
states all received QSL cards (including the ones sent to the TN address)
have been processed. The return cards are all ready to be mailed as
soon as he returns from an out of town work assignment. He will sign
all the cards, and then mail them out. He did not say that he had a
signature stamp, so this could take some time. Larry states, "He must
have a warehouse full of cards. If you have not sent Vlad a donation
to help with the cost of the QSL cards, he sure would appreciate it.
If he gave you a new one, please strongly consider it. His address is
OK in the current RAC. He told me months ago to tell all the guys to
be patient and their cards would show up when they least expect it."

Serge, UA0SR, informs OPDX that his QSL Manager from now on is Joe,
W3HNK. Joe has the logs from UA0SR from January 1, 2000, and he can
confirm QSOs for this period. Serge states, "Please, all QSLs for
UA0SR from October 2004 only via W3HNK." This information does not
apply to Russian stations. QSL via: Serge T. Sobolev, P.O.Box 323,
Irkutsk 664050, RUSSIA.

SOLAR MINIMUM IS COMING! Something strange happened on the sun last week.
"All the sunspots vanished." This is a sign, say forecasters, that solar
minimum is coming sooner than expected. There is some interesting reading
(or if you perfer, audio file) on Science @ NASA Web page at:
http://science.nasa.gov/headlines/y2004/18oct_solarminimum.htm?friend

TX9, CHESTERFIELD ISLANDS. The German team had to QRT earlier than
expected. They went QRT on Wednesday, October 20th, "due to the schedule
of the skipper." QSL all CW QSOs via DL4XS. QSL all SSB and RTTY QSOs

via DL5NAM.
DL4XS - Maike Voss, Friedrichsthal 21, 51688 Wipperfuerth, Germany.
DL5NAM - Chris Sauvageot, Guttenburg 19, 91322 Graefenberg, Germany.
Online logs are expected to be available on their Web page after the operation. Updated news on the DXpedition can be found on the Web page at: http://www.df3cb.com/chesterfield

TY5M NOW QRT. QSL Manager Dennis, PA7FM, informs OPDX that after a 2 month trip through Africa, (active as 5U7DX, TZ6M and TY5M) Michael, TY5M (homecall PA5M) went QRT from Benin on the 17th of October. This is 4 days earlier than originally planned as work was finished early. Michael is off of work for a few weeks at his home in The Netherlands and is preparing himself for the 3Y0X operation. There is a chance he will go somewhere in the world for the WFP of the UN in December, but it is not known yet where that will be. All QSLs for one of these operations should go to: Dennis Robbemond, Loggerhof 11, 3181NS Rozenburg, The Netherlands. ADDED NOTES FROM PA7FM: "So far all TZ6M cards have been answered. 5U7DX cards have not yet arrived from the printer (although it was published a few weeks ago), while TY5M cards are waiting to get printed. Please keep in mind that 1 USD does not cover postage costs outside Europe anymore. Those cards, with unsufficient return postage will be answered throught the bureau." All logs for Michael's operations (the following logs: YI/PA5M, 9U5M, ST2DX, 5U7DX, TZ6M and TY5M) are online at: http://www.pa7fm.nl

UA0, ASIATIC RUSSIA. Pavel, UA0YAY, will be active during the upcoming CQWW DX SSB Contest (October 30-31st) from CQ ZONE 23. QSL via IK2QPR.

UP5, KAZAKHSTAN. Operators UN9GC, UN7GM, UN6G, UN9LW, UN7LEZ, UN7FK, UN7FZ, UA9MA, RN6BY and RZ3TZ will be active as UP5G in the CQ WW DX SSB Contest (October 30-31st) as a Multi-Multi entry. QSL route was not provided.

V2, ANTIGUA. Ratko, YU1NR, will be active as V29NR in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/Single-Band (15m)/Low-Power entry. QSL via YU1NR.

V3, BELIZE. Operators Art/N3DXX and Steve/KN5H will be active as V31RM in the CQ WW DX CW Contest (November 27-28th) as a Multi-2 entry. QSL via KN5H.

V6, MICRONESIA. Look for Shoji, JA7HMZ (V63DX), from Pohnpei, to be active as V6A in the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/All-Band entry. Before and after the contest, he will try to look for EU on 80 meters CW. Look for him as V6A on October 29th and November 1-3rd between 1830-1930z on 1828 kHz (+/- QRM).

VE2, CANADA (Zone 2/Update). Operator Yuri/VE3DZ, Ed/VE3FWA, Sergei/VE2QIP and possibly Yves/VE2XAA will take part in the CQ WW DX SSB Contest as VE2IM (Multi-Single entry). Activity prior to and right after the Contest, operators are expected to be on the air signing homecall/2.

VK9X, CHRISTMAS ISLAND. Look for David, VK2CZ, to be active as VK9XD from October 25th to November 4th. His activity will include participation in

the CQ WW SSB DX Contest as a Single-Op/All-Band entry.

VP2E, ANGUILLA. Operators KC5EA, N5AU, N5TJ, K5MR, VE3EJ, K1DG and N2NT will be active a VP2E in the CQ WW SSB Contest as a Multi-2 entry. QSL via N5AU direct. Look for some activity on the WARC bands prior to the contest.

VP9, BERMUDA. Steve, W4DTA (YV5DTA), informs OPDX that he will be active from VP9-land starting October 27th, and is part of the group that will be on during the CQ WW SSB Contest as W4OV/VP9 (See OPDX.680). He will be active during his spare time as W4DTA/VP9 during the dates prior to the contest. QSL via his homecall.

XU, CAMBODIA. Peter, NO2R, is once again heading back to Sihanoukville and will be active as XU7ACY from January 9-20th. Activity will be on 40, 80 and 160 meters CW/SSB. QSL via K2NJ.

XX9, MACAO. Operators from China, Hong Kong and Macao will participate in the 2004 CQWW DX SSB Contest 2004 as a special joint team effort from October 30-31st, in Macao SAR, China. The team will sign-on with the special callsign, XX9C in the Multi-Multi category. They plan to have 5 stations active at the same time on 160-10 meters. All 5 stations will be set up on Taipa Island (AS-075). Team members include:
Macao - XX9BB, XX9HX, XX9JD, XX9JX, XX9KC and XX9XO
Hong Kong - VR2DS, VR2KW, VR2MK, VR2MY, VR2PX, VR2UNG, VR2XZK, VR2YDC, VR2YTK and VR2ZST
Guangdong - BA7IA, BA7IB, BA7JA, BA7JG, BA7NI, BA7NQ, BD7OH, BG7IEE, BA7IX, BG7IYA, BG7IXG, BG7IBU, BG7IXE, BG7KSF and BD7IAG
Nanjing - BA4RF, BA4RD and BA4RZ

QSL via XX9BB: Kam Po (Savio) Leong, P.O. Box 6018 Macau (Macao), SAR, China. Their Web page is at: http://www.arm.org.mo/xx9c/

ZA, ALBANIA. Martti/OH2BH and Pertti/OH2PM will be in Albania, October 26-31st, finalizing Project Goodwill Albania related activities with the hopes to bring a number of new students on the air. They will be accompanied by the IARU folks assisting the Albanian Telecom in variety of regulatory issues. You will hear ZA/OH2BH and ZA/OH2PM active during the CQWW, most likely in two single-band categories. QSL to their home calls. The "Project Goodwill Albania" Web page is at: http://www.za1a.com

ZK1, SOUTH COOK ISLANDS. Look for Ronnie, SM7DKF, to be active as ZK1DKF from the Island of Rarotonga (OC-013) from October 28th to November 1st. Then from November 2-13th, he will move to the Island of Aitutaki (OC-083). Activity will be limited because he is on a holiday, but look for him on 30-10 meters SSB/PSK. QSL ONLY direct to SM7DKF: Ronnie Nilsson, Vaestra Haeggviksvaegen 12, SE-236 32 Hoellviken, Sweden. For more information on equipment and frequencies, visit his Web page at: http://www.sm7dkf.se/index-info.htm

That's why I changed from direct to a manager in OK land. A US$ was not enough to send more than one card in an envelope from here in Singapore. Many Asian countries are even more expensive. IRC's (old ones) are not good here any more although they should be. All a bit convluted but two green stamps is becoming the norm. However, I am also using LoTW and that's fast, and free for the DX station.

Are there still issues with possession of US$ being illegal in some
countries? (*which* countries?)

Yikes, if you're a DXer & you weren't on this weekend, you aren't a DXer!

Worked a pile of EU on 10m CW & RTTY this morning. D2PFN and EA9IB for
RTTY new ones. Then, a handful of JAs this evening - would have been
more but ended up in ragchews with a Nevada station (rare DX for 10m
this time in the cycle!) and a local 30km away. Then heard VR2BG on 12m
(and worked him on 17). Plus FP on 80 for a new one on that band. And
a strong UA0 on 20m RTTY. Gonna be a busy week for QSLing.

> QSL INFO AND NEWS.....................
> Egidio, IZ8BRI, one of the WAP Staff informs: QSLs for IA0PS, IK7JGQ/KC4
> and IK7JGQ/MM are now ready by request via Luigi, IK8OZZ. The WAP Staff
> also states that Michele, IK7JGQ has been active from the Antarctica,
> Terra Nova Bay, which counts for the WADA Awards as ITA-01.
>
> UA4WHX PACIFIC TOUR QSL CARDS. Larry, K4WLS, reports that Vlad, UA4WHX,
> states all received QSL cards (including the ones sent to the TN
> address)
> have been processed. The return cards are all ready to be mailed as
> soon as he returns from an out of town work assignment. He will sign
> all the cards, and then mail them out. He did not say that he had a
> signature stamp, so this could take some time. Larry states, "He must
> have a warehouse full of cards. If you have not sent Vlad a donation
> to help with the cost of the QSL cards, he sure would appreciate it.
> If he gave you a new one, please strongly consider it. His address is
> OK in the current RAC. He told me months ago to tell all the guys to
> be patient and their cards would show up when they least expect it."
>
> Serge, UA0SR, informs OPDX that his QSL Manager from now on is Joe,
> W3HNK. Joe has the logs from UA0SR from January 1, 2000, and he can
> confirm QSOs for this period. Serge states, "Please, all QSLs for
> UA0SR from October 2004 only via W3HNK." This information does not
> apply to Russian stations. QSL via: Serge T. Sobolev, P.O.Box 323,
> Irkutsk 664050, RUSSIA.
>
> SOLAR MINIMUM IS COMING! Something strange happened on the sun last week.
> "All the sunspots vanished." This is a sign, say forecasters, that solar
> minimum is coming sooner than expected. There is some interesting reading
> (or if you perfer, audio file) on Science @ NASA Web page at:
> http://science.nasa.gov/headlines/y2004/18oct_solarminimum.htm?friend
>
> TX9, CHESTERFIELD ISLANDS. The German team had to QRT earlier than
> expected. They went QRT on Wednesday, October 20th, "due to the schedule
> of the skipper." QSL all CW QSOs via DL4XS. QSL all SSB and RTTY QSOs
> via DL5NAM.
> DL4XS - Maike Voss, Friedrichsthal 21, 51688 Wipperfuerth, Germany.
> DL5NAM - Chris Sauvageot, Guttenburg 19, 91322 Graefenberg, Germany.
> Online logs are expected to be available on their Web page after the
> operation. Updated news on the DXpedition can be found on the Web page at:
> http://www.df3cb.com/chesterfield
>
> TY5M NOW QRT. QSL Manager Dennis, PA7FM, informs OPDX that after a 2 month
> trip through Africa, (active as 5U7DX, TZ6M and TY5M) Michael, TY5M
> (homecall PA5M) went QRT from Benin on the 17th of October. This is 4
> days earlier than originally planned as work was finished early. Michael
> is off of work for a few weeks at his home in The Netherlands and is

> preparing himself for the 3Y0X operation. There is a chance he will go
> somewhere in the world for the WFP of the UN in December, but it is not
> known yet where that will be. All QSLs for one of these operations should
> go to: Dennis Robbemond, Loggerhof 11, 3181NS Rozenburg, The Netherlands.
> ADDED NOTES FROM PA7FM: "So far all TZ6M cards have been answered. 5U7DX
> cards have not yet arrived from the printer (although it was published a
> few weeks ago), while TY5M cards are waiting to get printed. Please keep
> in mind that 1 USD does not cover postage costs outside Europe anymore.
> Those cards, with unsufficient return postage will be answered throught
> the bureau." All logs for Michael's operations (the following logs:
> YI/PA5M,
> 9U5M, ST2DX, 5U7DX, TZ6M and TY5M) are online at: http://www.pa7fm.nl
>
> UA0, ASIATIC RUSSIA. Pavel, UA0YAY, will be active during the upcoming
> CQWW DX SSB Contest (October 30-31st) from CQ ZONE 23. QSL via IK2QPR.
>
> UP5, KAZAKHSTAN. Operators UN9GC, UN7GM, UN6G, UN9LW, UN7LEZ, UN7FK,
> UN7FZ, UA9MA, RN6BY and RZ3TZ will be active as UP5G in the CQ WW DX
> SSB Contest (October 30-31st) as a Multi-Multi entry. QSL route was not
> provided.
>
> V2, ANTIGUA. Ratko, YU1NR, will be active as V29NR in the CQ WW DX SSB
> Contest (October 30-31st) as a Single-Op/Single-Band (15m)/Low-Power
> entry. QSL via YU1NR.
>
> V3, BELIZE. Operators Art/N3DXX and Steve/KN5H will be active as V31RM
> in the CQ WW DX CW Contest (November 27-28th) as a Multi-2 entry. QSL
> via KN5H.
>
> V6, MICRONESIA. Look for Shoji, JA7HMZ (V63DX), from Pohnpei, to be active
> as V6A in the CQ WW DX SSB Contest (October 30-31st) as a
> Single-Op/All-Band
> entry. Before and after the contest, he will try to look for EU on 80
> meters CW. Look for him as V6A on October 29th and November 1-3rd between
> 1830-1930z on 1828 kHz (+/- QRM).
>
> VE2, CANADA (Zone 2/Update). Operator Yuri/VE3DZ, Ed/VE3FWA, Sergei/VE2QIP
> and possibly Yves/VE2XAA will take part in the CQ WW DX SSB Contest as
> VE2IM (Multi-Single entry). Activity prior to and right after the Contest,
> operators are expected to be on the air signing homecall/2.
>
> VK9X, CHRISTMAS ISLAND. Look for David, VK2CZ, to be active as VK9XD from
> October 25th to November 4th. His activity will include participation in
> the CQ WW SSB DX Contest as a Single-Op/All-Band entry.
>
> VP2E, ANGUILLA. Operators KC5EA, N5AU, N5TJ, K5MR, VE3EJ, K1DG and N2NT
> will be active a VP2E in the CQ WW SSB Contest as a Multi-2 entry. QSL
> via N5AU direct. Look for some activity on the WARC bands prior to the
> contest.
>

> VP9, BERMUDA. Steve, W4DTA (YV5DTA), informs OPDX that he will be active
> from VP9-land starting October 27th, and is part of the group that will
> be on during the CQ WW SSB Contest as W4OV/VP9 (See OPDX.680). He will

ARGHHH!
And I was stuck doing other things all day,
and never had a chance to turn the radio on!
Will do so right now.

I 'm just happy to qso with vk0dx, Finn. 5:45z when the rest of the east
coast was asleep.
Very unusual propagation actually got thru and recieved a 59 signal report.
Extreme unusual conditions had to occur for me to hear him with my G5RV,
via South Pole propagation. Definetly nice weekend for dx for me.

Never heard about Webradio, Internetradio, any internet broadcasters?
Unfortunately we're not in the situation to transmit via medium wave
frequencies or via FM frequencies in Germany. But anyway, nothing is
impossible someday ;-).

Kind regards

It was not just this weekend, the last week or so has been good.

11 Oct 23:25 - 14.192 - Cameroon - USB
16 Oct 22:10 - 21.295 - Chesterfield Is. - USB
19 Oct 23:20 - 28.440 - Chesterfield Is - USB
20 Oct 00:48 - 14.070 - Cameroon - PSK31
24 Oct 22:43 - 21.240 - Minami Torishima - USB - Grey Line??
24 Oct 23:06 - 21.241 - Saipan - USB - Grey Line??

The 10 meter contact on 19 Oct was a real surprise as was the PSK31 contact on 20 Oct.

Hello to all,

Looking to give DX a try. I have two attic dipoles for 20 and 40 meters. I have a ten-tec scout 555 that runs 50 watts wide open. Anyways, I am trying to find a "node" to use on my laptop but am unsure what I need. I think all I need is a 10m radio (I have an htx 10) antenna (easy enough for a dipole in the attic) and a computer. Is that true? Also, with the computer, I am aware of Telnet, but how do I access a local node? I am probably talking out of my arse, but I think it would be interesting to get it all hooked up. I use a computer logger but I think I can access the node through a phone if need be. If it sounds like I'm confused, I am. A little help will go a long way.

Thanks so much

>Yikes, if you're a DXer & you weren't on this weekend, you aren't a DXer!

Yeah, yesterday was the best condx I've seen in 2 years. Even worked
Mongolia and Thailand on 20 (east coast, dipole) and a whole bunch of
new band-countries on 10 and 12.

Now let's hope we have some of that propagation left for this weekend.
I hope it won't be as bad as last year's X10 flare fest was!!

'Twas good today, but nothing like yesterday.

Reportedly that's the case in India. Funny thing, though, for each VU I worked, I e-mailed the op and indicated that I didn't want to cause any trouble, and would he prefer I sent an SASE with mint stamps (my usual choice) or new IRCs -- and each one of them just asked for one Green Stamp, if I would be so kind. All cards received within 6 weeks, and this was two years ago now.

I've never heard of that prohibition anywhere else. If P5 was still active, I might think it could be a problem there, but that's (sadly) a moot point. Sigh.

Telnet connections can be found at URL:

http://www.cpcug.org/user/wfeidt/Misc/cluster.html

10M is pretty grim now as we are on the down slide of the solar cycle -- but
some openings are still occurring as you will see when you connect to a
packet cluster via telnet.

Thank you, however, I do not have internet access upstairs. Only a phone line. Is there a way to access via phone or is that too much to ask? I don't have aol or anything, just broadband in one spot in the house and my shack is upstairs.

Thanks again

I have hi speed cable and I bought a router and connected my two computers
(upstairs and downstairs) via a run of lan line.

Another solution is to connect to a local VHF Packet Cluster. Check with
DXers in your area for a VHF packet cluster in your area.
U will need a VHF radio, a TNC, and a dumb terminal or computer.
Computer speed is not important for either method and any of the older desk
or laptops will work fine.

Excellent. I think I may try the vhf route. I have an extra ht so maybe
that will work. If not, I will run the cable up the stairs. Two babies in
the house though. I don't get on the air that much but when I do, I like to
cw dx if the propagation is right. Thanks for the suggestions.

It might be easiest at this point in your learning curve to simply dial up and down the band of interest and find the stations that way. You don't have to have a computer or DX spotting aids or anything else to work DX. The DX spots are from all over the country and thus the DX listed might not be audible in your area due to band conditions. Even a "local node" has listings from all over that you may or may not be able to hear. At least by dialing, you will find stations that you can hear in your location.

There are several ways that you can use the DX spotting aids.

1. Connect your computer to the internet. The use a terminal program like Hyperterm (free with windows) use the connect function to connect to the system that you want. I happen to use www.dxspots.com. The first type you connect, it will ask for your call sign, location and other info. After that it will just ask for the call sign. Some of the logging programs allow you to bring up the DX spotting sites without using a separate program.

2. Instead of using a terminal program, you can connect to the DX site directly. Just bring up Internet Explorer and type in www.dxspots.com and you can see the spots that way.

3. Instead of the internet, you can use 2m packet radio in some (but not all areas). Here you need a TNC or interface to connect between radio and computer. Once you have the hardware all hooked together (2m packet radio, TNC or interface, and computer), you will need software to run it. If you go with the TNC, you can just use a simple terminal program like Hyperterm. If you go with just an interface between computer and radio, you will need software to decode the packet info.

Telnet is a text-only connection type between a server and your remote node. Telnetting to a node is extremely easily, but there are ways of making it easier still.

Get yourself a broadband router with 802.11 wireless, also known as WiFi. They're relatively cheap, they serve as a nice hardware firewall and with a WiFi card in your shack computer you can easily telnet to one or more clusters and watch the spots roll in. An added bonus is that WiFi cards don't generate the hash that most Cat 5e network cables generate (a real problem for me, especially on 20m).

Once you have a connection to the 'net, I'd suggest using the VE7CC AR Cluster config software. Bring it up, connect to the cluster of your choice (there are hundreds of them -- pick one near you or even just one with a 4 in its call if you're unsure). It doesn't really matter, so long as it's a North American cluster.

Use the VE7CC software to configure that cluster connection to only show you only the DX spots you want to see. For example, I'm not interested in anything above 30 MHz, 60m or 160m, so I exclude those spots. I also exclude any spots which originate outside of the 1,2, 3 & 8 call areas plus Canada west of Ontario (I'm in NYC). No sense seeing how many west coasters are picking Asia clean on 15 long after the band's dead closed in the east (my blood pressure's high enough, hi hi).

Of course, you really should just rely on tuning the bands as your primary source of DX hunting, but if you're going to use spotting, telnetting in is really a nice, easy to use and powerful way to go.

You can telnet in on dialup, but depending on your terminal client (the program you use to display what comes back), it may just summarily close on you once the connection is lost. Having software that keeps the spots after the connectiond dumps is a significant advantage.

Don't forget, if you choose to use a computer log, most good ones have a packet/telnet cluster interface as well so you can see at a glance when a spot comes in if you need it as an all-time new country, new band or new mode. In contests I find a steady cluster connection to be

a lifesaver (no more busted calls -- of course, you have to enter as "assisted").

Good Luck!

I wouldn't worry about a spotting network at this point in the game.
With simple antennas and low power, anything that gets spotted will
probably be difficult to impossible to work. You're better off tuning
around the bands and finding the DX yourself.

It can be helpful to look at the spots to get a general idea of what
conditions are like. http://oh2aq.kolumbus.com/dxs is a good place to
start. It'll tell you what part of the world is being heard in what
other part of the world on what band.

If you do decide to try to access a local cluster node, you need a *2m*
radio and antenna, and a packet TNC. You'll have to ask locally about
what frequency is in use -- in some areas it is possible there is no
accessible local node. (at which point you're best off using the
Internet)

==========

A few DXing hints:

- If you aren't already proficient at CW, learn it. Practice, practice,
practice... Low power is better at breaking pileups on CW.

- Get on for contests. A LOT of DX will be on. (and the biggest phone
contest of all is this coming weekend) A lot will be on from countries
that can be difficult to work at other times. And especially on Sunday,
DX in some overall very rare countries will be begging for QSOs - will
be easy to work. If conditions are any good at all, you ought to be
able to work 30 countries or more with your station this weekend.

- Be sure you have envelopes at the QSL Bureau. That's how most of your
DX will QSL.

Dunno, seeing some of the busted spots that show up during a contest one has to begin to wonder whether *not* having cluster constitutes "assistance"<grin>!

I agree to some extent. Whilst the use of packet cluster can aid DXing,in
my experience it can sometimes be frustrating. This is because, if a spot
shows up on the cluster, then EVERYONE reading the spots will be aware of
it - quite often with the inevitable pile-up. This is often difficult to
break with 100W and low-height wire antennas. However, it's so much more
rewarding to tune the band(s) and find a rare station calling CQ and be
the first one to reply.

Sir Walter -- we did it the old fashioned way - we earned it !
Listen listen listen tune tune tune
and you will be the first to work the rare DX

The first cluster spot is made by a DXer who performed the above

Yeah, that's true too, but on the whole between listening and seeing
the spots, I've not busted one in any of the contests I've played in
yet.

Hello,

During my time surfing the web I have found a number of useful amateur radio antenna links. I would like to share some of these with you to add to your bookmarks or favorite links. For the online calculators I've found that if you save them in Internet Explorer as a web archive .mht file you can use the calculator offline because it is an HTML file. I hope you find these links as useful as I have.

Jim

According to the chart at URL:
http://www.dxlc.com/solar/solcycle.html

We are well past the peak and headed for the minimum

The URL also sez Cycle 23 started in May 1996 and peaked in April 2000

1393. Re: New to DX with limited resources

Newsgroup: rec.radio.amateur.dx
Date: 2004-10-27 14:56:11 UTC
From: Steve Silverwood <kb6ojs@arrl.net>
Message-ID: <MPG.1be94ad25da7ed1c9896fe@news.individual.net>
Source record: 6784

In article <jCdfd.79937$cJ3.39267@fed1read06>, ki4bbl@cox.net says...
> Thank you, however, I do not have internet access upstairs. Only a phone
> line. Is there a way to access via phone or is that too much to ask? I
> don't have aol or anything, just broadband in one spot in the house and my
> shack is upstairs.

Pick up a wireless broadband router, then put a wireless card in your
notebook. Once the wireless network is set up properly, you should be
able to take your notebook just about anywhere in the house -- unless
you have a house the size of Graceland or something -- and still access
the Internet.

Hi,

Illegal probably not and even appreciate by intermediates, Hi !
Note about IRC and GS.
In Australia or Canada an IRC pays only one third of stamping. That means that your dear addressee living in Queensland or Vancouver from whom you await the QSL direct by mail will have to pay from his pocket $1 or $2 additional. An economy-class delivery costs about $1.5 but the fastest answer, providing a less-than-one-week delivery costs about $2 in those countries.
Here are all countries requesting 2 GS to send a QSL by airmail : 4L, 5A, CE0, CX, DL, EK, EP, HB, TI, UR, VE, VK, YB, ZS.
In case of doubt about IRC do send GS.

Any update or change to this list is welcome

Thierry, ON4SKY
http://www.astrosurf.com/lombry/qsl-gs.htm

I just read somewhere that Cuba will outlaw the use of U.S. currency
sometime in early November.

>
>73 de G3NYY

Nah, it's not pointless, Walter. The point is to make some $$$.
It's a commercial venture:

http://www.lamonica.com/membership.htm

"The W7DXX Remote Base System is A CLOSED SYSTEM FOR MEMBERS ONLY. To
become a Member, you are asked to send a copy of your license
authority and donate $75 annually to help offset expenses."

It's questionable due to the following FCC regulation which applies to
amateur radio:

§97.113 Prohibited transmissions.

(a) No amateur station shall transmit:

(2) Communications for hire or for material compensation, direct or
indirect, paid or promised, except as otherwise provided in these
rules;

("Otherwise provided in these rules" does not include a clause for
selling time using your radio to other amateurs.)

But no worries. The FCC doesn't question much of anything anymore.
What is pointless is making "rules" when the people who are supposed
to be following them never bother to read them, and the people who
make them don't bother to enforce them.

Grab your VISA card, hit that PAYPAL page, and YOU can be Why Eye
Deeee-X too!!! 10-4?

73, Jim KH2D

Of course they do. Of course, now that their primary function is serving as the Christian Taliban Ministry for Morality, they don't have time for such triviality as enforcing the actual rules or perhaps even protecting the legitimate spectrum users from interference. Gotta keep those tits away from TV. It's hard work.

Amateur Radio Newsline(tm) Report 1420 - October 29, 2004

Amateur Radio Newsline report number 1419 with a release date of Friday, October 29, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

The ARRL Executive Committee meets to discus the future of ham radio in the U-S-A and the next Solar Minimum may be a lot closer than you think. Find out more on Amateur Radio Newsline report number 1420 coming your way right now.

RESTRUCTURING: ARRL EC MEETS TO DISCUSS BANDWIDTH AND BPL

A draft of a petition to the FCC dealing with bandwidth regulation and the latest on the B-P-L front dominated a recent meeting of the ARRL Executive Committee held October 16 in Dallas, Texas. Amateur Radio Newsline's Bruce Tennant, K6PZW, takes an in-depth look at what was discussed:

--

At the Texas gathering, ARRL Executive Committee -- better known as the E C -- devoted much of its fall session to a discussion of comments received on the League's draft FCC petition seeking regulation of subbands by bandwidth rather than by emission mode. The E C also authorized the filing of a Petition for Reconsideration in response to the Broadband over Powerline Report and Order in ET Docket 04-37, which the FCC adopted October 14. But the E C acknowledges that the drafting and filing the petition must await release of the actual Report and Order, which should happen in a few weeks. It did however authorize ARRL General Counsel Chris Imlay, W3KD, to prepare to pursue other available remedies regarding procedural and substantive defects in the B-P-L proceeding.

Responding to a synopsis of the bandwidth petition and proposed rule changes posted on the ARRL Web site, several hundred League members and others in the ham radio community offered comments and suggestions. The good news says ARRL Chief Executive Officer David Sumner, K1ZZ, is that the

Executive Committee found considerable support for the concept of the petition. It also was happy to see some constructive suggestions to reduce both the impact of the changes on current amateur operations, as well as possible unintended consequences.

By way of background, earlier this year, the Executive Committee decided to make a synopsis and explanation of the petition available before filing it with the FCC. At the Dallas meeting, the E C agreed to submit several recommended amendments to the proposed rules changes to the ARRL Board of Directors for its consideration when they meet in January. These include such items as retention of rules permitting automatically controlled digital stations including packet and other digital modes in narrow H F subbands. The draft petition had proposed dropping these provisions.

Also in the digital domain the E C addressed a rule prohibiting so-called semi-automatic digital operation on frequencies below 28 MHz where phone is permitted. This addressed a concern that ''robot'' digital stations might take over the phone bands. And a segment for 3 kHz bandwidth with no phone emissions at 10.135 to 10.150 MHz to accommodate existing and planned digital operations was included.

Another item adopted was the deletion of the word "continuous" from the description of test transmissions authorized on most frequencies above 51 MHz. Lastly is simplification of proposed changes to Part 97.309 of the Commission rules. This, to clarify that FCC-licensed amateur stations may use any published digital code as long as other rules are observed.

The Leagues Dave Sumner emphasized that the recommendations address major issues raised to date but are not necessarily the last word on the draft petition.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

The ARRL's bandwidth proposals take into account the League's prior ''Novice refarming'' petition to expand some High Frequency phone bands--included in the ''omnibus'' FCC Notice of Proposed Rule Making in WT Docket 04-140. (ARRL)

**

RESTRUCTURING: UK HAMS GET EXPANDED 40 METER PRIVILEGES

Hams in the U-K have been granted expanded privileges on the 40 meter band. Jeremy Boot, G4NJH, is in Nottingham, England, with more:

--

Ofcom and the Radio Society of Great Britain are pleased to announce that all necessary procedures required for early access to the 7.1 to 7.2MHz spectrum for all UK radio amateurs have been finalized and that access is allowed from 01.00 UTC on Sunday 31st October 2004. Early access is granted on a Secondary (non-interference) basis using a maximum of 26dBW (400 watts) PEP.

Notices of Variation for the U.K. Foundation, Intermediate and Full licenses have been published on the Ofcom website at http://tinyurl.com/4tuud. It is recommended that for the time being only voice and Morse code modes are used between 7.1 and 7.2MHz. Band planning issues on MHz will be kept under regular review and will be dependent on the number of administrations granting early access to this band prior to full Primary access on 29th March 2009.

Jeremy Boot, G4NJH.

--

Thanks Jeremy. (GB2RS)

**

RESTRUCTURING: AUSTRALIA LOOKS AR VOIP RULES

The Australian Communications Authority -- the A-C-A -- says that it is reviewing telecommunications regulations to cover fast-emerging voice over Internet protocol services. In a discussion paper released about a week and a half ago, the A-C-A says that it aims to identify any regulatory challenges resulting from the increased availability of VoIP services and recommend to the government how those challenges might be met. What affect any changes might have to ham radio VoIP interconnects in Australia is to early to assess at this time. (WIA News)

**

THE FUTURE: SCIENTISTS PREDICT EARLY SOLAR MINIMUM

And some possible god news for hams tired of the rather poor High Frequency band conditions these days. It comes from the GB2RS News Service which says that American physicist David Hathaway believes that the next solar minimum could arrive sooner than previously predicted.

GB2RS News quotes on an article on the 'Science at NASA' website. It predicts that the next solar minimum could occur in late 2006. That's about a year earlier than previously thought

Dr. Hathaway bases his prediction on data from the last eight solar cycles, which show that solar minimum follows the first sunspot-free day on the sun by 34 months. In this solar cycle, the first spotless day was on 28th January this year and more recently, on 11th and 12th October, there were two more spotless days.

Hathaway goes on to state that the next solar maximum might also come early. He is quoted as saying that solar activity intensifies rapidly after solar minimum. That in recent cycles, the Solar Max has followed Solar Minimum by just four years. If that is the case, the next solar maximum could be not all that far away in 2010 and a Solar Max is good news for D-Xing. (GB2RS)

**

Break 1

From the United States of America and Auckland, New Zealand, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the WB3FPL repeater back in the U-S-A and serving the ham community of Monton, Pennsylvania.

ENFORCEMENT: CB AMP SALE BRINGS $7000 FINE

A North Jackson, Ohio equipment retailer has been dinged with a heavy fine. This for allegedly selling those illegal 11 meter amplifiers that the C-B crowd calls footwarmers.

The noted violations involve Paladen Communications sale of external Citizens Band radio frequency power amplifiers. In it's October 21st Forfeiture Order the FCC alleges that Paladen, which does business as the CB Shop, did willfully and repeatedly violate Section 302(b) of the Communications Act of 1934 and Sections 2.815(b) and 2.815(c) of the Commission's Rules by making these units available to the general public.

Paladen was issued the $7,000 fine back on May 27th. The FCC says the company never responded to the notice. Its now been given 30 days to pay or face collection proceedings. (FCC)

**

ENFORCEMENT: CB OPERATOR FINED $10,000 FOR UNLICENSED OPERATION

And using an illegal C-B amplifier will cost a Washington state operator some really big bucks. This as the FCC fines Robert A. Spiry of Tacoma 10,000 for what the FCC say was operating a radio station without Commission authorization. Amateur Radio Newsline's Norm Seeley, KI7UP, has the details:

--

In its letter to Robert A. Spiry, the FCC claims that it found the amplifier as part of a follow-up investigation. This, after receiving numerous complaints from Spiry's neighbors.

On March 13th, April 2nd, October 29th and November 5th of 2002, agents from the Commission's Seattle, Washington Field Office concluded that the interference resulted from 11 meter transmissions originating from Spiry's residence and from his mobile station in his vehicle. During station inspections conducted on April 2nd and November 5th, 2002, the Seattle Office agents determined that Spiry was operating transmitters that were not FCC certified and that he was operating with a linear amplifier attached to his CB radio transmitter.

Spiry was advised that his use of unauthorized and non-certified equipment voided his blanket authority to operate his CB station. Nevertheless, the FCC says that he continued to operate the unauthorized equipment at the expense of his blanket authorization to operate his CB radio station.

On December 30th, 2002, the Seattle Office issued a Notice of Apparent Liability for Monetary Forfeiture in the amount of $10,000 to Spiry. In other words, a $10,000 fine.

In his January 15, 2003 response Spiry did not dispute the facts that lead to the fine. Instead he stated that he had ceased CB radio transmissions and had obtained an amateur radio license. The FCC database lists him as holding a Technician class license with the call sign KD7TRB. He also claimed to have removed his CB radio antenna and asserted that he was unaware that the amount of the forfeiture could be so high. He told the FCC that he was unable to pay that amount.

But in affirming the fine the FCC refers Spiry to Section 301 of the Communications Act. It says that no person shall use or operate any apparatus for the transmission of energy or communications or signals by radio within the United States without a proper license. The FCC says that Spiry's

2002 operation of his CB radio station with transmitters that were not FCC certified and use of a linear amplifier constitutes repeated violations. It also notes that his taking down the C-B antenna and getting a ham radio ticket are not sufficient actions to negate the punishment for the original offenses.

The FCC says that Robert Spiry has not provided it with adequate financial information from which to determine his ability to pay the forfeiture. Based on this lack of information cancellation or reduction of the $10,000 fine is not warranted and that it stands as is.

For the Amateur Radio Newsline, Norm Seeley, KI7UP, Scottsdale, Arizona.

--

Spiry was given the usual 30 days to pay. If he fails to do so the FCC says that the matter may be turned over to the Department of Justice for further action. (FCC)

**

ENFORCEMENT: BROADCASTER FINED

The FCC has also issued an $8000 monetary forfeiture to Crown Communication, Inc. Cowner is the owner of an antenna structure in Hobbs, New Mexico. The FCC says that the fine is for willful and repeated violation of Section 17.50 of the Commission's Rules involving Crown's failure to maintain good visibility of the tower. The situation dates back to August 13, 2002, when an agent from the Denver Office inspected antenna structure and observed that unpainted cables attached to it precluded good visibility . (FCC)

**

ENFORCEMENT: NO LICENSE - STAY OFF THE AIR

The FCC has warned an unlicensed operator to stay off the air or face some heavy consequences. This, in a September 30th letter to Travis Lee Dameron of Stuarts Draft, Virginia.

In its warning to Dameron the FCC says that it has information indicating that he has been operating radio equipment without a license on the Two Meter Amateur Radio Band. It tells him that transmitting without a license is a violation of Section 301 of the Communications Act and will subject him to fine or imprisonment, as well as seizure of any non-certified radio transmitting equipment he may have in his possession.

Dameron was also requested to call the FCC's Riley Hollingsworth to discuss the matter. If Dameron fails to stay off the air, the fine he could face would range from $7,500 to $10,000. (FCC)

**

RADIO RULES: FRAUDULENT STATION APPLICATIONS FILED WITH FCC

Bob Gonsett's CGC Communicator reports that a number of fraudulent Form 301 applications have been filed with the FCC this month. CGC says that the agency has even accepted for filing a number of these fake applications, and has assigned them file numbers.

One application in question was for a conventional, non-grandfathered Class B FM station. The petitioner was asking for a transmitter power level of 105 kilowatts E-R-P. This, in a Class B zone where only 50 kilowatts is allowed without a waiver request. And says CGC, there was no waiver request.

CGC adds that it appears as if the Commission is not screening these incoming Form 301 applications. This, even when there are blatant defects in some. (CGC)

NAMES IN THE NEWS: MOLLY SCHREIBER DEPARTS AES

Some names in the news. First is Molly Schreiber of Amateur Electronic Supply graphic design and marketing department who has announced her departure after 7 years with the company. The reason. Molly says she is moving to what she calls the lovely west coast adding that she will miss everyone she has dealt with during her tenure at A-E-S. October 29th was her last day with the company. (Via E-Mail)

NAMES IN THE NEWS: W1BKR INDUCTED INTO BROADCASTING AD CABLE HALL OF FAME

And congratulations to Bill Baker, W1BKR, on his election into the Broadcasting & Cable Hall of Fame. Bill is the chief executive of New York Public Television, which includes WNET Thirteen which is New York's flagship public television station.

Bill Baker has been head of New York Public Television since 1987. During his tenure WNET has grown and prospered, creating new program standards such as Charlie Rose, Wide Angle, Religion and Ethics NewsWeekly, and the children's math mystery series Cyberchase. Baker also established the

station's Educational Resources Center, which has become America's most prolific teacher trainer in multi-media techniques, and developed its first cable channel known as MetroArts Thirteen.

Ham radio wise, W1BKR was a co-producer of the ARRL video Amateur Radio Today and his article titled Amateur Radio is Part of New Media Task Force appeared in the May issue of QST. The induction ceremony honoring W1BKR will take place on Monday, November 8th at the Waldorf Astoria Hotel in New York City. (Adapted from Shoptalk)

NAMES IN THE NEWS: N4MC "VANITY HQ" WEBSITE GOING AWAY

Also, Michael Carroll, N4MC, has announced that as of Thursday, October 21st he is no longer supporting the Vanity H Q website. Vanity H Q was, and for the moment still is, a point in cyberspace where you can go to research availability of United States vanity call availability or simply find out the latest issued.

According to a posting at the site, at some point in the near future the www.vanityhq.com domain will itself become inactive. N4MC says that this is not an action based upon lack of funding. Rather, its because of a shift in his personal priorities. (K2GW)

HAM RADIO INDUSTRY NEWS: NEW QRZ CD-ROM AVAILABLE

The 24th edition of the Q-R-Zed C-D ROM Ham Radio Callsign Database is about ready to start shipping. The disk contains the same 1.2 million callsigns found on the QRZ.com on-line database and you have the option of reading them from the DC ROM or installing them on your hard disk for lightning fast access. For ordering and shipping information simply point your web browser to www.qrz.com and click on the photo icon that says "New Q-R-Zed CD ROM" (QRZ)

THE ARNEWSLINE SUPPORT FUND REPORT

Now with some good news here's Amateur Radio Newsline's Support Fund Administrator, Andy Jarema, N6TCQ.

--

In the month of August we heard from monthly contributor Joseph Bartzi, Jr, KC8DKF of Columbus, OH; From Indiana, the Huntington County Amateur Radio Society, K9HC: The Southwest Michigan Amateur Radio Team in Portage, K8KZO: Dean Carothers from the W4HPL repeater in Cookville, TN; Johnny Wallace, K5POP of San Antonio, TX; Albert Toering, N6TEZ of Anza, CA; Monthly contributor William Walters, WA2IBM, of San Jose; Monthly contributor Scott Hensley of the Area Communications Team, also in San Jose; Harold Hackman, W6HVH of Riverside, Brad Berryhill, WA6JJB of Anaheim Hills, The Westside ARC of Marina Del Rey and the Catalina Amateur Repeater Association, AA6DP.

A big thank you to everyone. Through your help we've been able to take care of all of the Young Ham of the Year award expenses, but of course, the newscasts go on. A reminder that Newsline is a 501c 3 California non-profit corporation. Information on how to support us is on our website at www.arnewsline.org. That address will be repeated at the end of the newscast.

I'm Andy Jarema, N6TCQ.

--

Thank you Andy. (ARNewsline(tm) Support Fund)

ON THE NET: JUNO FOLLOW-UP

An update now to our recent story on Internet provider Juno cutting out most of its free services using off-line mail handling software. And it comes thanks to some really intensive digging by one of our listeners who happens to be a Juno subscriber.

After hearing our story, John Vander Stel, WH6LY, of Grand Rapids, Michigan, took it upon himself to find out more. He says that contrary to our original story free account users will not have to go through another ISP to access their Juno E-mail after December 1st. He says that this was only made clear to him by digging into the F-A-Q about this change and then calling back to talk to another Juno phone rep. He

says that the even the first one he spoke with was not well versed in this change and provided improper information.

But all of John's work paid off for those of you who use Juno. The good news is that Juno access software will still allow the free account user to access the Internet and go to the Juno Webmail site to access their E-mail on-line. However, the time using that connection will be counted against their 10 free hours of connect time.

We have often said that you are all an important part of the Amateur Radio Newsline team. Our sincere thanks to John Vander Stel, WH6LY, who proves this once again. (WH6LY)

EMERGING TECHNOLOGY: WORLDS LARGEST NANOTUBES

The University of California at Irvine announced what it calls a breakthrough engineering discovery that is expected to have supercomputer and health care applications. This, as researchers at the Henry Samueli School of Engineering said they have synthesized the world's longest electrically conducting nanotubes. Nanotubes that are ten times longer than those previously created.

For those not aware, a nanotube is a memory unit made from carbon and consists of a graphite sheet seamlessly wrapped into a cylinder only a few nanometers wide. A nanometer is one billionth of a meter or about the size of 10 atoms strung together. The scientists who made them say that this discovery may lead to the development of extremely strong, lightweight materials and ultra dense nano-memory arrays for extremely powerful computers, ultra low-loss power transmission lines, and nano-biosensors for use in health care applications. (Science OnLine)

HAM RADIO IN SPACE: ISS HAM STATION TEMPORARILY QRT

Ken Ransom, N5HVO confirms that the ham radio station on board the International Space Station is back on thr air in packet mode. It had been off for several days without explanation but on Wednesday, October 19th, Astronaut Leroy Chow, KE5BRW, was able to check on the radio first thing today and resolved a minor setting discrepancy. Information on its operation is on-line at www.ariss.net and www.issfanclub.com. (M5HVO)

**

WORLDBEAT: FIRST STORE AND FORWARD IN UK

Turning to he internatioal desk, word from the United Kingdom that its first unattended 'store and forward' single frequency voice relay has become operationl. It as switched on at 13.30 UTC on Saturday October 16th on 70.4375 MHz in he Europen 4 meter band. Its call sign is M-B-7-F-M and it has a maximum 'store' time of 120 seconds. The installation is located in the Chiltern Hills with 10dBW Effective Radiated Power from a dipole antenna 32 meters above ground. (GB2RS)

**

WORLDBEAT: HAM RADIO SAILING THE ANTARCTIC

Call this one ham radio across the Antarctic. It started back on September 14th, when the famed yacht "Apostol Andrey" started out to circumnavigate the area while carrying an operational ham radio station.

During the trip the yacht will travel around the shores of the Antarctica without going further to the North beyond the 60th parallel which is the border of the Antarctic region in accordance with the International Agreement. The crew will try to establish a record for penetrating sailing yachts crossing the 70th parallel of the south latitude.

And for ham radio here's the best part. The skipper of the "Apostol Andrey" is Nikolay Andrey, R3AL. He plans to be on the air from the Antarctic area starting this December and continuing through March of 2005. Andrey has the QSL cards already printed for this expedition and the ship also has an official Russian postmark onboard and a special postal stationary envelope for this expedition.

For details on the World-Wide Antarctic Program and the expedition, go to the World-Wide-Web. The spot is in cyberspace at www.ddxc.net/wap (Via E-mail)

**

DX

In D-X, word that VA6JWT is now in Somaliland. He says that he expects to be there for at least six months and plans to operate as 6O0JT. (RSGB)

And F5PSA is in Cameroon until February of 2006. He is operating as TJ3SL in his spare time. (OPDX)

Lastly, G4JAG, is now active from Thailand as HS0ZFP. Chris can be found on 20 meters most evenings and says the best time for contacts back home to the U-K is around 18.00 UTC. For all of these stations, QSL as directed on the air. (RSGB)

**

THAT FINAL ITEM: HAM RADIO HISTORY - A ZL MILESTONE QSO

And finally this week, a bit of history from right here, down-under. Its the story of the first ever two-way radio communication between New Zealand and England made on the 18th of October 1924 by Frank Bell of Shag Valley Station, Otago.

Back then, Frank held the callsign Z4AA and on that date, using some rather primitive home-brew ham radio equipment, he made contact with Cecil Goyder, G2SZ at the Mill Hill school in London. The CW QSO lasted for about 1 hour and dealt mainly with issues of signal quality. It was also the start of the first scheduled contact -- or sked -- between hams in the two nations. For several nights after the historic contact the two radio amateurs kept in touch.

Further details of the activities leading to the historic QSO can be found on pages 40-41 of the NZART publication Ham Shacks, Brass Pounders & Rag chewers, A History of amateur Radio in New Zealand. Detailed information on the actual QSO, complete with a transcript, can be found on the web pages of the Otago, Branch 30 of NZART. To read them, just point your browser to www.qsl.net/zl4aa/ and follow the index for more. (NZART News)

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX SSB Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX SSB Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 23rd/October, through Friday, 29th/October there were 235 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5N, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, J7, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T30, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9L, VK9X, VP2E, VP2V, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3V8, TUNISIA (IOTA Op). Andy, DJ7IK, will be on holiday on the Kerkennah Islands (AF-073). His activity will take place during the CQ WW DX CW Contest (November 27-28th). He will sign 3V8SF/p and be active in the contest as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via DJ7IK (QRZ.com address).

40 METERS NEWS. Effective at 0100z, October 31st, the 40 meter band for UK amateurs in the British Isles will effectively double in size when radio amateurs there gain access to 7100 to 7200 kHz.

5U, NIGER. Bull, 5U7JB, is expected to be active during the CQ WW DX SSB Contest (October 30-31st) as a Single-Op/All-Band/High-Power entry. QSL via ON5NT.

5U, NIGER. The VooDoo Contest Group will again be active as 5U5Z in the CQ World-Wide DX CW Contest on November 27-28th. They will operate from Niamey, the capital of Niger, in the Multi-Multi category with seven stations. Operators will be: G0MTN, G3PJT, G3SXW, G4BWP, G4PIQ, K5VT, KC7V and N7NG. QSL via G3SXW; E-mail requests for bureau go to: G3SXW@compuserve.com
Immediately before the contest there may be some activity (including maybe WARC bands and six meters) with operators personal callsigns. There is also the possibility of some activity from XT2 while in transit.

6O, SOMALIA. Silvano, I2YSB, informs OPDX that operators Andrea/IK1PMR, Marcello/IK2DIA, Adriano/IK2GNW, Giuseppe/IK2WXV, Riccardo/IZ5BRW and himself will be active from Galkacyo in the autonomous area Puntland between February 3-17th, 2005. The callsigns to be used are: 6O0G for SSB (QSL Manager IK2GNW) and 6O0CW for CW/RTTY (QSL Manager I2YSB). The Bureau Manager is M5AAV. They will have 2 stations active on all the frequencies. Silvano states, "One of the main aims of this DXpedition is to bring ham equipment to the Somali radio amateurs, fostering in a concrete way the development of amateur radio in the country. To this end, we shall donate yagi antennas, verticals, dipoles, HF and VHF/UHF tranceivers, power supplies, a laptop, coax and accessories for the operation of one or two stations at the local radio club. We are investing all our efforts to make such a difficult and exotic country regularly active on the bands, so as to provide all hams worldwide a better possibility to get a rare new one." Donations towards the expenses of the DXpedition and helping in the procurement of the equipment to be donated are highly welcome. If interested in helping, please send donations to: Silvano Borsa, P.O.Box 45, 27036 Mortara, Italy. You can also contact Silvano via E-mail at: i2ysb@i2ysb.com
For other information, please visit the Web page at: http://www.i2ysb.com

7Q, MALAWI (Update). Allan, G0IAS, provided OPDX with another update on Les, 7Q7LA. By the time you read this, Les should be in Malawi and is expected to be there for at least 3 months. His first job when he gets there is to get together with Harry, 7Q7HB, and load up the Tower at Club Mak. Les says there will be plenty of activity on the low bands. "IF" there is "Propagation"... and that the Seasonal Rains don't make things too noisy. Operating schedule is forthcoming. REMEMBER, QSL DIRECT ONLY to G0IAS.

A5, BHUTAN (Update/QSL Correction). The members of the Clipperton DX Club, composed namely of Gerard/F2VX, Jean-Louis/F9DK, Vincent/G0LMX and Alain/F5LMJ, are now active as A52CDX. Look for the team to be active during the CQWW SSB Contest. The team will be there until November 11th. For more details, please refer to OPDX.682. QSL CORRECTION: In last week's bulletin, there was a typo for the QSL Manager. The correct QSL Manager is F9DK (not F9DX). QSL via F9DK, either direct or via the French REF Bureau. For more info, visit the Web page at: http://www.cdxc.org/dxp/2004-Bhoutan/a5-en.htm

CO8, CUBA. Juan, CO8TW, will be in the next CQWW DX SSB Contest as a Single-Op/Single-Band (20m)/Low-Power entry. QSL is via IZ8CCW and the log will be online after the contest at: http://www.qsl.net/co8tw/ Also, active in the contest will be Eduardo, CO8LY, as Single-Op/Single-Band (15m)/Low-Power. QSL via EA7ADH.

EA8, CANARY ISLANDS. Tomas, LY1DF, will be active as EA8/LY1DF during the CQ WW DX CW Contest (November 27-28th) possibly as a Single-Op/All-Band or Single-Band entry. QSL via LY1DF. He will concentrate on the low bands and will also be active on CW a few days before and after the contest.

EY, TAJIKISTAN. By the time you read this, Jacques/F5LYF and Jean Louis/F5NHJ are expected to be active as EY/F5NHJ until March 2005. Activity will be on HF and 6 meters, mainly CW. QSL via F5NHJ.

HI3, DOMINICAN REPUBLIC. Mike, GW3UOF, will be active from here as GW3UOF/HI3 between November 28th and December 12th. He states that he has already received his licence. Activity will be mainly CW on all bands 160-10 meters, but some SSB and all digital modes will be used. QSL direct to his home callsign, GW3UOF, or via the RSGB bureau.

INDEXA ELECTION RESULTS. A press release from the International DX Association (INDEXA) announces their election results for 2004-2005:
President: Judy Roush, AA7UC
Vice President: Ron Wright, ZL1AMO
Secretary-Treasurer: Bill Jennings, W4UNP

Directors:
Richard Grant, W9RG, Chairman
Ron Wright, ZL1AMO
Franz Langner, DJ9ZB
Nellie Saltiel de Lazard, XE1CI

Executive Committee:
Judy Roush, AA7UC
Bill Jennings, W4UNP
Ron Wright, ZL1AMO

For more details on the International DX Association (INDEXA), write to P.O. Box 607, Rock Hill, SC 29731 USA or visit the Web page at: http://www.indexa.org

IOTA NEWS.....
AS-074. Ian, 9M2/G3TMA, will be operating from Pulau Ketam from November 13-15th. QSL via Ian Buffham, Bekay Court, Lorong Enau (off Jalan Ampang), 55000 Kuala Lumpur, Malaysia.

NA-183. Porfirio, XE1HPT (Leader of the DXpedition) and a group of XE ham operators will be operating from Ixtapa Island. They will be on the air with the special callsign 6F1IHF from February 6-13th. Activity is planned for all HF bands CW/SSB. QSL via Porfirio Lomeli, P.O. BOX 7177, Morelia, Mich 58262, Mexico.

SA-024. Look for PY2ZX/PY2 and PU2OCZ/PY2 to be active from Comprida Island (DIB: 021), southern State of Sao Paulo, Brazil (Grid Locator: GG64BX), from November 13-15th. Activity will mainly be on 50, 144 and 440 MHz (CW/SSB/FM). For scheds, send E-mail to: py2zx@terra.com.br
QSL PY2ZX via direct. QSL PU2OCZ via bureau or direct.

J7, DOMONICA (Update to OPDX.682). Denis, K7GK, who will be active as J79A in the CQ WW DX CW Contest (November 27-28th), informs OPDX that he will be in Dominica from November 25-29th. He plans to be active on all HF bands (160-10m) with low power concentrating on the CQWW CW Contest with limited time, operating CW and SSB before and after the contest. All antennas are field-day style - 3-bander for 10/15/20 and wires for lower bands. QSL via K7GK.

JT, MONGOLIA. Khos, JT1CD, reports that the JTDXA team will be active as JU1DX during the CQ WW DX SSB Contest. Operators are: JT1BV, JT1BJ, JT1BL, JT1BZ, JT1CJ, JT1CZ, JT1DR and Davka. QSL via JT1BV.

JW, SVALBARD. Erik, LA2VOA, will be active as JW2VOA now through November 25th, from Bear Island (IOTA EU-027). Activity will be on 80-10 meters, including the WARC bands, mainly SSB. QSL via LA2VOA (QRZ.com).

LX, LUXEMBOURG. Les, G3VQO, will be active as LX/G3VQO in the next CQ WW CW Contest (November 27-28th) as a Single-Op/All-Band/Low-Power entry. Look for him to be active before the contest, November 26th, on the WARC bands CW. QSL via his home callsign, direct or via the RSGB bureau.

P4, ARUBA. Look for John/W6LD, Rich/N6XI and possibly two other operators to be active as P40L during the CQ WW DX CW Contest (November 27-28th) as a Multi-Single. QSL via K5WW.

PACIFIC DXPEDITION. Michel/F6COW, Dominique/F6EPY and Radi/F6GNZ will be on a DX vacation from the following locations:
* Rarotonga, South Cook (ZK1/S, IOTA OC-013, Zone 32) from November 24th to December 9th, 2004, as ZK1COW, ZK1EPY and ZK1GNZ.

* Hiva Hoa, Marquesas Islands, French Polynesia (FO/M, IOTA OC-027, Zone 31) from December 11th to December 23rd, 2004, as FO/F6COW, FO/F6EPY and FO/F6GNZ
Operation will be mostly on CW and SSB with some digital modes (PSK31, RTTY, SSTV) on demand. A priority will be given to the low bands (3.5 Mhz,

7 Mhz, some 1.8 Mhz if conditions are acceptable). Suggested operating frequencies will be:
CW - 3515, 7015, 10118, 14015, 18095, 21015, 24905 and 28015
SSB - 3780, 7075, 14215, 18135, 21215, 24985 and 28465
Digital- 7035, 10145, 14085, 21085 and 28085

Their equipment will be:
Antennas: Butternut HF9VX with elevated resonant radials + Butternut HF2V with elevated resonant radials

Station 1: ICOM 756 PRO II (Main) + ICOM 706 Mk IIG (Spare)
Ampli 1: ACOM 1000
Station 2: ICOM 706 Mk IIG (Main) + ICOM 706 (Spare)

QSL via their home callsign. For more information, please visit their Web site at: http://perso.wanadoo.fr/dominique.auprince/

QSL INFO AND NEWS.....
Fred, G4BWP, announced on the "GoList Mailing List" that the following logs are now on the LoTW: G4BWP, GQ4BWP, G4MBC, GX4MBC, M6Z, M7Z, M8Z, MB2HFC, 9G5FH, 5U7WP and XT2WP. He adds that all the logs were uploaded over the past weekend, except MB2HFC (waiting for files) and his own (G4BWP) log for the past month of October (uploaded at month's end).

Jorge Riga, LU3XQO, from Tierra del Fuego in Argentina, informs OPDX that Patrick, WD9EWK, is now his QSL Manager. WD9EWK can receive cards directly or through the QSL Bureau and has updated information at: http://qsl.wd9ewk.net/

Cesar, PY2YP, announced on the "GoList Mailing List" that the following logs are now on the LoTW: PY9UC, ZZ2Z and PY2YP. Last upload was September 29, 2004.

NOT THE MANAGER. The QSL Manager for the French special event callsign TM8POR is F8ADJ (and not F6KWP).

Mike, KQ0B, states that the ZY0K cards for the Fernando de Noronha operation October 12-14th, 2004, will be ready for mailing when he gets back to his home in the USA on November 5th. He says, "I am aware I have cards waiting at home QTH. Please allow for a few days after my return to organize and begin mailing." QSL route for ZY0K via KQ0B is good in QRZ or callbooks: Michael W. Elliott, 6701 Blossom view Drive, Florissant, Missouri 63033 USA. QSL via the Bureau or direct is no problem (If you QSL direct kindly SASE).

SPECIAL EVENT. To celebrate the 150th anniversary of the famous French poet Arthur Raimbaud's birth, the Charleville-Mezieres area hams will be active as TM8RIM until November 3rd. Activity will be on CW and SSB. QSL via F0EHB.

SPECIAL EVENT. The Ballarat Amateur Radio Group (BARG) will be operating a special event station VI3BML from November 27th through December 5th. Activity will be on all bands and modes. Station VI3BML is on the air

to celebrate the 150th anniversary of the rebellion at the Eureka Stockade, famous in Australian history. QSL via the bureau or VK3BML. Further information can be found at: http://www.barg.org.au

SZ1, GREECE. Kostas, SV1DPI, reports that the Radio Amateur Association of West Greece (RAAWG) will participate in the CQWW DX SSB Contest as a Multi-Single/High-Power effort with the club's callsign SZ1A. QSL via the bureau is "OK" or via RAAWG, PO Box 84, 30100 Agrinio, Greece. Also, LoTW is "OK" too.

VK3, AUSTRALIA. Tony, VK3TZ, will be operating in the CQWW DX SSB Contest as a Single-Op/Multi-Band/High Power entry. His activity this weekend will be from a scout station with monbanders for 10, 15 and 20 meters at 80 ft. He will have two loop antennas on 40 meters at 80 ft. and an 80m at 80 ft. He will also have some rippletech slopers and sloper arrays on 80m and 160m. He hopes to have a good signal from Zone 30 on all bands for a new "Multi" for most of you. Tony states, "Don't forget the LP from VK on 20m at around 2100z to USA and Caribbean."

VK9A, COCOS-KEELING ISLAND. The VK Contest Club (VKCC), VK2IA, will be active as VK9AA in the CQWW DX CW Contest (November 27-28th) as a Single-Op /All-Band entry. QSL via DL8YR.

VP2, MONTSERRAT. Trond, LA9VDA, will be active as VP2MLA from Montserrat Island (NA-103), November 19-30th. Activity will be on all bands 160-10 meters; please look for him on the usual DX frequencies. Modes will be CW/SSB/RTTY. Trond will also be active in the CQWW DX CW Contest. QSL via his home call. More info is available on the Web page at: http://home.online.no/~andreask/la9vda/

ZX0, ANTARCTICA. OPDX was informed that Roberto, PT2GTI, is in southern Brazil and will be leaving for the Antarctica on October 30th or 31st. He is expected to be on the air between November 11/12th to November 17/18th possibly as ZX0GTI or ZX0ECF. QSL via PT2GTI.

The following stations are expected to be active in the
CQ World Wide DX SSB Contest (October 30-31st, 2004)

Thanks to Bill, NG3K, for providing OPDX readers the following consolidated listing of the participants in the 2004 CQWW SSB Contest. For a more detailed listing (and up-to-date changes/corrections) in HTML format, please visit Bill's Web page at:

Yes, but they certainly have jurisdiction over a licensee
in Massachusetts that's selling amateur radio air time to
other hams....

73, Jim

1408. truckers on 10 mtrs

Newsgroup: rec.radio.amateur.dx
Date: 2004-11-03 16:34:07 UTC
From: OneFourLima <n24141@wingnet.net>
Message-ID: <3M7id.3370$Fg2.1399990@newshog.newsread.com>
Source record: 6799

Hello All,
Has everyone been hearing all the trucking activity on 10 lately? I listened to 3 truckers running together, transmitting on 28515, for over 4 hrs yesterday. They were running WIDE am, never mentioning company names. They prob got their rigs from www.copper.com or some other company specializing in sellin illegal equipment right under the fcc's nose. Check out www.texasstar.com too. They have their "cw transmitters" in various sizes up to 800 watts. No wonder 10 mtrs has so much illegal activity. They need to shut "Old man Copper" down. He sells 10 mtr am only "channelized" rigs dirt cheap to anyone with $$. Tired of all the trash...
John Kd4afw

1409. ZP5AA, ZP8EDM email ?

Newsgroup: rec.radio.amateur.dx
Date: 2004-11-03 18:21:18 UTC
From: Thierry <->
Message-ID: <418921a3@news.vo.lu>

Hi,

Does someone has a recent and fonctional email of ZP5AA radioclub or ZP8EDM
?
raidoclu@conexion.com.py returns fatal errors.

Gracias

Thierry, ON4SKY

Ah, commemorating the happy occasion of a genocide. Why didn't you say so?

Amateur Radio Newsline™ Report 1421 November 5, 2004

Amateur Radio Newsline report number 1421 with a release date of Friday, November 5th, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. AMSAT says that the U Oh 22 ham-sat is dying and Israel says it may do away with Morse testing. Find out the details on Amateur Radio Newsline report number 1421 coming your way right now.

(Billboard Cart Here)

**

HAM RADIO IN SPACE: UO-22 MAY SOON BE S.K.

AMSAT U-K says that the UO-22 ham radio satellite is not in good shape, and its looks as though its useful life may be over. Bill Pasternak, WA6ITF, has more:

--

The AMSAT News Service which brought the first worked of the problem says that the cause if the satellite's demise is unknown. Bit says A-N-S, it may be related to problems with the satellites batteries which have been in space for more than 10 years.

UO-22 was launched in July 1991 from Kourou, French Guiana. It served for many years as the store and forward satellite for Amateur Radio packet and the world wide Sat Gate service. The latter is a linked series of packet radio networks in many countries.

The Ground Station control center at the University of Surrey has attempted several times in recent weeks to reactivate the UO-22 After one attempt it did come back to life, but only briefly. Other attempts have failed completely.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, reporting.

--

As time permits, the Control Station at the University of Surrey may make further attempts at reviving the ailing bird, but says AMSAT U-K it seems unlikely that they will be completely successful. (ANS)

**

HAM RADIO IN SPACE: PC SAT RECOVERY SUCCESSFUL

Meantime, better news about another ham radio satellite. The P-C Sat ham radio bird continues to work perfectly following it's recovery two weeks ago.

To use P-C Sat, just QSY your APRS mobile station to 145.825 during a pass. You should not have to change any parameters. PCsat digipeats the aliases of RELAY and WIDE just like terrestrial digipeating. (ANS)

**

RESTRUCTURING: ISRAEL MAY DROP CW REQUIREMENT

Back on Earth, word that the state of Israel may be the next nation to do away with Morse testing. At least the possibility has been raised in the latest issue of the Israel Amateur Radio Club's English language publication Hagal International.

In a brief statement in the latest on-line edition, the magazine says that a proposal to abandon Morse testing has been raised by the nations Ministry of Communications. The publication notes that many European countries have been dropping the Morse requirement and that it expects to see a rather heated discussion among Israeli hams once the Ministry opens the debate for public discussion.

At the moment Israel maintains a 5 word per minute Morse testing requirement for access to the High Frequency bands. But it is also a signatory to the pan-European C-E-P-T licensing agreement and tends to abide by whatever regulations C-E-P-T adopts for its member nations.

More on what's happening in Israeli ham radio is on line at www.iarc.org (Hagal International)

**

REFARMING THE BANDS: FCC RELOCATION OF FEDERAL USERS INCLUDES SOME AMATEUR 2.3 GHz SPECTRUM

Meantime, here in the United States, the FCC has acted to include the first five 5 megahertz of the 2390 to 2417 MHz Amateur Radio Service primary allocation that it has opened up to accommodate federal users shifted from other bands. According to the ARRL Letter, the reallocations, which also involved non amateur spectrum at 2 GHz are aimed at making room for A-W-S or advanced wireless services including so-called third-generation wireless systems. In making the announcement the FCC said it worked with the US Department of Defense and the National Telecommunications and Information Administration to allow for relocation of critical military and other operations into the 2360 to 2395 MHz band. (ARRL)

**

RESCUE RADIO: DISASTER NUMBERS FOR 2003

If you are involved in emergency communications, these numbers will be of interest to you.

According to the International Federation of Red Cross and Red Crescent Societies, natural disasters killed 76,806 people in 2003. This is three times the number of victims than died in 2002 with the rise due in part to extremes in the global climate.

The joint society report noted that an earthquake that killed 31,000 people in the Iranian city of Bam and a heat wave in Europe that killed 35,000. They say that these were major contributing factors in the higher toll victim toll.

All of this is a good reason for hams to be prepared for any emergency situation. Here in the United States the best way is by signing up for one of the many communications training courses offered by the American Radio Relay League. Just visit their website at www.arrl.org to find out what's available to you right now. (ARNewsline(tm)) from information from International Red Cross and ARRL)

**

TELECOMMUNICATIONS LAW: RADIO DISTRACTED DRIVERS REDUX

Some good news for those of you who operate mobile. The head of the National Transportation Safety Board says that education rather than legislation is the best approach to getting people to minimize distractions including cellular telephones when they get behind the wheel of a car.

At a recent press conference National Transportation Safety Board Chairperson Ellen Engleman-Conners said there still are no definitive studies showing that talking on a cell phone is more dangerous than any number of other motorist activities. This includes such activities as eating, reaching for a drink or adjusting the car radio.

Last summer, federal regulators announced new guidelines for states to follow when reporting crashes. Investigating agencies are now asked to say whether the driver was distracted and if that distraction was caused by a cell phone, a two-way radio, or something else.

Engleman-Conners says that having the ability to call is a safety issue and cited the example of a 16-year-old girl who's driving home from the library late at night and has a flat tire. Engleman-Conners said people are more likely to embrace safety measures if they're educated about why they are important.

New York, New Jersey, the District of Columbia and a growing number of cities and towns are prohibiting drivers from using cell phones without hands-free devices. (NTSB reports)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the W4DUX repeater serving Port Charlotte, FLorida.

ENFORCEMENT: SOCAL HAMS CLAIM EX-KG6IRO JAMMED EMERGENCY COMMS

From the some people never learn department comes the latest on Jack Gerritsen, the ex KG6IRO. The same Jack Gerritsen whom the FCC has recently told to pay a $10,000 fine for operating without a license.

And you would think that would be enough to catch anyone's attention. But hams on one Los Angeles area repeater say that even with this fine facing him that he, or someone claiming to be him, recently jammed ham radio communications of an emergency at sea. And this time the United States Coast Guard is involved. Amateur Radio Newsline's Bruce Tennant, K6PZW, has the latest:

--

The story starts with Al Geiger, KG6FB, sailing solo to Guadalupe Island on his 36 ft. sloop, following another boat which was about 20 miles ahead of him. On Tuesday night, October 26th they were caught in a bad storm. Al turned back when he lost his Jib sail in the high winds.

Both his VHF marine radio and his 2 meter ham radio amplifier had failed. Without his VHF marine radio, Al lost contact with the other boat.

The alleged jamming incident happened on the Catalina repeater on Friday morning, October 29th. The Coast Guard group in Los Angeles was interested in obtaining any information that KG6FB had about the other boat. So it had Bill Scholz, W1HIJ, who is the District Communications Officer for the Coast Guard Auxiliary, try to contact Al on the Catalina Repeater.

The QSO between KG6FB and W1HIJ started at 10:02 AM and continued off and on through about 11:40. The person alleged to be Jack Gerritsen showed up after the traffic began and refused to clear the frequency. Luckily, a tape recorder was going and here is a small part of what happened. The first voice you hear is that of Bill Scholz, W1HIJ followed by that alleged to be former ham Jack Gerritsen. This was recorded using VOX, so any dead air is missing.

--

W1HIJ: Wiskey One Hotel India Juliet, Coast Guard Auxiliary Upland Radio 1. This frequency is in use for emergency communications. This frequency in use for emergency communications. Please remain

off he frequency. This is W1HIJ, Upland Radio 1 out."

Unidentified Transmission: "Yeah whats your phone number. Ive never heard any emergencies on this damn frequency. You ever heard of 911 stupid?"

Repeater: "beep"

--

The station believed to be Gerritsen continued on. Not only did he pester W1HIJ verbally. He also played what can best be described as political recordings over and over again.

Soon, other stations believed to have come over from the 147.435 MHz repeater -- the one calling itself the "Animal Farm" -- also appeared on the Calalina machine. They began taunting and jamming the station believed to be Gerritsen, tying up the Catalina repeater frequency much of the time. The combined garbage made it impossible to continue the passing of emergency traffic and it was not until much later in the day that the other boat was confirmed as having arrived at Guadalupe Island, and that KG6FB had made it safely to Whites Landing.

Copies of the full recording of this incident have reportedly been forwarded to several government agencies that handle malicious interference to ongoing emergency radio traffic. We will have to see of any of them follow up on this one.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Another ham, Tim Thompson, W6DCE, provided us with whats purported to be a phone message left on Gerritsen's answering machine by local FCC inspectors. The investigators reportedly went to his house on a complaint from the Coast Guard to perform a station inspection but were refused entry. On the recording they urge the person inside to permit them in. This, to avoid added fines or possible arrest.

You may recall that the last person prosecuted for bothering an emergency communications service was Rajib Mitra, of Brookfield, Wiisconsin. As reported here on Newsline, last June Mitra was convicted under the United States "Patriot Act" of interference to the communications of a local police department. He was sentenced to 8 years in a Federal prison for that crime. (ARNewsline (tm) with infrormation from K6PZW, W1HIJ, W6DCE, others)

ENFORCEMENT: YOU CAN'T OPERATE THERE

A pair of hams who operated the wrong part of 20 meters have caught the eye of the FCC enforcement folks. The agency's Daryl Duckworth, NN0W, has the details:

--

Duckworth: "Two warning notices went out for operation on 14.010 MHz. The first went to K0HUU, Donald Mullen, of Springfield, Missouri, for operation outside General class privileges. The second went to W6QEU, Peter Onnigian, of Sacramento, California, for operating outside Advanced class privileges."

--

Both operators were advised that such operation my lead to revocation of their licenses or to a monetary forfeiture. Also that no renewal or upgrade application will be considered until this matter is resolved. They were given 20 days from the October 18th date of the FCC's letter to them to respond. (FCC, RAIN)

**

ON THE WEB: QRZ.COM WEBSERVER DE-LISTS K1MAN

A popular ham radio callsign webserver has removed the listing of International Amateur Radio Network net manager Glenn Baxter, K1MAN, from its database. In a posting to his own QRZ.com website, owner Fred Lloyd, AA7BQ, says that he took the action because the staff at QRZ reached the collective opinion that K1MAN does not represent a view of amateur radio activities that is conducive to the furtherance of the hobby. His words -- not ours.

Lloyd has also started what he calls an informal survey of QRZ.com users to get their feelings as to whether or not this is the right course of action. As of Wednesday, November 4th, some 387 hams say that they support QRZ's decision to de-list K1MAN while only 19 feel the listing for Baxter should remain.

You can follow this one for yourself. Its on-line at www.qrz.com (QRZ.COM)

**

TOWER PROBLEMS: EXPLOSION ROCKS TEXAS TRANSMISSION TOWER

Remember our recent story about a fire bug in the Pacific Northwest burning down radio towers. Fires that cost one ham his home. Well that fire bug still has not been caught and authorities are still looking for leads in the case.

And while we do not know if there is any connection, but news reports say that Federal investigators are now looking into the circumstances surrounding an explosion at a power line transmission tower near Dallas, Texas on October 27th. The reports say that one leg of the support structure appeared to have been severed in two places.

Agents from the Federal Bureau of Investigation, the Bureau of Alcohol, Tobacco and Firearms, along with local police, are investigating. (Published reports)

**

TOWER PROBLEMS: VANDAL FELLS TWO TOWERS IN TEXAS

But that's not the only tower vandalism to report this week. Another instance is in Milwaukee, Wisconsin where a company that owns two power transmission towers that were deliberately toppled two weeks ago says that it is willing to pay big bucks to have the person who did it put behind prison bars.

The American Transmission Company is offering a $10,000 reward for information that leads to the arrest and conviction of those responsible for the criminal act that left 17,000 customers without electrical service. News reports in the one say that a person or persons unknown removed the base bolts from the eighty five foot towers causing them to tumble.

American Transmission says that it is installing two temporary wooden structures to support the downed power lines until such time as replacements can be put in. Meantime investigators want the person behind these criminal acts behind bars before he or she strikes again. (Published reports)

**

THE HAM BUSINESS CENTER: NEW RELEASES FROM CSS

From the ham radio business world comes word that Creative Services Software of Muscle Shoals, Alabama has announced the release of PacTerm 3 for Windows and P k Term 3 for Windows for preview. This latest software includes a new user interface in a single window, a built in generic logging program, the M T 63 soundcard mode, a PSK 62.5 mode, TCP/IP support and much much more. Both programs include a 30 day full featured demo version, so hams and MARS users can try before they buy. Creative Software Services is on the web at www.cssincorp.com (CSS)

**

THE SOCIAL SCENE: GREAT LAKES SUPER SWAP IN MICHIGAN IN NOVEMBER

Meantime, the combined 2004 Great Lakes Super Swap and ARRL Michigan State Convention takes place November 5th and 6th at the Harbor Lights School in Holland, Michigan. For more information on this fun event take your web browser over to www.hollandarc.org and click on the words swap info. (Via Internet)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

THE SOCIAL SCENE: HAMVENTION(r) ANNOUNCES 2005 THEME

"Bringing Hams Together From Around The World" will be the theme of the next Dayton Hamvention now slated for May 20th to the 22nd of 2005. The announcement was made this past week by the events General Chairman Gary Des Combes, N8EMO, who added a personal thank you to everyone who made suggestions and helped to select this theme. Des Combes said that all of these efforts were very valuable and sincerely appreciated. More information about Hamvention 2005 is on the World Wide Web at www.hamvention.org (Hamvention (r))

**

A HELPING HAM: GET WELL WISHES TO W4TBU

If you read the QCWA Journal, then you may remember an article about "Ultimate Elmer" Shirley Wilkerson, Jr., W4TBU, that appeared in the winter 2003 edition. A ham who loves sharing the hobby with others.

Now, Tom Webb, W4YOK, says over the QCWA remailer that Wilkerson, who is his close friend and personal Elmer, is seriously ill and confined to a hospital.

Tom says that Shirley is 84 years old and the situation has him depressed and he is refusing treatment. Tom says that this is so unlike Shirley who he describes as a person who loves life so much. And W4YOK says that hearing words of encouragement from the ham community might really help.

So we are going to ask that you take a moment, write out a QSL or post card and send it to W4TBU. Tell him how much you appreciate what he has done to make ham radio a better place.

Send your card to Shirley Wilkerson, Jr., W4TBU, Room 314, Community Methodist Hospital, Henderson, Kentucky, 42420.

Hams traditionally support one another in time of need. This is one of those times. (W4YOK, QCWA)

**

HAM RADIO IN SPACE: FINNISH CONTACT SUCCESSFUL

Students at a Senior High School, in Pori, Finland, spoke to cosmonaut Yuri Shargin, on October 19. They were able to ask 12

questions before the International Space Station went over the horizon. Students, teachers and members of the media attended the event. (ARISS)

**

WORLDBEAT - AUSTRALIA: COST PROHIBITIVE TO KEEP REPEATERS ON THE AIR

Several repeaters down-under are now off the air. This after Australia's telephone provider Telstra put site rental beyond the economic reach of ham radio. Felix Scerri, VK4FUQ, of the WIA News Service reports:

--

From 22nd October the UHF repeaters co sited on the Black Mountain Telstra Tower in Canberra have been removed from service. Telstra recently carried out an audit of the site and discovered there was no rental agreement that could be found for this ham gear to be on site.

After negotiations with Telstra, the rental offer made by Telstra is beyond the economic resources of the Canberra Region Amateur Radio Club and, sadly they had no option but to remove the equipment by Today October 31st .

Better news however is at Black Hill the ACT's 146.900 MHz service is on air however it may subject to further interruptions. Following last years bush fires there has been a considerable amount of work done by the Tibinbilla tracking station staff to get the site fully operational. The task of the refurbishment and repairs is almost complete.

--

The repeaters that lost their home operated on 438.025 MHz and 439.950 Mhz. They served the greater Canberra area. (WIA)

**

WORLDBEAT: UK 5 MHZ BEACONS COMING SOON

The Radio Society of Great Britain says that is close to installing and operating two new beacons on 5 point 290 kHz. The new beacons will operate under the callsigns GB3WES and GB3ORK. GB3WES will be located in Cumbria and GB3ORK in the Orkney Islands. Both will have a stepped transmit power sequence and a 30-second sounder sequence of 0.5ms pulses at 40 Hz and identical to that of the Oxfordshire GB3RAL beacon.

The new beacons will have transmit times will follow GB3RAL by one and two minutes respectively. Together the three beacons will provide an excellent spread of signal source from across Great Britain and offering experimenters worldwide a unique opportunity to study propagation effects at 5 MHz from their own QTH. (GB2RS)

**

ON THE AIR: USS SALEM ARC COMMEMORATES VETERANS DAY

In news of special event operations, the radio group supporting the U-S-S Salem will be activating K1USN on November 11th for Veterans Day. Activities will be on most bands using CW and SSB. During the operation the ship will be open to the public as well as radio amateurs. A special QSL has been created from the official 2004 Veterans Day Poster. Stateside QSL requests with a S.A.S.E. go to Harold Pugh, K1RV, at his callbook address. DX cards go via the W1 Bureau. More information is on-line at www.qsl.net/k1usn. (1VV)

**

ON THE AIR: VoIP TRANSCEIVER TO BE INSTALLED IN BAGHDAD

Former 73 Magazine Editor Keith Lamonica, W7DXX, plans to install a fully operational remotely controlled transceiver in Baghdad, Iraq, in the next few weeks. YI9DXX this will be available for any ham in the world who is registered with W7DXX to use his Voice over I P Internet system. For more information take your web browser over to www.lamonica.com and peruse the information you will find there. (G3ZHI)

**

DX

In D-X, word that Team Vertical will be operational from Taveuni Island, Fiji from November 20th to the 30th. Operations will be on 160 through 10 meters, mainly on CW. The group will have 6 low-power stations and ocean-front vertical arrays on all bands. QSL all Team Vertical 3-D-2 stations via WA4WTG. (Team Vertical)

And YT1CS who is currently active portable 5Z4 from Nairobi, has arranged a side trip to Lamu Island. He will be there through the 11th of November on 80 to 10 meters SSB using 100 watts to verticals and inverted-Vees. QSL as directed on the air. (RSGB)

**

THAT FINAL ITEM: RFID FOR COWS

And finally this week a cow sized idea. in fact, its an idea that combines radio R-F-I-D tags and cows in a system called the National Livestock Identification System or simply N-L-I-S for short. John Williams, VK2BUI, is in New South Whales, Australia, where the system is being tried out:

--

NLIS uses machine-readable Radio Frequency Identification (RFID) devices to identify cattle. Cattle are tagged with NLIS devices only once in their life. Cattle identified with NLIS devices can be electronically read as they move through the livestock chain. At

time of reading, each owner's PIC can be recorded and linked to the NLIS device. This transaction information is then stored in the secure central NLIS database.

RFID eliminates the need for "line of sight" reading necessary with barcode systems. The signal can penetrate through body tissue, wood, plastic, mud, manure and more. RFID in this application is passive and therefore requires no battery, meaning it will last for the life of the animal.

--

With Japan set to reopen import of U-S beef, government officials in that nation feel that it is more important than ever to be able to trace every animal from birth to marketplace. Many believe that a National Livestock Identification System using R-F-I-D tagging is the logical answer. (WIA News)

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's W-I-A News, that's all from the Amateur Radio Newsline(tm). Match it with a 1/4 wave section of 75 ohm coax between the loop and
the antenna. PL256's and a barrel connector.

Length = 246 x (velocity factor of the coax) / freq in mhz

Mister Kerry...the election is over. It is time for you and Bruce Springsteen to move on.

<Victim_of_American_Stupidity@ivemrybi.fr> wrote in message news:MPG.17f4ab9df94c@NEWS.GRADWELL.NET...
You blithering idiots! You re-elected that imbecile George Bush as your President.
He's a complete moron and so are most of you!
-
Don't you care what the rest of the world thinks of you? Don't you care what impact
American foreign policy has on the rest of the planet? Does Iraq look like a success
to anyone? Doesn't it bother you that he's alienated every friend you have?
What were you thinking???
-
Prior to this, it was American policy and the American government that was so universally
hated around the world. Now it's going to be 'Americans' we hate. More sympathy
for Bin Laden... More attacks on American institutions... More isolation. How blind
can you dumb rednecks in middle-America be, not to see this?
-
If you get hit again, or your economy goes into a deep depression, the American
people will be getting exactly what they deserve!
-
<back turned>

November 8, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, 4X1UN, 9A3FO, DL1EK & The DX News Letter, DL1SDH, DL3DXX, DL5XL, DL7MAE, F5CWU & La Gazette du DX, F5NQL & UFT, HB9AFI, HS0ZDZ, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, JA1ELY, JI6KVR & JA-IOTA Islands News, LU7DR, VA3RJ & ICPO, and XE1IH for the following DX information.

** EDITOR'S SPECIAL NOTICE: BARF80/OPDX's Mail Server (NSHORE.ORG) lost its system files early last week and was down pretty much all week. This means no one was able to subscribe or unsubscribe from the OPDX Mailing List. Also, some mail had to be re-routed to another E-mail address, but some mail was also "possibly" lost. If you do not see your DX announcement in this issue, please send it again. Currently, the E-mail to my system (BARF80) has been restored this past weekend, but as this was being typed, the OPDX Mailing List Server on NSHORE.ORG is still not working. So this week's bulletin will probably only be available via the OPDX Web page (provided by K8YSE), the DX Mailing Lists and the UseNet Groups. Please have patience, and pass the word on to OPDX subscribers. TNX and 73 de Tedd KB8NW.....

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 31st/October, through Sunday, 7th/November there were 234 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J7, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T30, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR,

TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VK9X, VP2E, VP2M, VP5, VP8, VP8/g, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2, FIJI (Update). Kenny, K2KW, wants to remind everyone that "Team Vertical's" operation from Taveuni Island (OC-016) is about two weeks away. In doing some research, Kenny reports that Fiji appears to be relatively rare on 160 meters, so they plan to be very active on the Top Band. They plan to be active daily on 160m beginning on November 21st, at around 0630z. Their 160m antenna will be the first antenna to go up. The team's transmit frequency will be 1825.5 kHz (up/down two as directed). Unfortunately, they will be limited to low power on 160m and all the other bands. George/W2VJN (3D2SS) will be the main operator for 160m (Kenny/K2KW/3D2KW and Tom/N6BT/3D2SS will also fill in). There are more details on the team's 160m operations and the expedition on Kenny's Web page at: http://www.k2kw.com/3d2
Remember, the "Team Vertical" will be 3D2XA in the CQWW DX CW Contest as a Multi/Multi entry. QSL via WA4WTG.

CROATIAN TELEGRAPHY CLUB. Chairman of the Croatian Telegraphy Club (CTC) Den, 9A3FO, invites you to become a CTC member and welcomes membership applications from telegraphy lovers from all parts of the world. He states, "If your membership application is submitted by E-mail then no fee is required and membership is gratuitous because it is the Club's principle of supporting CW which is far more important than any financial consideration."
Take a look at their Web page at: http://www.qsl.net/ctc
Their E-mail address is: ctc@hamradio.hr
Their mail address is: Croatian Telegraphy Club, Franjevacka 5, 42220 Novi Marof, Croatia - Europe.

CX, URUGUAY (IOTA Op). Shalom, 4X1UN, informs OPDX that he will be operating as CX/4X1UN from Gorriti and Lobos Islands (SA-039) between November 11-16th. Activity will be on 20/15 meters CW/SSB. He states that he has all the documentation and permission required. QSL via 4X1UN.

D4, CAPE VERDE. Alexander, 4L5A, will be active as D4B in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via K1BV. Please visit the Web page at: http://www.qsl.net/d44tt

FY, FRENCH GUYANA (IOTA Op). Operator Jean Pierre, F5AHO, will be active as FY/F5AHO from November 11-24th. He will also activate an IOTA, Salut Islands (SA-020, DIFO FY-008) from November 13-14th.

HS72, THAILAND (RAST News). Dietmar, DL3DXX, passed along the following news from Ray, HS0ZDZ (which has been edited and reformated): "HS72B has just passed its - 10,000 QSO milestone. This has been achieved with the difficulties of old and borrowed equipment and unsuitable WARC antennas

at the club station and the need for operators to travel to Koh Chang Island at other times. We are aware, from constant E-mail feedback, that this number of QSOs does not meet the large demand for WARC and LF DX counters for Thailand. Therefore, we are very happy to announce that help is coming. A group of experienced LF DXPeditioners (DL3DXX, DL5LYM, WA6CDR, N5IA and G4ODV) has offered to bring equipment and antenna hardware to help launch several intensive HS72B LF and WARC operations together with Thai operators. The proposed schedule is as follow:

November 19-21st: Look for HS72B from the SEANET Convention Hotel in Bangkok. Using a Titanex LP5 antenna (brought by DL3DXX) activity will be on most bands and modes. The operation will be by DXpedition members, SEANET visitors and Thai operators. There should be a lot of activity but not suitable for skeds and intensive weak signal operations.

November 23-28th: HS72B preparation and participation in the CQ WW CW Contest as a Multi-Multi, with a formidable LF set-up. This period will be predominantly on 10, 15, 20, 40, 80 and 160 meters with very strong emphasis on the LF bands. We expect a number of visitors to the SEANET Convention to stay on to join the Thai and DXpedition team for this operation.

November 29th
to Decenber 12th: HS72B SDXO (Special DX Operation). This period will be dedicated to LF and WARC band operations by the visiting DXpedition team, but if freak openings occur on 10m etc, some team members might not be able to resist. For skeds, please ask Dietmar, DL3DXX. We will announce more details later, including the very specific frequencies of operation. We are in the process of setting up a web-site at:
http://www.qsl.net/HS0AC
There we will post all information and an on-line log.

Overall coordination will be by Ray, HS0ZDZ (Station Manager HS0AC). The Logistics Manager and HS72B SEANET Station Leader will be Khun Winit, HS1CKC (Deputy Station Manager HS0AC). The Operational Leader of the CQ WW CW Contest and SDXO operations will be Dietmar, DL3DXX, who was the originator of this idea, and Chief Engineer par excellence will be Robin, WA6CDR, who will implement the most fantastic LF set up ever seen in Thailand. (If Robin is not constrained we may have to ask Bangkok Airport to divert air traffic during the operations). Robin will also be a most generous equipment donor to HS0AC. Consultant and also a most generous equipment donor to HS0AC will be Milt, N5IA. Many Thai DXers will remember Robin and Milt from the XZ0A DXpedition, and the donation of towers to HS0AC by the Central Arizona DX Association. QSL Manager will be Mann, E20NTS (QRZ.com OK). Software and Computer Network Manager is Thomas, DL5LYM.

Most of the existing equipment at HS0AC is 10 - 20 years old and has withstood the ravages of numerous contests, DXpeditions, and club station use, but it needs replacing with more modern equipment. RAST does not have the money do to this at present due to having committed a large part of its small income to a joint project with the Asian Institute of Technology and the YASME Foundation to rebuild the HS0AC Club Station. Therefore, any contributions of equipment or money to improve the chance of success of the proposed and future operations would be most welcome. The visiting team is donating some equipment and is shipping hardware at significant cost. Please contact Ray, HS0ZDZ < raynom(at)loxinfo.co.th > for general enquiries, and Dietmar <dl3dxx(at)DARC.de> about skeds for the SDXO and possible contributions..... 73, Ray HS0ZDZ"

IOTA NEWS.....
AF-019. Look for Fabio, IT9GSF, to be active as IG9A from Lampedusa Island in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (160m) entry. QSL via IT9GSF.

AS-076. JA5BEX and JE5HXJ were expected to operate from the Odesima Island (AS-076) (JIIA AS-076 - a new one for the Japanese IOTA Islands Award) in the Shikoku Island Group, November 6-7th. Both operators were to sign homecall/5. QSL via the Bureau or direct to their home callsign.

NA-079. Operators Nelson/NE4LS, Tom/K4THL, Bob/N4BP and Bruce/W4OV will be operating from the Dry Tortugas National Park on Garden Key (aka Fort Jefferson) from the afternoon of November 12th through the morning of November 15th. Activity will be on 40/30/20/15 meters 100% CW QRP. Their equipment will include two K1 rigs and an AT Sprint II. For antennas they will be using verticals of various home brew sorts. For those who collect reference numbers/indicators: County - Monroe, Florida; Grid Square - EL84NP; and Lighthouse - USA-316. For those who are not familiar with Fort Jefferson, here are a couple of links with the history and plenty of pictures.
http://www.shannontech.com/ParkVision/DryTortugas/DryTortugas.html
http://www.terragalleria.com/parks/np.dry-tortugas.all.html

OC-033. Masayoshi, JF1UIO, was expected to be active as FK/JF1UIO from the Loyalty Islands between November 4-8th. Activity was to be on 40-10 meters CW/SSB. QSL via JARL Bureau or QRZ.com.

SA-021. Look for Wood Islands to be activated for the first time between November 12-14th. These islands are a reserve comprised of Bahia Blanca, False Bahia and Green Bahia, created by the Legislature of Buenos Aires Province. It is located about 5 hours from the Ingeniero White Port. Everything is ready to start the expedition. A vessel has been hired to set off on Friday morning so as to arrive at daylight and immediately transfer the equipment/materials to a high area where water will not creep up to their camping area. Activity will be on all bands and modes (including the WARC bands and digimodes) depending on

propagation. Special callsigns will not be used, only their
personal calls "/D" (Buenos Aires Province). A special FULL
COLOR QSL CARD will be printed. QSL Manager is LU7DSY:
Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Argentina.
For direct QSLs, please send 2 USDs or 2 IRC.

LX, LUXEMBOURG. Operators Joel/LX1ER, Helmut/DF7ZS and Robert/LX1RQ will
be active as LX5A in the WAEDC RTTY Contest (November 13-14th) as a Multi-
Single High Power entry. QSL via the bureau or LX1RQ (QRZ.com).

QSL INFO AND NEWS.....
Claude, F5PBL, informs OPDX readers: "Due to new internal rules of the
REF-Union, I can not receive anymore of my QSLs via their QSL bureau
starting 1st of January 2005." Please update your records with the
following info :
QSL 3W2KF: via LZ5KF (bureau) or F5PBL (direct only). (March 2001 -
cf. <http://www.qsl.net/f5pbl/3W2KF.htm>)
QSL F5PBL: via LZ5KF (bureau) or F5PBL (direct only).
QSL LZ5KF: via LZ5KF (bureau) or F5PBL (direct only).
F5PBL's address is (unchanged): Claude Terrier, 18 all�e du Mail,
F-92360 Meudon la For�t, France. QRZ.com is updated accordingly.

XE4IH QSLS. Enrique, XE1IH, QSL Manager for XE4IH Socorro Island (NA-030
Revillagigedo) operation, informs OPDX that he is having problems with
the Mexican Postal Office, and QSLs to be confirmed are not arriving
at his P.O Box. He announces now to please send QSLs to his home
address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301,
U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested
to send your requests "registered".

R1, ANTARCTICA. Vlady, RU3HD, will be active for about the next four
months as R1ANN and RU3HD/ANT from the Saam Novolazarevskaya Base,
Antarctica (IOTA AN-016, A.A. UA-08, WW Loc: JB59VF, CQ-38, ITU-67).
His activity is planned for all HF bands. QSL via RZ3DJ (address QRZ.com).

SILENT KEYS........
Joerg, DL1SDH, informs OPDX that Dieter, DL1SDN, became a "Silent Key"
on October 28th. Many may remember his callsign in numerous pile-ups
or many DXpeditions. Dieter was an enthusiastic DXer who was dedicated
to ham radio. He started as a SWL. After getting his VHF licence, he
soon became one of the top 2m DXers in Germany. He was active as A35DN,
3D2DS, DL1SDN/KH8 and some other destinations. He actively supported
DXing world-wide. He was a member of several DX associations like GDXF,
SDXG, DIG and NCDXF. OPDX and its readers would like to send out our
deepest sympathy to Dieter's family and friends.

Helmut, DL7MAE, informs OPDX that Albert, DL7MAT, became a "Silent
Key" on Tuesday, October 26th, at the age of 74. He "celebrated" his
last birthday in a Munich hospital. He was not only a keen DXer (with
only ZL8 left for a complete DXCC) but was furthermore the constructor
of one of the biggest ham stations in Bavaria. Many friends called him
"The King of DX" or the creator of the so called "Funkzentrum L��"

(radiocenter Luess). Luess was his QTH. He was one of the founding members of the "Bavarian DX Group" and the "Bavarian Contest Club". Also, he was active with EME and the host of numerous DX-friends and DXpeditioners. He was very active in the local DARC section. OPDX and its readers would like to send out our deepest sympathy to Albert's family and friends.

SPECIAL EVENT (Veterans' Day Activity). Look for K1USN to be activated from the U.S.S. Salem on Veterans' Day, Thursday, November 11th. Activity will be from the museum ship berthed in the Fore River in Quincy, Mass. A special event QSL card has been created borrowing the design of the official 2004 Veterans' Day poster. K1USN will be active on most HF bands on CW/SSB. K1USN will QSL all requests received. All U.S. stations are requested to include an SASE with their QSLs to: Harold "Pi" Pugh, K1RV, 78 Temple St, Abington, MA 02351. All DX stations are requested to QSL via the W1 QSL Bureau.

SPECIAL EVENT (Attention Prefix Hunters!). Members of the HB9MM ARS of Lausanne, Switzerland, have received permision to air the special callsign HE3RSI until December 4th. Their activity will be the former "Radio Suisse Internationale (RSI)" facilities. The RSI has stopped broadcasting on short waves, and all of the station will be dismantled after. Activity will be on 40-10 meters. The prefix hunters will have a chance to contact the "HE3" prefix for the first time. QSL via HB9MM. For more info, please visit the Web at: http://www.hb9mm.com

SPECIAL EVENT. To celebrate the 60th anniversary of the liberation of Strasbourg, the Haut Rhin Department and the F6KQV's ARS members will air the special callsign TM6OST between November 14-28th. Activity will be on the HF bands and CW/SSB/Digimodes. Also, look for 2 meter SSB/FM activity (Listen on the F, DL, LX, ON and HB repeaters). QSL via F5PWH. Each QSO will be confirmed by a special QSL card.

V5, NAMIBIA. Felix, DL5XL, will be active as V51/DL5XL in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. He will also be activve a few days after the contest. This is another DXpedition by the Rhein Ruhr DX Association (RRDXA). QSL via DL5XL. QSL cards via the bureau are "OK". To request a direct card, please send QSL with return postage (1 USD or 1 IRC for Europe, 2 USD or 1 IRC for overseas) to: Felix Riess, Mittal 3, D-31073 Delligsen, Germany. Cards have already been printed and will be replied to in a timely manner. Visit Felix's Web page at: http://www.dl5xl.de

V7, MARSHALL ISLANDS. Four Japanese operators, Toshi/JA1ELY, Taki/JH3QFL, Nob/JA6WIF and Yasu/JA6WJL will be active from Majuro Island (OC-029) between November 20-24th. For Taki, Nob, and Yasu, this will be their first DXpedition, and they expect to be welcomed by many Europe and East Coast stations. They already applied for the callsigns V73EY, V73B, V73IF and V73WJ. They will be active on all HF bands and all modes with three stations. Toshi will concentrate on the low bands including 160 meters with a 500 watt amplifier. Yasu will concentrate on 15/12/10 meters, RTTY, SSTV and 10 meter FM. Nob will mainly operate on CW on any band.

Taki likes 20 meters and the WARC bands, either SSB and CW. The QSL
information is as follows:

V73EY via JA1ELY, Toshikazu KUSANO: Box 8, Kamata, Tokyo, 144-8691 JAPAN
V73B via JH3QFL, Takio HATA: 921-25 Rokujyo, Yasu, Shiga, 520-2412 JAPAN
V73IF via JA6WIF, Nobutaka NAGAISHI: Box 9, Omura, Nagasaki, 856-8691 JAPAN
V73WJ via JA6WJL, Yasumasa MAEDA: Box 9, Omura, Nagasaki, 856-8691 JAPAN

YW1,VENEZUELA. Members of the "Group DX Caracas" will be celebrating
their organization's 15th anniversary on November 16th. To celebrate
they organized a demonstration from Cayo Peraza (SA-089), Morrocoy National
Park between November 19-21st. They will use the callsign YW1F on all
bands and modes SSB/CW/Digital.

ZX0, SOUTH SHETLAND ISLANDS (Update). Roberto/PT2GTI and Jorge/PT2HF are
now heading to the Antarctica. It was reported this past week that they
have already received authorization from the commander of the ship,
"Ary Rongel", to operate in maritime mobile. They are using PT2DX the
callsign of the ABRA - DX Brazilian Association. They expect to be on the
air as ZX0GTI (PT2GTI) and ZX0ECF (PT2HF) from "Emilio Goeldi Refuge" (WAP
BRA-03) base station on Elephant Island (AN-010), from November 11/12th to
November 17-19th. Activity will be on 160-6 meters using CW, SSB, RTTY,
SSTV and PSK31. QSL both callsigns via PT2GTI: Roberto Franca Stuckert,
Shin QI 7 Conj 12 Casa 14, Lago Norte, DF-71515-120, Brazil.

> F-92360 Meudon la For�t, France. QRZ.com is updated accordingly.
>
> XE4IH QSLS. Enrique, XE1IH, QSL Manager for XE4IH Socorro Island (NA-030
> Revillagigedo) operation, informs OPDX that he is having problems with

> the Mexican Postal Office, and QSLs to be confirmed are not arriving
> at his P.O Box. He announces now to please send QSLs to his home
> address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301,
> U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested
> to send your requests "registered".
>
> R1, ANTARCTICA. Vlady, RU3HD, will be active for about the next four
> months as R1ANN and RU3HD/ANT from the Saam Novolazarevskaya Base,
> Antarctica (IOTA AN-016, A.A. UA-08, WW Loc: JB59VF, CQ-38, ITU-67).
> His activity is planned for all HF bands. QSL via RZ3DJ (address QRZ.com).
>
> SILENT KEYS.....
> Joerg, DL1SDH, informs OPDX that Dieter, DL1SDN, became a "Silent Key"
> on October 28th. Many may remember his callsign in numerous pile-ups
> or many DXpeditions. Dieter was an enthusiastic DXer who was dedicated
> to ham radio. He started as a SWL. After getting his VHF licence, he
> soon became one of the top 2m DXers in Germany. He was active as A35DN,
> 3D2DS, DL1SDN/KH8 and some other destinations. He actively supported
> DXing world-wide. He was a member of several DX associations like GDXF,
> SDXG, DIG and NCDXF. OPDX and its readers would like to send out our
> deepest sympathy to Dieter's family and friends.
>
> Helmut, DL7MAE, informs OPDX that Albert, DL7MAT, became a "Silent
> Key" on Tuesday, October 26th, at the age of 74. He "celebrated" his
> last birthday in a Munich hospital. He was not only a keen DXer (with
> only ZL8 left for a complete DXCC) but was furthermore the constructor
> of one of the biggest ham stations in Bavaria. Many friends called him
> "The King of DX" or the creator of the so called "Funkzentrum L��"
> (radiocenter Luess). Luess was his QTH. He was one of the founding
> members of the "Bavarian DX Group" and the "Bavarian Contest Club".
> Also, he was active with EME and the host of numerous DX-friends and
> DXpeditioners. He was very active in the local DARC section. OPDX and
> its readers would like to send out our deepest sympathy to Albert's
> family and friends.
>
> SPECIAL EVENT (Veterans' Day Activity). Look for K1USN to be activated
> from the U.S.S. Salem on Veterans' Day, Thursday, November 11th. Activity
> will be from the museum ship berthed in the Fore River in Quincy, Mass. A
> special event QSL card has been created borrowing the design of the
> official
> 2004 Veterans' Day poster. K1USN will be active on most HF bands on
> CW/SSB.
> K1USN will QSL all requests received. All U.S. stations are requested to
> include an SASE with their QSLs to: Harold "Pi" Pugh, K1RV, 78 Temple St,
> Abington, MA 02351. All DX stations are requested to QSL via the W1 QSL
> Bureau.
>
> SPECIAL EVENT (Attention Prefix Hunters!). Members of the HB9MM ARS of
> Lausanne, Switzerland, have received permision to air the special callsign

> HE3RSI until December 4th. Their activity will be the former "Radio Suisse
> Internationale (RSI)" facilities. The RSI has stopped broadcasting on
> short waves, and all of the station will be dismantled after. Activity
> will be on 40-10 meters. The prefix hunters will have a chance to contact
> the "HE3" prefix for the first time. QSL via HB9MM. For more info, please
> visit the Web at: http://www.hb9mm.com
>
> SPECIAL EVENT. To celebrate the 60th anniversary of the liberation of
> Strasbourg, the Haut Rhin Department and the F6KQV's ARS members will
> air the special callsign TM6OST between November 14-28th. Activity will
> be on the HF bands and CW/SSB/Digimodes. Also, look for 2 meter SSB/FM
> activity (Listen on the F, DL, LX, ON and HB repeaters). QSL via F5PWH.
> Each QSO will be confirmed by a special QSL card.
>
> V5, NAMIBIA. Felix, DL5XL, will be active as V51/DL5XL in the CQ WW DX
> CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry.
> He will also be activve a few days after the contest. This is another
> DXpedition by the Rhein Ruhr DX Association (RRDXA). QSL via DL5XL. QSL
> cards via the bureau are "OK". To request a direct card, please send QSL
> with return postage (1 USD or 1 IRC for Europe, 2 USD or 1 IRC for
> overseas) to: Felix Riess, Mittal 3, D-31073 Delligsen, Germany. Cards
> have already been printed and will be replied to in a timely manner.
> Visit Felix's Web page at: http://www.dl5xl.de
>
> V7, MARSHALL ISLANDS. Four Japanese operators, Toshi/JA1ELY, Taki/JH3QFL,
> Nob/JA6WIF and Yasu/JA6WJL will be active from Majuro Island (OC-029)
> between November 20-24th. For Taki, Nob, and Yasu, this will be their
> first DXpedition, and they expect to be welcomed by many Europe and East
> Coast stations. They already applied for the callsigns V73EY, V73B, V73IF
> and V73WJ. They will be active on all HF bands and all modes with three
> stations. Toshi will concentrate on the low bands including 160 meters
> with a 500 watt amplifier. Yasu will concentrate on 15/12/10 meters,
> RTTY, SSTV and 10 meter FM. Nob will mainly operate on CW on any band.
> Taki likes 20 meters and the WARC bands, either SSB and CW. The QSL
> information is as follows:
>
> V73EY via JA1ELY, Toshikazu KUSANO: Box 8, Kamata, Tokyo, 144-8691 JAPAN
> V73B via JH3QFL, Takio HATA: 921-25 Rokujyo, Yasu, Shiga, 520-2412 JAPAN
> V73IF via JA6WIF, Nobutaka NAGAISHI: Box 9, Omura, Nagasaki, 856-8691
> JAPAN
> V73WJ via JA6WJL, Yasumasa MAEDA: Box 9, Omura, Nagasaki, 856-8691 JAPAN
>
> YW1,VENEZUELA. Members of the "Group DX Caracas" will be celebrating
> their organization's 15th anniversary on November 16th. To celebrate
> they organized a demonstration from Cayo Peraza (SA-089), Morrocoy
> National
> Park between November 19-21st. They will use the callsign YW1F on all
> bands and modes SSB/CW/Digital.
>

> ZX0, SOUTH SHETLAND ISLANDS (Update). Roberto/PT2GTI and Jorge/PT2HF are
> now heading to the Antarctica. It was reported this past week that they
> have already received authorization from the commander of the ship,
> "Ary Rongel", to operate in maritime mobile. They are using PT2DX the
> callsign of the ABRA - DX Brazilian Association. They expect to be on the
> air as ZX0GTI (PT2GTI) and ZX0ECF (PT2HF) from "Emilio Goeldi Refuge" (WAP
> BRA-03) base station on Elephant Island (AN-010), from November 11/12th to
> November 17-19th. Activity will be on 160-6 meters using CW, SSB, RTTY,
> SSTV and PSK31. QSL both callsigns via PT2GTI: Roberto Franca Stuckert,
> Shin QI 7 Conj 12 Casa 14, Lago Norte, DF-71515-120, Brazil.

| Has everyone been hearing all the trucking activity on 10 lately? I
| listened to 3 truckers running together, transmitting on 28515, for over 4
| hrs yesterday. They were running WIDE am, never mentioning company names.

How wide is WIDE?

| They prob got their rigs from www.copper.com or some other company
| specializing in sellin illegal equipment right under the fcc's nose.

What's illegal about selling an 800 watt AM transmitter that can
transmit on 28.515 mHz? That looks to be right in the ham band. The
ARRL band plan says that space is allocated to phone (with I assume is
SSB) with AM being a bit higher, but I don't know if the band plan has
the force of law behind it or not.

| Check out www.texasstar.com too. They have their "cw transmitters"
| in various sizes up to 800 watts.

The specifications say `the maximum power output is less than 5 watts
RMS'. I guess this is a lie?

The CW transmitters look like ... CW transmitters. Though it looks
like they also sell amplifiers? It's not really clear what's what.

| No wonder 10 mtrs has so much illegal activity. They need to shut
| "Old man Copper" down. He sells 10 mtr am only "channelized" rigs
| dirt cheap to anyone with $$.

Is it illegal to sell 10 meter equipment (or any ham equipment) to non
hams? Assuming that this equipment cannot be easily modified to work
on 11 meter (CB), I'm not sure what law is being broken by selling the
equipment.

Now, from the way you're talking, it sounds like the truckers are not
ham radio operators, and are acting like it's just another CB channel
-- if so, that would certainly be illegal, but I don't see where you'd
shut down the people who sold them the equipment. If so, you'd better
shut down Kenwood, Yaesu, Icom, etc.

Hello group, I have for many years had on my basement shelfs some US-military radio units, a few days ago a guy had heard about them (XYL wanted them out?) and asked for a price if for sale. Most interesting, I think; is a BC312 RX, there is also a BC348 rebuilt for 220V as well as a SCR522 (spare for the 2-m tx I built long ago, very long ago :-( ). Anyone have a ballpark-price, I have not seen any of these things for sale in modern times, so have not the faintest idea!
Tnx in advance es 73 /per/sm7aha

Well I don't live in the rest of the world, I live here so what happens to the rest of the world is only of passing interest. The damage he's doing right here is what worries me.

In Rita May Brown's book "Six of One" the two sisters with the intense
rivalry are know as "England and France" by relatives. Gee, I wonder why?

Hi guys,

In the next 8 months or so my XYL and I will be moving out of NYC into our own place, hopefully in Fairfield Co. CT or in Westchester County, NY.

I'm now about 1/2 a mile away from 50kW worth of 1560 "Radio Disney" in Maspeth, Queens, and I want to ensure I don't wind up close to another boradcast transmitter after the move. I enjoy operating 80M, and I would like to try 160 if I can get enough real estate to make it happen, but being close to that much MW Broadcast RF again isn't something I want to contemplate.

Is there a resource somewhere on the Web that will allow me to find AM transmitter sites (by geographc region) easily enough? Sure, they should be self-evident when in the immediate area, but I don't want to find any last-minute surprises either.

Thanks in advance.

73 de Peter, W2IRT
(ex-AB2NZ, VE3THX)

I recall seeing something on the FCC website. Too tired now to look
for it.

Also worth checking with aviation maps or the FAA, as any tower above
a certain number of feet has to be approved by them as well.

Happy trails,
Gary (net.yogi.bear)

Hi www.27dx.com this is a new web for ham radio, dx mods electronics
schematics etc all for radio amateur an CB. Is GOOG.
And Best for the radio.

Hola www.27dx.com es una nueva web de radioaficionado, dx mods, electronica
esquemas etc todo sobre radio amateur y cb esta bien.

Colabora enviando noticias y esquemas.
Es una web personal cuyo fin es divulgar la radio, dia a dia la estoy
ampliando, pero necesito ayuda .Gracias.

1450. Please send me your opinion about my project as placed on

Newsgroup: rec.radio.amateur.dx

Hallo,

I have advertised on InfoRelation.com some project connetcted with the
subject of our discussion list (you will find that project by choosing
appropriate category and subcategory).
Please let me know about your opinion relating to my project. As I have
already written in my advertisement on InfoRelation - it will be possible
to earn some money on this project.

Thanks for all,
Sandra Smith

You're right, we Americans no longer care about the rest of the world. When we did, by feeding them, fighting for them, helping them rebuild, etc. The rest of the world crapped on us. Twice in the last century we had to save the damn Europeans in two World Wars. We give and give and give to countries starving and in need. We send our forces to restore peace. We help in earthquakes and famines.

So since we have always helped Europe and now Europe turns it back on us when we are in need, screw you all. Have a nice time fighting World War III by yourselves. We'll sit that one out thank you.

Peter,

Go to http://www.fccinfo.com/ and enter either the coordinates or location of the center of your area of interest and search for AM stations within however many kilometers you wish. This site downloads the FCC CDBS database nightly and parses it in very user friendly fashion.

Regards,

Al

Try the North American Radio Logbook. www.geocities/amlogbook/amlog It goes by Calls, State, City, Frequency, and most important, Tower Location Sites (Latitude & Longitude). It lists all of North America and Canada. Latest update is 11/6/04. Hope this is of some help....Eric KA6USJ

Hi folks,

Thanks to one and all for the myraid of suggestions I've received privately and here on Usenet. Very helpful, and I think I'm in pretty good shape for now.

Walt, I had no idea how powerful the Broadcasters were in your part of the world. That's positively insane, but it would explain why I was able to hear so much on LF and MF when I was driving between Swansea and London this summer.

Just out of curiousity, are there any "clear" frequencies, I guess the equivalent of our Class A (??) stations - one powerhouse station for the region and nothing else? I.E. something that has no competition and can essentially be heard clearly at night everywhere in Europe with no hetrodyne. On this side of the Atlantic there are a number of such beasts, 770 and 880 in NYC, 650 in Atlanta, 700 in Cincinnatti, 760 in Detroit, 1120 in St. Louis and a bunch of others.

Not that I generally bother feeding trolls, I just can't let this one pass. You *do* realize this is the rec.radio.amateur heirarchy, and this message has propagated to the rec.radio.amateur.DX newsgroup.

That's what's called a CLUE, and, in the true amateur spirit, I'm graciously providing it free of charge.

Are the only "foreigners" worthy of your attention the ones who sit on deserted islands and talk on ham radio all day long and let you fill up your logbook? Then, just watch, you'll bitch like mad and probably start jamming the frequency when one of the "foreigners" on said deserted island says "USA stand by" and works only other "foreigners."

If you take the time to examine the biggest DXpeditions of the last few years, you'll notice most were not staged by teams of US operators. Get your head out of your ass and either grow up or go back to CB. Or 75 metre phone (like there's a difference?).

I for one send my appreciation to your PM, Mr. Blair. But from what I hear
of the British press it is not a popular position. So don't be so surprised
when ''the colonies'' don't take you folks too seriously.

Using the link below will give you a list of AM & FM stations, sorted from max to min by the field strength they produce in the ZIP code you enter.

Probably a more useful and easier approach than doing a coordinate search for tx sites.

| If they are not type-accepted by the FCC, they're illegal. I doubt
| these are type-accepted.

Um, last I checked, ham radio equipment does not need to be
type-accepted by the FCC. And 28.515 mHz *is* in the ham band ...

| >Is it illegal to sell 10 meter equipment (or any ham equipment) to non
| >hams? Assuming that this equipment cannot be easily modified to work
| >on 11 meter (CB), I'm not sure what law is being broken by selling the

|
| Read the above. Now you are sure.

Nope, still not sure ...

From the Ohio/Penn DX Bulletin #684 (November 7, 2004):

XE4IH QSLS. Enrique, XE1IH, QSL Manager for XE4IH Socorro Island (NA-030
Revillagigedo) operation, informs OPDX that he is having problems with
the Mexican Postal Office, and QSLs to be confirmed are not arriving
at his P.O Box. He announces now to please send QSLs to his home
address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301,
U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested
to send your requests "registered".

There have been recent reports on the DX-QSL reflector of some people
receiving cards, however.

Hallo,

I think that everybody will agree that InfoRelation is a very useful proposal. Thanks to this service I was able to finish my academic project in field of biology. Also I can recommend InfoRelation for those who would like to earn some extra money (I have checked it and it works ;-))!

Sally Finch

Amateur Radio Newsline™ Report 1422 November 12, 2004

Amateur Radio Newsline report number 1422 with a release date of Friday, November 12, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The FCC turns off the ham radio licensing computer and a big Aurora opening hits North America. Find out the details on Amateur Radio Newsline report number 1422 coming your way right now.

(Billboard Cart Here)

**

WITH THE FCC: HAM RADIO LICENSING STOPS AND STARTS DUE TO COMPUTER GLICH

Ham radio licensing came to a screeching halt on November 5th. This after a software glitch caused the computer that issues licenses to do some very strange things. Mark Abramovich, NT3V, has been following the developments from Philadelphia and gas more:

--

The FCC isn't offering any official comment on exactly what happened. But Amateur Radio Newsline has learned that the problems with the Universal Licensing System computer started after an Oct. 28 software upgrade installed by a government contractor.

The problems that followed prompted the FCC to order a five-day shutdown of the system which issues Amateur Radio licenses. The system came back on-line on Nov. 10. However, as of our deadline for this week's program, the FCC still planned a weekend shutdown of the U-L-S for maintenance and expected it to return to operation on Nov. 15.

The American Radio Relay League's Volunteer Examiner Coordinator Bart Jahnke, W9JJ, tells Amateur Radio Newsline he was among the first to detect problems while doing a routine check up on the application of a friend near the end of last month.

Jahnke says he discovered the application was - as he describes it - flagged or marked pending by the
FCC for a review by a live person. He says the automated system and its software are set up for minimal human intervention. Jahnke says such a classification immediately raised concerns that something had gone wrong.

Jahnke tells me once he called his contact at the FCC to report the problem, he was told the computer contractor would be notified to investigate.

A couple days later, Jahnke says he was told the problem was fixed. But, as Jahnke tells me, he checked and found that the computer problem had gotten worse. He says he and other VECs were finding the U-L-S had begun issuing Group D call signs - the 2 X 3 ones - to new licensees out of sequence. He says only the first and third call-district applications somehow escaped getting caught up in the problem.

At that point, Jahnke tells Amateur Radio Newsline he and other VECs called the FCC. He says the commission told the contractor to pull the plug on the system on Nov. 5, run some diagnostics and fix it. A message posted on the FCC's website on Nov. 5 said simply: "The granting of Amateur applications has been temporarily suspended. We apologize for the inconvenience."

Prospective hams who had passed VE exams earlier and were awaiting their call sign were getting nervous. Some who received the out-of-sequence call signs were wondering whether the call signs were OK to use. A few had even received a second call sign, cancelling the first. In all, Jahnke says about 130 licensees were affected and thousands of license applications were backed up in the system.

By Nov. 10, Jahnke says the FCC began issuing letters cancelling the out-of-sequence call signs and awarding the proper call signs to new licensees. For some, he says it was their third call sign in a matter of days.

Jahnke says the FCC deserves credit for responding as fast as it did. He also has praise for the other VECs across the country who were in touch the with FCC, too. Jahnke says he's crossing his fingers and hoping the planned weekend maintenance of the FCC U-L-S computer, won't undo the system fix.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

More on this situation in future Amateur Radio Newsline reports. (ARNewsline(tm), NT3V with input from FCC and ARRL)

**

UNEXPECTED VHF DX: THE BIG AURORA OPENING OF NOVEMBER 7

--

N6ZE: "The aurora was very bright most of the time and the magnetic bearing from the airplane extended from 300 degress through about 060 or 070. We saw this for about 3 hours and a distance of probably 1900 statute miles."

That's Pete Heins, N6ZE, describing last Sunday night and early Monday's magnificent Aurora from his vantage point in the right seat of a Boeing 757 jetliner. Pete was the co-pilot that night, flying from Los Angeles to New York's J-F-K International airport.

--

N6ZE: "At no time was the visability obscured by clouds, and for about the last 1 hour of the flight we did have about a 1/4 moon in the Eastern sky climbing, and we were still able to see the AU."

--

And while Pete was making his way across country, hams on the ground were sitting on 6 meters, 2 meters and all the bands above. And some like Dave Bernhardt, N7DB, in Boring, Oregon were hearing and working stations all over the place. Dave primarily operated 2 meters where according to the V-H-F reflector he worked W7IUV, K7XC, K7GS, WA6KLK and VE7DXG to name only a few. And Dave was not alone.

On the other side of the country, Jeff Klein, K1TEO, in Trumbull, Connecticut reports making Aurora propagation contacts on 2 Meters as far south as Alabama and Tennessee. To the west Jeff worked stations in Missouri, Iowa and Minnesota.

According to reports from NASA, the Auroral opening was caused by a Coronal Mass Ejection or C-M-E on the Sun. That event happened late on Friday, November 5th with the ionized particles reaching our Earth late on Sunday. Television news programs on Monday night showed pictures of this very bright Aurora as far South as Minnesota and northern Kansas.

On Tuesday the 9th two more solar shocks have arrived. Paul Kelly, N1BUG, in Milo, New Hampshire reported them on the VHF Reflector. The first hit just after 09:00 UTC but did not contain favorable magnetic field vectors or strength to produce Aurora at North American mid-latitudes. The second, arriving near 18:20 U-T-C did produce the classic Aurora buzzing. He later describe this event comig just in time for the natural late afternoon peak for auroral backscatter. He says that the Aurora came up fast and suddenly 2 meters filled with strong buzzing signals. He says over the reflector that he worked as far South as grid square E M 66.

And while hams who only operate the high frequency bands were complaining that 80 through 10 meter propagation had literally disappeared, those like N1BUG, N7DB and K1TEO on 6 meters, 2 meters and above were calling C-Q Aurora and making lots of contacts. All that is except Pete Heins, N6ZE, who landed his big silver bird at New York's J-F-K airport just as the sun was coming up. Then again, you have to admit that sitting at 37,000 feet on the flight deck of a 757, Pete probably had the best view of all. (ARNewsline(tm), N6ZE, VHF Reflector)

**

MORE ON PROPAGATION: WWW.HFRADIO.ORG/PROPAGATION

By the way, Dick Mannheimer, K6LAE, who was one of the first to alert us to the Aurora also passes along information on an excellent propagation website. Its in cyberspace at www.hfradio.org/propagation.html

The site is operated by Thomas Hood, NW7US. If the name and call sign sound familiar its because this is the same Thomas Hood who writes propagation columns for CQ, CQ VHF, Popular Communications and Monitoring Times magazines.

We have looked at the site. It's well worth bookmarking on your web browser. Again the URL is www.hfradio.org/propagation.html (K6LAE)

HELPING HAMS: UNITED WAY REPORTS HUGE HAM RADIO RESPONSE TO ARRL HOLIDAY TOY DRIVE

The United Way in Martin County, Florida, reports "a huge response" by the Amateur Radio community. This, to the ARRL's call to support a toy drive on behalf of the agency's "White Doves Holiday Project."

According to the ARRL Letter, Carol Hodnett, who directs the United Way of Martin County's Volunteer and Community Resource Center says League members from Maine to California have sent toys or money, and more is arriving every day. The League hopes to provide toys for youngsters left homeless or displaced by a string of hurricanes that hit the region earlier this year.

There is still time for you to take part in this very worthwhile project. All you need do is to purchase an unwrapped toy for a boy or girl aged 1 to 14. Please send it prior to Thanksgiving, Thursday, November 25th. Be sure to include a QSL card or 3x5 card displaying your call sign. Mail it to Ham Radio, The United Way White Dove Project, 50 Kindred St, Suite 207, Stuart, FL 34994.

In our view this is Amateur Radio at its very best. Hams helping kids in a true time of need. (ARRL)

**

ENFORCEMENT: ARE YOU THIS PERSON?

An FCC license holder who is likely a ham is being asked by the agency if he is the same person convicted of a number of criminal acts. And the agency has an important reason for asking. Spokesman Daryl Duckworth, NN0W, explains:

--

Duckworth: "Regarding qualifications to remain a licensee, in inquiry concerning criminal convictions for theft by deception and theft by failure to make required disposition of funds as the result of an investment scam went to a licensee in Johnstown, Pennsylvania."

--

According to the FCC release, the person involved is also under investigation by Pennsylvania Administrative Office of the Courts for a possible indecent assault. This is alleged to have been committed on July 30th, 2002.

The purpose of the probe is to determine if the person contacted is the same one as in the alleged and proven criminal cases. For that reason the FCC has withheld the persons identity or any other factual material to indicate whom he or she might be.

But if its the right person, he or she was given two options by the agency. The person can provide additional information on the convictions and charges for consideration by the Commission. Alternately, he or she can voluntarily submit a license for cancellation in order to avoid a hearing on the issue. (FCC, RAIN)

**

ENFOECEMENT: YOU CAN'T SELL THAT BEACON

Still with enforcement news, word that ACR Electronics, Inc. of Fort Lauderdale, Florida, has been fined $75,000. This, for marketing a personal location beacon to the general public that had not been approved by the Commission.

Now here's the ironic part? The CGC Communicator reports that some of the material submitted to the FCC by ACR helped make the case against the company.

It's all on line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-253871A1.doc and http://hraunfoss.fcc.gov/edocs_public/attachmatch/FCC-04-259A1.doc (CGC)

**

ENFORCEMENT: POWER - LESS POWER CAPTAIN

An unlicensed broadcaster's response to an FCC Notice of Violation has helped to clinch a $10,000 fine issued against him. Amateur Radio Newsline's Bill Pasternak, WA6ITF, has the details.

--

Well, the details really speak for themselves and we would be hard put to say it better than David Michael Oaks. Oaks is the one who received the $10,000 fine for allegedly operating an FM station at his residence in Beaverton, Oregon. This, without the benefit oof holding a valid license to do so.

Quoting from the FCC report and order affirming the fine, the agency says that in responding, Oaks did not deny the charge. Rather, he stated that he was attempting to correct the violation by lowering the power each time he received a notice that he was operating an unlicensed station.

But that's not all. The FCC goes on to say that Oaks asserted that the investigating agent told him that the effective range for a transmitter operating pursuant to Part 15 of the Rules is about 100 feet. Also, that if Oaks chose to do so, he could purchase a Part 15 certified wireless microphone to compare the range of that signal with that of his station.

Oaks did not choose to do so. Nor did he refrain from operating after receiving several written warnings. Based on all of this evidence, the FCC says that the $10,000 fine will stand.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los Angeles

--

More on this case is on line at
http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3504A1.doc
(FCC)

**

RESCUE RADIO: PROPOSED RADIO JAMMING SYSTEM DROPPED FOR THE MOMENT

Some good news and some bad about an emergency information system proposed by Alert Devices International Corporation. The company has requested that the FCC to dismiss its Petition for Rule Making to create an Emergency Vehicle Signaling Service. This is the previously described service that would allow emergency vehicles to jam out authorized broadcast stations and replace them with emergency warning messages designed to attract the attention of affected motorists.

The good news is that the FCC has granted A-D-I's dismissal request. The bad news is that ADI - according to its latest filing - proposes to submit an "expanded version" of its Petition in the near future. Its all on the web at
http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3521A1.doc
(CGC)

**

MORE POWER CAPTAIN: ELECTRICAL INDUSTRY CHASTISED FOR 2003 BLACKOUT

Those wonderful people that are now bringing you BPL have bigger problems to worry about. This after Federal regulators issue a scathing review of the electricity industry's voluntary efforts to make their power grids more reliable.

The report comes about a year after nation's worst blackout that hit on August 14th of 2003. According to staff at the Federal Energy Regulatory Commission, power industry audits play down shortcomings of the grid system, rely on ambiguous standards that often are ignored and reflect vast differences between the best and the worst performers.

But the agency's chairman Pat Wood did say that there have been improvements since the blackout that was caused by power line problems in Ohio and affected eight states from Michigan to New York as well as parts of Canada. (Published reports)

**

IN PRINT: ALL ABOUT TONE

And with more and more repeaters implementing some form of tone access, it is C-Q Magazine that's taking the lead in explaining how it works to the ham community. In his three page article in the November issue, writer Dave Ingram, K4TWJ, "How It Works" column traces the use of tone access and explains why it can be far more of a friend to hams than a way to keep them off a system they may want to try. You can read what Dave has to say in the November C-Q on newsstands right now. More information is on the web at www.cq-amateur.radio.com (CQ)

**

ON THE WEB: QRZ.COM NEEDS YOU

The giant Q-R-Zed dot com website says it needs some volunteers to help it better serve the needs of the world wide ham radio community. According to its owner Fred Lloyd, AA7BQ, the popularity has resulted in a need to enlist a few more volunteers to help out on the website operations.

Lloyd says that Q-R-Zed currently has openings for two types of volunteers,. These are board Moderators and Callsign Database Administrators. An explanation of the responsibilities of each is on line at the Q-R-Zed site. Its in cyberspace at www.qrz.com. (qrz.com)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to

the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

TELECOMMUNICATIONS SECURETY: PASSCODE FROM AMERICA ONLINE

Turning to the high tech page, America Online says that it will begin offering members a security device and service that has been used to safeguard business computer networks. This after parent company Time Warner Inc. announces that its AOL unit has signed a deal with Internet security company RSA Security Inc., to launch its new AOL PassCode.

Using an ever changing algorithm, the system is designed to add an additional layer of protection to member accounts. PassCode users will be provided with a small handheld six-digit numeric code key which refresh on the device every 60 seconds. To log onto an AOL account equipped with the service, users will have to type in the six-digits in addition to their regular password.

The price of the code-key device will be $9.95. Service costs will range from $1.95 to $4.95 per month. This, in addition to the usual America Online subscription fee. (AOL, published reports)

**

EMERGING TECHNOLOGY: FALSING CALLER ID

The Washington Post reports that a new technology can trick U.S. caller-ID services into displaying someone else's name and telephone number. The Web-based systems make the name and number appear in a call recipient's caller-ID box.

A company called Star38 that launched in September with plans to market to debt collectors has changed its strategy after consumers complained. Star38 admitted the approach was "flawed," and now says it will market their system to law enforcement agencies.

New Jersey-based Camophone says it will perform the service on a call-by-call basis for a fee of $5 and up. The company said it recognizes that the service could be abused but insists its intent is to help customers protect their privacy.

But consumers worry that the technology could be used by stalkers and debt-collection agencies, some consumers worry. The Direct Marketing Association said masking a marketer's identity is illegal under rules enforced by the Federal Trade Commission and the Federal Communications Commission. (Washington Post)

HAM RADIO IN SPACE: AO-51 E-MAIL REQUEST BOX

AMSAT North America has announced the establishment of an E-mail address for AO-51 users to submit requests and ideas for Experimenters Wednesday operations. AMSAT says that this is a chance for the ham community that uses AO-51 to request the modes that they are interested in* seeing operated on during the weekly Wednesday times. All input will be noted but do not expect a reply to your E-mail. Send your requests or ideas to ao51-modes@amsat.org (AMSAT-NA)

WORLDBEAT: VE3PU NEW TREASURER OF RAC

Back here on mother Earth, word from Radio Amateurs of Canada that Ken Pulfer, VE3PU has been appointed to the position of Treasurer. Pulfer will complete the unexpired term of Eric Ferguson VE3CR who recently resigned.

This is not Pulfer's first time in the job. He has served as R-A-C Treasurer in the past, and brings a wealth of experience to the position. (RAC)

**

WORLDBEAT - UK: FINAL G5RV LOGBOOK RETRIEVED FROM EBAY

Meantime, word from the United Kingdom that the final log book of one of the worlds best-known radio amateurs has been saved for posterity. This, after it was put up for auction on eBay.

The late Louis Varney, G5RV, of G5RV antenna fame was one of the founding members of the Chelmsford Amateur Radio Society in 1936. So when Chelmsford club member Duncan Munro, M0KGK spotted that G5RV's last ever logbook was being auctioned, the club decided to buy it.

Munro did the bidding. Despite fierce competition he managed to secure the logbook in the last eight seconds of auction.

The logbook shows that G5RV's final QSO's took place on the 11th January 2000 and were , appropriately enough recorded on page 73 of the logbook. The stations contacted were Ron Glover, G0WGP, in West

Sussix and club President Harry Heap, G5HF, in Chelmsford. Louis was, of course, using his famed G5RV antenna for all of the contacts. (GB2RS)

**

DX

In D-X, word that W-6-S-J, will be on the air from the Bahamas as C6AWS from November 26th through December 2nd. Activity will include a Single-Op/All-Band/Low-Power entry in the CQ World Wide DX CW Contest. During non-contest periods, he will concentrate on the WARC bands. QSL to his home call. (OPDX)

And Look for 7Q7LA back on the air from Malawi in a few weeks. This, as G0IAS, updates the OPDX that he is hand carrying some ham gear for Ron to be sure that it arrives safe and sound. G0IAS will leave the U-K on the 28th of this month and is expected to arrive at the Lakeshore on the 30th. The confirmation route for 7Q7LA remains direct to G0IAS. There is no QSL bureau in Malawi. (OPDX)

**

THAT FINAL ITEM: UK HAMS ON THE AIR WITH EXPANDED 40 METER PRIVELEGES

And finally this week, hams in the U-K have taken to the airwaves with their recently expanded privileges. RSGB Newsreader Jeramy Boot, G4NJH, is where it all took place:

--

UK radio amateurs gained access to new frequencies between 7.1 and 7.2MHz from 31st October.
After dark, the band between 7.1 and 7.2MHz is still full of powerful broadcast stations, although some clear frequencies can be found.

The band became available on the second day of the CQ World Wide DX Phone Contest. Many UK stations took advantage of the new band by making contest QSOs with stations in the USA on their own frequency, instead of having to work 'split' as had been the case when contacting North America on 40 metres SSB.

During the daytime, numerous UK stations are now able to have virtually interference-free inter-G contacts above 7.1mhz.

The new band is available to radio amateurs on a Secondary, non-interference, basis until 2009. After the end of March 2009, the broadcast stations should move to other frequencies and 7.1 to 7.2MHz will then become an amateur Primary band.

Jeremy Boot, G4NJH, in Nottingham.

--

Amateurs in the Republic of Ireland were also granted access to 7.1 to 7.2 MHz towards the end of October, joining those in Croatia, Norway and San Marino who already had access to these frequencies. Hams in Switzerland will also gain access to 7.1 to 7.2MHz from 1st January 2005. (GB2RS)

Late this afternoon, I was driving down I-24 in southern Illinois, and
trying to listen to the last story on NPR's "All Things Considered",
their story about the shortwave "numbers stations", on WSIU-91.9FM.

As a semi passed, he keyed down his CB.

His fourth harmonic completely clobbered WSIU-FM.

I have a 50-watt transmitter on 29.6MHz **in my car**. It causes
absolutely ZERO interference to FM BC reception.

You can guess how much power this semi was running....

Whether we wanted Bush or Kerry, makes no difference. We got who we got.
Time to put those differences aside and hope for the best. All the moaning
and groaning, bitching and complaining isn't going to change the facts of
who has claimed victory. This country needs some major remodeling and
someone - anyone - needs to roll up their sleeves and get to work.
Actually, the majority of the politicians are crooked as hell. Most of them
have been in too long.

As to the foreigners who wrote our fellow citizens trying to persuade them
who to vote for, I say BUTT OUT. You have enough trouble running your own
country - small as it is. We have gotten along 200+ years without your
input, and we'll get along another 200+ years. Yes, we have our squabbles,
and yes we may bitch and disagree... but dammit, when the shit hits the fan
as in 9/11, we get together and kick ass. WE left jolly ole England once -
we thought it was for good. Then we had to go back to save your asses. So,
kick back and relax and drink your tea. You mind the store there, we'll mind
ours - here.

IF you disagree with me, then do me and the rest of my fellow citizens a
favor........ don't ask for any more welfare.
One more thing - you hate Bush? Well... your Prime Minister is chiming along
with him, so let's see how well you do in your own election! PRACTICE WHAT
YOU PREACH. We'll be across the pond watching - not that we give a damned.
You won't see us writing any letters to your people to persuade them to vote
for anyone in particular. WE're #1, all else - pick a number. But don't
stand so close, we can't stand the stench.

Is it any wonder that the rest of the world thinks of america as it does with bigots like you who
have their heads so far up their arse you cant tell the shit from the shit.
Thank goodness it may not be true.
Bush is no more representative of all Americans than Blair is of Brits.
They got elected, but that is politics.
Most politicians couldn't give a straight answer if it had a flagpole to hold it upright.
Marco

It was the Brits who "TRIED" to persuade "OUR" election. Stay the hell out of OUR business. We don't need your bull shit induced in our country. We told you that 200 years ago.

Bigots? Who the F#$K saved their asses????? (your's if in fact you are Brit) Huh?? You pansies sure can't save your own asses. You can't deny history! It is U.S. - the American Tax Payers who shell out our money to save the f&%king world, because the candy asses can't do it alone. IF "WE" didn't put all the "foreign" welfare bums on our welfare roles, we'd be far better off. OUR people wouldn't be hurting as they are. OUR seniors go without medicines and food cause we're too busy paying for the rest of the dead beats around the world.

IF it weren't for U.S.- you'd be speaking something other than English or whatever the hell you mutter. If it weren't for US, the Brits might STILL be in ruins. "WE" shelled out BILLIONS to rebuild their sorry asses and have YET to be repaid in full. WE have a right to be pissed. It is OUR money spent and OUR men and women who die for your sorry asses. It was said once, about 20 years ago, if the European countries would repay us for rebuilding them, our Social Security coffers would be well off til about the year 2075 or so. That is a LOT of money.

THE ONLY thing I agree with you on and you me, is the politicians being liars.

Quite frankly, I don't give a shit what the candy asses think of U.S. - They sure know where to turn for money! What they DO think, is we're a god damned Bank - better yet, one big "Grant" never to be repaid.. That shit should stop immediately. I can guaran-goddamn-tee you, we'd be hated for sure..... You can't say we wouldn't. WE give - give - give, and get kicked in the teeth every damned time. Every damned country we've helped has tried to screw us up the ass. THAT IS THE TRUTH. Iraq, Afghanistan, and I can go on. ALL got some of our money, now we are fighting them. FRANCE - stabbed us in the back. England, well, I'm sure in due time - they will too. We're TOO damned trusting and too damned liberal with our tax dollars when it comes to other countries. As long as I am a tax payer, I have every god damned right to be pissed off.

IF you have to ask, then you don't belong in the U.S. if in fact you do live here. IF you are a resident, then you're a traitor.
THIS country pays dearly in money and lives for the rest of the candy ass world.

Paranoid? Nah, I don't think so.... We have no reason to fear. Some of us
may die, but we'll take a hell of a lot more of the enemy with us. I will
agree with Bush on one thing. You're either with us or against us. Truer
words could never be spoken.
But the fact is, MOST who claim to "be" with us, stab us in the back. As I
said in a previous post, we're TOO trusting.
WE need to just do it alone and be done with it. WE're doing most of it
alone anyway.

Whether I like Bush or not, isn't even the question. I'm sick of our country
being walked on by others - others who we have helped and continue to help -
then you candy asses have the nerve to talk about us? YEAH RIGHT! Stuff it
up your ass. Bush is our leader - right or wrong. It is the bigger picture I
look at. ALL our women and children's safety. The economy of our country
faltering while we act as saviors to the world. OUR men dying because the
candy asses aren't man or woman enough to stand up on their own two feet.

Yeah, maybe we are stupid--- for giving a shit about the rest of the world.
Guilty as charged. Our sentence is handed down daily in deaths and dollars.

Well when your nanny has picked up your rattle, get your daddy, if you know who he was, to change
your nappy.
Like I said, there is nothing wrong with the majority of American people, it is just the few
bigheaded morons who think the rest of the world owes them everything!!
Just remember your roots and be glad you have free speech.
Marco

Don't try and change the subject.
We were talking about SOME americans thinking the world owed them a living.
As for the UN, where is it situated? Who is the leading light?
The USA. I think you shot your own foot.

Is that your answer to the problem when you cant use your brain and intellect any more?
I think my main point is proved if you are representative of the morons, which for your sake I hope
you are not.

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, WA1S, KF2TI, W2GB, NG3K, W3UR & The Daily DX, K4VUD, KJ4UY, N4AA & QRZ DX, K8YSE, DL1EK & The DX News Letter, DJ8NK, EA7FTR, F5CWU & La Gazette du DX, F5NQL & UFT, G3SWH, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, JI6KVR & JA-IOTA Islands News, LU9ESD, LX2AJ, OH2IW/OH6UM and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 7th/November, through Sunday, 14th/November there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND. Remember to look for Joe/AA4NN and Chuck/W4GMY to be active this week as 3DA0NN and 3DA0CG, respectively, from November 17-22nd. Activity will mainly be on CW on 160-10 meters. They will leave here and go to Mozambique (C9), November 24th, for the CQWW DX CW Contest.

8P, BARBADOS. Tom, W2SC, will once again be active as 8P5A in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via NN1N.

9N, NEPAL. Look for Rudolf/DJ3WE, Falk/DK7YY, Ben/DL6RAI and Roberto/ IV3IYH to be active this week as 9N7BCC between November 16th and December 5th. There is a possibility that some of the operators may receive their own private licence. Team members plan to have three stations on the air simultaneously. Check the usual DX frequencies on 160-15m and also possibly on 10 meters. However, their emphasis will be on the lower and WARC bands. Also, look for RTTY operations before and after the upcoming CQWW DX CW Contest. QSLs for 9N7BCC are via DK7YY.

A6, UNITED ARAB EMIRATES. "The Daily DX" reports that Don, N1DG, will be here between November 15-21st, and active during his spare time from the QTH of Saeed, A61AD. Activity will be on 40-10 meters with operations mainly on RTTY and PSK31, and CW on the WARC bands. QSL via N1DG.

C6, BAHAMAS. Dave, G4WFQ, will be active as C6AWF from Treasure Cay, Abaco Island (NA-080), April 15-29th. Activity will be on 80-10 meters including the WARC bands with operations mostly CW, RTTY with some SSB. QSL via G3SWH. There will be an online log on the following Web page, and the log will also be uploaded to the LoTW after the operation. The Web page is: http://www.g4wfq.btinternet.co.uk

CONTESTER/DXER GATHERING. The Contest Club Finland (CCF) and the OH DX Foundation (OHDXF) have announced and are inviting you to attend their 10th annual Contester/DXer meeting to be held aboard the Viking Line m/s "Gabriella" on January 21-23rd. The ship will leave from Finland (OH) and travel to the Aland Islands (OH0) to Sweden (SM) and then back the Aland Islands (OH0) and return to Finland. There is only a limited number of cabins availabe. Please notice that they have cabins from A to C-class, all with the same price. People booking their cruise first will get the best cabins. The preliminary agenda, prices and on-line registration forms are now available on the CCF Web page at: http://www.qsl.net/ccf/meet10th.htm Also, visit the OHDXF Web page at: http://www.ohdxf.fi

GJ, JERSEY. Operators Rich/K2WR, Dave/G4BUO, Ed/G3SQX and Gary/G4IFB will be active as GJ2A in the CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via K2WR.

HC8, GALAPAGOS ISLANDS. Operators Robert/N5KO, Daniel/K1TO, Stephen/K6AW and Zoli/HA1AG will be active as HC8N in the CQ WW DX CW Contest (November 27-28th) as a Multi-2 entry. QSL via W5UE.

HS AND XU, THAILAND AND CAMBODIA. Bruce, AA4XR, will busy over the next several weeks. He is expected to arrive in Bangkok Tuesday, November 16th, and should be operational that night as HS0ZCY. He will be active from his QTH between November 16-20th and December 1-7th. There will be a heavy emphasis on the low bands and CW/RTTY/PSK31. Larry will be attending the "SEANET Convention" (the Dayton of the Pacific) Friday/Saturday, November 19-20th. He will try to squeeze in some guest operating time as HS72B on the WARC bands. He will depart Sunday, November 21st, for Cambodia (XU)

and arrive in Komgpong Som midday on Monday, November 22nd. Larry states that he will be operational within a couple of hours after arrival as XU7ADF. He will stay 8 days (November 22-30th). His activity will be on all bands (including the WARC bands) 160-10 meters with an emphasis on RTTY and CW. Larry will also be operating from the IOTA Koh Pos (AS-133) as XU7POS (as a guest of Jacques/ON4AJV and the Belgian team there). Look for him to be active in the CQWW DX CW Contest (November 27-28th) as a Single-Op/Single-Band entry. He will be signing as XU7ADF. Larry states, "My partner in crime for the Cambodian trip is the legendary Thai Contest Guru (and 40wpm cw guy!) Champ, E21EIC. He will be very active using his callsign XU7ADE as well." QSL XU7ADF via AA4XR. QSL XU7ADE via E21EIC.

HS72B, THAILAND (Update to OPDX.684). Operators DL3DXX, DL5LYM, G4ODV, G4UZN, WA6CDR, HS0ZDZ, HS1CKC and HS0ZDX will be active as HS72B during the CQWW DX CW Contest (November 27-28th) as a Multi-Multi entry. QSL via E20NTS.

IOTA NEWS.....
AS-076. Look for JA5BEX and JA5BQX to be active as homecall/5 from Ogi Islands from November 27-28th. This activity will be a new one for the Japanese IOTA Island Award (JIIA AS-076). QSL via their home callsigns, direct or via the bureau.

NA-196. Bruce, KD6WW, is expected to be active as VY0/KD6WW from the Nunavut Group (Belcher Islands) from November 17-22nd. Activity will be on 40/30/20 meters. QSL via his CBA.

OC-121. Naoyuki, JK1FNL, will be active as 3D2NA from Mana Island, November 19-24th. Activity will be on 80-6 meters on CW/SSB and RTTY. QSL via JK1FNL; the bureau is OK.

SA-021. Activity from the Bahia Blanca DX Group from Wood Island took place this past weekend. The DXpedition's operators and callsigns were:
LU7DSY/D Carlos (Team Leader and QSL Manager)
LU9ESD/D Emmanuel
LU4ETN/D Charly
LU8EBJ/D Gabriel
LU5DRV/D Walter
LU4DRH/D Dario
LW9EVA/D Hugo
LW9EAG/D Gabriel
LU5DEM/D Eduardo
LU7AC/D Marcelo (Special Invited from Buenos Aires)

QSL Manager's address (LU7DSY): Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. Please send 2 USD or 2 IRC for direct QSL. Bureau cards are 100%.

KG4, GUANTANAMO BAY. Tip, N4SIA (KG4AS), informs OPDX that he and 3 other operators will be active from here beginning January 18th for 8 days. Tip states that he will be active on CW/SSB and 6 meters. More

info is forthcoming.

KH0, MARIANA ISLANDS. Yoshiro, JL3SIK/N1VF, is expected to be active as N1VF/KH0 from Saipan (OC-086), November 20-22nd. Activity will be on 40-6 meters CW, SSB and the digital modes. QSL via JL3SIK, direct or by the bureau.

LX, LUXEMBOURG. The team of Jorgen/DL4SDW, Ralf/DL5SEJ, Bernd/DL8SCG and Philippe/LX2AJ will be active as LX7I in the CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via LX2AJ. QSL is "OK" via the Bureau or direct, but if you work them on 5 bands, you can request a direct QSL via E-mail from: lx2aj@gmx.net
Philippe informs OPDX that they will have monobanders for 160-10 meters. More information and an online log will be available on the LX2AJ/LX7I Web page at: http://www.qsl.net/lx2aj
Also, expect LX7I to be active in more contests next year.

NEW OFFICERS FOR 2005. It was announced this past week that following extensive campaigning and electioneering, the following North Jersey DX Association (NJDXA) members were elected to the following offices:
President K2WR Rich Gelber
Vice President KB2ENF Stephen Saposnik
Secretary KF2TI Steven Adell
Treasurer N2BIM Gene Ingraham

QSL INFO AND NEWS.....
OOOPPPSSS DEPARTMENT. Last week's OPDX.684 had a typo in it under "XE4IH QSLS". It should have read "XF4IH QSLS. Enrique, XE1IH, QSL Manager for XF4IH Socorro Island (NA-030 Revillagigedo) operation, informs OPDX that he is having problems with the Mexican Postal Office, and QSLs to be confirmed are not arriving at his P.O Box. He announces now to please send QSLs to his home address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301, U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested to send your requests registered."

Phil Whitchurch, G3SWH, announced that effective immediately he has been appointed as QSL Manger for Bill Luo, BX3AC. Cards will be accepted and replied to either direct with return postage and SAE, via the bureau or via E-mail with a reply via the bureau. Phil's E-mail address is: phil@g3swh.demon.co.uk

NOT THE QSL MANAGER. Fran, EA7FTR, informs OPDX that a station in the CQWW DX SSB Contest, LQ5H, stated to QSL via EA7FTR. He states this is incorrect, and he is NOT the QSL Manager.

QSL MANAGER CHANGE. John, W2GB, informs OPDX to "PLEASE NOTE" that ALL requests for VP5X QSL cards go via Kari, OH3RB. This was a last minute change made by the team leader. At this time John is not the QSL Manager for VP5X.

The TX9 group has posted their log online and their statistics. Here are their Web links: http://www.df3cb.com/logsearch/tx9/index.php
http://www.df3cb.com/chesterfield/news.html

SILENT KEY. Ivan, CP1KI (ZS6IL), informs OPDX that Rene, CP1FQ, became a Silent Key (SK) on November 3rd. Ivan states, "He has not been active over the last couple of years due to illness but prior to this, he was a keen DXer (DXCC Honor Roll) and was very active on 6 meters giving many hams their first (and probably only) CP contact on 50Mhz. OPDX and its readers would like to send out our deepest sympathy to Rene's family and friends.

SPECIAL EVENT. Look for special event station TM6OSA to be active between now and November 28th. Activity is to commemorate the 60th anniversary of the liberation of the town of Saverne (30 kilometers of Strasbourg). Operations are expected to be on all bands and modes. QSL via F6GXL.

V4, ST. KITTS AND NEVIS. Larry, KJ4UY, and his wife Mel will be arriving on Nevis on December 23rd and will return to Florida on the night of January 2nd. Larry reports, "We will be celebrating Christmas and New Year's with our friends in St. Kitts and Nevis. I will try to ship some antennas to St. Kitts before we leave so I can operate from St. Kitts and Nevis. Not sure when and what bands/modes I will be on because of the holidays. As propagation directs, I will be on 6-160 meters/bands and modes. I have been working 14-15 hours/daily for a number of months and still trying to clean up after the hurricaines. Have no antennas up here yet after being antenna stripped. We look forward working as many as possibe while there."

VP9, BERMUDA. Look for Paul/K1XM, Ann/WA1S and Charlotte/KQ1F to be active as VP9/WA1S, VP9/K1XM and VP9/KQ1F from November 21-28th. The trio will also be active as VP9I in the CQWW DX CW Contest (November 27-28th) as a Multi-2 entry. QSL via KQ1F for VP9I, VP9/K1XM and VP9/KQ1F. QSL via WA1S for VP9/WA1S.

VU4, ANDAMAN ISLANDS. Charles Harpole, K4VUD and VU3CHE, sent out a "Please Help VU4 DXpedition" press release this past weekend. Basically, the release states that Bharathi Prasad, VU2RBI, is now within days of receiving official permission to do a legal DXpedition on the Andaman Island (VU4). She has plans to arrive in the capital, Port Blair, on or about December 1st. Charles states, "This is very short notice to obtain funding help from the ham community. I am now urgently seeking donations of any amount to fund the basic costs of this DXpedition. In the unlikely event that the trip does not happen in a timely manner, ALL donations will be fully refunded to the donors. Full keeping of donor records and addresses and amounts will be carried out. NCDX Foundation request has also been made but time is very short. Please feel free to relay this urgent message to all hams world-wide by any means." Donations in U.S. Dollar amounts via personal check or international postal money order or equivalent should be made out to and mailed to: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732-9761 USA. Charles, K4VUD, E-mail address is: k4vud@hotmail.com
Charles sent out a second press release that states: "Bharathi has appealed to VU2SON for help in getting permission to do a legal operation on VU4. She has asked for a month-long operating permission this December. Only native citizens of India are allowed to operate. Bharathi and her

family are of modest means. She does not have any money of her own to invest in this DXpedition. India culture indicates a proper married woman only travel with her husband, VU2DBP. She led the 1978 DXpedition to VU4. Please do not complicate matters by now making your own request to operate on VU4. Please allow Bharathi to work her magic for now. In a year, if we all behave and have patience, Andaman could be much more open to ham radio visits or an on-going presence. The DX community needs to understand that this VU4 DXpedition is likely to start as a 'mighty lite' for the reasons cited above. This is a PILOT project to prove ham radio is harmless on VU4. That is the immediate goal. Later, we hope to establish a long-term ham radio presence at a school in Port Blair. This effort will NOT be a mass arrival of crack operators with tons of gear. We appeal to the generousity, understanding, and patience of the world wide DX community. Please remember this is AMATEUR radio in a Developing Nation, and please give Bharathi's effort your patient support for this evolving project. Personally, I know how important a contact with VU4 is. The pent-up demand is huge. However, I appeal to all DXers to realize the delicate nature of getting permission, of quickly mounting this pilot effort, and of finding funds now. In American slang, 'please cut some slack' to this project and know that Bharathi and I are in this for the long haul so that ham radio can later establish a continuing presence there to answer the needs for all bands and all modes. ALL donations will be promptly refunded should this effort not go as announced. QSL card requests will go to a USA address for mail security."

VP2, ANGUILLA. Tom/DL2RUM and Jan/DJ8NK will be active as VP2ETL and VP2ENK, respectively, from November 16-30th. Activity will be on 160-10 meters, CW, SSB and RTTY. QSL via their home callsigns.

XU, CAMBODIA. Operators Wim/ON6TZ and Jack/ON4AJT will be active as XU7POS and XU7AJV, respectively, from here starting November 20th for about three months. Their QSL route and modes/bands of activity were not provided.

ZL6, NEW ZEALAND. Operators Brian/ZL1AZE, John/ZL1BYZ, Tony/ZL2AGY, Wilbert/ZL2BSJ, Andrei/ZL1TM and Chris/ZL1CT will be active as ZL6QH during the CQ WW DX CW Contest (November 27-28th) as a Multi-Multi entry. QSL via ZL2AOH. The operators are members of the Quartz Hill User Group. Visit their Web page at: http://www.zl6qh.com

ZX0, SOUTH SHETLAND ISLANDS. Roberto/PT2GTI is now active as ZX0GTI from Elephant Island (AN-010) from EMILIO GOELDI REFUGE (which has been numbered, according to WAP as BRA-05). He will be there until November 17th. As this was being written, activity has been mainly on 20 meters SSB.

> more likely a "BUSTED CALLSIGN". As always, you never know - "Work
> First Worry Later" (WFWL).
>
> 3DA, SWAZILAND. Remember to look for Joe/AA4NN and Chuck/W4GMY to be
> active this week as 3DA0NN and 3DA0CG, respectively, from November
> 17-22nd. Activity will mainly be on CW on 160-10 meters. They will
> leave here and go to Mozambique (C9), November 24th, for the CQWW DX
> CW Contest.
>
> 8P, BARBADOS. Tom, W2SC, will once again be active as 8P5A in the CQ
> WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power
> entry. QSL via NN1N.
>
> 9N, NEPAL. Look for Rudolf/DJ3WE, Falk/DK7YY, Ben/DL6RAI and Roberto/
> IV3IYH to be active this week as 9N7BCC between November 16th and December
> 5th. There is a possibility that some of the operators may receive their
> own private licence. Team members plan to have three stations on the air
> simultaneously. Check the usual DX frequencies on 160-15m and also
> possibly
> on 10 meters. However, their emphasis will be on the lower and WARC bands.
> Also, look for RTTY operations before and after the upcoming CQWW DX CW
> Contest. QSLs for 9N7BCC are via DK7YY.
>
> A6, UNITED ARAB EMIRATES. "The Daily DX" reports that Don, N1DG, will
> be here between November 15-21st, and active during his spare time from
> the QTH of Saeed, A61AD. Activity will be on 40-10 meters with operations
> mainly on RTTY and PSK31, and CW on the WARC bands. QSL via N1DG.
>
> C6, BAHAMAS. Dave, G4WFQ, will be active as C6AWF from Treasure Cay,
> Abaco Island (NA-080), April 15-29th. Activity will be on 80-10 meters
> including the WARC bands with operations mostly CW, RTTY with some SSB.
> QSL via G3SWH. There will be an online log on the following Web page, and
> the log will also be uploaded to the LoTW after the operation. The Web
> page is: http://www.g4wfq.btinternet.co.uk
>
> CONTESTER/DXER GATHERING. The Contest Club Finland (CCF) and the OH DX
> Foundation (OHDXF) have announced and are inviting you to attend their
> 10th annual Contester/DXer meeting to be held aboard the Viking Line m/s
> "Gabriella" on January 21-23rd. The ship will leave from Finland (OH) and
> travel to the Aland Islands (OH0) to Sweden (SM) and then back the Aland
> Islands (OH0) and return to Finland. There is only a limited number of
> cabins availabe. Please notice that they have cabins from A to C-class,
> all
> with the same price. People booking their cruise first will get the best
> cabins. The preliminary agenda, prices and on-line registration forms are
> now available on the CCF Web page at: http://www.qsl.net/ccf/meet10th.htm
> Also, visit the OHDXF Web page at: http://www.ohdxf.fi
>

> GJ, JERSEY. Operators Rich/K2WR, Dave/G4BUO, Ed/G3SQX and Gary/G4IFB
> will be active as GJ2A in the CQ WW DX CW Contest (November 27-28th) as
> a Multi-Single entry. QSL via K2WR.
>
> HC8, GALAPAGOS ISLANDS. Operators Robert/N5KO, Daniel/K1TO, Stephen/K6AW
> and Zoli/HA1AG will be active as HC8N in the CQ WW DX CW Contest (November
> 27-28th) as a Multi-2 entry. QSL via W5UE.
>
> HS AND XU, THAILAND AND CAMBODIA. Bruce, AA4XR, will busy over the next
> several weeks. He is expected to arrive in Bangkok Tuesday, November 16th,
> and should be operational that night as HS0ZCY. He will be active from
> his QTH between November 16-20th and December 1-7th. There will be a heavy
> emphasis on the low bands and CW/RTTY/PSK31. Larry will be attending the
> "SEANET Convention" (the Dayton of the Pacific) Friday/Saturday, November
> 19-20th. He will try to squeeze in some guest operating time as HS72B on
> the WARC bands. He will depart Sunday, November 21st, for Cambodia (XU)
> and arrive in Komgpong Som midday on Monday, November 22nd. Larry states
> that he will be operational within a couple of hours after arrival as
> XU7ADF. He will stay 8 days (November 22-30th). His activity will be on
> all bands (including the WARC bands) 160-10 meters with an emphasis on
> RTTY and CW. Larry will also be operating from the IOTA Koh Pos (AS-133)
> as XU7POS (as a guest of Jacques/ON4AJV and the Belgian team there). Look
> for him to be active in the CQWW DX CW Contest (November 27-28th) as a
> Single-Op/Single-Band entry. He will be signing as XU7ADF. Larry states,
> "My partner in crime for the Cambodian trip is the legendary Thai Contest
> Guru (and 40wpm cw guy!) Champ, E21EIC. He will be very active using his
> callsign XU7ADE as well." QSL XU7ADF via AA4XR. QSL XU7ADE via E21EIC.
>
> HS72B, THAILAND (Update to OPDX.684). Operators DL3DXX, DL5LYM, G4ODV,
> G4UZN, WA6CDR, HS0ZDZ, HS1CKC and HS0ZDX will be active as HS72B during
> the CQWW DX CW Contest (November 27-28th) as a Multi-Multi entry. QSL
> via E20NTS.
>
> IOTA NEWS.................
> AS-076. Look for JA5BEX and JA5BQX to be active as homecall/5 from
> Ogi Islands from November 27-28th. This activity will be a
> new one for the Japanese IOTA Island Award (JIIA AS-076).
> QSL via their home callsigns, direct or via the bureau.
>
> NA-196. Bruce, KD6WW, is expected to be active as VY0/KD6WW from
> the Nunavut Group (Belcher Islands) from November 17-22nd.
> Activity will be on 40/30/20 meters. QSL via his CBA.
>
> OC-121. Naoyuki, JK1FNL, will be active as 3D2NA from Mana Island,
> November 19-24th. Activity will be on 80-6 meters on CW/SSB
> and RTTY. QSL via JK1FNL; the bureau is OK.
>
> SA-021. Activity from the Bahia Blanca DX Group from Wood Island
> took place this past weekend. The DXpedition's operators
> and callsigns were:

> LU7DSY/D Carlos (Team Leader and QSL Manager)
> LU9ESD/D Emmanuel
> LU4ETN/D Charly
> LU8EBJ/D Gabriel
> LU5DRV/D Walter
> LU4DRH/D Dario
> LW9EVA/D Hugo
> LW9EAG/D Gabriel
> LU5DEM/D Eduardo
> LU7AC/D Marcelo (Special Invited from Buenos Aires)
>
> QSL Manager's address (LU7DSY): Carlos Almiron, P.O. Box 709,
> 8000 Bahia Blanca, Buenos Aires, Argentina. Please send 2 USD
> or 2 IRC for direct QSL. Bureau cards are 100%.
>
> KG4, GUANTANAMO BAY. Tip, N4SIA (KG4AS), informs OPDX that he and 3
> other operators will be active from here beginning January 18th for 8
> days. Tip states that he will be active on CW/SSB and 6 meters. More
> info is forthcoming.
>
> KH0, MARIANA ISLANDS. Yoshiro, JL3SIK/N1VF, is expected to be active as
> N1VF/KH0 from Saipan (OC-086), November 20-22nd. Activity will be on
> 40-6 meters CW, SSB and the digital modes. QSL via JL3SIK, direct or
> by the bureau.
>
> LX, LUXEMBOURG. The team of Jorgen/DL4SDW, Ralf/DL5SEJ, Bernd/DL8SCG
> and Philippe/LX2AJ will be active as LX7I in the CQ WW DX CW Contest
> (November 27-28th) as a Multi-Single entry. QSL via LX2AJ. QSL is "OK"
> via the Bureau or direct, but if you work them on 5 bands, you can request
> a direct QSL via E-mail from: lx2aj@gmx.net
> Philippe informs OPDX that they will have monobanders for 160-10 meters.
> More information and an online log will be available on the LX2AJ/LX7I
> Web page at: http://www.qsl.net/lx2aj
> Also, expect LX7I to be active in more contests next year.
>
> NEW OFFICERS FOR 2005. It was announced this past week that following
> extensive campaigning and electioneering, the following North Jersey DX
> Association (NJDXA) members were elected to the following offices:
> President K2WR Rich Gelber
> Vice President KB2ENF Stephen Saposnik
> Secretary KF2TI Steven Adell
> Treasurer N2BIM Gene Ingraham
>
> QSL INFO AND NEWS...................
> OOOPPPSSS DEPARTMENT. Last week's OPDX.684 had a typo in it under
> "XE4IH QSLS". It should have read "XF4IH QSLS. Enrique, XE1IH, QSL
> Manager for XF4IH Socorro Island (NA-030 Revillagigedo) operation,
> informs OPDX that he is having problems with the Mexican Postal Office,
> and QSLs to be confirmed are not arriving at his P.O Box. He announces
> now to please send QSLs to his home address at: Enrique Garcia Munive,

> Av. Insula Edificio 15-A-301, U. H. Acueducto de Guadalupe, 07270 Mexico
> City, MEXICO. It is suggested to send your requests registered."
>
> Phil Whitchurch, G3SWH, announced that effective immediately he has
> been appointed as QSL Manger for Bill Luo, BX3AC. Cards will be accepted
> and replied to either direct with return postage and SAE, via the bureau
> or via E-mail with a reply via the bureau. Phil's E-mail address is:
> phil@g3swh.demon.co.uk
>
> NOT THE QSL MANAGER. Fran, EA7FTR, informs OPDX that a station in the
> CQWW DX SSB Contest, LQ5H, stated to QSL via EA7FTR. He states this
> is incorrect, and he is NOT the QSL Manager.
>
> QSL MANAGER CHANGE. John, W2GB, informs OPDX to "PLEASE NOTE" that
> ALL requests for VP5X QSL cards go via Kari, OH3RB. This was a last
> minute change made by the team leader. At this time John is not the
> QSL Manager for VP5X.
>
> The TX9 group has posted their log online and their statistics. Here
> are their Web links: http://www.df3cb.com/logsearch/tx9/index.php
> http://www.df3cb.com/chesterfield/news.html
>
> SILENT KEY. Ivan, CP1KI (ZS6IL), informs OPDX that Rene, CP1FQ, became
> a Silent Key (SK) on November 3rd. Ivan states, "He has not been active
> over the last couple of years due to illness but prior to this, he was
> a keen DXer (DXCC Honor Roll) and was very active on 6 meters giving many
> hams their first (and probably only) CP contact on 50Mhz. OPDX and its
> readers would like to send out our deepest sympathy to Rene's family and
> friends.
>
> SPECIAL EVENT. Look for special event station TM6OSA to be active between
> now and November 28th. Activity is to commemorate the 60th anniversary of
> the liberation of the town of Saverne (30 kilometers of Strasbourg).
> Operations are expected to be on all bands and modes. QSL via F6GXL.
>
> V4, ST. KITTS AND NEVIS. Larry, KJ4UY, and his wife Mel will be arriving
> on Nevis on December 23rd and will return to Florida on the night of
> January 2nd. Larry reports, "We will be celebrating Christmas and New
> Year's with our friends in St. Kitts and Nevis. I will try to ship some
> antennas to St. Kitts before we leave so I can operate from St. Kitts
> and Nevis. Not sure when and what bands/modes I will be on because of
> the holidays. As propagation directs, I will be on 6-160 meters/bands
> and modes. I have been working 14-15 hours/daily for a number of months
> and still trying to clean up after the hurricaines. Have no antennas up
> here yet after being antenna stripped. We look forward working as many
> as possibe while there."
>
> VP9, BERMUDA. Look for Paul/K1XM, Ann/WA1S and Charlotte/KQ1F to be
> active as VP9/WA1S, VP9/K1XM and VP9/KQ1F from November 21-28th. The
> trio will also be active as VP9I in the CQWW DX CW Contest (November

> 27-28th) as a Multi-2 entry. QSL via KQ1F for VP9I, VP9/K1XM and VP9/KQ1F.
> QSL via WA1S for VP9/WA1S.
>
> VU4, ANDAMAN ISLANDS. Charles Harpole, K4VUD and VU3CHE, sent out a
> "Please Help VU4 DXpedition" press release this past weekend. Basically,
> the release states that Bharathi Prasad, VU2RBI, is now within days of
> receiving official permission to do a legal DXpedition on the Andaman
> Island (VU4). She has plans to arrive in the capital, Port Blair, on or
> about December 1st. Charles states, "This is very short notice to obtain
> funding help from the ham community. I am now urgently seeking donations
> of any amount to fund the basic costs of this DXpedition. In the unlikely
> event that the trip does not happen in a timely manner, ALL donations
> will be fully refunded to the donors. Full keeping of donor records and
> addresses and amounts will be carried out. NCDX Foundation request has
> also been made but time is very short. Please feel free to relay this
> urgent message to all hams world-wide by any means." Donations in U.S.
> Dollar amounts via personal check or international postal money order
> or equivalent should be made out to and mailed to: Charles Harpole,
> 3100 N. Hwy. 426, Geneva, FL 32732-9761 USA. Charles, K4VUD, E-mail
> address is: k4vud@hotmail.com
> Charles sent out a second press release that states: "Bharathi has
> appealed to VU2SON for help in getting permission to do a legal operation
> on VU4. She has asked for a month-long operating permission this December.
> Only native citizens of India are allowed to operate. Bharathi and her
> family are of modest means. She does not have any money of her own to
> invest in this DXpedition. India culture indicates a proper married woman
> only travel with her husband, VU2DBP. She led the 1978 DXpedition to VU4.
> Please do not complicate matters by now making your own request to operate
> on VU4. Please allow Bharathi to work her magic for now. In a year, if we
> all behave and have patience, Andaman could be much more open to ham radio
> visits or an on-going presence. The DX community needs to understand that
> this VU4 DXpedition is likely to start as a 'mighty lite' for the reasons
> cited above. This is a PILOT project to prove ham radio is harmless on
> VU4.
> That is the immediate goal. Later, we hope to establish a long-term ham
> radio presence at a school in Port Blair. This effort will NOT be a mass
> arrival of crack operators with tons of gear. We appeal to the
> generousity,
> understanding, and patience of the world wide DX community. Please
> remember
> this is AMATEUR radio in a Developing Nation, and please give Bharathi's
> effort your patient support for this evolving project. Personally, I know
> how important a contact with VU4 is. The pent-up demand is huge. However,
> I appeal to all DXers to realize the delicate nature of getting
> permission,
> of quickly mounting this pilot effort, and of finding funds now. In
> American
> slang, 'please cut some slack' to this project and know that Bharathi and
> I are in this for the long haul so that ham radio can later establish a
> continuing presence there to answer the needs for all bands and all modes.

> ALL donations will be promptly refunded should this effort not go as
> announced. QSL card requests will go to a USA address for mail security."
>
> VP2, ANGUILLA. Tom/DL2RUM and Jan/DJ8NK will be active as VP2ETL and
> VP2ENK, respectively, from November 16-30th. Activity will be on 160-10
> meters, CW, SSB and RTTY. QSL via their home callsigns.
>
> XU, CAMBODIA. Operators Wim/ON6TZ and Jack/ON4AJT will be active as XU7POS
> and XU7AJV, respectively, from here starting November 20th for about three
> months. Their QSL route and modes/bands of activity were not provided.
>
> ZL6, NEW ZEALAND. Operators Brian/ZL1AZE, John/ZL1BYZ, Tony/ZL2AGY,
> Wilbert/ZL2BSJ, Andrei/ZL1TM and Chris/ZL1CT will be active as ZL6QH
> during the CQ WW DX CW Contest (November 27-28th) as a Multi-Multi entry.
> QSL via ZL2AOH. The operators are members of the Quartz Hill User Group.
> Visit their Web page at: http://www.zl6qh.com
>
> ZX0, SOUTH SHETLAND ISLANDS. Roberto/PT2GTI is now active as ZX0GTI from
> Elephant Island (AN-010) from EMILIO GOELDI REFUGE (which has been
> numbered,
> according to WAP as BRA-05). He will be there until November 17th. As
> this was being written, activity has been mainly on 20 meters SSB.

>> It was the Brits who "TRIED" to persuade "OUR" election. Stay the hell
>> out of OUR business. We don't need your bull shit induced in our country.
>> We told you that 200 years ago.
>>
>> Bigots? Who the F#$K saved their asses????? (your's if in fact you are
>> Brit) Huh?? You pansies sure can't save your own asses. You can't deny
>> history! It is U.S. - the American Tax Payers who shell out our money to
>> save the f&%king world, because the candy asses can't do it alone. IF
>> "WE" didn't put all the "foreign" welfare bums on our welfare roles, we'd
>> be far better off. OUR people wouldn't be hurting as they are. OUR
>> seniors go without medicines and food cause we're too busy paying for the
>> rest of the dead beats around the world.
>>
>> IF it weren't for U.S.- you'd be speaking something other than English or
>> whatever the hell you mutter. If it weren't for US, the Brits might
>> STILL be in ruins. "WE" shelled out BILLIONS to rebuild their sorry asses
>> and have YET to be repaid in full. WE have a right to be pissed. It is
>> OUR money spent and OUR men and women who die for your sorry asses. It
>> was said once, about 20 years ago, if the European countries would repay
>> us for rebuilding them, our Social Security coffers would be well off til
>> about the year 2075 or so. That is a LOT of money.
>>
>> THE ONLY thing I agree with you on and you me, is the politicians being
>> liars.
>>
>> Quite frankly, I don't give a shit what the candy asses think of U.S. -
>> They sure know where to turn for money! What they DO think, is we're a
>> god damned Bank - better yet, one big "Grant" never to be repaid.. That
>> shit should stop immediately. I can guaran-goddamn-tee you, we'd be
>> hated for sure..... You can't say we wouldn't. WE give - give - give, and
>> get kicked in the teeth every damned time. Every damned country we've

>> helped has tried to screw us up the ass. THAT IS THE TRUTH. Iraq,
>> Afghanistan, and I can go on. ALL got some of our money, now we are
>> fighting them. FRANCE - stabbed us in the back. England, well, I'm sure
>> in due time - they will too. We're TOO damned trusting and too damned
>> liberal with our tax dollars when it comes to other countries. As long as
>> I am a tax payer, I have every god damned right to be pissed off.

Marco,

Admit it, you suck. PERIOD. The U.S. has had to be the savior every god damned time. HISTORY proves it, and that was after we kicked your asses 200 years ago. GO suck on your momma's titty, ya pussy.

TBA

IF IT WEREN'T for the U.S. "YOUR" asses would have been HISTORY - DICKWAD.
READ THAT in YOUR history books. BE GLAD "YOU" are able to read it. YOU CAN
READ, CAN'T YOU?

TBA

P.S. I think Helmsman had an excellent idea. Kill file your candy ass.

Hi all

I am selling my collection of Practical Wireless magazines 91 issues
from 1965 to 1979 its here:-

http://cgi.ebay.co.uk/ws/eBayISAPI.dll?ViewItem&rd=1&item=6936115412&ssPageName=STRK:MESE:IT

It was a good magazine with plenty of constructional articles.

regards

>Americans do disagree with me on this occasion.
>

Walt, it would seem your math as well as your logic are faulty.
President Bush won by a resounding 3+ percent, which is a mandate in
any country. (except Iraq where 100% is the norm)

BTW...Do you really believe people prefer despotic dictatorships over
democracy?

Arafat stole, perhaps 30 BILLION, from "his" people. That crook in
the UN stole billions from the bribes of Hussein. France and Germany
seem to have lined their pockets as well. I do hope no Americans were
involved but if they were, you can bet they have -D after their name.

Dean

>I do not understand that last remark. Is it some obscure Jewish joke?

No, -D refers to Democratic (party). When a congresscritter or senator is mentioned in print, it's usually written Representative Larsen E. Pettifogger (R, Iowa) or Sen. Chuck E. Cheese (D, New York). The implication being only Democrats would be so corrupt. Guess there's never been any Republican malfeasance, eh?

Oh, incidentally, since so many of you in rec.radio.amateur.* detest the U.N., it's safe to say that you'll never work 4U1UN or want it credited for your DXCC, right? Right?? Yeah, about what I thought.

Good day Guy & Gals I live in Windsor Ontario Canada just across the river from Detroit, so I have quite a few american friends, you could say that this problem has nothing to do with me, but living in close proximity as many Canadians do, we are joined at the hip at President Bush might say even if he might not want to acknowledge it? we are friends and neighbours our economy is tied together big time, myself I dont like his foreign policy, we will need each other sometime or other no matter what anybody says. We all have the right to protect our country, just insulting each other is why we have our problems, talk is cheap but can achieve much. all the best Dave.

Dave,

You make a valid point and I agree with prejudice. The following remarks are not intended directly at you, but to sort of address the issues a bit more.

MANY Americans disagree with Bush getting back in. In saying that, I'm not admitting to having voted or not - for him.
Some of his policies suck. What I do agree with, is his tone of "You're either with us or against us". But as I said, many of those who "claim" to be with us, end up stabbing us in the back.

Being our closest neighbor, yes... things could be "better" between the U.S. and Canada. They should be. While I may not agree with "everything" in principle, things could be much better.

Those who called us Stupid Americans, are A. Traitors from within or B. "so called" friends.

Though Bush won, Kerry could have had he had enough votes. So too could have Nader or any of the others in their individual parties. England or any other country has no reason whatsoever to try to sway our voting, nor do we of theirs or anyone else's. The voting machine has spoken - right or wrong, and we all must deal with it. LOTS of work in the U.S. alone needs done. There are domestic issues which need attended to. BUSH is capable of doing it, IF he chooses to do so.

Let's face it, the majority of all politicians are as crooked as a cork screw. It's always been that way and always will - regardless what country it is. It is up to the people to attempt change using the process as established. The other problem is, not many "qualified" or well rounded

candidates are there to choose from. Special Interest groups get their hands in it, and so on. IT SUCKS. But, we must deal with it. These last few elections it has gotten worse instead of better. They used to "Debate" policies, not get into the crap they've recently been doing. I don't give a shit if the man in the white house got a speeding ticket 20 years ago. I want to know what he's going to do NOW to give a helping hand to this country's needs. Actually, I'd like to see "Foreign" policy forgotten about for a while. Let the others do their thing whilest we take care of our own - for a change. So long as no one is fixing to attack us, I could give a shit less what they're doing. Live and let live!

"I" am not the one who started this thread of insults. But I'll be damned if I'll sit back as an American to have some half wit from another country cut down on us. Whether I like Bush or not, doesn't matter. HE IS THE PRESIDENT - as such, I have to respect that. BUT in the larger picture, I do my own part to defend their safety. Yes, we all have our disagreements and so on, what country doesn't? But we deal with it. We don't need outsiders casting their opinions when they aren't in any better position to do so. You can hate our government all you want, many of us do as well in some respects - be it the local, state or federal - especially if things aren't going our way... but to start a campaign of insults of our intelligence - man... that's biting a dog in the ass and sooner or later that dog will turn and bite back.

HOW DARE any one from another country call US - STUPID. IF you don't like it, come here and try to become a citizen, then you'll have every right to bitch and a chance to perhaps change things - at least with your vote since you must be an American {born here} to become President. You don't hear us whining about the Canadian/English or other governments do you? NO. Because WE DO NOT CARE. WE have enough problems here to take care of. SO, unless one is willing to put up - then SHUT UP. THAT is meant for the loud mouth who started this all and any of his supporters.. The jock straps that they are. The "government" gets involved more with the other countries, while most of us could care less. We're too busy eeking out our own existence. My opinion is to leave them all do their own thing, stay out of their business - even with foreign aid, which I'd love to see cut off forever. BUT - if they come here to attack or we hear of plans of an imminent attack on US - kick their asses and make them non returnable - period. Defend our borders and to hell with the rest. Let the other countries take care of their own problems - in every respect. This country does a hell of a lot for the world, we don't need the bull shit from the peons of society to dictate to us. Go back to your momma and grab a titty bottle, cause we're not listening.

I've said it once, I'll say it again.. IF you don't like the Americans... FINE - kindly remove yourselves from our Welfare roles. Don't cry wolf at every shadow - to have us come running to help. Put a pair of trousers on instead of your panties, step up to the plate and be a man - make a go of your own country and it's economy, and quit sponging off of U.S.

Dave
Absolutely agree, but some poster on here have their heads so stuck up b** that they cannot see the
reality of world life.
The world does not revolve around America (or any other country for that matter), and the sooner
they realise that no-one owes "them" a living, the soon that perhaps the whole world can live in
peace.
Well we can dream can't we ??

Ah, the ass hole farts again..... Excuse me, the rest of the world DOES revolve around US, with their revolving requests for our tax dollars and military aid. YOU need to realize - ASS HOLE, if it weren't for the US, YOU would be speaking German or Russian. DICK WAD..... READ YOUR F*&KING HISTORY BOOKS. Oooppps, I told you that before, so it's obvious you CAN'T read.

Problem is, you talk of dreaming, YOU ARE DREAMING. You never woke up to the reality that you speak of. Wake up and smell the tea.....

Description
Ever tried to buy a car without having a car to go look for one??
I have been trying for months to get hold of a good working HF solid state radio for around AUD$400-00 but no luck.
If you ever wonder why chaps in rare places are not ON AIR it is because it is a HUGE problem to buy anything or get anything repaired.
This is not sour grapes just stating reality.
So I am pulling the plug on the hobby,all too frustrating/disappointing.!
Best wishes to those I had regular contacts with in the past.
Goodbye & Good Luck.
Best 73 from Andy VK9CC.

Why not buy a vacuum tube rig with discrete components -- one that you can
repair
Or an older hybrid -- i.e. discrete components with vacuum tube finals e.g.
Kenwood TS-830S
which is an excellent transceiver and includes the WARC bands -- easy to
repair compared to the latest rigs with micro components.

Just a thought

--
The Anon Keyboard
I doubt, therefore I might be

Walter,

While you and the other children have just a TINY bit of dignity left,
why not give this discussion up or move it to the other newsgroup:

rec.this.shit.has.nothing.to.do.with.ham.radio.or.deeeee-x

It nevers ceases to be amazing that one troll can put one piece of
bullshit in a newsgroup and all the kiddies go off the deep end for
a month.

There's a big contest next weekend. The New Jersey RTTY party.
Go tune your antenna up and get ready....

73, Jim KH2D

>called 'Sky News'.

Seems to be almost exactly the same claptrap. I watched a few minutes
of it this summer and felt similar revulsion. When the fecal matter
was striking the rotary oscillator with extreme forward momentum in
Baghdad, Sky reporters were doing live hits on Faux, and likely
vice-versa.

> Worse, we have a downmarket 'newspaper' called "The Sun". All are owned by the same
organisation!

Yes, but at least one can always count on at least two items on Page
Three to be of - ahem - substantial value, which is more than I can
say for Faux News.

Hi,

I just received a QSL sent direct to BV (manager in BA) there are... 2 years ago almost day for day !
NB. I sent it by airmail and received it by airmail as well.

Do you expeimented longer delay sending a QSL direct during the last 10-20 years ?
Affair to complete the information provided on my website.

FYI. Last updates : audio files of packet PCSat and ISS QSO in my audiofiles page

THIS WILL BE MY LAST TIME I PUT UP NEWSLINE HERE. I MOVE TO ZAKINTHOS IN TWO WEEKS AND HAVE NO AOL THERE. SOME ONE ELSE NEED TO TAKE OVER DOING JOB. IT BEEN LOTS OF FUN.

MR. RADIONEWS

Amateur Radio Newsline™ Report 1423 November 19, 2004

Amateur Radio Newsline report number 1423 with a release date of Friday, November 19, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Ham radio in California says goodbye to the Tournament of Roses Parade and W7DXX speaks out on his Internet controlled remote base in Baghdad. And its not the first time. Find out the details on Amateur Radio Newsline report number 1423 coming your way right now.

(Billboard Cart Here)

**

PUBLIC SERVICE: HAMS QUIT TOURNAMENT OF ROSES PARADE - LIMIT SERVICE TO ATV

Ham radio will not be a major part of the 2005 Tournament of Roses Parade. Amateur Radio Newsline's Norm Seeley, KI7UP has the rest of the story:

--

Although it was never officially part of the Tournament of Roses, ham radio has been providing a communications link along the Rose Parade route for more than 40 years. And long before there was any official group, people like Tom O'Hara, W6ORG, of P-C Electronics were the early pioneers:

--

O'Hara: "I first got involved with the Rose Parade
communications
when I was one of the Emergency Coordinators for Pasadena. They asked us ti help out with some longer range stuff than what the CB operators were doing. This was in the middle 1960's."

--

Using video cameras and Amateur television, the ham radio volunteers were ever alert for any kind of an emergency situation that might develop. If they spotted something they would send their pictures

back to the parade coordinator who could then take the necessary action.

--

O'Hara: "Later on they added more and more ATV and more and more
hams. At one time I think there were 17 camera positions."

--

Amateur Radio literally pioneered the use of closed circuit television for coordinating large scale events in the Tournament of Roses Parade. At one time hams even had Amateur Television transmitters sending back pictures from helicopters flying overhead. And they did this long before most television stations had camera equipped news choppers of their own.

--

O Hara: "Got involved with the helicopter with the first ATV in 1968. Put it in the Sheriff's helicopter. And when I got my own helicopter I put it in and flew around one year."

--

As the parade grew, so did the Amateur Radio communications effort. By the 1970's TORRA had unofficially been formed. TORRA stands for
Tournament of Roses Radio Amateurs and in the 1980's the hams involved formalized as a club and with this came the golden days of ham radio supporting the parade.

Today TORRA has more than 300 active members who regularly volunteer their time. At least that's the way it had been until an incident
occurred last year. That's when an incident took place that apparently caused things to go sour.

According to an article in the Pasadena Star News, a pair of ham radio operators were carrying equipment onto the grounds of Tournament House in preparation for the last parade. They were stopped by a senior Tournament official and their presence challenged. The unnamed official even went so far as to accuse the ham radio volunteers of lying to get on the grounds.

Now enter Nextel. The same Nextel that has patented the words push-to-talk.

Nextel is a corporate sponsor of the 2005 parade, and reportedly has donated a number of phones to the event. This means that most Tournament of Roses officials will have a Nextel phone with direct walkie-talkie service in their pockets.

Bill Flinn is the Tournament's chief operating officer. Talking about Amateur Radio's departure he was quoted by Pasadena Star News
as saying: "I think it's come to the end of a run. We are sorry to see them go."

But depending on the Nextel walkie-talkie phones as a primary form of communications could turn out to be a mistake for the parade and those that run it. Unlike hams, parade officials and their corps of volunteers are not trained communicators. Rather they have been used to handing a message to a ham radio operator and having an answer appear. Most are likely unaware that they will have to contend with numerous people calling at the same time. All with priority traffic and all demanding immediate answers.

With their years of experience, the hams were the buffers who learned how to work around these problems. But the cellphone provider is coming in cold with no experience in this specialized communications area. There will likely be no experienced net control stations and no way to prioritize needs.

On Thursday, November 18th, as this report was being prepared, we received a copy of a letter from TORRA Chair Jeanne Nordland, WD6BWN, thats being sent to all of the groups members. It confirms that hams will not be providing voice communications in 2005, but that A-T-V assistance to the parade will continue as it has in years past.

But ATV is only one part of the equation. the question still remains as to whether or not the Nextel phones can take the place of the hams and a structured voice communications network. This is something that nobody will really know until January 1st of 2005. That's when
the drama will be played out live to the world on their livingroom T-V screens -- on New Years Day. And likely, 10's of millions of people will be watching.

For the Amateur Radio Newsline, I'm Norm Seeley, KI7UP, reporting.

--

As Norm said, these days the Tournament of Roses Amateur Radio group currently has about 300 members. How many might return if they are asked back in 2006 is really, anyones guess.

To read the complete Pasadena Star News article on the departure of ham radio from the Tournament of Roses Parade, take your web browser to http://www.pasadenastarnews.com/Stories/0,1413,206%257E22097%257E2529574,00.html

THE BPL FIGHT: FCC ISSUES ERATTUM ON BPL R&O

The FCC has issued whats known as an Notice of Erratum. One that slightly modifys its Report and Order on the introduction of Broadband Over Powerline operations.

Two changes were made. First in Section 15.15 under General Technical Requirements section B now reads: "Except as follows, an
intentional or unintentional radiator must be constructed such that the adjustments of any control that is readily accessible by or intended to be accessible to the user will not cause operation of the device in violation of the regulations. Access BPL equipment shall comply with the applicable standards at the control adjustment that is employed. The measurement report used in support of an application for Certification and the user instructions for Access BPL equipment shall clearly specify the user- or installer-control settings that are required for conformance with these regulations."

Also, Section 15.31 is amended by revising a paragraph under Measurement standards to read:
"Measurements shall be performed at a sufficient number of radials
around the equipment under test to determine the radial at which the field strength values of the radiated emissions are maximized. The maximum field strength at the frequency being measured shall be reported in the equipment authorization report. This paragraph shall not apply to Access BPL equipment on overhead medium voltage lines. In lieu thereof, the measurement guidelines established by the Commission for Access BPL shall be followed."
While these changes may seem as minor right now, they could impact ham radio and other services in the future. This, when and if B-P-L ever becomes a major player in the area of direct to home high speed Internet access. (FCC)
**

THE BPL FIGHT: ITS NOT BPL IN WESTERN VK

Meantime, some good news on the B-P-L front from down-under. Word that interference being heard by hams in Western Australia is not coming from a powerline broadband installation. The problem is that nobody is sure exactly what the source is. W-I-A newsman Dennis Muldownie, VK6KAD, is in Redcliff with more:

--

One of the rumors persisting in VK6 is that our power authority is running BPL. This has been denied several times. I may have found the source of these rumors, as I have stumbled across a website dating back to 2002, in which the testing of Broadband by the power company was mentioned.

However it was not BPL technology. There is an ongoing project here to "rewire" the West by placing low voltage and some higher tension

feeders underground. This is - or was - progressing slowly. It improves the street-scape out of sight and reduces the potential for damage in bad weather. In providing these services apparently optical fiber cable was also placed in the trench, and the Broadband was under test on the fiber. Not you will note on BPL.

Very little of WA was ever wired by Cable as in Sydney and Melbourne for Cable TV, and therefore Cable Modems are not an option. The way is clear for the power authority to provide such services by Fiber as it replaces the overhead with underground. I have not found out what the tests revealed.

And having said all that, I am finding excessive noise in isolated pockets on the AM Broadcast band, from power lines in my area. I suspect the approved items used on Power lines obtainable from many outlets are not as bullet proof as we would like to suspect...

The saga continues.

--

The saga does indeed continue and Dennis is one of those at the forefront of the search. (WIA News)

(5 sec pause here)

**

RADIO AND THE LAW: CLUBS AND THE FCC

Still with legal issues, for a group to be eligible for a club callsign, the FCC has four criteria thar must be met. It says that a club must be made up of at least four members, have a name and legal document of organization and a primary purpose of being devoted to Amateur Radio activities consistent with FCC rules. But do you know how many of the members of a radio club need to hold ham radio licenses?

These and many other questions are answered by former FCC rules Chief John B. Johnston, W3BE, in an article titled "What Is a Club"

appearing in the just out December issue of Worldradio Magazine. And filling close to two pages, Johnston explains in great detail the recognition given clubs by the regulatory agency and the rules regarding club call signs.

If you have ever had questions regarding radio clubs and their dealings with the FCC, this is the tell all definitive article you have been waiting for. More about subscribing to Worldradio and sample issues is on-line at www.wr6wr.com

And less we forget, the answer to how many members of a radio club must hold a valid FCC issued ham radio license is only one. The rules say that at least one member must have an operator and primary station grant from the agency to apply for a club station license. (Worldradio)

**

RESCUE RADIO: US COAST GUARD AUXILIARY SEEKS RADIO AMATEURS

The ARRL Letter says that the U-S Coast Guard Auxiliary is looking for Amateur Radio operators or prospective amateur licensees. Amateur Radio Newsline's Bruce Tennant, K6PZW, has more:

--

Wayne Spivak, KC2NJV, is with the Coast Guard's National Public Affairs Department. He says that because the service operates every day, in good weather and in bad, that the U-S Coast Guard Auxiliary is on the air whether there is power to operate or not. And at times like these, the Coast Guard and the Auxiliary rely on the Auxiliary Net as a backup radio network. In areas with a large U-S Coast Guard presence, the AuxNet operates in both a support and backup capacity. More important, in regions where there is no regular Coast Guard presence, the Auxiliary may rely solely on its AuxNet for communication.

And because of this, Spivak says the Coast Guard Auxiliary is seeking ham radio volunteers. He says that this is because amateurs are good communicators. That they have developed both in everyday radio operation and participation during emergencies through RACES, ARES and SKYWARN.

Spivak believes that Amateur Radio and the U-S Coast Guard Auxiliary are an ideal fit. He says that the US Coast Guard Auxiliary is open to all US citizens over the age of 17. A security background check, paid for by the US Coast Guard, is required before an applicant is accepted. If you are interested in expanding your public service horizons, please visit the US Coast Guard Auxiliary Web site. Its in cyberspacw at www.cgaux.org. Again, that U-R-L is www.cgaux.org and I'm Bruce Tennant, K6PZW, reporting for the Amateur Radio Newsline.

--

A direct link to the U-S Coast Guard Auxiliary application webpage is at http://www.cgaux.org/cgauxweb/getzip.html (ARRL)

**

RESCUE RADIO : MARITIME MOBILES SERVICES NET NOW STREAMING AUDIO

The sound of the daily Maritime Mobile Service Net can now be heard in streaming audio on the Internet.

The net meets daily on 14.300 MHz between 16:00 UTC and 03:00 UTC. The audio streaming originates from the receive site of W-L-O Marine Radio in Mobile, Alabama using a Japan Radio Company N-R-D 535 D receiver fed from a T-C-I ground mounted loop antenna.

As with any streaming audio on the Internet, there will be an inherent lag from the time its encoded in Alabama and when you hear it on your computer. In this case the delay could be anywhere from 4 seconds to 1 minute, as compared to live on-the-air audio.

Because of this, this streamed audio is not meant to be used to control the net. Rather, it is intended as another means for non hams to listen to the net, family of boat crews to listen for the boat and a way to monitor the net when you are away from the radio or when you have no propagation to hear the net control station.

You can hear the streamed audio daily when the net is in operation. You will need a media player like Winamp or Real installed on your computer. Simply take your web browser to www.mmsn.org and click on the yellow icon that says "Listen Live." (MMSN)

**

ENFORCEMEMT: CBS PROTESTS JACKSON WARDROBE MALFUNCTION FINE

Viacom Corporation, the parent of the CBS network says the FCC's proposed 550-thousand-dollar fine for Janet Jackson's Super Bowl "wardrobe malfunction" is "entirely illogical." Viacom says neither it nor anyone at CBS knew Justin Timberlake would yank off a piece of Jackson's black leather top.

The move exposed Jackson's right breast for less than a second, but generated a-half (m) million complaints to the Federal Communications Commission. The fine is the largest ever imposed against a T-V outlet. Viacom is seeking to have it rescinded and has indicated that it will fight the matter in the Federal courts. (Published news reports)

**

ENFORCEMENT: WLFK-LP ADMONISHED FOR BROADCASTING ADVERTISEMENTS

Low Power FM stations are prohibited from broadcasting advertisements by the Communications Act of 1934 and by the FCC's own rules. And
doing so has brought a letter of admonishment to a Wisconsin based LPFM station.

This hand-slap went to WLFK-LP and is looked at as a fair warning to all Low Power F-M stations not to broadcast commercial

advertisements. A letter of admonishment carries a warning to cease and desist but no punitive action such as a fine. More is on-line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3555A1.doc (FCC)

**

TELECOMMUNICATIONS LAW: SPAMMER BOUNTY SUGGESTED BY FTC

The U.S. Federal Trade Commission has given its endorsement to a plan that would reward insiders for information leading to the arrest and conviction of people or companies that produce spam. In a recent report the FTC said that some anti-spam proposals, such as a "Do Not Spam" list similar to the agency's highly successful "Do Not Call" list, would not work and could make spam worse. But the agency said that providing monetary rewards for turning in spammers could work in some cases. The FTC is suggesting rewards ranging from $100,000 to $250,000 to turn spammers in. (FTC)

**

SPECIAL EVENTS: PEARL HARBOR DAY COMMEMORATIVES - DEC. 4 - 7

Two upcoming special event stations will be on the air to commemorate Pearl Harbor Day. The first will be operated by the Historical Electronics Museum Amateur Radio Club from December 4th to the 7th using the call sign W2W. Operation will be in the General; class segments of all of the high frequency bands. Further information is on-line at www.qsl.nwt/w3gr or by e-mail to w3gr@arrl.net (Worldradio)

The other operation we have heard about will be one day only on December 7th. This one by the U-S-S Kidd Amateur Radio Club down in Baton Rouge, Louisiana. Look for this operation mainly SSB on 30 meters from 14.250 to 14.320 MHz and C-W near the popular QRP calling frequencies on 40 through 10 meters. More on this one is on the web at www.lsu.edu/brarc (Worldradio)

**

SPECIAL EVENTS: THE BATTLE OF THE BULGE - DEC. 16 - 20

And a bit later in December the Anaheim California Police Amateur Radio Club will sponsor special event station K6B. This, to commemorate the 6oth anniversary of the famed Battle of the Bulge that took place during World War 2. Operation will be on 40 through 15 meters from December 16th through the 20th. For more information please e-mail km6hb@arrl.net. (Worldradio)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United
States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

NAMES IN THE NEWS: A FLY-IN TO HONOR K9TRG

He served the ham radio community for years, especially in the early days of F-M. And on Veterans Day, Thursday, November 11th, some nineteen hams from around the nation gathered at a restaurant in Suburban Chicago to honor their friend Art Householder, K9TRG, of Spectronics fame.

If you operated F-M in the 1960's or 1970's using radios like a
Motorola 80 D or a General Electric Progress Line, then the name Art Householder and the call sign K9TRG has to ring a bell. Back when F-M was in its infancy, Art was the premiere supplier of decommissioned police and taxi dispatch radios to the growing world of Amateur Radio F-M.

Now retired and in declining health, he cannot travel as he used to. So this year his friends came to the Rose Garden restaurant in Elkgrove, Illinois to spend the day with him.

And the list reads like a whose' who of ham radio including such notables as Evelyn Garrison, WS7A, who came from Washington State and F-M pioneer Dick McKay, K6VGP, of Los Angeles. From the Chicago area ATV pioneer Henry Rue, AA9XW, the FCC's Russell "Joe" Moonie and RAIN producer Hap Holly, KC9RP, were among those sharing the day with .

While the luncheon is held every Thursday, this was notable event for Art because of the number of people who either took time off from work or traveled thousands of miles to attend. And many say that they plan to do it again next year. (KC9RP)

**

RADIO LAW FOLLOW-UP: COURT ORDER ON PET CHIPS THAT CAN'T BE READ

Remember our story a few months ago about a particular pet identification transponder chip that were not compatible with most scanners in use in the United States? Well, it took some time but a judge now barred a company from selling or advertising these microchips.

The preliminary injunction from San Diego Superior Court Judge William C. Pate yesterday blocks several named defendants from

selling or advertising its unit called "Recovery Chip," If and when the company wants to resume selling or promoting the Recovery Chip product, the court must first approve the company's proposed advertisements. Also, any new ads must disclose that the Recovery Chip cannot be read by the majority of microchip scanners in U.S. shelters.

Banfield, the Pet Hospital has been the U.S. distributor of the particular per I-D chip. It is based in Portland, Oregon and operates in Pets Mart stores throughout the United States. Banfield voluntarily suspended microchip sales in early May, before the lawsuit was filed, and has no immediate plans to resume its microchip program. (Published news reports)

**

EMERGING TECHNOLOGY: FREE WIRELESS INTERNET ACCESS IN VAN NUYS CA

A pilot program to provide free wireless Internet access in part of Los Angeles began on October 29th. This at the Marvin Braude Constituent Services Center in the suburban of Van Nuys. During the six-month program, anyone in the area will be able to use a wireless-enabled notebook computer, P-D-A or other mobile device to access the Internet. The high-speed access will be available in the outdoor plaza, along Van Nuys Boulevard and in public meeting rooms and service counters in the building. (Computing)

**

WORLDBEAT - BELGIUM: QRP POWER TESTS ANNOUNCED

Sunday November 21st, , December 26th and January 16th are the dates announced of the second Belgian U-B-A 'Candlelight Tests." In these tests, several stations transmit simultaneously on 80, 40 or 30 meters running micro power levels ranging from 100 milliwatts down to 5 milliwatts. The challenge for participating amateurs is to copy the code words embedded in the transmitted messages. Full information is on the U-B-A website. A link to it appears ay www.uba.be/actual/candlelight/candlelight_en.html. (GB2RS)

**

DX

In D-X, PF5X, informs the Ohio Penn D X newsletter that he has received his license from the local authorities in Singapore. Also that his station was inspected and approved for active usage. His callsign is 9V1CW, and Enno says that he will be in Singapore for about 3 years. All QSLs via PA0KHS direct or via the bureau. (OPDX)

And word that N3SIG has been redeployed to McMurdo Station in Antarctica. Chris says that he expects to be there until March 5th. Thats the good news. The bad comes in a report that says the ham shack's antennas there were destroyed, and there us also damage to

the main HF rig. So he plans to hand carry a HF rig from his home in Pennsylvania to Antarctica. When he arrives, Chris says that he will construct a dipole and will be on the air as N3SIG stroke KC4. Listen for him mainly on 14 dot 243 MHz which is the unofficial Antarctica ham radio calling frequency. (OPDX)

Lastly, a real rare one with word that Christmas Island as VK9XG will be active from the 22nd of November until the 8th of December. The station will be operated by W0YG and W0MY and will be operational in the CQ world wide CW contest plus a much-needed RTTY activation on 40, 80 and 160 meters. QSL this one as directed on the air. (OPDX)

**

THAT FINAL ITEM: THE BAGDHAD REMOTE BASE - REVISITED

Two weeks ago we reported that former 73 Magazine Editor Keith Lamonica, W7DXX, had arranged for the installation of a remotely controlled transceiver in Baghdad, Iraq. A transceiver whose functions could be controlled by hams world wide over the Internet.

Well, that announcement by W7DXX has created quite a stir in ham radio circles because of the armed conflict taking part in that nation. This has resulted in many questions from the ham radio community that Lamonica recently addressed in an interview with Rain's Hap Holly, KC9RP. W7DXX says that some hams don't spend the
time to read whats in front of them:

--

Lamonica: "There has been a lot of activity, especially on the qrz.com site about the operation and people just don't take a breath and sit back and read the instructions. We have outlined everything that should satisfy anyones curiosity, but you still have people that just put their blinders on and go off to make wild statements."

--

Lamonica has lots more to say about the Baghdad remote and other uses of the Internet by ham radio. You can her it all on this weeks RAIN Report. Its on line in streaming audio at www.rainreport.com or on your phone at 847-827-7246. That number is easy to remember as 847-827-R-A-I-N. (ARNewsline(tm), RAIN)

It's easy for it to take a long time. When I was cleaning out our car to trade it in, I found a direct QSL request stuffed down the back of one of the seats. And I found a couple more during an office move earlier this year. On the positive side, I have sent out 10-20 thousand handwritten cards more promptly than this :-)

Derek aa5bt (previous qsl mangler for HC8N and 9V1YC)

>

Actually I find direct QSLing faster today than it ever has been. It is quite possible that the person had lost the card and just now found it and sent it out. Or perhaps they had been ill or had some other problem.

Dee D. Flint, N8UZE

1529. Re: this statement is made in loving memory of the university employee that was killed by matt parker

Ohio/Penn DX Bulletin No. 686

The Ohio/Penn DX PacketCluster
DX Bulletin No. 686
BID: $OPDX.686
November 22, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, W2LO, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, K5WW, NA5U, N6TJ, WA6CDR, K8YSE, W8KVU, W8LU, 9A7K, CE6TBN, DL1EK & The DX News Letter, DL4KQ, EC8AUA, F5CWU & La Gazette du DX, F5NQL & UFT, G3SWH, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, IZ8CGS, JH7BZR, JI3ERV/NH2C, JI6KVR & JA-IOTA Islands News, K6SRZ, LA5YJ, OH2BN, PA7FM, PS7AB, SP5UAF, VA3RJ & ICPO, VK4FW and VK6VZ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 14th/November, through Sunday, 21st/November there were 211 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9Q, 9V, 9Y, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

160 METERS NEWS.....
* Ijaz, AP2IA, states that he will be on daily at 0200z on 160 meters No frequency was provided.

* Operators Yasunori/JI1NJC and Yuu/JR2KDN will be active from Iceland (TF) from November 25th to December 1st. They will use a Rhombic antenna and KW, and are interested in the low band. Here is a good chance to get TF on 160 and 80 meters (espcially for Asia). Suggested frequencies are 1828.5 kHz (listening down 5) and 3503 kHz (listening up 5).

* By the time you read this, Charlie/W0YG and Burt/W0MY should have arrived on Christmas Island (VK9X) for a two week plus stay as VK9XG. Their major aim on this operation is 160 and 80 meter DX QSOs. According to Steve, VK6VZ, the "VK9XG is likely to be the last lowband DXpedition on Christmas Island for some time, as accomodation on the island that is suitable for radio purposes is increasingly difficult to find." Look for the operation to be on 1828.5, listening 5 kHz up and down. Charlie and Burt will operate from sunset until sunrise every day, while dozing in the dead periods. VK9X is a much easier shot on 160m for Europe than North America, so few USA stations have worked VK9X on 160m. A maximum effort will go into working North America on both SP and LP. Please QSL direct to W0YG. Instead of sending through the Bureau, please use the "Logbook of The World" (LoTW).

4K, AZERBAIJAN. Operators Rashad/4J9RI, Aleksandr/4J7WMF, Sergey/4J5A, Andrey/4K6DI and Igor/4K5D are in Baku and will be active as 4K7Z in the CQ WW DX CW Contest (November 27-28th) as a Multi-Op/All-Band/Single-Transmitter entry. QSL via UA3FDX (direct or by the bureau); and also for 2004 CQ WW DX SSB Contest and other periods of activity.

6O, SOMALIA. Baldur/DJ6SI and Thomas/DL1QW are now active until November 26th. Callsigns being used are 6O0X (CW) and 6O0W (SSB and RTTY). Activity will be on 160-10 meters. QSL 6O0X via DJ6SI and QSL 6O0W via DL1QW.

6W, SENEGAL. Look for Jacques, F6BEE, to be active as 6W1RW during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via F6BEE.

8Q, MALDIVES. Operators Igor/UA9CDC, Willy/UN9LW, Andrei/RA9CKQ, Alexey/UA9DD, Mikhail/RW6AN and Vadim/UA9CLB will be active as 8Q7DV in the CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via UA9CLB.

9K, KUWAIT. Faisal, 9K2RR, will be active as 9K2HN during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (40m) entry. QSL via 9K2HN.

9N, NEPAL. QSL Manager Dennis, PA7FM, informs OPDX that Michael, PA5M (aka ST2DX, TZ6M, 9U5M, 5U7DX and TY5M) is now in Nepal for a period of 3 weeks. He will apply for a licence, and if possible for 30, 20, 17 and 6 meters. It seems a radio licences in 9N-land is given for 2 bands at a time, so when you want 4 amateur bands, you will have to pay twice as much for the licence. (6 bands = 3 times the price). As this was being written, the callsign is not yet known. This time he will also try some digital modes like RTTY, PSK31 or JT6M. However, it's his first operation with this modes, so please be patient and don't expect too much. He will be using 100 watts

into a long wire for HF and a dipole for 6 meters. He is very anxious to work anything on 6 meters (Let's hope for some propagation). QSL direct only to PA7FM. There is a Web site with online logs and pictures as soon as they are received, at: http://www.pa7fm.nl

ACIAG. The members of Croatian Amateur Radio Asociation, a member of the IARU, formed the "All Croatian Islands Award Group" (ACIAG) at the beginning of October 2004. The ACIAG is opened to all radio amateurs and people who like chasing islands. The ACIA Group is an organization where you do not have to pay a membership fee; the membership is free. Your membership includes a membership award with a membership number; all you need to do is send the membership application with 3 IRC coupons to cover the postage expenses. The ACIA Group issues two awards:
All Croatian Islands Award (Basic)
All Croatian Islands Award (Diamond)
Awards above are available as Trophies, Diplomas, Certificates and Medals. Islands are "activated" very regularly. Also, this is appealing and available to the SWLs. Everything concerning the ACIAG and ACIA awards can be found on the Web page at: http://www.9a7k.com

AH2, GUAM. The Guam Contest Club (GCC) will be on the air during the CQ WW CW Contest (November 27- 28th) as AH2R. This time they set a target as the Oceanic leader in the Multi-OP Single-TX category and World Top 5. Also, they are trying to build an Oceanic record in this category. The GCC team on Guam Island (KH2, Zone 27, IOTA OC-026) consists of: Aki/JI3ERV/NH2C, Toshi/JR7OMD/WI3O, Seo/JR3RVO/WX8M and Masaki/JO1DFG/KH2XC. QSL via JH7QXJ, Direct (see QRZ.com) or the JA bureau ("NOT" the KH2 bureau). Their Sunrise/Sunset is: 2026/0750z

BW2, TAIWAN. Ayumi, JH7BZR, informs OPDX that operator Hack/JL1EEE, Iku/JL1WQO, Tad/JL1ANP and himself (JH7BZR) will be active from here starting Thursday, December 2nd (Late Midnight) through Monday, December 6th (Early Morning). Operators will sign BW2/JL1EEE, BW2/JL1WQO, BW2/JL1ANP and BW2/JH7BZR. They may have two stations active on 160-10 meters including the WARC bands. Suggested frequencies are:
CW - 1827.5 (listning up/down), 3505, 7005, 10135, 14030, 18090, 21030, 24915 and 28030 kHz
SSB - 3560, 7060, 14175, 18130, 21275, 24950 and 28475 kHz
RTTY - proper operating segments
The team will also take part in the 2004 ARRL 160 Meter Contest. Ayumi states, "We are not serious DXers or Top band specialists. But we would like to work many NA/EU/JA,etc. on top band as much as we can. Please be patient!! Suggestions will be appreciated. (We are studying the rules)" QSL via their home callsign; the bureau is welcome. There may be a log search. Visit the Web page at: http://homepage1.nifty.com/jh7bzr

CT3, MADEIRA ISLAND. Ken, W8LU, will be traveling to Madeira Island (AF-014) for CQ WW DX CW Contest (November 27-28th). During the contest he will be operating as a team member from CT9L. Outside of the contest he will be active, signing his home callsign portable, CT3/W8LU, beginning November 22nd. Please QSL CT3/W8LU via W8LU.

EA8, CANARY ISLAND. Jose, CT1BOH, will be active as EA8ZS during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via EA8ZS.

EA8, CANARY ISLAND. Ville, OH2MM, will be active as EA8EA in the CQ WW DX CW Contest (November 27-28th) as Single-Op/Single-Band (20m) entry. QSL via OH2MM.

EA8, CANARY ISLAND. Toivo, ES2RR, will be active as EA8EW in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (15m) entry. QSL via OH1MA.

EI, IRELAND. Wes, SP4Z, will be active as EI/SP4Z during the last week of November. He will participate CQ WW DX CW Contest as a Single-Op/All-Band/Low-Power entry. Also, there will be some activity before the contest. QSL via his home callsign.

HS0ZDZ/G3NOM AND HS0AC/HS72B CLUB STATION UPDATE. Robin, WA6CDR, informed OPDX with good and bad news. First the good. The HS72B CQWW CW and Special Operations team (DL3DXX, DL5LYM, G4ODV, G4UZN, WA6CDR, HS1CKC, HS0ZDX and HS0ZDZ) have received a very generous donation, and they will use it as matching funds toward a new, well equipped FT1000MarkV, shipping & customs costs for several FT980s they received with another generous donation, and repair/re-tube of their amplifiers, including a newly donated FL2100. They need your help to complete this project and bring the RAST club station online as a permanent full performance station. The team members are putting up their own money to make this happen; they need your help to finish the job properly. Now for the bad news. This project, however, was put on hold last week when station leader, Ray, HS0ZDZ/G3NOM, suffered a heart attack and is still hospitalized. The project has gotten everything back on track through major efforts of HS1CKC and HS0ZDX, but they still need your help. However, the news about Ray, HS0ZDZ/G3NOM, is not good, according to HS0ZDX. Anyone who would like to send their wishes for Ray's recovery may send them to: dx@thai.com
HS0ZDX will print out the messages and pass them on to his wife, daughter and son-in-law in Bangkok. OPDX and its readers would like to send out our best wishes and prayers for Ray's speedy recovery.

I0QHM/IA0PS, ANTARCTICA. The Mario Zucchelli Station (formerly known as Baia Terra Nova) at Terra Nova Bay, Victoria Land (AN-16), is improving the personnel. Among the 80 people present at the Base, there is Dr. Mario Pillon, a researcher from the Italian ENEA Dept. who holds a personal Ham callsign,I0QHM. He has been showing up on 14180 kHz at 1845z signing I0QHM/IA0PS. However, as this was being typed, Mario is now signing I0QHM/KC4. Mario is expected to remain in Antarctica until around mid-February. He could also operate from Dome C&#65533; and probably from other remote camps in the future if time and equipment permit. The Mario Zucchelli Station (MZS) is referenced for WAP as: WAP ITA-01

IOTA NEWS.....
AF-004. Members of the Canary Islands DX Society will activate Tufia Rock as EF8TDX, December 11-12th. Tufia Rock is valid for the Spanish Islands Award (D.I.E), reference: S-101. Activity

will be on 15 meters SSB only. The team that is activating AF-004 are licensed EC8 operators and are restricted to only operate below 21200 kHz. QSL Manager is EC8AUA (more details on QRZ.com). All QSLs will be posted through the URE Bureau after the operation. For more updated information, and also video/pictures after the EF8TDX activation, visit the Web page at: http://www.cidxs.com

SA-NEW. Marco, CE6TBN, informed OPDX on the following updated news on the Rennell Island IOTA (SA-NEW) DXpedition. The team now consists of CE6NE/Mario, K9AJ Mike, KD6WW Bruce, HA1AG Zoli and CE6TBN/Marco. The team will be on the air as CE8A on SSB and CW with two stations on 80-10 meters. The pilot stations are: VE3LYC/Cezar (EU & NA) and JA1QXY/Gou (AS & OC). Activity will take place February 10-15th (weather depending). QSL Manager is CE6NE; by the Bureau or direct to: P.O.Box 866, Temuco, Chile. Please visit the Web site at: http://www.ce6ne.cl

SA-020. (Update) Operators F9IE, F5TVG, F5VHQ, F8BJI and OE3GCU will activate Salut Islands (Royale) (DIFO FY-008), French Guiana, as TO7C from March 10-17th. The team is currently preparing and looking for input on bands and modes wants/needs. There is a survey available on the Web at: http://to7c.free.fr/traficuk.html
A online log will be available from the first days of activity for this F6KOP ARS DXpedition.

KC4, ANTARCTICA. Chris, KC4/N3SIG, reports that he "finally hooked up the ICOM 706 to the Amp in the ham shack, the antennas are all fixed and it's time to DX!" Look for him on 14243 kHz at or around 1930-2000 Local Eastern Time. ALL QSLs go to his home address and will be answered when he gets home.

KP1 & KP5, NAVASSA AND DESECHEO ISLAND. "The Lone Star DX Association (LSDXA) has joined the effort to get Navassa (KP1) and Desecheo (KP5) islands back on the air! As the primary DX organization associated with this effort, the LSDXA will assist in many important ways to achieve our common goal by encouraging Amateur radio operators to contact their Congressmen to support new legislation to re-open these islands, and help raise needed funds for court review of the U.S. Fish and Wildlife Service (FWS) ban of Amateur Radio on these islands. Action continues to be pursued aggressively on multiple fronts. The inital grass roots effort conducted by the DX and Contest community during the summer of 2004 has resulted in legislation being drafted to force the FWS to allow access to KP1 & KP5. As a result your help is immediately needed! Congressman Nick Rahall (D-WV) has introduced HR5361 in the House of Representatives. Congressman Richard Pombo (D-CA) has also signed on, making this a bipartisan effort. It is critical that each and every DXer and interested Contester contact their U.S. Representative now to tell them that this legislation is important to you. Ask them to contact Rep. Rahall's office (202-225-3452; fax 202-

225-9061) and offer to sign-on to this pending legislation. With your support, this legislation will be successful and move onto the Senate and ultimately the President to be signed into law." The above is just part of a very long press release by the LSDXA. It is important for interested DXers and Contesters to read the whole press release. It can be downloaded as a PDF file at:
http://briefcase.yahoo.com/michael.l.thomas@sbcglobal.net
(Click on "Island Project" and download "News ReleaseR8")
As the host organization for the project, the LSDXA has donated 500 USD to a fund it will administer to help pay for the costs of moving the effort forward in Congress and in court. If you or your organization would like to help, please send your donation to the Lone Star DX Association, c/o Jim Bass, K5KQI, 2709 Monarch Dr., Arlington, TX 76006. Mark your donation for the "Navassa-Desecheo Project." Your help, in whatever amount, will be greatly appreciated! LSDXA has been granted 501(c)(3) tax exempt status by the Internal Revenue Service. News updates, additional information and resources can be found at: http://www.dxer.org

LIGHTHOUSE ACTIVITY. Members of the LABRE/RN will activate the Lighthouse Gameleira, December 3-5th. They will use the callsign ZY7LH. Activity will be on CW, SSB, PSK31 and RTTY. Bands were not mentioned. Reference numbers are: DFB RN 05, ARLHS BRA 133 and Grid HI24GS. QSL via PS7AA: LABRE/RN, P.O. Box 251, 59010-970, Natal / RN - BRAZIL.

OFFICERS ELECTED FOR 2005. The Southwest Ohio DX Association officers for 2005 are: President Peter Meyer, N0FW
Vice President Ron Moorefield, W8ILC
Secretary William Moore, W8KVU
Treasurer Jay Slough, K4ZLE

OH0, ALAND ISLAND. Toni, OH2UA, will be active as OH0B during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (40m) entry. QSL via OH2BH.

P4, ARUBA. John/W6LD, Denny/KX7M and Rick/N6XI will be participating as P40L in the CQ WW DX CW Contest from John's station on Aruba. QSL via the bureau or direct to K5WW. The log will also be uploaded to the LoTW.

P5, NORTH KOREA. There is a Web page reporting that Mark, OH5XL, will try to activate North Korea during Christmas. The Elstar Web page also states the following details:
"Problem is money. We wish support and donation to Mark for his trip. Permission will be for CW and SSB. Operation mainly on CW. Using AEA PK-232DSP, Alinco DX-70TH and Smart Tuner. ELSTAR Oy, Ltd supports on USD 1000, - We wish your firm could do the same. Full three day operation takes at least USD 5000 more. Antennas: Smart GP, Smart Qwiere, all from ELSTAR. If Mark is not in the Air, the donation will be used for other trip during 2005. At least Mark will be there. Permission is not sure yet. All support helps."
To see the announcement (and possible updates), visit the Web page at:
http://www.elstar.fi/hinnastot/dx_today/dxtoday.htm

PACIFIC DXPEDITION. Just a reminder that Dominique/F6EPY, Kar/F6GNZ and Michel/F6COW will start their Pacific operations this week (November 24th) starting from Rarotonga (OC-013), South Cook Islands. Please refer to OPDX.683 for more details on islands to be activated and QSL routes.

QSL INFO AND NEWS.....
QSL Manager Patrice, F6JOB, announced that he is no longer the manager for the expeditions (past and future) organized by Dominique, F6EPY. This includes the following callsigns: YJ0APY, ZK1EPY, 5W0DA, and now FO/ZK1EPY and ZK1EPY (2004).

QSL TM6OLM via F6KFO. This is activity is to celebrate the 60th anniversary of the liberation of the town of Metz, France. Members of the F6KFO ARS will be active until the 26th of November. However, the main activity was to happen between November 21-22nd.

TX9 ONLINE LOG. It has been reported that the TX9 group is citing some problems with the online log and have turned it off. They have further stated that they do not plan to reinstate it. The link to the TX9 site with this news is: http://www.df3cb.com/chesterfield/news.html

VK9LA/VK9LW QSL cards are now at the printers. Bill, VK4FW, states, "We should have them back in 14 days. QSLING will begin immediately. As cards are done, they will be posted . This will take place daily until all requests are out. Those that have not sent the required return postage will be done last. Some people have put VK stamps on their return envelopes..... this is not acceptable as most times the amounts are incorrect..... it is better to just send IRCs, Euros or USDs."

YV0D QSLS. "The Daily DX" reports that the YV0D QSL cards are expected to be shipped on November 20th and in the hands of QSL Manager KB6NAN, Dianna, around Thanksgiving. She will start to answer requests as soon as she gets the QSLs.

S9, SAO TOME AND PRINCIPE. Excerpts from a press release by Jarmo, OH2BN, states that operators Pekka/OH2TA, Pertti/OH2PM and Martti/OH2BH will be active from the Democratic Republic of Sao Tome and Principe, starting Saturday, November 20th, and running for two weeks, including the CQWW DX CW Contest. They will activate two stations covering all bands, CW and SSB. The callsign S9BB will be used outside the contest and S9RR in the contest. QSL manager is Pekka, OH2TA. The expedition is supported by Charles Lewis/S9SS, Mike Mertel/K7IR (SteperIR), Vertex Standard (Yaesu) and Marlin Beach Hotel, Sao Tome. Suggested frequencies are:

CW - 1823/1833, 3503, 7003, 10103, 14023, 18073, 21023, 24893, 28023 kHz
SSB - 3795, 7045, 14195, 18145, 21295, 24945, 28,495 kHz

Daily contacts will be maintained with Pertti/OH2RF, Bill/K6GNX and Yoichi/JP1NWZ.

SPECIAL ACTIVITY. Wojtek, SP8MI, will use the special Polish callsign HF8IARU, from January 25th through March 6th. Activity will be on the HF bands, CW and possibly more modes. QSL via SP8MI. No details or reasons

were provided for this special activity.

SPECIAL EVENT. French amateurs in the Loire and Sarthe Departments are involved with a "French 36 hours Telethon 2004" (which collects funds in fighting genetic dieases) and will be active with special callsigns before, during and after the event. Look for the following French stations to be active:
* The Loire Department and F6KRG hams will be active December 3-4th as TM8TLN. Activity will be on HF/VHF, CW, SSB and SSTV. QSL via operator's instructions.
* The Sarthe Department hams will be active as TM6TLT, from December 1-8th, with the main activity on the 3rd and 4th. QSL via operator's instructions.

SPECIAL EVENT. To celebrate the 100th anniversary of the Dutch Coastal Station, (PCH Scheveningen Radio which closed down December 31, 1998) look for special event station PC100H to be active from 0700z Saturday, December 18th until 1900z Sunday, December 19th. Suggested frequencies are:
CW - 1830, 3530, 7030, 10130, 14030, 18090, 21030, 28030
SSB - 1850, 3650, 7050, 14250, 18150, 21250, 28250
FM - 144.250 and 145.250
RTTY/PSK31 - 10145
For the actual schedule, please refer to the Web page at:
http://www.remeeus.nl/pch/pc100h.htm

ST, SUDAN. Hugo, LA5YJ, is now in Khartoum, and will apply for a license as soon as the holy days have passed. He will try to get ST7YJ, and this time the QSLs for the Sudan will go to LA4YW. All of his other operations (9N7YJ, XU7ACW, MI0YJR and his home callsign LA5YJ) will still be handled by him. All QSL cards received via the bureau and direct were taken care of before his departure on the 13th of November. More details are forthcoming.

ST. SUDAN. QSL Manager Dennis, PA7FM, informs OPDX that Paul, ST2PN, is in Khartoum for his work for the WFP of the UN, and will remain active until the 3rd of December, and then return back home to Norway. However, as things look right now, he will go back to the Sudan for another half a year in January 2005. He will also be active again as ST2PN. That is only when time allows and when he's not in the field in Darfur (the problem area in Sudan and where radio operations are not allowed), the work area for Paul. Online logs and photos (of his the 10 element log-periodic that came down in a storm) are available on: http://www.pa7fm.nl
QSL direct only to PA7FM (QRZ.com address), as Paul is not a member of the PA bureau.

SU, EGYPT. Tom, N9NC, will be active as SU9NC during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via OM2SA.

T33C VIDEO. "The T33C Banaba Dxpedition video is now available. The video package includes two discs, one is a DVD record of the expedition, including

details of the radio operation and scenes of Banaba and its people. The soundtrack includes lots of wonderful music performed by Banaban musicians, recorded during the expedition. This is an expanded version of the video that premiered at the Northwest DX Convention earlier this year. The second disc contains still photographs of Banaba and many of the Powerpoint slides that were shown at the recent Friedrichshafen hamfest. It's easy to order on-line, and, if desired, pay with PayPal. On-line ordering details are at:
http://www.dx-pedition.de/banaba2004/order_dvd.htm
The price is 15.00 USD plus 2.50 USD postage in the USA and territories.
Outside of the USA, the package sells for 12 Euro plus 3 Euro postage.
Outside of the USA, please follow order instructions on our Web site.
USA hams can order through my PayPal account doctore@well.com or direct to my address: Alan Eshleman., K6SRZ, 2213 Vine Street, Berkeley CA 94709.
All proceeds will go toward paying off the expenses of the expedition.
.... 73, Alan/K6SRZ"

TF3, ICELAND. Sigurdur, TF3CW, will be active during the CQ WW DX CW Contest (November 27-28, 2004) as Single-Op/All-Band/High-Power entry. QSL via LX1NO.

TO4, MARTINIQUE. Jim, N6TJ, will be active as TO4A in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band entry. He will be operating from FM5BH's QTH. QSL via VE3HO.

VE2, CANADA (Zone 2). Vladimir/VE3JM and Nikola/VE3EY will be active as VE2/homecall from Sept Iles, Quebec, which is located in CQ Zone 2, between January 13-19th. Their main focus will be on the lower bands. They will use verticals for 80/160 meters. QSL via their home callsigns.

VQ9, CHAGOS ISLANDS. Roger, W9ROG, will be on Diego Garcia (AF-006) until the end of the year with the United States Air Force Security Forces. He is currently operating as VQ9OG on his days off and will be operating on 80-10 meters including the WARC bands. Watch 7067 and 7088 kHz after 1930z. Watch 15 meters SSB between 1200-140 and 20 meters SSB after 1400z. QSL via his home callsign of W9ROG.

VU4, ANDAMAN ISLANDS (Update). A flurry of press releases were sent out this past week. In short, it is now offical, Bharathi, VU2RBI, has received permission to operate from the Port Blair, Andaman Islands. Her press release states:

"A special permission of Ministry of Communications and Information Technology, Department of Telecommunication is accorded on 19th November, 2004 to Mrs. D. Bharathi Prasad, VU2RBI (Team Leader) along with Mr. D. N. Prasad, VU2DBP, Mr. D.S. Varun Sastry, VU3DVS, Mr. S. Ram Mohan, VU2MYH and Mr. R. Sarath Babu, VU3RSB, respectively to use special callsigns VU4NRO and VU4RBI and shift their location to Andaman and Nicobar Islands from 3 December 2004."

The Chairman, Governing Council & Members of NIAR & Hams wish the members of Andaman Dxpedition team a grand success.

For Dxpedition News / Site will be updated in www.niar.org

All correspondence related to this Expedition to niarvu4@gmail.com

73s D.Bharathi Prasad, VU2RBI
Chief Co-ordinator, NIAR
Team Leader, Andaman Dxpedition - 2004

Word has it that she and her team have permission to operate between December 3-31st. Earlier in the week (while Bharathi was waiting for the official permission to be granted), Bharathi sent out a press release stating she was extremely grateful to the DX Community for the encouragement by their letters and E-mails. She states, "It is your opinions/suggestions/recommendations made to Mr. Dayanidhi Maran, Honorable Minister of Communications and others made it possible for me and the National Institute of Amateur Radio (NIAR is a national organisation for Amateur Radio in India is fully supporting me) to achieve very good results."

Please remember that funds are still needed for this operation. Donations/funds should be directed to: National Institute of Amateur Radio
Raj Bhavan Road
Hyderabad 500 082
India

Funds can also be sent to the Charles, K4VUD. Charles states, "Any and all donations that come to me will be completely used to assist this DXpedition via the National Institute of Amateur Radio in India, the umbrella sponsoring agency who, BTW, is allowed to receive foreign funds." K4VUD mail address is: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732 USA. Charles also states/recommands the following words to the DX community: "This is truly an exciting moment for ham radio DXing, activating an entity silent for about 17 years. Please be on your best on-air behavior when calling. We want to show ham radio to the India government and the world regulatory bodies that we are a disciplined and worth while activity, fully deserving of precious spectrum space. There are no firm answers yet as to what bands/modes nor what rigs/antennas. This DXpedition is not a mass group of crack operators arriving with tons of gear. However, there is some possibility of a continuing re-newal of permits to VU4 by many India hams, thus, we have the hope of more contact opportunities in the future. Warm up the rigs ... here we go !"
73, Charles Harpole

>>> NAVASSA (KP1) & DESECHEO (KP5) <<<

The following is a summary of recent releases circulated by Carl Smith, N4AA (Editor of QRZ-DX), Bernie McLenny, W3UR (Editor of The Daily DX) and Michael Thomas, NA5U (Lone Star DX Association).

US Congressman Nick Rahall (Democrat of West Virginia), ranking member of the U.S. House Committee on Resources, has agreed to sponsor a bill that in effect would force the US Fish and Wildlife Service to allow occasional DXpeditions to either Navassa and Desecheo. The FWS has heretofore turned down every recent DXpedition effort to these places based on what the bill's sponsors believe to be erroneous interpretation of the law governing wildlife refuges. The bill, which is co-sponsored by Congressman Richard Pombo (Republican of California), was introduced on 16 November as Bill # HR 5361.

This is the result of a group effort led by attorney Brad Farrell, K4RT and Michael Thomas, NA5U. At least 30 other DXers and a number of DX groups are assisting to move the legislative effort forward.

DXers all over the US are invited to contact their respective Congressmen as soon as possible, and ask for their support of Bill # HR 5361. A sample letter can be found at http://www.dailydx.com/int2E.DOC. You can find your Congressman's name at http://www.house.gov/writerep/ and his snail mail address at http://clerk.house.gov/members/index.html.

Brad Farrell, K4RT has also filed an appeal with a federal court, seeking review of the agency's closure of the islands to amateur radio. Judicial review will be prolonged and costly, and the Lone Star DX Association, the primary DX organization associated with this effort, is helping raise needed funds. As the host organization for the project, the LSDXA has donated $500 to a fund it will administer to help pay for the costs of moving the effort forward in Congress and in court. If you or your organization would like to help, please send your donation to the Lone Star DX Association c/o Jim Bass, K5KQI, 2709 Monarch Dr., Arlington, TX 76006. Mark your donation for the "Navassa-Desecheo Project." News updates, additional information and resources can be found at http://www.dxer.org/.

>
> * PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or
> more likely a "BUSTED CALLSIGN". As always, you never know - "Work
> First Worry Later" (WFWL).
>
> 160 METERS NEWS.....
> * Ijaz, AP2IA, states that he will be on daily at 0200z on 160 meters
> No frequency was provided.
>
> * Operators Yasunori/JI1NJC and Yuu/JR2KDN will be active from Iceland
> (TF) from November 25th to December 1st. They will use a Rhombic
> antenna and KW, and are interested in the low band. Here is a good
> chance to get TF on 160 and 80 meters (espcially for Asia). Suggested
> frequencies are 1828.5 kHz (listening down 5) and 3503 kHz (listening
> up 5).
>
> * By the time you read this, Charlie/W0YG and Burt/W0MY should have
> arrived
> on Christmas Island (VK9X) for a two week plus stay as VK9XG. Their
> major aim on this operation is 160 and 80 meter DX QSOs. According to
> Steve, VK6VZ, the "VK9XG is likely to be the last lowband DXpedition
> on Christmas Island for some time, as accomodation on the island that
> is suitable for radio purposes is increasingly difficult to find." Look
> for the operation to be on 1828.5, listening 5 kHz up and down. Charlie
> and Burt will operate from sunset until sunrise every day, while dozing
> in the dead periods. VK9X is a much easier shot on 160m for Europe than
> North America, so few USA stations have worked VK9X on 160m. A maximum
> effort will go into working North America on both SP and LP. Please QSL
> direct to W0YG. Instead of sending through the Bureau, please use the
> "Logbook of The World" (LoTW).
>
> 4K, AZERBAIJAN. Operators Rashad/4J9RI, Aleksandr/4J7WMF, Sergey/4J5A,
> Andrey/4K6DI and Igor/4K5D are in Baku and will be active as 4K7Z in the
> CQ WW DX CW Contest (November 27-28th) as a Multi-Op/All-Band/Single-
> Transmitter entry. QSL via UA3FDX (direct or by the bureau); and also for
> 2004 CQ WW DX SSB Contest and other periods of activity.
>
> 6O, SOMALIA. Baldur/DJ6SI and Thomas/DL1QW are now active until November
> 26th. Callsigns being used are 6O0X (CW) and 6O0W (SSB and RTTY). Activity
> will be on 160-10 meters. QSL 6O0X via DJ6SI and QSL 6O0W via DL1QW.
>
> 6W, SENEGAL. Look for Jacques, F6BEE, to be active as 6W1RW during the
> CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power
> entry. QSL via F6BEE.
>
> 8Q, MALDIVES. Operators Igor/UA9CDC, Willy/UN9LW, Andrei/RA9CKQ, Alexey/
> UA9DD, Mikhail/RW6AN and Vadim/UA9CLB will be active as 8Q7DV in the
> CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via

> UA9CLB.
>
> 9K, KUWAIT. Faisal, 9K2RR, will be active as 9K2HN during the CQ WW DX
> CW Contest (November 27-28th) as a Single-Op/Single-Band (40m) entry.
> QSL via 9K2HN.
>
> 9N, NEPAL. QSL Manager Dennis, PA7FM, informs OPDX that Michael, PA5M (aka
> ST2DX, TZ6M, 9U5M, 5U7DX and TY5M) is now in Nepal for a period of 3
> weeks.
> He will apply for a licence, and if possible for 30, 20, 17 and 6 meters.
> It seems a radio licences in 9N-land is given for 2 bands at a time, so
> when you want 4 amateur bands, you will have to pay twice as much for the
> licence. (6 bands = 3 times the price). As this was being written, the
> callsign is not yet known. This time he will also try some digital modes
> like RTTY, PSK31 or JT6M. However, it's his first operation with this
> modes,
> so please be patient and don't expect too much. He will be using 100 watts
> into a long wire for HF and a dipole for 6 meters. He is very anxious to
> work anything on 6 meters (Let's hope for some propagation). QSL direct
> only to PA7FM. There is a Web site with online logs and pictures as soon
> as they are received, at: http://www.pa7fm.nl
>
> ACIAG. The members of Croatian Amateur Radio Asociation, a member of the
> IARU, formed the "All Croatian Islands Award Group" (ACIAG) at the
> beginning
> of October 2004. The ACIAG is opened to all radio amateurs and people
> who like chasing islands. The ACIA Group is an organization where you do
> not have to pay a membership fee; the membership is free. Your membership
> includes a membership award with a membership number; all you need to do
> is send the membership application with 3 IRC coupons to cover the postage
> expenses. The ACIA Group issues two awards:
> All Croatian Islands Award (Basic)
> All Croatian Islands Award (Diamond)
> Awards above are available as Trophies, Diplomas, Certificates and Medals.
> Islands are "activated" very regularly. Also, this is appealing and
> available to the SWLs. Everything concerning the ACIAG and ACIA awards
> can be found on the Web page at: http://www.9a7k.com
>
> AH2, GUAM. The Guam Contest Club (GCC) will be on the air during the CQ WW
> CW Contest (November 27- 28th) as AH2R. This time they set a target as the
> Oceanic leader in the Multi-OP Single-TX category and World Top 5. Also,
> they are trying to build an Oceanic record in this category. The GCC team
> on Guam Island (KH2, Zone 27, IOTA OC-026) consists of: Aki/JI3ERV/NH2C,
> Toshi/JR7OMD/WI3O, Seo/JR3RVO/WX8M and Masaki/JO1DFG/KH2XC. QSL via
> JH7QXJ,
> Direct (see QRZ.com) or the JA bureau ("NOT" the KH2 bureau). Their
> Sunrise/Sunset is: 2026/0750z
>
> BW2, TAIWAN. Ayumi, JH7BZR, informs OPDX that operator Hack/JL1EEE,
> Iku/JL1WQO, Tad/JL1ANP and himself (JH7BZR) will be active from here

> starting Thursday, December 2nd (Late Midnight) through Monday, December
> 6th (Early Morning). Operators will sign BW2/JL1EEE, BW2/JL1WQO,
> BW2/JL1ANP
> and BW2/JH7BZR. They may have two stations active on 160-10 meters
> including
> the WARC bands. Suggested frequencies are:
> CW - 1827.5 (listning up/down), 3505, 7005, 10135, 14030, 18090,
> 21030, 24915 and 28030 kHz
> SSB - 3560, 7060, 14175, 18130, 21275, 24950 and 28475 kHz
> RTTY - proper operating segments
> The team will also take part in the 2004 ARRL 160 Meter Contest. Ayumi
> states, "We are not serious DXers or Top band specialists. But we would
> like to work many NA/EU/JA,etc. on top band as much as we can. Please be
> patient!! Suggestions will be appreciated. (We are studying the rules)"
> QSL via their home callsign; the bureau is welcome. There may be a log
> search. Visit the Web page at: http://homepage1.nifty.com/jh7bzr
>
> CT3, MADEIRA ISLAND. Ken, W8LU, will be traveling to Madeira Island
> (AF-014)
> for CQ WW DX CW Contest (November 27-28th). During the contest he will
> be operating as a team member from CT9L. Outside of the contest he will
> be active, signing his home callsign portable, CT3/W8LU, beginning
> November
> 22nd. Please QSL CT3/W8LU via W8LU.
>
> EA8, CANARY ISLAND. Jose, CT1BOH, will be active as EA8ZS during the
> CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power
> entry. QSL via EA8ZS.
>
> EA8, CANARY ISLAND. Ville, OH2MM, will be active as EA8EA in the CQ WW
> DX CW Contest (November 27-28th) as Single-Op/Single-Band (20m) entry.
> QSL via OH2MM.
>
> EA8, CANARY ISLAND. Toivo, ES2RR, will be active as EA8EW in the CQ WW
> DX CW Contest (November 27-28th) as a Single-Op/Single-Band (15m) entry.
> QSL via OH1MA.
>
> EI, IRELAND. Wes, SP4Z, will be active as EI/SP4Z during the last week
> of November. He will participate CQ WW DX CW Contest as a Single-Op/All-
> Band/Low-Power entry. Also, there will be some activity before the
> contest.
> QSL via his home callsign.
>
> HS0ZDZ/G3NOM AND HS0AC/HS72B CLUB STATION UPDATE. Robin, WA6CDR, informed
> OPDX with good and bad news. First the good. The HS72B CQWW CW and Special
> Operations team (DL3DXX, DL5LYM, G4ODV, G4UZN, WA6CDR, HS1CKC, HS0ZDX and
> HS0ZDZ) have received a very generous donation, and they will use it as
> matching funds toward a new, well equipped FT1000MarkV, shipping & customs
> costs for several FT980s they received with another generous donation, and
> repair/re-tube of their amplifiers, including a newly donated FL2100. They

> need your help to complete this project and bring the RAST club station
> online as a permanent full performance station. The team members are
> putting
> up their own money to make this happen; they need your help to finish the
> job properly. Now for the bad news. This project, however, was put on hold
> last week when station leader, Ray, HS0ZDZ/G3NOM, suffered a heart attack
> and is still hospitalized. The project has gotten everything back on track
> through major efforts of HS1CKC and HS0ZDX, but they still need your help.
> However, the news about Ray, HS0ZDZ/G3NOM, is not good, according to
> HS0ZDX. Anyone who would like to send their wishes for Ray's recovery
> may send them to: dx@thai.com
> HS0ZDX will print out the messages and pass them on to his wife, daughter
> and son-in-law in Bangkok. OPDX and its readers would like to send out
> our best wishes and prayers for Ray's speedy recovery.
>
> I0QHM/IA0PS, ANTARCTICA. The Mario Zucchelli Station (formerly known as
> Baia Terra Nova) at Terra Nova Bay, Victoria Land (AN-16), is improving
> the personnel. Among the 80 people present at the Base, there is Dr.
> Mario Pillon, a researcher from the Italian ENEA Dept. who holds a
> personal
> Ham callsign,I0QHM. He has been showing up on 14180 kHz at 1845z signing
> I0QHM/IA0PS. However, as this was being typed, Mario is now signing
> I0QHM/KC4. Mario is expected to remain in Antarctica until around mid-
> February. He could also operate from Dome C. and probably from other
> remote
> camps in the future if time and equipment permit. The Mario Zucchelli
> Station (MZS) is referenced for WAP as: WAP ITA-01
>
> IOTA NEWS.....
> AF-004. Members of the Canary Islands DX Society will activate Tufia
> Rock as EF8TDX, December 11-12th. Tufia Rock is valid for
> the Spanish Islands Award (D.I.E), reference: S-101. Activity
> will be on 15 meters SSB only. The team that is activating
> AF-004 are licensed EC8 operators and are restricted to only
> operate below 21200 kHz. QSL Manager is EC8AUA (more details
> on QRZ.com). All QSLs will be posted through the URE Bureau
> after the operation. For more updated information, and also
> video/pictures after the EF8TDX activation, visit the Web page
> at: http://www.cidxs.com
>
> SA-NEW. Marco, CE6TBN, informed OPDX on the following updated news
> on the Rennell Island IOTA (SA-NEW) DXpedition. The team now
> consists of CE6NE/Mario, K9AJ Mike, KD6WW Bruce, HA1AG Zoli
> and CE6TBN/Marco. The team will be on the air as CE8A on SSB
> and CW with two stations on 80-10 meters. The pilot stations
> are: VE3LYC/Cezar (EU & NA) and JA1QXY/Gou (AS & OC). Activity
> will take place February 10-15th (weather depending). QSL
> Manager is CE6NE; by the Bureau or direct to: P.O.Box 866,
> Temuco, Chile. Please visit the Web site at:
> http://www.ce6ne.cl

>
> SA-020. (Update) Operators F9IE, F5TVG, F5VHQ, F8BJI and OE3GCU will
> activate Salut Islands (Royale) (DIFO FY-008), French Guiana,
> as TO7C from March 10-17th. The team is currently preparing
> and looking for input on bands and modes wants/needs. There
> is a survey available on the Web at:
> http://to7c.free.fr/traficuk.html
> A online log will be available from the first days of activity
> for this F6KOP ARS DXpedition.
>
> KC4, ANTARCTICA. Chris, KC4/N3SIG, reports that he "finally hooked up the
> ICOM 706 to the Amp in the ham shack, the antennas are all fixed and it's
> time to DX!" Look for him on 14243 kHz at or around 1930-2000 Local
> Eastern
> Time. ALL QSLs go to his home address and will be answered when he gets
> home.
>
> KP1 & KP5, NAVASSA AND DESECHEO ISLAND. "The Lone Star DX Association
> (LSDXA) has joined the effort to get Navassa (KP1) and Desecheo (KP5)
> islands back on the air! As the primary DX organization associated with
> this effort, the LSDXA will assist in many important ways to achieve our
> common goal by encouraging Amateur radio operators to contact their
> Congressmen to support new legislation to re-open these islands, and help
> raise needed funds for court review of the U.S. Fish and Wildlife Service
> (FWS) ban of Amateur Radio on these islands. Action continues to be
> pursued
> aggressively on multiple fronts. The inital grass roots effort conducted
> by
> the DX and Contest community during the summer of 2004 has resulted in
> legislation being drafted to force the FWS to allow access to KP1 & KP5.
> As a result your help is immediately needed! Congressman Nick Rahall
> (D-WV)
> has introduced HR5361 in the House of Representatives. Congressman Richard
> Pombo (D-CA) has also signed on, making this a bipartisan effort. It is
> critical that each and every DXer and interested Contester contact their
> U.S. Representative now to tell them that this legislation is important
> to you. Ask them to contact Rep. Rahall's office (202-225-3452; fax 202-
> 225-9061) and offer to sign-on to this pending legislation. With your
> support, this legislation will be successful and move onto the Senate
> and ultimately the President to be signed into law." The above is just
> part of a very long press release by the LSDXA. It is important for
> interested DXers and Contesters to read the whole press release. It
> can be downloaded as a PDF file at:
> http://briefcase.yahoo.com/michael.l.thomas@sbcglobal.net
> (Click on "Island Project" and download "News ReleaseR8")
> As the host organization for the project, the LSDXA has donated 500 USD
> to a fund it will administer to help pay for the costs of moving the
> effort
> forward in Congress and in court. If you or your organization would like
> to help, please send your donation to the Lone Star DX Association,

> c/o Jim Bass, K5KQI, 2709 Monarch Dr., Arlington, TX 76006. Mark your
> donation for the "Navassa-Desecheo Project." Your help, in whatever
> amount,
> will be greatly appreciated! LSDXA has been granted 501(c)(3) tax exempt
> status by the Internal Revenue Service. News updates, additional
> information and resources can be found at: http://www.dxer.org
>
> LIGHTHOUSE ACTIVITY. Members of the LABRE/RN will activate the Lighthouse
> Gameleira, December 3-5th. They will use the callsign ZY7LH. Activity
> will be on CW, SSB, PSK31 and RTTY. Bands were not mentioned. Reference
> numbers are: DFB RN 05, ARLHS BRA 133 and Grid HI24GS. QSL via PS7AA:
> LABRE/RN, P.O. Box 251, 59010-970, Natal / RN - BRAZIL.
>
> OFFICERS ELECTED FOR 2005. The Southwest Ohio DX Association officers
> for 2005 are: President Peter Meyer, N0FW
> Vice President Ron Moorefield, W8ILC
> Secretary William Moore, W8KVU
> Treasurer Jay Slough, K4ZLE
>
> OH0, ALAND ISLAND. Toni, OH2UA, will be active as OH0B during the CQ
> WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (40m)
> entry. QSL via OH2BH.
>
> P4, ARUBA. John/W6LD, Denny/KX7M and Rick/N6XI will be participating as
> P40L in the CQ WW DX CW Contest from John's station on Aruba. QSL via
> the bureau or direct to K5WW. The log will also be uploaded to the LoTW.
>
> P5, NORTH KOREA. There is a Web page reporting that Mark, OH5XL, will
> try to activate North Korea during Christmas. The Elstar Web page also
> states the following details:
> "Problem is money. We wish support and donation to Mark for his trip.
> Permission will be for CW and SSB. Operation mainly on CW. Using AEA
> PK-232DSP, Alinco DX-70TH and Smart Tuner. ELSTAR Oy, Ltd supports
> on USD 1000, - We wish your firm could do the same. Full three day
> operation takes at least USD 5000 more. Antennas: Smart GP, Smart
> Qwiere, all from ELSTAR. If Mark is not in the Air, the donation
> will be used for other trip during 2005. At least Mark will be there.
> Permission is not sure yet. All support helps."
> To see the announcement (and possible updates), visit the Web page at:
> http://www.elstar.fi/hinnastot/dx_today/dxtoday.htm
>
> PACIFIC DXPEDITION. Just a reminder that Dominique/F6EPY, Kar/F6GNZ and
> Michel/F6COW will start their Pacific operations this week (November
> 24th) starting from Rarotonga (OC-013), South Cook Islands. Please refer
> to OPDX.683 for more details on islands to be activated and QSL routes.
>
> QSL INFO AND NEWS.....................
> QSL Manager Patrice, F6JOB, announced that he is no longer the manager
> for the expeditions (past and future) organized by Dominique, F6EPY.
> This includes the following callsigns: YJ0APY, ZK1EPY, 5W0DA, and now

> FO/ZK1EPY and ZK1EPY (2004).
>
> QSL TM6OLM via F6KFO. This is activity is to celebrate the 60th
> anniversary of the liberation of the town of Metz, France. Members
> of the F6KFO ARS will be active until the 26th of November. However,
> the main activity was to happen between November 21-22nd.
>
> TX9 ONLINE LOG. It has been reported that the TX9 group is citing some
> problems with the online log and have turned it off. They have further
> stated that they do not plan to reinstate it. The link to the TX9 site
> with this news is: http://www.df3cb.com/chesterfield/news.html
>
> VK9LA/VK9LW QSL cards are now at the printers. Bill, VK4FW, states,
> "We should have them back in 14 days. QSLING will begin immediately.
> As cards are done, they will be posted . This will take place daily
> until all requests are out. Those that have not sent the required
> return postage will be done last. Some people have put VK stamps on
> their return envelopes..... this is not acceptable as most times
> the amounts are incorrect..... it is better to just send IRCs, Euros
> or USDs."
>
> YV0D QSLS. "The Daily DX" reports that the YV0D QSL cards are expected
> to be shipped on November 20th and in the hands of QSL Manager KB6NAN,
> Dianna, around Thanksgiving. She will start to answer requests as soon
> as she gets the QSLs.
>
> S9, SAO TOME AND PRINCIPE. Excerpts from a press release by Jarmo, OH2BN,
> states that operators Pekka/OH2TA, Pertti/OH2PM and Martti/OH2BH will be
> active from the Democratic Republic of Sao Tome and Principe, starting
> Saturday, November 20th, and running for two weeks, including the CQWW DX
> CW Contest. They will activate two stations covering all bands, CW and
> SSB. The callsign S9BB will be used outside the contest and S9RR in the
> contest. QSL manager is Pekka, OH2TA. The expedition is supported by
> Charles Lewis/S9SS, Mike Mertel/K7IR (SteperIR), Vertex Standard (Yaesu)
> and Marlin Beach Hotel, Sao Tome. Suggested frequencies are:
>
> CW - 1823/1833, 3503, 7003, 10103, 14023, 18073, 21023, 24893, 28023 kHz
> SSB - 3795, 7045, 14195, 18145, 21295, 24945, 28,495 kHz
>
> Daily contacts will be maintained with Pertti/OH2RF, Bill/K6GNX and
> Yoichi/JP1NWZ.
>
> SPECIAL ACTIVITY. Wojtek, SP8MI, will use the special Polish callsign
> HF8IARU, from January 25th through March 6th. Activity will be on the
> HF bands, CW and possibly more modes. QSL via SP8MI. No details or reasons
> were provided for this special activity.
>
> SPECIAL EVENT. French amateurs in the Loire and Sarthe Departments are
> involved with a "French 36 hours Telethon 2004" (which collects funds
> in fighting genetic dieases) and will be active with special callsigns

> before, during and after the event. Look for the following French stations
> to be active:
> * The Loire Department and F6KRG hams will be active December 3-4th
> as TM8TLN. Activity will be on HF/VHF, CW, SSB and SSTV. QSL via
> operator's instructions.
> * The Sarthe Department hams will be active as TM6TLT, from December
> 1-8th, with the main activity on the 3rd and 4th. QSL via operator's
> instructions.
>
> SPECIAL EVENT. To celebrate the 100th anniversary of the Dutch Coastal
> Station, (PCH Scheveningen Radio which closed down December 31, 1998)
> look for special event station PC100H to be active from 0700z Saturday,
> December 18th until 1900z Sunday, December 19th. Suggested frequencies
> are:
> CW - 1830, 3530, 7030, 10130, 14030, 18090, 21030, 28030
> SSB - 1850, 3650, 7050, 14250, 18150, 21250, 28250
> FM - 144.250 and 145.250
> RTTY/PSK31 - 10145
> For the actual schedule, please refer to the Web page at:
> http://www.remeeus.nl/pch/pc100h.htm
>
> ST, SUDAN. Hugo, LA5YJ, is now in Khartoum, and will apply for a license
> as soon as the holy days have passed. He will try to get ST7YJ, and this
> time the QSLs for the Sudan will go to LA4YW. All of his other operations
> (9N7YJ, XU7ACW, MI0YJR and his home callsign LA5YJ) will still be handled
> by him. All QSL cards received via the bureau and direct were taken care
> of before his departure on the 13th of November. More details are
> forthcoming.
>
> ST. SUDAN. QSL Manager Dennis, PA7FM, informs OPDX that Paul, ST2PN, is
> in Khartoum for his work for the WFP of the UN, and will remain active
> until the 3rd of December, and then return back home to Norway. However,
> as things look right now, he will go back to the Sudan for another half a
> year in January 2005. He will also be active again as ST2PN. That is only
> when time allows and when he's not in the field in Darfur (the problem
> area in Sudan and where radio operations are not allowed), the work area
> for Paul. Online logs and photos (of his the 10 element log-periodic that
> came down in a storm) are available on: http://www.pa7fm.nl
> QSL direct only to PA7FM (QRZ.com address), as Paul is not a member
> of the PA bureau.
>
> SU, EGYPT. Tom, N9NC, will be active as SU9NC during the CQ WW DX CW
> Contest (November 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL
> via OM2SA.
>
> T33C VIDEO. "The T33C Banaba Dxpedition video is now available. The video
> package includes two discs, one is a DVD record of the expedition,
> including
> details of the radio operation and scenes of Banaba and its people. The
> soundtrack includes lots of wonderful music performed by Banaban

> musicians,
> recorded during the expedition. This is an expanded version of the video
> that premiered at the Northwest DX Convention earlier this year. The
> second
> disc contains still photographs of Banaba and many of the Powerpoint
> slides
> that were shown at the recent Friedrichshafen hamfest. It's easy to order
> on-line, and, if desired, pay with PayPal. On-line ordering details are
> at:
> http://www.dx-pedition.de/banaba2004/order_dvd.htm
> The price is 15.00 USD plus 2.50 USD postage in the USA and territories.
> Outside of the USA, the package sells for 12 Euro plus 3 Euro postage.
> Outside of the USA, please follow order instructions on our Web site.
> USA hams can order through my PayPal account doctore@well.com or direct to
> my address: Alan Eshleman., K6SRZ, 2213 Vine Street, Berkeley CA 94709.
> All proceeds will go toward paying off the expenses of the expedition.
> .... 73, Alan/K6SRZ"
>
> TF3, ICELAND. Sigurdur, TF3CW, will be active during the CQ WW DX CW
> Contest (November 27-28, 2004) as Single-Op/All-Band/High-Power entry.
> QSL via LX1NO.
>
> TO4, MARTINIQUE. Jim, N6TJ, will be active as TO4A in the CQ WW DX CW
> Contest (November 27-28th) as a Single-Op/All-Band entry. He will be
> operating from FM5BH's QTH. QSL via VE3HO.
>
> VE2, CANADA (Zone 2). Vladimir/VE3JM and Nikola/VE3EY will be active as
> VE2/homecall from Sept Iles, Quebec, which is located in CQ Zone 2,
> between
> January 13-19th. Their main focus will be on the lower bands. They will
> use verticals for 80/160 meters. QSL via their home callsigns.

I spotted 2 things

(1) Isn't Hamvention a registered trademark of DARA's Dayton Hamvention
and
(2) FCC VEC exams?? In the Phillipines??? I wasn't aware were a
possession of the US. That being the case, how can the can a VEC
provide FCC authorized exams? HHHmmmmmmmm

verrry interesting..but not very kosher

There are VEC exams all over the world, the Phillipines being no exception.
As long as the VECs are registered with the FCC, they can take exams
wherever they want. They send in the exam results to the FCC and licensees
receive their ticket in the mail. You need to have a valid ID and an address
in the US (including Saipan, Marianes...).

> verrry interesting..but not very kosher

AFAIK, it is. There is no provision for the exams to take place in the US.

Of this I was not aware. SO if I take a VEC exam in Germany, do I
receive a US issued license with a US assigned callsign or a German
issued callsign (for example) OR do I receive a US issued license and
callsign then apply for a reciprical German license?

How do the Japanese, taking VEC exams on Guam, having no vaild US ID or
US address, end up with Guam callsigns?

no longer interesting, just confusing

Yes

>OR do I receive a US issued license and
>callsign then apply for a reciprical German license?

If you're a citizen of the United States living in Germany you must
get your US license, then you can operate with a CEPT permit in DL
land. If you're a German citizen you are most likely required to get a
German license, but you're welcome to write the tests for and get a
US callsign if you want, for use when you travel to the United States.

>How do the Japanese, taking VEC exams on Guam, having no vaild US ID or
>US address, end up with Guam callsigns?

Likely they use a US Mailing address of a friend or business
associate, etc. A US-issued photo-ID isn't necessary (their
home-country passport should be enough).

If you have to ask, you probably won't "get it", but I've got a hot news flash for you. Those fellas taking the FCC tests at DU and JA hamfests aren't dual citizens of DU (or JA) and Saipan, they're souveneir collectors and reciprocal-licensing cheats.

There are a small handful of "will-call" PO boxes in KH0 and KH2 which are the "home address" for hundreds of JA and DU citizens. (What do all these calls have in common? KH2O KH0JQ KH0JU KH0KW AH0BB KH0BZ KH0CG KH0CQ KH0HQ KH0HZ WH0V NH0F WH0B WH0C AH0AS AH0AU KH0CN KH0DD ......and I could go on for hundreds of desirable KH0/KH2 call signs held by foreign nationals who've never set foot on Guam/Saipan/US soil and likely have no intention to ever do so.)

Here's how it works. DU1XYZ or JA1XYZ knows a guy on KH0 or KH2 and has him rent a PO Box. Then he gets himself and a couple of buddies a W5YI VE certificate and holds exams. Applicants are given the KH0 or KH2 PO Box address (for a "consideration") and "bingo", they have their souveneir US call sign. Over half of the KH0 and KH2 2x1 calls have been scarfed up by JA's and DU's. Meanwhile some kid on Guam or Saipan who upgrades to Extra has to wait until a JA or DU fella croaks over to capture a desireable call, unless some other JA or DU captures it first for a souvenier.

Besides "souveniers" I mentioned reciprocal-licensing cheats, which is a primary reason so many KH0/KH2 calls go to JA's..... Because JA only has reciprocal agreements with a dozen or less countries, a US license is an essential tool for JA DXpeditioners --- let's say they'd like to do a DXpedition to V7 or VP9 . Their JA license is useless, but let them flash a KH0 license and wham, he's VP9DX with no questions asked. Meanwhile some kid on Guam or Saipan who upgrades to Extra has to wait until a JA fella croaks over to capture a desireable call (unless some other JA captures it first for his reciprocal-cheat scheme).

FCC VEC exams can be given anywere there are U.S. Licensed hams willing to
volunteer. The one excpetion is Israel, where the Ministry of Communications
specificaly requested that it not be done.

Besides the obvious, it allows U.S. citizens living overseas to upgrade
without going back to the U.S.

That's correct. And in California and a few other places too.

>Besides "souveniers" I mentioned reciprocal-licensing cheats, which is a

That's also correct.

But now that all the KH2 and KH0 extra calls are gone, the JA's are
having to suffer with continental U.S. calls or Hawaii calls, poor
babies. N3FW, AD7AL, NB6A, NH7IG, KK2H, K8VR, N1VF, etc.

No, Frank Wilson, you can't get your intials for your call sign, even
though you do REALLY live in Maryland. You have to wait until Fujimoto
Wazawari in Tokyo dies and then wait two more years.

My favorite at QRZ.COM:

"KK2H - Please send QSL to my home call, JL1UXH. If you send anything
to the address in the U.S., my cousin has to forward it to Japan."

That sucks. Hate wasting good Yen buying U.S. stamps.

The official position of the WTB in Washington, D.C., when I talked to
them on the phone about all of the above and a few other questionable
items a few years back was:

"It's not our job to verify addresses. It's our job to issue
licenses."

Which they continue to do, to anybody that wants one and who
passed a "test"....

So..... Any U.S. address + V.E. "exam" in a foreign country
(administered by foreign nationals who could never be extradited to
the U.S. to face charges for holding "funny" exams) = U.S. Extra Class
Souvenir Call Sign and International Reciprocal Radio Passport.

Good system. A U.S. V.E. makes a mistake on the paperwork and the FCC nails his nuts to the wall, but nobody notices when Yoshi, Toshi, and Schosi send their paperwork in from Japan.

W5YI or the ARRL make six bucks everytime a JA gets a U.S. license at a VE test held in Tokyo, so everybody is fat, dumb, and happy. Turn your head, cash the check, ten more extra's, what the heck......

Welcum to the Wunnerful Werld of Ham Radio. Nobody cares.

At least the FCC did do something about club calls. They took 42 of them away from a JA few years back :-) But for some strange reason, they let him keep his primary station license, a W9 extra class U.S. call.

That's correct. Even if the U.S. licensed hams administering the test are foreign nationals who could not be prosecuted for any testing discrepancies.

Let's look at the up side here. Now that you need a TIN number to get onto the FCC's ULS system, there will be thousands of non U.S. hams all over the world paying U.S. taxes that never paid any before.

Or maybe the Social Security Administration could just issue one number for all the JA hams to use. That'd work.

Foreigners have been able to get US licences for many decades. I'm one.

Only representatives of a foreign government can't get a US call. Try
reading Part 97.

I have read it. A few times. If you live in the U.S. and get a U.S.
license, I doubt there's any complaints. If you live in Germany,
have never been to the U.S., and never intend to go to the U.S.,
I doubt many people would deem it necessary for you to have a
U.S. license.

Or maybe they should just operate as JA1xxx/W7, which they are
entitled to do with NO paperwork required. You're missing the point.

If somebody from outside the U.S. lives in U.S., and wants to get
a U.S. call, very few people would have a problem with that. I
sure don't have a problem with that.

The problem is the use of bogus addresses by people who have
never set foot in the U.S. to get U.S. licenses.

The FCC a long time ago decided it was proper for non U.S. citizens
in the U.S. to get U.S. licenses, they removed the citizenship
requierment years ago. I doubt they ever intended for the JA ham
club in Tokyo to get a P.O. Box in California so they could get a
thousand U.S. licenses as souvenirs.....

And the other problem is with V.E. tests that are administered
outside of the U.S. by foreign nationals. Yes, there should be U.S.
amateur radio tests available in Japan - at the U.S. embassy so
that U.S. citizens and U.S. military personel could take them - but
not at the sushi bar administered by three JA's who have U.S.
souvenir call signs. And there should not be U.S. license exams
at a hamfest in the Philippines so that anybody who wants a U.S.
license can buy one.

Why can't I take a test for a Japanese ham license in Florida ?

Lot's of people who never lived in Guam had KH2 calls. When I used
to do the KH2 QSL bureau, there was a constant flow of licenses that
would show up in the KH2 bureau's P.O. box for people we never
heard of.

1. Take a V.E. test.

2. Use the KH2 QSL bureau's P.O. box number as your address.

3. Get a Guam call.

4. Look on the internet and figure out what your new Guam call is.

5. Send in a change of address, to your real address in New Jersey,
or your cousins address in California (since you live in Italy)
so you can get a copy of your license.

A friend of mine in Saipan went to get his mail one day and found
seven FCC licenses for seven people from Japan he didn't know....

The system is too easy to beat.

Used to be if I lived in Maryland, and I moved to Florida, I had to
give up my 3 call for a new 4 call that the FCC computer spit out for
me.

Used to be that if you lived in the 4th call district, you couldn't
get a vanity call with any number but 4 in it, but now you can.

We don't do that anymore. Paperwork reduction act, Walter.
No more W4 extra calls left. The guys in California got them all :-)

FCC is too busy issuing licenses to JA's :-)

Personally, I think the FCC should charge $100 a year for a license,
which would give them an extra $70 million a year to administer the
system properly.

Anybody have a good address for TI2CCC?
I sent a card/Green stamps to the address in RAC/QRZ
and it came back saying no such address. Haven't found
info in any other available resource. 73. Donn WY5I

The 4 land Extra calls other than the 2x2 beginning with A disappeared 10 years ago. That's before the vanity system even went into effect. So you can't blame California! (Yes I saw the :-))

Quite true, but if you live in Germany and nip down to your local USAF facility for a VE sesion you can get a US licence, all legal and above board.

There's an obvious solution. If someone takes a VE test overseas and has no US address, they ought to be given a sequentially issued call in one of the less populous FCC districts, say the 1st district.

Do you have proof that this occured?

If you do, why have you not provided this information to the
appropriate authorities?

> Why can't I take a test for a Japanese ham license in Florida ?

A lack of ability to speak/read Kanjii? Or perhaps Japanese law
doesn't allow it.

It still comes down to "it's allowed by OUR law"...at least at
present...

While dusts
bimonthly question, the cases often place on the ugly aches.

Or they should be told to buzz off. Why should any U.S. license be
issued to someone in a foreign country that has no intention of using
it in the U.S. ?

And with the CEPT stuff, there's even more reason not to issue U.S.
licenses in many countries.

We preached to the choir for a lot of years from Guam. Nobody listened, because nobody cared. There were numerous complaints made to

the ARRL and Washington, D.C. about testing discrepancies, P.O. boxes, mail drops in California, licenses arriving unexpectedly.

When the hams in Saipan reported to the ARRL VE (a number of times) that 3 CB'ers with extra class KH0 calls were making sure that all the other CB'ers got an extra class call too, nothing happened.

If you lived in New Jersey and there were VE tests given at your local ham club once a month, would you fly to Saipan (or Manila) to take a test? Smell the rat yet?

But then again, you can't expect the ARRL VE manager to fly to Saipan because the DXCC desk used up all the airplane ticket money flying to the Tokyo hamfest to check post cards.

>It still comes down to "it's allowed by OUR law"...at least at >present...

Just because the rules are the rules doesn't mean the rules make any sense. There's a fine line between abusing a law and breaking it maybe. People are abusing the hell out of the U.S. licensing system because it's very easy to abuse. It needs to be fixed. But the people who could fix it don't seem to care that it's broken.

I don't think we should start putting JA's in radio prison for grabbing U.S. calls, but I think it's way past time where we should have smartened up and fixed a very poorly implemented licensing system.

VE testing wasn't a great idea. Allowing VE testing anywhere by anybody is way past rediculous.

Hi !

If you had QSO with YW1F (IOTA SAS-89), probably you are interested also to see some pictures I made on our trip.

Here is the URL:

http://hfdx.org

The button to YW1F indicates "CAYO SAL"

The problem with CEPT operation under a foreign call is that non-residence is a required condition. This means, amongst other things, that having a green card completely bars operation in the US under CEPT.

However, anyone who has a licence from a country that has an ordinary bilateral reciprocal agrrement with the US can operate in the US even as a permanent resident for an indefinite period of time.

In both cases, FCC rules impose further conditions:-

1) They must not be a US citizen;

2) They must be a citizen of the country that issued their licence; and

3) They must not have a US licence.

OTOH, the rules for obtaining a regular US licence leave it open to anyone except a representative of a foreign government. This is supposed to be so that listening stations can separate diplomats from other hams by their non-US calls. This exception seems to be allowable because of an overriding government interest.

What would you have the FCC do differently?

It doesn't seem likely that you could get back to the situation where foreign hams in general couldn't get a US call, as this would likely not make it past the due process clause.

If you could acheive that I'd still be OK, as I could use W3/my UK call forever if I didn't have a US call. Others wouldn't be so lucky. If they came from a country with no bilateral agreement (remember CEPT is no help to US residents), or if they were citizens of one country with a licence from another, or even if they just got into the hobby after coming to live in the US, those guys would all be QRT. That's how it used to be in the bad old days.

So maybe you'd like to ban VE tests held outside the US? That would be hard on your military. How do you get licenced if you are posted somewhere that you don't speak the language? Well, one way is to get a licence from your own country by taking a test in your own language, and then get reciprocal privileges. Granted, I can't think of other examples of countries offering testing outside their borders, but not many have a VE system either. I think VK does. I wonder if you can take their tests outside VK?

Another suggestion I saw in this thread was to stop aliens from being VEs. I don't think that would fly constitutionally speaking either. BTW, I'm a VE myself. I don't think it would harm me that much if I couldn't be a VE. You could volunteer to explain that to any Americans that might want to take a test but couldn't because we could only muster 2 VEs that day.

Perhaps it would be possible to tinker with the rules only for VE tests held outside the US, restricting the nationality of either the VEs and/or the candidates. OTOH, it's possible that if you did that you might run afoul of the civil rights laws of the host countries.

So, what do you seriously suggest?

I don't really think anyone cares if someone in Japan can get a call that belongs to the mainland US. All that really seems to be needed is some way to prevent those testing overseas from getting an exotic offshore US call. Arguably, those in the mainland US shouldn't be able to either, but the FCC doesn't regard this as important.

1560. TX Distance question

Newsgroup: rec.radio.amateur.dx
Date: 2004-11-26 15:14:46 UTC
From: James <Nonethanks@NOSPAM.com>
Message-ID: <KMHpd.58953$Ro.2196328@news20.bellglobal.com>

Hi Folks

I have limited experience (ok almost none really) with respect to Amateur Radio outside of the 2M band. However I just recently got my code ticket & installed a radio on my sailboat. I am using a TS-50 with an automatic tuner and a long copper wire to the top of the mast (probably 50 feet or so long).

My ground plane/counterpoise consists of tying the ground to a large aluminium area in the stern of the boat with a copper foil.

My very first contacts were established with 2 land stations on 14300 at 100W that were about 1000 miles away. They both reported that my signal was good and that it sounded like I was "sitting right next to them". I have no idea if this was a good distance, great, or mediocre.

I realize that propogation variables prevent anyone from giving a really clear answer to this question, but in general, what sort of distance should I expect to achieve? I'm trying to decide whether I need to improve my antenna ground by adding a dynaplate (costly and requies the boat to be taken from the water for installation) or whether the range I am getting is decent.

Can anyone comment?

Thanks

Propagation will have a HUGE effect on your distance capability. Under good conditions your station should be able to work any point on earth. On the other hand, when the 14MHz band "goes out" (which at this point in the sunspot cycle will happen pretty much every night) you'll be lucky to work 30 miles.

I think the ground you describe should be more than adequate. (many land-based mobiles settle for something MUCH, MUCH worse!)

You'll need lower frequencies for nighttime operation. 7MHz and 3.5MHz. The antenna *may* (or may not) be too short for effective operation on these bands. Try it, the worst that can happen is the automatic tuner will refuse to make a match. (I think you'll probably be OK on 7, 3.5 may be a problem)

Good luck!

November 29, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, KF2HC, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, N4BAA, KG6DX, W7DRA, K8YSE, K9NW, WD9DZV, CE6TBN, CO8TW, DL1EK & The DX News Letter, EA1KI, F5CWU & La Gazette du DX, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, IZ8BGY, IZ8BRI, JH4RHF, JI6KVR & JA-IOTA Islands News, OH2BN and OK1JR/YB0AJR for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX CW Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX CW Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 20th/November, through Friday, 26th/November there were 230 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 4J, 4L, 4S, 4X, 5B, 5N, 5R, 5T, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9X, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HC8, HI, HK, HL, HP, HR, HS, HZ, I, IS, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH1, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0S, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T8, T9, TA, TF, TG, TI, TI9, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9C, VK9L, VK9N, VK9X, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, XZ, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4U1VIC, VIENNA INTERNATIONAL CENTRE. Jun/JH4RHF and his DL friends will activate 4U1VIC during the upcoming CQWW DX CW Contest as a Multi/Single entry. Station 4U1VIC is located in Vienna, Austria. PLEASE NOTE: Although 4U1VIC is a separate multiplier for the CQWW DX CW Contest (also, separate country for CQ DX and WAE awards), it is not a separate entity for DXCC purpose. All QSLs go to the CBA, or via the OE Bureau.

ANTARCTIC NEWS. Operator VU3BPZ will be leaving to go to Maitri Base for a second term on December 2nd and promises to be active from India's Antarctic Base (WAP IND-03). He is expected to reach Maitri Base on December 22nd. He is expected to check into the AIRNET on 14150 kHz every day at 1400z, and then he will try working DX on his own.

BV0, TAIWAN. Look for operators Robert/BV3FG, Bill/BV3BW, Kenichi/JP1RIW, Shigeyuki/JH0KHR and Tatsuhiko/JD1BKQ to be active as BV0J during the CQ WW DX CW Contest (November 27-28th) as a Multi/2TX entry. QSL via BW0IR, by the Bureau or direct.

CE0 ISLAND HELP NEEDED. Marco, CE6TBN, informs OPDX that he is gathering information of past expeditions and operations in Chilean islands, such as San Felix (CE0X), Easter Island (CE0Y), Juan Fernandez (CE0Z) or any other island, from 1980 through now. This is to update his Web site. To help him update it, please check out his Web page at: http://www.qsl.net/ce6tbn/actv.html

CE0Z, JUAN FERNANDEZ. Eliazar, CE0ZIS, will be on the air next week from here for about 10 days. Activity will be on all bands. QSL via his "NEW ADDRESS" at: P.O.Box 157, Los Andes, Chile.

CO8, CUBA. Juan Carlos, CO8TW, will be active in the CQWW DX CW Contest (November 27-28th) as Single-Op/Single-Band (20m)/Low-Power entry. QSL is via IZ8CCW and the log will be available online at: http://www.qsl.net/co8tw

CO8, CUBA. Eduardo, CO8LY, will be active in the CQWW DX CW Contest (November 27-28th) as Single-Op/Single-Band (15m)/Low-Power entry. QSL via EA7ADH.

KG4, GUANTANAMO BAY (Update). Operators Jose/N4BBA, Tip/N4SIA and two others will be heading down to KG4-land, January 18-25th. Callsigns will be KG4SB (QSL to N4BAA) and KG4AS (QSL to N4SIA). Two other callsigns will follow for the other operators. They will have up to three radios going at a time, and they will be concentrating on CW/RTTY/DIGITAL on all bands 160-6 meters. There are no amplifiers available at the club station as this was being written, so barefoot rigs will have to do the trick for now. The group is looking for a small 6 meter antenna to take down and possibly donate to the club station. If you have a point of contact or info, please E-mail Jose at: n4baa@arrl.net

KP2, U.S. VIRGIN ISLANDS. Ann/W2AZK and Brian/KF2HC will sign homecall/KP2 from the island of St. Croix, USVI, January 7-14th. Look for them on 160-6 meters SSB and CW with a special emphasis on the WARC bands as conditions permit. QSL to their home calls direct or via the bureau.

LIGHTHOUSE ACTIVITY. Members of the Union de Radioaficionados de Gijon (EA1URG) will be active from the Faro de Cabo de Penas Lighthouse (ARLHS SPA-037) on December 18-19th. The callsign will be ED1PFA. The operation will be under the authority of the "Autoridad Portuaria de Gijon". This is one of the most emblematic lighthouses in Spain, situated on the Cape of Penas, Asturias. Today it serves as a differential GPS navigation service station. They plan to show up on HF, VHF and UHF on all modes. Also, there will be PSK31 and RTTY. QSL via EA1URG; by the bureau is OK. More info will soon be available on their Web page at: http://www.ure.es/ea1urg/

PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, Mike/W9RE, Harold/N4GG and Mark/N5OT will be active from Bonaire between February 15-22nd. The team will be active as PJ4R for the ARRL DX CW Contest (February 19-20th) as a Multi-2 entry. QSL via N4GG. For activity before and after the contest, the operators will sign PJ4/homecall.

PY0S/ZW0S, SAINT PETER AND SAINT PAUL ROCKS. Joca, PS7JN, will operate from here from November 25th to December 10th. The callsign is unknown as this was being typed. It may be PY0S/PS7JN, ZW0S or PY0SA. Jose states that the government will issue the callsign once the DXpedition begins. He intents to operate on all bands and modes in his spare time or during good propagation.

QSL INFO AND NEWS.....
Online logs for HF0QF and HF0POL operated by Voytek, SP5QF, are now available at: http://www.sp7iwa.republika.pl
The current logs include QSOs made through September 18th, and they will be updated as soon as Wanda, SP7IWA, receives the new ones. HF0QF/HF0POL operates from the Polish base 'Arctowski' (SP-01 for the Antarctica Award) on King George Island, South Shetlands (AN-010). QSL via SP7IWA. Wanda is also the Antarctica Award checkpoint for Poland.

Tim, WD9DZV, informs OPDX that he is now the QSL Manager for Greg, SU9FL. Greg was heard this past week on 20/15/12 meters RTTY.

TOP 5 QSL MANAGER NOMINEES. John, K1XN, of the GOLIST (QSL MANAGER LIST), conducts an annual survey to determine the TOP 5 QSL MANAGERS for the year, based upon nominations from DXers world wide. This is, of course, just an opinion poll and not a scientific poll, so it is just RELATIVE. DXers around the world are asked to submit the callsigns of their TOP 5 QSL Managers for 2004 based solely upon their opinion of how the QSL Manager responded to there QSL requests. John is accepting your nominees for TOP 5 QSL MANAGERS starting December 1st and ending February 1st, 2005. He will keep a running tabulation and then report the results mid-month February 2005. John stated that he had over 2500 responses last year, and maybe we will again surpass this mark this year. Send the nominations to: golist@golist.net
John also reminds us that all QSL Managers do a great job and are a major source for those QSL card confirmations we all seek for the various awards sponsored by Ham Radio Clubs and groups World Wide. MANY THANKS TO THE QSL MANAGERS OF THE WORLD for all the work they

do.

S9, SAO TOME AND PRINCIPE (Update/Change). Another press release was sent out by Jarmo, OH2BN, on November 23rd, which updated the OH team's activities: "The group at Sao Tome and Principe, S9 - OH2BH, OH2PM and OH2TA - has had a slow start on setting up because of a tropical storm, lightning and heavy rain. Also, low bands have been very noisy all along, but things may get better. Today they have managed to hoist StepperIR beams and a 160M antenna. Activity can be expected on additional high bands as well as on 160M tonight. Low band operating will turn to CW only as of Wednesday, and return to SSB only after the CQWW CW Contest. The operation will last another week, until December 3. Sao Tome may well become another DX location for this group as they observe propagation and local conditions. So far they have found everything friendly and workable. They have a large back-up generator, for example, on site. As another gesture from the local telecom administrators, the first 1x1 callsign was released for the upcoming contest: S9A will be activated as of 2359 UTC on Friday. QSL via OH2TA. The group is grateful to the licensing authority, Sr. Fernando J. Pasquete da Costa of CST, Sao Tome as well as to their local manager, Mark Davis of Marlin Beach Hotel of Sao Tome: http://www.bom-bom.com
The group has decided to put only one station into the CQWW contest for all bands, while the other station will be active on 10 MHz and 18 MHz during the contest period."

VK9N, NORFOLK ISLAND. Mike, K9NW, informs OPDX that he will be here November 24-30th. He plans to be active in the CQ WW DX CW Contest as VK9NW as a Single-Op/All-Band/Low-Power entry. Mike will only use wire antennas. QSL via K9NW.

VU4, ANDAMAN ISLANDS (Update). Bharathi, VU2RBI, and her team will be leaving for Port Blair, South Andaman Island (IOTA AS-001), before December 3rd. Charles, K4VUD, reported this week that the VU4 DXpedition's budget is 20,000 USD. He has bank wire transfers of 2,000 USD (donations received so far) to Bharathi/NIAR. Charles also mentions a few items in his updates on the upcoming operation. He states:
1. HUGE thanks to all who donated money to date. Bharathi and her family will now NOT be in debt for the airplane tickets. We are still working on paying for her hotel stay at 85.00 USD/night in the hotel with the clear over-water shot to E, N, and W on high cliff overlooking the ocean.

2. The plan is to have two locations active, separated by several miles, on the same island. So far, no linears are available.

3. Due to the rapid formation of this DXpedition, no organization has been able to get support together and no manufacturers of equipment (except XM tuners) have been able to get on line.

4. The only pilot possibility is VU2MY at the NIAR (niarvu4@gmail.com). He will know QSL info.

5. Please remember this is a "mighty lite" operation that is establishing that ham radio is "OK" on Andaman, NOT a huge arrival of top opertors with tons of gear, so be nice and patient, please.

Please remember that funds are still needed for this operation. Donations/funds should be directed to: National Institute of Amateur Radio, Raj Bhavan Road, Hyderabad 500 082, India. Funds can also be sent to the Charles, K4VUD. Charles states, "Any and all donations that come to me will be completely used to assist this DXpedition via the National Institute of Amateur Radio in India, the umbrella sponsoring agency who, BTW, is allowed to receive foreign funds." K4VUD mail address is: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732 USA.

WH2, GUAM. Joel, KG6DX, informs OPDX that he will be active as WH2A in the CQ WW DX CW Contest as a Single-Op/Single-Band (15m) entry. Please QSL via KG6DX, CBA or QRZ.com address.

YE0, INDONESIA. Stan, YB0AJR (OK1JR), will be active as YE0X from Jawa Island (OC-021) during CQ WW DX CW Contest as a Single-Op/Single-Band (80m)/High-Power entry. He will be looking for EU, JA and USA especialy around his sunrise/sunset time (2300z/1100z). QSL via OK1JN (his dad).

ZK1, SOUTH COOK ISLANDS. Mike, W7DRA, informed the Topband/Contest community that he will be at Victor's house (ZK1CG/ZK1USA) for the CQWW DX CW Contest and possibly the ARRL 160m Contest. He will probably be using his TS930 and antenna farm. Mike states that for the intervening days, he will be at the edgewater or the Kii Kii cottages with his HW16 on the following frequencies: 1808, 1818, 1828, 1841, 3514, 3533, 3541 and 3560 kHz (or possibly other frquencies if he uses his VFO instead of his "ROCKS"). He will be on most nights from the November 25th to December 6th.

The following stations are expected to be active in the
CQ World Wide DX CW Contest (November 27-28th, 2004)

Thanks to Bill, NG3K, for providing OPDX readers with the following consolidated listing of the participants in the 2004 CQWW CW Contest. For a more detailed listing in HTML format, please visit the Web page at:

Subject: His Excellency, Governor of AP Flag off VU4 Dxpedition Team -2004
Mime-Version: 1.0

PRESS RELEASE:

National Institute of Amateur Radio, Hyderabad is an apex organization for promotion of amateur radio in the country.

NIAR is conducting programs to popularize and promote amateur radio activity in the country particularly among youth to create a valuable human resource in the field of electronics, communications, communication, satellite, space and information sciences.

Amateur Radio operators make radio contact using transmitters and receives and exchange information on places, people, culture, science and technology etc.,

We are pleased to inform you that sponsored by NIAR, Mrs. Bharathi Prasad VU2RBI as team leader, a five member team is proceeding to Port Blair, Andaman and Nicobar Islands to conduct a Dxpedition (Expedition in Amateur Radio) w.e.f. 3-31st December 2004.

Special Permission of Govt. of India to Andaman and Nicobar Islands-2004 Dxpedition team is granted – the copy of the letter enclosed. This team will reach out to over 5,00,000 families in every nook and corner of the world. There are over 30,00,000 lakh in entire world including 12,000 in India looking to make a contact with the expedition station.

Similar Dxpedition was conducted to Lakshadweep Islands was conducted in 1983 and 1989 and Andaman and Nicobar Islands in 1987. This has brought tremendous worldwide publicity earlier.

Radio amateurs come from all walks of life like Students, Professionals, Engineers, Doctors, Consultants, Military officials, Bureaucrats, Political Leaders, Kings etc., Mr.Dayanidhi Maran, VU2DMK, Mrs. Sonia Gandhi, VU2SON, Late Mr.Rajiv Gandhi, VU2RG are also HAMs. Realizing potential of HAMs to promotion / developments in Science & Technology and Tourism and others like Sports, Youth etc., it was given first priority by late Mr.Rajiv Gandhi, VU2RG in 1980-83 as Congress Party General Secretary as M.P. It was his direct involvement NIAR came into existence at Hyderabad.

Amateur Radio activities (Hams) is much more than Disaster Management/Disaster Mitigation as is generally perceived in India. Thus, Dxpeditions are also part of promotional and developmental activity.

The main objective of this expedition:

1. To conduct basic evaluation, R & D on radio propagation tests with state of the art equipments held by Indian Hams. Thanks to Department of Information & Technology, Government of India support received in this regard.
2. To prove the capabilities of Indian Hams to reach out to millions of people across the globe by establishing direct radio contact with as many people as possible. i.e., To promote International understanding.
3. To Promote Tourism to India more particularly to NIAR, Hyderabad and popularize our developmental issues.
4. To prove Indian Ham's capabilities in Science and Technology excellence by operating several modes of latest state of the art in communication equipment in this expedition which is watched by all the world.
5. To encourage many leading International Institutions/Individuals of the world appreciate the developments - facilities available at Hyderabad for conducting international Hamvestion. The size/capacity of over 10,000 delegates are held regularly in 25 developed countries USA/ Europe / Japan etc., These are held very frequently in every year.
6. To demonstrate/Exhibit "People's participation in many developed & high tech areas - To/attract Professional / Amateur visitors to India" on a scale that is never seen before.
7. The publicity generated by this expedition can be seen from several journals all over the world. This is besides regular appreciations that is going on already in the air.

Since this DX Pedition operations between 03-31st December 2004 provides great opportunity to develop "Public relations to several countries of the World" at a cost that is negligible to the tangible benefits acquired for a long time. This is an International event with International Participation. The Govt. of India, Govt. of AP are encouraging this event besides sponsorship by Many International associations /Hams and NIAR.

For favor of publication.

(S.Suri)
Founder & Chairman,
NIAR

> 4U1VIC, VIENNA INTERNATIONAL CENTRE. Jun/JH4RHF and his DL friends will
> activate 4U1VIC during the upcoming CQWW DX CW Contest as a Multi/Single
> entry. Station 4U1VIC is located in Vienna, Austria. PLEASE NOTE: Although
> 4U1VIC is a separate multiplier for the CQWW DX CW Contest (also, separate
> country for CQ DX and WAE awards), it is not a separate entity for DXCC
> purpose. All QSLs go to the CBA, or via the OE Bureau.
>
> ANTARCTIC NEWS. Operator VU3BPZ will be leaving to go to Maitri Base for
> a second term on December 2nd and promises to be active from India's
> Antarctic Base (WAP IND-03). He is expected to reach Maitri Base on
> December 22nd. He is expected to check into the AIRNET on 14150 kHz
> every day at 1400z, and then he will try working DX on his own.
>
> BV0, TAIWAN. Look for operators Robert/BV3FG, Bill/BV3BW, Kenichi/JP1RIW,
> Shigeyuki/JH0KHR and Tatsuhiko/JD1BKQ to be active as BV0J during the
> CQ WW DX CW Contest (November 27-28th) as a Multi/2TX entry. QSL via
> BW0IR, by the Bureau or direct.
>
> CE0 ISLAND HELP NEEDED. Marco, CE6TBN, informs OPDX that he is gathering
> information of past expeditions and operations in Chilean islands, such
> as San Felix (CE0X), Easter Island (CE0Y), Juan Fernandez (CE0Z) or any
> other island, from 1980 through now. This is to update his Web site. To
> help him update it, please check out his Web page at:
> http://www.qsl.net/ce6tbn/actv.html
>
> CE0Z, JUAN FERNANDEZ. Eliazar, CE0ZIS, will be on the air next week from
> here for about 10 days. Activity will be on all bands. QSL via his "NEW
> ADDRESS" at: P.O.Box 157, Los Andes, Chile.
>
> CO8, CUBA. Juan Carlos, CO8TW, will be active in the CQWW DX CW Contest
> (November 27-28th) as Single-Op/Single-Band (20m)/Low-Power entry. QSL
> is via IZ8CCW and the log will be available online at:
> http://www.qsl.net/co8tw
>
> CO8, CUBA. Eduardo, CO8LY, will be active in the CQWW DX CW Contest
> (November 27-28th) as Single-Op/Single-Band (15m)/Low-Power entry. QSL
> via EA7ADH.
>
> KG4, GUANTANAMO BAY (Update). Operators Jose/N4BBA, Tip/N4SIA and two
> others will be heading down to KG4-land, January 18-25th. Callsigns will
> be KG4SB (QSL to N4BAA) and KG4AS (QSL to N4SIA). Two other callsigns

> will follow for the other operators. They will have up to three radios
> going at a time, and they will be concentrating on CW/RTTY/DIGITAL on
> all bands 160-6 meters. There are no amplifiers available at the club
> station as this was being written, so barefoot rigs will have to do the
> trick for now. The group is looking for a small 6 meter antenna to take
> down and possibly donate to the club station. If you have a point of
> contact or info, please E-mail Jose at: n4baa@arrl.net
>
> KP2, U.S. VIRGIN ISLANDS. Ann/W2AZK and Brian/KF2HC will sign homecall/KP2
> from the island of St. Croix, USVI, January 7-14th. Look for them on
> 160-6 meters SSB and CW with a special emphasis on the WARC bands as
> conditions permit. QSL to their home calls direct or via the bureau.
>
> LIGHTHOUSE ACTIVITY. Members of the Union de Radioaficionados de Gijon
> (EA1URG) will be active from the Faro de Cabo de Penas Lighthouse (ARLHS
> SPA-037) on December 18-19th. The callsign will be ED1PFA. The operation
> will be under the authority of the "Autoridad Portuaria de Gijon". This
> is one of the most emblematic lighthouses in Spain, situated on the Cape
> of Penas, Asturias. Today it serves as a differential GPS navigation
> service station. They plan to show up on HF, VHF and UHF on all modes.
> Also, there will be PSK31 and RTTY. QSL via EA1URG; by the bureau is OK.
> More info will soon be available on their Web page at:
> http://www.ure.es/ea1urg/
>
> PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, Mike/W9RE, Harold/N4GG
> and Mark/N5OT will be active from Bonaire between February 15-22nd. The
> team will be active as PJ4R for the ARRL DX CW Contest (February 19-20th)
> as a Multi-2 entry. QSL via N4GG. For activity before and after the
> contest, the operators will sign PJ4/homecall.
>
> PY0S/ZW0S, SAINT PETER AND SAINT PAUL ROCKS. Joca, PS7JN, will operate
> from here from November 25th to December 10th. The callsign is unknown
> as this was being typed. It may be PY0S/PS7JN, ZW0S or PY0SA. Jose states
> that the government will issue the callsign once the DXpedition begins.
> He intents to operate on all bands and modes in his spare time or during
> good propagation.
>
> QSL INFO AND NEWS.....
> Online logs for HF0QF and HF0POL operated by Voytek, SP5QF, are now
> available at: http://www.sp7iwa.republika.pl
> The current logs include QSOs made through September 18th, and they
> will be updated as soon as Wanda, SP7IWA, receives the new ones.
> HF0QF/HF0POL operates from the Polish base 'Arctowski' (SP-01 for
> the Antarctica Award) on King George Island, South Shetlands (AN-010).
> QSL via SP7IWA. Wanda is also the Antarctica Award checkpoint for
> Poland.
>
> Tim, WD9DZV, informs OPDX that he is now the QSL Manager for Greg,
> SU9FL. Greg was heard this past week on 20/15/12 meters RTTY.

>
> TOP 5 QSL MANAGER NOMINEES. John, K1XN, of the GOLIST (QSL MANAGER
> LIST), conducts an annual survey to determine the TOP 5 QSL MANAGERS
> for the year, based upon nominations from DXers world wide. This is,
> of course, just an opinion poll and not a scientific poll, so it is
> just RELATIVE. DXers around the world are asked to submit the callsigns
> of their TOP 5 QSL Managers for 2004 based solely upon their opinion
> of how the QSL Manager responded to there QSL requests. John is
> accepting your nominees for TOP 5 QSL MANAGERS starting December 1st
> and ending February 1st, 2005. He will keep a running tabulation and
> then report the results mid-month February 2005. John stated that he
> had over 2500 responses last year, and maybe we will again surpass
> this mark this year. Send the nominations to: golist@golist.net
> John also reminds us that all QSL Managers do a great job and are a
> major source for those QSL card confirmations we all seek for the
> various awards sponsored by Ham Radio Clubs and groups World Wide.
> MANY THANKS TO THE QSL MANAGERS OF THE WORLD for all the work they
> do.
>
> S9, SAO TOME AND PRINCIPE (Update/Change). Another press release was
> sent out by Jarmo, OH2BN, on November 23rd, which updated the OH team's
> activities: "The group at Sao Tome and Principe, S9 - OH2BH, OH2PM and
> OH2TA - has had a slow start on setting up because of a tropical storm,
> lightning and heavy rain. Also, low bands have been very noisy all along,
> but things may get better. Today they have managed to hoist StepperIR
> beams and a 160M antenna. Activity can be expected on additional high
> bands as well as on 160M tonight. Low band operating will turn to CW
> only as of Wednesday, and return to SSB only after the CQWW CW Contest.
> The operation will last another week, until December 3. Sao Tome may
> well become another DX location for this group as they observe propagation
> and local conditions. So far they have found everything friendly and
> workable. They have a large back-up generator, for example, on site.
> As another gesture from the local telecom administrators, the first 1x1
> callsign was released for the upcoming contest: S9A will be activated as
> of 2359 UTC on Friday. QSL via OH2TA. The group is grateful to the
> licensing
> authority, Sr. Fernando J. Pasquete da Costa of CST, Sao Tome as well as
> to their local manager, Mark Davis of Marlin Beach Hotel of Sao Tome:
> http://www.bom-bom.com
> The group has decided to put only one station into the CQWW contest for
> all bands, while the other station will be active on 10 MHz and 18 MHz
> during the contest period."
>
> VK9N, NORFOLK ISLAND. Mike, K9NW, informs OPDX that he will be here
> November 24-30th. He plans to be active in the CQ WW DX CW Contest as
> VK9NW as a Single-Op/All-Band/Low-Power entry. Mike will only use wire
> antennas. QSL via K9NW.
>
> VU4, ANDAMAN ISLANDS (Update). Bharathi, VU2RBI, and her team will be

> leaving for Port Blair, South Andaman Island (IOTA AS-001), before
> December
> 3rd. Charles, K4VUD, reported this week that the VU4 DXpedition's budget
> is 20,000 USD. He has bank wire transfers of 2,000 USD (donations received
> so far) to Bharathi/NIAR. Charles also mentions a few items in his updates
> on the upcoming operation. He states:
> 1. HUGE thanks to all who donated money to date. Bharathi and her
> family will now NOT be in debt for the airplane tickets. We are
> still working on paying for her hotel stay at 85.00 USD/night in
> the hotel with the clear over-water shot to E, N, and W on high
> cliff overlooking the ocean.
>
> 2. The plan is to have two locations active, separated by several
> miles, on the same island. So far, no linears are available.
>
> 3. Due to the rapid formation of this DXpedition, no organization has
> been able to get support together and no manufacturers of equipment
> (except XM tuners) have been able to get on line.
>
> 4. The only pilot possibility is VU2MY at the NIAR (niarvu4@gmail.com).
> He will know QSL info.
>
> 5. Please remember this is a "mighty lite" operation that is
> establishing that ham radio is "OK" on Andaman, NOT a huge arrival
> of top opertors with tons of gear, so be nice and patient, please.
>
> Please remember that funds are still needed for this operation.
> Donations/funds should be directed to: National Institute of Amateur
> Radio,
> Raj Bhavan Road, Hyderabad 500 082, India. Funds can also be sent to the
> Charles, K4VUD. Charles states, "Any and all donations that come to me
> will
> be completely used to assist this DXpedition via the National Institute of
> Amateur Radio in India, the umbrella sponsoring agency who, BTW, is
> allowed
> to receive foreign funds." K4VUD mail address is: Charles Harpole,
> 3100 N. Hwy. 426, Geneva, FL 32732 USA.
>
> WH2, GUAM. Joel, KG6DX, informs OPDX that he will be active as WH2A in
> the CQ WW DX CW Contest as a Single-Op/Single-Band (15m) entry. Please
> QSL via KG6DX, CBA or QRZ.com address.
>
> YE0, INDONESIA. Stan, YB0AJR (OK1JR), will be active as YE0X from Jawa
> Island (OC-021) during CQ WW DX CW Contest as a Single-Op/Single-Band
> (80m)/High-Power entry. He will be looking for EU, JA and USA especialy
> around his sunrise/sunset time (2300z/1100z). QSL via OK1JN (his dad).
>
> ZK1, SOUTH COOK ISLANDS. Mike, W7DRA, informed the Topband/Contest
> community that he will be at Victor's house (ZK1CG/ZK1USA) for the CQWW

> DX CW Contest and possibly the ARRL 160m Contest. He will probably be
> using his TS930 and antenna farm. Mike states that for the intervening
> days, he will be at the edgewater or the Kii Kii cottages with his HW16
> on the following frequencies: 1808, 1818, 1828, 1841, 3514, 3533, 3541
> and 3560 kHz (or possibly other frquencies if he uses his VFO instead
> of his "ROCKS"). He will be on most nights from the November 25th to
> December 6th.
>

Bill,

50 foot is only too long if you are sticking with the resonant length
situation. Which is not really necessary with his setup. In fact he
probably gets better versatility with the longer length. Just an opinion.

I'm 50 years plus at this and an Extra since 1954, plus have held a First Class Telegraph commercial ticket as well. With virtually all CW and low band only interests, well able to handle 50-60 WPM at it, my now 315 confirmed on 40CW only are a large part due to the contribution of whatever I can glean from DX bulletins like this. At 326 now worked on 40CW I can tell you that I am, and from what I know, many others are, deeply greatful to sources of information on the DX world like this one.

Each of us in this pursuit has our own way of optimizing our satisfaction with the time and effort we put into it. My personal goal in life is to create as many choices for everyone with which I come in contact, at the same time as I create and optimize them for me. I believe that the worst thing we can do to others is to take away their freedom of choice, however you wish to define how that deprivation is accomplished.

It's your choice and right to criticize the posting of the bulletin. But from experience I can tell you that it gets a lot harder and lonelier way up above the 300 mark to accomplish working and getting cards from various 'countries'. I owe a couple of these latest wanted contacts and card opportunities to this posting. For which I am very greatful. And also upon contact with other DX for which I'll *GLADLY* spot what I hear for others and feed it to the bulletin world as well.

If what you advocate is to take away this source of information, that, to me, is depriving others of choices here. To me this would be wrong, but that's obviously my opinion..

Walt .. I may be wrong and it was '55. Don't think so though. I got it not long in months after it was first introduced. While on vacation in Erie, Pennsylvania, from our home in Texas that summer, Dad took me to Buffalo, New York to take the exam. I was told that at that time I was the youngest kid to pass it at 15, but lots of others younger have since passed it.

As the years go forward, the mind confuses the body .. and the body confuses the mind. In all the confusion I can vouch for the fact that all I've ever grown to be in many ways has derived totally from ham radio. The organization of the sport, the competitiveness, the technical springboard that it offers - and the log and record keeping fences and proofing it demands are worth a great deal in helping learn a lot about life. I'm very thankful for everything, all the doors it has opened, and the many people who have helped me along the way - W5GDK, the original W5VO, and W4AUT who were all mentors and took special time to help me.

...Keep the 50 feet, use a tuner. Quit wasting good
'worry' on tuner losses, they don't amount to enough
to worry about. The 'additional' length (and that
tuner) gives you access to other bands. Will it be the
'best' possible antenna? Of course not, but it'll
certainly be adequate...

On 26 Nov 2004 04:22:50 GMT, Alun <elektros@yahoo.com> wrote:

>However, anyone who has a licence from a country that has an ordinary
>bilateral reciprocal agrrement with the US can operate in the US even as a
>permanent resident for an indefinite period of time.

An excellent reason to never issue a U.S. call sign to a Japanese ham.
There is no circumstance where they'd NEED a U.S. license, because
they can operate in the U.S. or in any U.S. territory with their
Japanese license. Throw stroke whatever on the end of their JA call
and they're good to go. No paperwork required, no resources wasted.

>So maybe you'd like to ban VE tests held outside the US? That would be hard
>on your military. How do you get licenced if you are posted somewhere that
>you don't speak the language?

No, I wouldn't. You go to the U.S. Embassy or a U.S. military base and
take the test. Think about this - How do you pass a test in Japan
that's in English if you don't speak English? Remember that song from
the 70's? With a little help from your friends?

>Another suggestion I saw in this thread was to stop aliens from being VEs.
>I don't think that would fly constitutionally speaking either.

You're missing the whole point, Alun. The U.S. Constitution does NOT
apply to Japanese nationals who live in Japan. You live in the U.S.
You're a VE, and help other VE's in the U.S. give tests. That's
wonderful, and the fact that you're not a U.S. citizen doesn't bother
me a bit. I'm not a lawyer, so I'm not sure you have any
constitutional rights in the U.S. or that you were allowed to vote in
the presidential election, but that's not the point here.

If three Filipino's give a VE test for licenses in the Philippines,
that bothers me. If three Japanese hams give a VE test for U.S.
licenses in Tokyo, that bothers me. And I'm sure it would bother a lot
of other hams in the U.S.

>So, what do you seriously suggest?

Cut out the world wide bogus VE testing. If you are U.S. military or
U.S. civilian overseas, you go to the U.S. Embassy or a U.S. military
base and take the test. And you prove to the people administering the
test that the address you put on the 610 form is REALLY where you
live, and not a P.O. Box at Mailboxes Plus that you and your buddies
chipped in to pay for, or the P.O. Box number of the Guam QSL bureau.

>I don't really think anyone cares if someone in Japan can get a call that
>belongs to the mainland US.

I think if you did a poll of U.S. hams, you'd find that thinking is
way out in left field.

Maybe it'll help you see the big picture if we sum it up one more
time:

If you are a ham from ANY country and you LIVE in the U.S., and you
can't operate in the U.S. under CEPT agreements, then by all means you
should be allowed to take the test (in the U.S.) and get a U.S.
license.

BUT - If you're a ham that lives in the Philippines, and you think it
would be neato keen kool as a moose to have a U.S. license just for
the hell of it, you should NOT be allowed to get one - and most
certainly not when the test is given by three other Filipino hams who
have never been to the U.S. but somehow managed to get U.S. licenses
and sign up with W5YI.

Wouldn't it have been nice if all the final exams we took in school
were administered by our classmates at the bowling alley on Saturday
night with no teachers around to watch? I bet if we used that system,
it wouldn't have taken me eight years to finish high school.....

AND - If you are a Japanese ham that lives in Japan, and you think
that it would be kewl to have a U.S. license so that when you go to
VP9 for vacation you can pretend you're from the U.S. so you're
allowed to operate in VP9, or because a U.S. call would look kewl on
your QSL card, you should NOT be allowed to get one.

Nobody has a problem with hams that are REALLY in the U.S. getting a
license, no matter where they were born and raised. It's not a
citizenship thing. Nobody has a problem with you getting a license in
the U.S. even though you don't really need one, because you ARE in the
U.S.

The problem is with hams who have NEVER been in the U.S., or never
intend to BE in the U.S. getting licenses they don't really need or
ever intend to use in the U.S. OR that they intend to use as an
International Radio Passport.

Example: All the KH0/KH2/KH7/Wxxx calls issued to JA's. Some of them
operate in Guam or Saipan, once, or once in a while. Many don't ever
operate there. Now that the CEPT agreement covers Japan, they don't
NEED a U.S. license so it's a waste of resources and call signs to
issue them one and it allows them to falsely present themselves as
U.S. hams in other countries to obtain reciprocal operating privledges
that they couldn't get with a Japanese license. Before CEPT if they
wanted to operate in Guam, they had to get a U.S. license or a
reciprocal license. Those days are over.

Why shouldn't 3 JA's be allowed to test me for a U.S. ham license in Japan? The same reason I can't take a test for a Florida drivers license in Japan at the Tokyo Motor Vehicle Department. Because it makes no damn sense.

You need to rethink your list, Hans. WH0V and NH0F have been living in
Saipan for years, as have a few others on that list. The ones that
start with Yoshi and Toshi at QRZ.com probably don't live there :-)

Saipan is not a U.S. territory and they make some of their own rules
about immigration and working there, so there are a lot of guys from
the P.I. that live and work in Saipan. Probably 90% of the ham
population in Saipan are Filipino. But then again, you are correct in
assuming that probably 90% of the hams with KH0 calls couldn't find
Saipan on a map.

Thanks for the feedback folks. Doc is on the right track. THe tuner works really well (way to go SGC, nice product!) and the antenna length doesn't seem to be impeding transmission distance.

Furthermore, the length, although not electrically correct for all frequencies, is convenient physically for a sail boat.

Glad to hear that the 1000 mile distance I attained was acceptable performance. My actual planned use is for keeping in touch with other vessels (friends) that are within a couple of thousand miles tops. Hopefully it will do the trick.

Thanks for the feedback folks. Muuch appreciated.

Jimmy

>>So, what do you seriously suggest?

I call this the Ferner radio act of 2005:

The first thing that must be done is to determine what is a desirable callsign.

Although we can't tell in all cases, most would agree that:

1X2
2X1
1X3
2X2

are the most desirable

2X3 licenses are the least desirable of the lot.

But! some may find them desirable.

So in the interest of finding the least desriable callsigns for ferners to use, I would suggest that we make a new class of 5X5 callsigns.

This would keep the callsigns away from the prefixes already assigned to the different countries, and would eliminate any question of ferners gobbling up those desirable ones.

It will be important to have an oversight committee set up to make sure that the callsign is not accidentally desireable. Efforts must be made so that no feren ham has his or her initials in their callsign.

All testing must take place at an embassy, and be approved by the respective countries legislative branches, as well as the respectice countries radio commissions.

The ferner must pay for a specially trained and reputable VE to be flown to the place of testing.

How's that?

I am not a lawyer either, but FWIW resident aliens do have constitutional
rights under the due process clause of the 5th amendment and under the
equal protection clause of the 14th amendment, although the latter only
applies to the states and not the feds.

You're right about aliens overseas not having constitutuonal rights,
though.

As for voting, there's nothing in the constiution to say that aliens can't vote. As we all know from the last two elections, voting is administered at the state and local level, not by the feds. Here in Maryland, aliens can vote in city elections in Takoma Park, but that isn't where I live. I understand that as recently as the 19th century many states did allow aliens to vote, which may have made sense when everyone was an immigrant.

Come to think of it, as equal protection under state law does apply to aliens, how long will it be before someone tries to file suit to get voting rights for aliens, maybe even illegal aliens?

Exactly what I was going to suggest. This will be easy to do if you have a
pully on the top end so you can easily drop the wire to change the shorting
straps. With the 50 foot wire, I would be concerned about getting high angle
radiation on 10/15/20 metters. Dog bone insulators might put less capacitive
loading on the top of the disconnected section.

How about adequate performance and convenience?

Ever been aboard an ocean going sail boat when the waves hit 5 meters and the wind is howling like a freight train? If not you can't imagine the fury. I've been there. It's exhilirating but not easy to endure. In fact it's damned hard work. That is NOT the time to be playing with knobs and switches trying to tune for a particular band. Believe me, I will have more imporant things to do. But I do want to know that I can tranmsit immediately if something terrible happens by just keying the mic. No fuss.

No offence but I've always been intrigued watching amateur enthusiasts wiggling knobs and waggling switches. Reminds me of a scene from the wizard of oz for some reason. Seems so unnecessary in this day and age.

CONVENIENCE is a VERY good a reason as any to use a tuner. And they're not all that costly either. A few hundred bucks at best.

Just my 2 cents worth.

Jimmy

Yes -- see rec.radio.shortwave

Lots of posts there about AM DXing from time to time.

Lots of junk there as well -- so you will have to weed thru the junk

Also check YAHOO Groups -- there are some there

In what world does an "L network" not equal exactly what a tuner does
for a wire antenna? An autotuner is nothing more than a binary
incremented L Network with autofeedback of directional power, and phase.
You suggestion is the same thing with no feedback or incremental changes.

With a 50' antenna length and an adiquate RF Ground, one could
consider that a respectable Marine Radio Installation.

One thing that needs to be understood is that ALL Autotuners
have a REALLY BIG difficency that is inherent in their design.
They can NOT tune wires at the Half Wavelength point and 50Khz on each
side. At this point antenna impedance becomes Infinite and can't be
tuned. so a boater must make sure that he never intends to transmit
on the frequency that is at the electrical Half Wavelength of the
antenna. He may need to lengthen ot shorten the wire to adjust
for this condition.

Hi James,

Well, as to the DX range, that has been responded to. So, to add to
all the comments in regard to height of antenna, tuners, automatic
tuners and the rest - another comment.

Take a fishing reel full of the Wireman's Flex weave (no doubt this
will provoke comments about wire corrosion) and drive it. Use your
hoist to pull out the correct height for any band.

I do take note of your admonition about fumbling with knobs, dials,
switches when a rogue wave is overtaking you. Your knottage may vary.

Thanks for the words of wisdom Bill.

In fact I made a point of purchasing a tuner that comes in a water tight (read that water PROOF according to the manfacturer) case. It's high up mounted in a lazerette that "theoretically" stays dry. The ground and antenna stud are both 316 Stainless (highly corrosion resistant and intended for use in salt air). Furthermore, the electrical connection between antenna stud and wire is soldered, crimped, and then heat shrunk with adhesive lined shrink. Instead of using high tension wire for the antenna connection to the backstay wire, I used tinned copper heavy gauge insulated electrical wire. The environment that I live in is so corrosive that, believe it or not I had to strip back the jacket to expose the tinned copper wire, and then seal the cut edge of the jacket to prevent salt water ingress between jacket and wire. If that isn't done even tinned copper wire will corrode. Salt water will creep under the jacket and corrosion will occur for a few feet distance from the

stripped jacket.

All connections (RF, power and control) between tuner and radio are made with crimp and solder, then sealed with liquid electrical tape, then adhesive lined heat shrink. I bought really big insulators to go at both ends of the wire antenna too. Salt water is conductive and the larger insulator with heavy ribbing will hopefully reduce the surface coating of salty water to a level that precludes conductivity. Hopefully. the copper wire I ran up the mast is on it's own pulley (well it will be when I find time to go up the mast) and is already a lovely shade of green. I have a spare, and hope this one lasts a year before needing replacement.

Even so, I expect to have to service the connections about once a year or so.

And you thought putting a beam on a tower was hard! Just thought you'd find the lengths we have to go to in the ocean environment interesting.

The KISS principle is followed where ever I can too. I sincerely agree. When things go badly on board, it's rarely one big bad thing that bites ya. It's a string of small problems that...when combined, lead to a bad day. I guess that's true in a lot of endeavors come to think of it. Last time I was in a bad storm (a really bad one at that) I was on the radio seeking information from someone else who had radar (I do not). My autohelm had failed (a lousy 25 cent pin broke) and so I had to hand steer in heavy seas. I couldn't leave the wheel. Fortunately the mic on my marine VHF radio ~just~ reached the wheel from inside. Unfortunately that is when I discovered that if I pulled on the mic cable it became very intermittent. And that led to me spending a half hour trying to raise a nearby boat with radar to ask which way the storm appeared to be moving. Then the lightning started hitting the water all around me...from there...well...let's just say it went downhill some.

Simple is good.

Thanks again for the feedback.

Bill,
In most cases, anything you do on a boat is a compromise between what it 'ought to be' and what's possible. Since the backstay (or frontstay) is ~there~ anyway, why not use it? Certainly not the 'best' thing in the world (whatever that is), but 'better' than most alternative$.
Some people have a 'phobia' about tuners. If you don't want to use one, that's fine. They do make 'things' much easier and the difference in performance is 'acceptible' in most cases (acceptible being relative). Since there are alternatives, pick the one you think you can 'live' with and go with it. "You pays your money and takes your choice", as they used to say in the house with the red velvet wall paper...
'Doc

PS - Not that I've ever been in one of those houses, I've just read about them...

You should replace the copper wire with the stuff the BIG BOYS use.
It is called Phospher/Bronze Antenna wire and it Doesn't turn green
when in contact with Seawater or salt air. Stuff was designed for this
spacific purpose.

And single-banded, one thing a tuner is not. :-)

The antenna need not be resonant. Under certain easily obtainable
conditions, the length of the open-wire transmission line can tune
a non-resonant antenna to system resonance and better the losses in
the coax feeding a resonant antenna. How to do that is described
on my web page.

Back to TX distance - you really need to get a good book on propagation and understand the solar cycle and the characteristics of each band.

For example -- on 10M with the right time in the 11 year solar cycle -- a minimum antenna and a few watts will work the world (at the right time of day)

On 160M in the day time in the summer with low power -- you ain't going anywhere

It's kind of difficult to get a resonant quarter wave into a back stay
as you don't usually know where ground is. Ground can be any number of
feet from where the feed point is on a boat. Every thing above real
ground is antenna.

Bill I agree But
The original poster sed:

"My very first contacts were established with 2 land stations on 14300 at
100W that were about 1000 miles away. They both reported that my signal
was good and that it sounded like I was "sitting right next to them". I
have no idea if this was a good distance, great, or mediocre."

So I assume he was after contacts of several hundred (thousand) miles - not
ground wave.

My point was this for the 160M band (From a book on propagation)

"160 meters. Daytime conditions for this band suffer from extreme D-layer
absorption, reducing the amount of signal to levels far below the noise
floor of our receivers. This limits daytime coverage to essentially
ground-wave coverage. At night, the D layer dissipates rapidly and worldwide
160-meter communication becomes possible via the F2-layer and in ducts in
the electron density valley above the E region peak. Depending on the
propagation mode, high or low elevation angles may be required. A limiting
factor is the noise levels prevalent at these frequencies, both atmospheric
and man-made as well as tropical and mid-latitude thunderstorms which cause
high levels of static in the summer season. Winter conditions are much
better, making winter evenings the best time to work 160-meter DX.

So you might have ground wave on 160M during the day to 100 miles or so.

See URL for details and formulas on ground wave distances
http://www.qsl.net/g3cwi/Downloads/Propagation%201.doc

As I sed --- way too much on propagation to put on a post and cover all the
variables and details -- the original poster needs to get a good book or at
least look at this free URL
http://www.ae4rv.com/tn/propflash.htm

And of course -- "on 10 meters at the
> bottom of the sunspot cycle 10 is open nearly every day to
> somewhere."

OOppps you are right -- I shouldn't have sed anywhere.
Of course ground wave may get out to 100 miles.

See my other post

No possible way that could be accomodated with any degree of safety or convenience at all Bill.

On a sailboat, the conventional way to run a long piece of wire is up the mast at the stern. Either a wire or an insultated backstay is used. The backstay is the guy wire at the back of the boat holding the mast up. Insulators can be cut into the backstay allowing it to be used as an antenna. I don't care for that much as it seems possible for the backstay insulators to fail (even though the manufacturers claim otherwise), leading to a dismasting. People die that way. So I run a simple copper wire up the back between the 2 backstays.

At the stern of most sailboats, there are exterior storage lockers. A very heavy stainless steel "chain plate" is attached to the hull at the stern, and the back stay (or in my case stays, as I have two) are attached to those chain plates. My chain plates are right on the transom which is typical of most sailboats. That's RIGHT at the back of the boat. There is a stern locker nearby for storage of stuff you want to use in the cockpit. That is a typical layout for most sailboats. Then, heading forward there is a cockpit area, then the companionway down into

the cabin. Below the cockpit is engine, and no living space. The livingspace typically begins at the companionway.

Typically, the radio is located at the nav station, which is midship in the cabin, in my case about 15 feet from the stern locker where the tuner is located. My boat is quite typical of most sailboats. There is no living space in the vicinity of the transom nor is there living space under the cockpit. Some sailboats feature a center cockpit, in which case a large master stateroom is usually under the back of the boat. That's not where a radio belongs either. It belongs at the nav station.

In other words, in order to use pigtails "right under the antenna" as you suggest I would have to go outside of the cabin by climbing up the companionway, walk to the very back of the boat (a place you do not want to be when in heavy weather), open a stern locker, get down on my hands and knees and fiddle with the pigtails whilst pitching about as if in a washing machine of the spin cycle. Then go (stagger really) back inside to use the radio. Switch bands? Do the whole thing again. By the way in heavy weather, leaving the cabin also entails strapping on a heavy safety harness, possibly foul weather wear, and then attaching the safety harness to a line that is attached to the boat, before exiting the cabin. As you can surely appreciate, pigtails or any other mechanical connections to be messed with would simply not work in the environmnent.

Simply put, the only practical solution on a sailboat is a tuner. That is why I have never yet (in over 25 years of serious messing with boats and countless sea miles under my keel) seen a ham or marine SSB equipped boat without a tuner.

It is the ONLY practical solution.

There should be no problem at all with some of the antenna being below deck. It would be good to keep it away from metal stuff of course. Longer horizontal runs tend to raise issues, though. Probably a greater chance of coupling rf into the boat's other electrical systems, and a long run of 20 feet or so (say from the backstay to a nav station amidships) can radically alter the radiation pattern. Maybe for the good, maybe not. And that is the main reason that manual tuners are questionable choices for use with backstay antennas. Nobody wants to try to manually tune a backstay antenna located at the stern if the rig is 15=20 feet away.

To avoid this run, some of us have resorted to loading the shrouds (and the whole rig as well) with an L-network quite successfully. I believe a separate wire run up a flag halyard would be an easier antenna to tune, but it would introduce other issues.

As Gary has said, it is difficult (but only mildly so) to get a resonant quarter-wave in a backstay. It would probably require an antenna impedance analyzer to find resonance. Make it a bit short and add a few turns of wire (cheap and reliable) to bring it to resonance.

Chuck

A few interesting things noted during this weekend's CQ WW CW...

- A few weeks ago in the Phone Sweepstakes I worked WW0WWW. Figured "this guy *must* be a phone op, no self-respecting CW ham would pick a call like that!"

Guess who called me on 20 meters CW this morning?!

- M0O.

- Has Finland invaded Argentina? An OH3 station sent me Zone 13; when I questioned him on it, he insisted he was in Zone 13. OK, if that's what he sends then I guess that's what I'll log...

- Scores I had at some point during the contest:
69696
257752
363636
589589
909090

There should be a special certificate for submitting a palindromic score.

When I said "you don't usually know where ground is" I meant that on a
boat what may look like real ground may not be. Usually there are a
lot of different things tied together to try and get a decent ground
for the radio. The length of those leads are a factor. There is no way
to know for sure how long the actual ground lead is without measuring
where your antenna resonates.

Cut and try with a backstay is not practical.

EA8ZS was sending Zone 44 on some bands, all weekend!

I posted it a few times, adding "Rare Zone 44", and people told
me he is in 33. Well, I know dat!!

So if you log 33, you should lose points. If you log 44, your
computer probably crashed.

Cecil,
Changing feed line length is a viable option for a land
station, but a not-so-viable option for a sailboat. Where/how
do you place it to keep it out of the way?
'Doc

I notice nobody has mentioned traps. That would be another way. 50 feet is long enough to have it work 75 meters, if there are several traps in line. From what I understand, the antenna is mostly vertical. Tuner or not, a 50 foot vertical is getting to be too long for low angle radiation at the higher bands.

Yeah, I realized that. (actually I didn't notice the first score *was*
a palindrome!) I just thought the other three were *interesting*!

Ah, I wondered about that - I just heard a bunch of dots
and a dash at the end :-) Hardly worth shortening it
that much, really. HC8N was sending ENNAT, which is
much less ambiguous. Oh well, I'll count the dots more
carefully next time!

It seems xw8kpl was xw1fan's old call.

ru3dx has a email via qrz.com, maybe leave him a e-mail.

via google ru3dx has a web page, the english version doesn't work for
me, won't load, but there is a russian version of the webpage that works
better if you can read russian. there seems to be guest operations at
xw8kpl at one time, mostly japanese, via this web site
http://www.qth.com/dxshack/XW/XWlicense.htm

(sorry, can't reproduce them on my mail system)

Where is this list from? No problem with 0, 1 and 9 but "V"
for 4? Peter said VV was meant to be 33 in the case of EA8ZS
in the recent contest....

I have never heard any of those other abbreviations used in
15+ yrs of CW contesting. I have heard a single "dit" for 5,
as part of "599", when it's unambiguous. And in the ARRL
contest when power is part of the exchange, I've heard 599 000
for a KW (I sometimes reply "fb QRP").

I hope nobody sends these things to me in a contest as a serial
number, other than 0, 1 and 9!

Derek aa5bt (I guess that's 11560, or something...)

There have been numerous articles about IE not keeping up to date over the past several year. I use Firefox all the time now. Faster, better and safer. Lot's of add-ons, themes, etc. that can be downloaded right from Mozilla. IE is dead people, time to kick MSIE out the door.

>Shame on you, Jim. :-)
>Are you saying you never tuned your car radio while driving late at
>night trying to pick up some AM DX? Any *real* DXer would.

Back in the 80s I'd agreed to be an Arbitron radio "rater," for lack of a better term. I was given a little journal book to indicate what radio stations I listened to in 1/4 hour segments over a 3 month period.

About a week after submitting my duly-completed book back to Arbitron, I got a phone call asking me if I thought is was some sort of joke and what were my answers supposed to represent. Of course, except for a couple of local newscasts, I never listened to the hideous crap that masquerades as listenable content on Toronto's airwaves. I duly pointed out that at no point in the instructions was I restricted to local broadcast stations only.

My book was about 50% AM-band DX (mostly WCBS, WABC, KMOX, WTIC, WLW, WJR, WHO, WGN, WRNO, WWVA, WBBM and WSM), a few Short Wave entries from Deutch Welle, the BBC, Radio Moscow and Radio Canada International, Weather Radio Canada on VHF, two 2m amateur repeaters and the Metropolitan Toronto Police Force and Toronto Fire Department radio systems.

Funny, but I was never asked to participate again for some strange reason....

If you have ever heard or used these

9=N, 0=T, 1=A

Then you have heard or used abbreviated numbers, also called cut numbers.

> want your evaluation of the question.

Most popular and right are not necessarily the same thing...

(in general programmers tend to do these things they way they like it to work, whether anyone else prefers it that way or not...

That applies both to Microsoft programs (why, in Word, do you click on "Format" to format paragraphs, fonts, and lines -- but "File" to format the page?!) and to Linux programs. (I love the Joe editor, except.... the control-arrow keys don't work, you use control-X and control-Z instead...)

Even Macs have had their not-so-good moments. I remember the first Mac I tried to stuff on the building network. Here's a box for inputting the IP address. Stick in "192.168.1.4" - it says "Invalid entry". ??!! Turns out what it wanted was 2158493956.)

I think Walt has the right answer. (except for the part about it being obvious...) You're supposed to delete any quoted text that has nothing to do with your reply, then put the cursor after the material you're replying to and type from there.

If you do delete the irrelevant text and type your comments after the relevant quotes, then it really doesn't matter where your mailer leaves the cursor.

If you *don't* delete the irrelevant text then I suppose it does make more sense to top-post -- so that the reader doesn't have to wade through all the irrelevant material to reach your comments. (I will frequently delete an email unread if everything on the first screen is someone else's quoted material)

On the other hand, making top-posting the default makes it easier to be too lazy to delete the irrelevant material...

It might be nice for the software to, by default, refuse to post any message that's more than 75% quoted material...

1648. VU4, ANDAMAN ISLANDS (Update)

Newsgroup: rec.radio.amateur.dx
Date: 2004-11-30 21:44:40 UTC
From: Noise From Afar <NFA@wayoutdare.net>
Message-ID: <cR5rd.189377$hj.173439@fed1read07>
Source record: 6389

VU4, ANDAMAN ISLANDS (Update)
Bharathi, VU2RBI, and her team will be leaving for Port Blair, South Andaman Island (IOTA AS-001), before December 3rd. Charles, K4VUD, reported this week that the VU4 DXpedition's budget is 20,000 USD. He has bank wire transfers of 2,000 USD (donations received so far) to Bharathi/NIAR. Charles also mentions a few items in his updates on the upcoming operation. He states:

1. HUGE thanks to all who donated money to date. Bharathi and her family will now NOT be in debt for the airplane tickets. We are still working on paying for her hotel stay at 85.00 USD/night in the hotel with the clear over-water shot to E, N, and W on high cliff overlooking the ocean.
2. The plan is to have two locations active, separated by several miles, on the same island. So far, no linears are available.

3. Due to the rapid formation of this DXpedition, no organization has been able to get support together and no manufacturers of equipment (except XM tuners) have been able to get on line.

4. The only pilot possibility is VU2MY at the NIAR (niarvu4@gmail.com). He will know QSL info.

5. Please remember this is a "mighty lite" operation that is establishing that ham radio is "OK" on Andaman, NOT a huge arrival of top opertors with tons of gear, so be nice and patient, please.

Please remember that funds are still needed for this operation. Donations/funds should be directed to: National Institute of Amateur Radio, Raj Bhavan Road, Hyderabad 500 082, India. Funds can also be sent to the Charles, K4VUD. Charles states, "Any and all donations that come to me will be completely used to assist this DXpedition via the National Institute of Amateur Radio in India, the umbrella sponsoring agency who, BTW, is allowed to receive foreign funds." K4VUD mail address is: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732 USA.

1649. javaradio

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-01 01:24:59 UTC
From: dogdog@noemail.com
Message-ID: <pan.2004.12.01.01.25.01.848979@noemail.com>
Source record: 6390

I've seen some websites related to javaradio whereas a user can
control a receiver via the internet. i've read over the requirements
and even though I'm not ready to quite do that for everyone on the
net I'd like to get my hands on the code to do it in-house as
a little experiment.

Who has this code? and how can I get the source to do it in-house
prior to allowing people to use my linux box to control my receiver?

There was nothing on the websites associated with it as it relates
to the programs etc, any help on this would be greatly appreciated.

Hey Pete,

Don't feel slighted because Arbitron didn't send you anymore journals. Around the same period, my family and I filled out our journals with no unusual entries as you did, and we were never asked again to participate.

So once your number comes up in their sample, you probably will not be asked again, in this lifetime, to be part of their survey.

73 de Evan, KB2AMY

1653. online HF bandscope ?

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-01 21:55:03 UTC
From: Thierry <-->
Message-ID: <41ae3dbd$1@news.vo.lu>
Source record: 6394

Hi,

In the past the company OREXIS provided an online HF bandscope

Here is one of their outputs (reduced size),
http://www.astrosurf.com/lombry/Radio/hf-spectrum.gif
Their website is no more active.

Does someone know if we can find similar graphs somewhere else on the
Internet ?

Thanks in advance

Thierry, ON4SKY

Hello,
I inform that a team of ARI will be active,
(thanks to one rare and extraordinary authorization of the military
authorities)
on HF-SSB, (call IP1TI), from TINO Island
from the 3 to the 5 December 2004.

Operating radios:
IK4JPR - Sergio IZ4CCO - Giuseppe IK4RUX - Vanni
The activity radio could be carried out exclusively in the diurnal hours.

As a matter fact, I remember a couple of newsservers I frequently used a couple of years ago that actually did that. Annoying for the first couple of postings, enlightenig for the rest of my usenet experience.

I wish professional use of e-Mail communication would adhere to that basic rule. It would make life easier and less painful to read some people's e-Mail. Malformed, malquoted, blinking tags and all that with virtually no reference to original mail.

Damn, I hate it when somebody's web site goes out of business and screws up your "content". I think AB7SL has some of those on his web site.

You're the internet guy. You tell us. Go find it, Lycos.....

A simple inverted-L (a vertical wire plus a horizontal wire), of no particular length is about the best you will ever have. The higher the better. You will need a ground connection such as half-dozen, shallow-buried radial wires, between 10 and 20 feet long. Include any metal water pipes with the radials.

An overall wire length between 100 and 150 feet does better on the lower HF frequencies and on the MF broadcast band. Between 40 and 100 feet does better on the higher frequency HF bands.

Reg, G4FGQ

I have used both the inverted L on 160 meters with great results plus it performed great on other bands except 40 meters. My personal favorite is the center feed double extended Zepp feed with open ladder line and a good antenna tuner or matchbox. If its cut for 80 meters it exhibits about 3 Db gain over a standard dipole, same hold true for forty meters. The forty meter Zepp operates similar to a 80 meter dipole. The higher in frequency the lobes get interesting and exhibit gain in certain directions.

I have worked all over the world using 100 watts on 80 meters through 10 meters including the WARC bands.

A Extended Zepp center feed is one of the best keep secrets. Good luck

psst, it was Soviets who did more to defeat Germany than all the other
Powers combined. With a fair amount of material aid from the U.S., yes, but
it was their blood. And, no, I am not belittling the sacrifices made by U.S.
troops. My father fought in Africa, Sicily, Italy, France, and Germany and I
have his Sliver Star, Bronze Star, Purple Heart, etc. as a proud reminder.

My "secret antenna" is the Windom.

44 feet (13m) of wire on one side, 88 feet (26m) on the other side, fed in the center with a 4:1 balun. (many hams use some flat twinlead between the feedpoint and the balun, allowing the balun to be fastened to a pole or something to avoid the physical straing at the feedpoint)

Works without a tuner on 80, 40, 20, and 10 meters, and with the autotuner on most rigs on 15. And it's effective. And easy to build!

Actually it was the Japanese that caused Hitlers defeat. Think about it.
If Japan would not have attacked the USA, Hitler would not have had to
declare war on the USA. Which would have given him a year or two more to
work on the USSR. And maybe, just maybe, hold onto Africa and thus giving
him a serious shot at winning it.

But...the USA came in and gave him another front to contend with. Basically
the Allies got lucky.

The Scots wouldn't have even had to fight - just the sight and 'sound' of
them coming would have been enough.

The worst DX-pedition operation I have seen in many years, even worse
than VK0MM.

Gee, where have we heard that before? EVERY DXpedition was the worst
DXpedition ever - according to the guys who didn't werk 'em. But the
good news is that every DXpedition was the BEST DXpedition ever -
according to the guys who did werk 'em.... Go figure.

Jim,

I have worked them so that's not the issue. The problem is that these guys are just doing everything wrong, from runnig two stations on the same band, at the same time less than 50 Khz apart, listening up, listening down, making lists for themselves, calling by country then working others, you name it, they do it. Just completely disorganized.

And yes, I also worked VK0MM on few bands and he was just as incredible as these guys. OK, I'll be fair, these guys are better, at least they don't have penguinator and not making threats on their websites :-)

VK0MM was a good operator, it seems you were not. Apart from that, VK0MM was
not a DXpedition.

I don't think so, I think that he made a complete idiot of himself from Macquarie Is.
I spent hours and hours listening him on HF bands, he invented idiotism on the bands.

Yes, you were right, it wasn't DX-pedition, but he was rather pretty active from Mcq Is.

And I don't understand why are you refering to me as not having been a good operator.

Sure hope for some CW and the use at their end of better antennas. Here in MI, nothing at all has been heard on any frequency. Have a rural noise level and high antennas. Not one signal that could be identified as having come from VU4. Once, I heard what turned out to be someone else.

Propagation calculations show peaks at 14 GMT, 20 GMT and 24 GMT.

In USA, East coast and West coast have a much better chance of working VU4 than the middle of the Republic.

I too hope that Bernie is right.

3G, EASTER ISLAND. A group of operators from Norway and one operator from Denmark (former S9LA-team of 2002) will be active from here January 8-18th in 2005. The callsigns for the operation will be 3G0YP (SSB) and 3G0YM (CW/Digi-modes). Activity will be on 160-10 meters. Look for more

info to be posted on the LA-DX Group's Web page at:
http://home.online.no/%7Es-roabr/ladxg/

3W, VIETNAM (IOTA Activity). Masa, JA7GAX, is expected to be active here this week and will activate several Vietnamese islands over the next few weeks. His activity will begin as 3W2GAX from Ho Chi Minh City starting December 7th. On December 9th, he will be active as 3W2GAX/C from Con Son Island (AS-130). He'll head back to Ho Chi Minh City on December 16th. On December 19th, look for him to be active as 3W2GAX/4 or possibly 3W2GAX/p from Phu Quoc (AS-128). Masa will return back to Ho Chi Minh City to be active one more time between December 27-29th. QSL via JA7GAX, direct only.

4X0, ISRAEL (Castle Activity). Jan/4X1VF, Ilya/4Z1UF, Shalom/4Z4BS, Mark/4Z4KX, Ruben/4Z5FI, Ruslan/4Z5LA and Yuli/4X6HP will operate for the first time after 16 years from the famous historical site - "Masada Castle" near the Dead Sea, with the special callsign 4X0MS. Activity will start 1000z Friday, December 24th until 1000z Sunday, December 26th. They will be on the air with two complete stations on CW/SSB 80-10 meters. Also, the square for the "Holy Land Program" is L22BS. QSL Manager is Shalom, 4Z4BS. To read more information about this historical site, please visit: http://www.bibleplaces.com/masada.htm

6O, SOMALIA. It has been announced that the Italian group, which is going to Somalia in February 3-17th (see OPDX.683), now has a survey (for needs and wants on bands/modes) on their Web page. You are encourage to fill out the survey (especially the Topbanders). The Web page can be found at: http://www.i2ysb.com/6o/need.htm

AFRICAN TRIP (Operators Needed!). Frosty, K5LBU, is planning to go back to Africa again for 2005. He states he would like to go to Botswana (A2) or back to Mozambique (C9). This time he would like to have some other operators join him. Frosty would like to have at least 3 other operators or more. Operators need to plan on at least 8 days but more likely 10 days from the time of arrival until leaving. He states, "If all else fails I will go back to 3DA0 Swaziland." Frosty's E-mail address is: frosty1@pdq.net

ANTARCTIC NEWS.....
Dr. Mario Pillon, I0QHM, (along with 2nd operator Danilo) continue to be active as I0QHM/KC4 from the Mario Zucchelli Station (WAP ITA-01). After the operators establish family connections on the air, they will then make an efforts to make contacts with everybody else. They state that they will check-in regularly on 14180 kHz from 1830-1900z. However, due to limited time, Mario can only stay on the air for 30 minutes a day.

You have less than a month to work Finn, VK4LL (OZ2QK), as VK0DX from the ANARE Davis Base Station (AUS-03). His activity has been mainly on 20 meters CW/SSB. There has been a few QSNs on 17/15 meters. Look for him between 0000-0530z. QSL VK0DX via: Finn Olsen, P.O.Box 1544, Brisbane 4001, Australia. His Web page is at: http://www.qsl.net/vk0dx/

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
TN3S - Congo; Current operation effective May 15, 2002

HG05, HUNGARY (Special Prefix). Just a reminder that Tibor, HG4I, will be using the special callsign HG05HNY between December 10th and January 31st. The special event callsign, HG05HNY, stands for: The 05 as a call area is the last two numbers of newcoming year and the HNY suffix is the abbreviation of the phrase "Happy New Year". Activity will be on all HF bands (including the WARC bands) on the following modes: CW, RTTY, BPSK, SSB. He will try to take a part in all HF contests during the activity period. The stations are valid as a separate multiplier in the HA-HNY activity contest. See the rules on SM3CER's contest sevice Web site:
http://www.sk3bg.se/contest/c2004jan.htm
QSL via only direct (SASE) to HG4I: Mr Tibor Szabo, A.R.S. HG4I, H-2465 Rackeresztur, Budai u. 6., Hungary.

IOTA NEWS.....
AS-076. Look for JN4MBO/5, JA5BEX/5 and JF0BPT/5 to operate from Wasa Island, Nabe Island, Koyo Island and Yoshi Island from December 23-26th. Activity is scheduled for a one day to a half a day to operate, respectively. QSL via the bureau or direct to their home callsigns.

AS-079. Operators JL2LRO and JK2HVD will sign homecall/6 from Miyako Island (JIIA AS-079-005), December 11-13th. QSL via the bureau or direct to their home callsigns.

NA-102. Members of "THE RADIO CLUB A.C.R.A GUADELOUPE" are organizing a DXpedition to the Island of La Desirade (DIFO FG004, LOTA GUA 005), December 18-19th. They hope to activate the callsign TO7DSR. The A.C.R.A Club's goal is the revival of radio amateur activities on the island. Activity will be on all bands (HF/VHF) and 6 meters CW/SSB/RTTY/PSK31. QSL via RADIO CLUB A.C.R.A GUADELOUPE, BP 126, Messagerie, Pointe-A-Pitre, Cedex 97110, Guadeloupe. Visit their Web page at:
http://site.voila.fr/acra-radioclub

KP2, U.S. VIRGIN ISLANDS. John, KP2/KL7JR, informs OPDX that he has been active from St. Croix, USVI (NA-106), since late October on most HF bands. He will continue his operations through the end of April 2005. He will be concentrating on 10, 12, 15, 17 and 20 meters (40 and 75 meters too). He mentions that he checks into the 14.247 DX Net most days after 2100z. His E-mail for skeds can be sent to: KL7JR@aol.com
QSL direct via his CBA w/SASE.

MD4, ISLE OF MAN. Operators David/G3NKC, Martin/G4XUM and Tim/M0BEW will be active as MD4K during the CQ WW 160m CW Contest (January 29-30th) as a Multi-Op entry. QSL via G3NKC.

QSL INFO AND NEWS.....
Gary, K7ZD, will handle QSL duties for Tony's (W4OI), 5K5Z, operation from last weekend's CQWW DX CW Contest and future operations from there.

He states, "Please be patient as I don't have the printed cards or logs in hand yet. I'll see Tony sometime in the next 2 weeks and we'll get things set up." QSL via the Bureau or direct with SAE & return postage is OK. Cards received with the "old" IRCs will be returned via the bureau. Stateside stations please consider sending a SASE rather than using the bureau - thanks! The logs may possibly be entered into the LoTW in the future, it has not been discussed yet with W4OI. Gary's address is: Gary McClellan, 3422 E Altadena Ave, Phoenix, Arizona 85028-2010 USA.

QSL A61AV/p via ON5NT: Ghis Penny, P.O. Box 93, BE-9700 Oudenaarde, Belgium. Activity was from Sirat Al Khawr (AS-124), and the operators were Mohammed/A61AV and Ghis/ON5NT.

A61AJ QSL UPDATE: George, K2UO, reports that he has received all contest logs for the CQWW SSB and CW Contests, and all QSLs received direct (with an SASE) have been answered. Incoming cards are being answered the same day as received. Cards received without SASE or via the bureau are answered via the bureau when there are enough to warrant the postage, so please be patient if you do not send return postage.
QSL A61AJ as follows:
North/South/Central America, Caribbean, U.S. possessions via K2UO
The rest of the world via DJ2MX.
ADDED NOTE: George mentions, "A box of over 1,000 cards sent directly to the UA bureau over one year ago was returned to me with no explanation, it was VERY beat up! I have resent these cards, this time via the ARRL outgoing bureau, hopefully they will be more successful at getting them delivered to the UA bureau."

QSL VO2AAA (November 24-28th) ONLY to K8DD's callbook address:
P.O. Box 88, Attica, MI 48412-9312.

NOT THE QSL MANAGER. Vlad, UA0ACG, is not the QSL Manager for JT1JA. He can answer QSLs for JT1JA "only" for activity for September 8-9th (2002). All other requests go direct to JT1JA in Mongolia.

NOT THE QSL MANAGER. Ron, AC7DX, reports that he has been receiving many requests for KH9/AH8H. He IS NOT nor has he ever been the QSL Manager for this station.

SOMETHING TO READ ON THE WEB. OPDX was informed that the story and pictures of the recent V6O operation from Pulap Island (OC-155) can be found on the Web at: http://www3.ocn.ne.jp/~iota/newpage90v6o.htm

SPECIAL EVENT. Wade, VE9WGS, is now active as VC9COAL between now and December 31st. Activity is to commemorate the 100th anniversary of the naming of Minto, New Brunswick, for the arrival of the railroad in 1904. Activity so far as been on 20 meters SSB betwen 1630-1700z. QSL via VE9WGS: Wade Smith, 96 Immigrant Rd, New Brunswick E4A 1B7, Canada.

ST, SUDAN (Update). Hugo, LA5YJ, informed OPDX last weekend that he was issued the callsign ST2YJ. He also mentioned that he has found a nice apartment were he can put up antennas (veritcals and or dipoles). He will

be active as work permits. This past week he was very active on 17 and 30 meters CW. Watch on/around 18068 kHz between 0700-0930z (also watch after 1530z). Watch on/around 10105 kHz between 1545-1845z (also as early as 0425z). QSL via LA4YW.

TN, REPUBLIC OF CONGO. Reports indicate that Baldur's, DJ6SI, next stop is here, and he will be active as TN6X until December 12th (possibly the 14th). Activity will be CW ONLY on 160-10 meters. QSL via his home callsign.

TO0, MARTINIQUE. Thomas, KC0W, will be active as TO0O from January 27th to February 13th. Look for him to be active in the CQ WW 160m CW Contest (January 29-30th) as a Single-Op/High-Power entry. QSL direct to KC0W (w/SASE or 1 USD).

VP2M, MONTSERRAT. Operators Mike/N9NS (VP2MNS), Pete/N0FW (VP2MW), Charlie/W6KK (VP2MKK) and John/N7CQQ (VP2MQQ) will be active from here until December 13th. The group participated in the ARRL 160 Meter CW Contest this past weekend as VP2MW and will also be in next weekend's ARRL 10 Meter Contest (December 11-12th) using the same callsign. Look for them to be active outside of the contest on all bands. QSL via all callsigns via W8QID. For more information and online logs which will be updated nightly, please visit the Web page at: http://www.wb8xx.com/vp2m

VU4, ANDAMAN ISLANDS (Update). VU4NRO and VU4RBI are now active. It was announced this past week that the National Institute of Amateur Radio will be the QSL Manager for this operation. QSLs should be sent to VU2NRO: National Institute of Amateur Radio, Raj Bhavan Road, Hyderabad 500082, India. Activity will last through December 31st. Reports indicate that the five operator team is operating three stations from three different locations. According to "The Daily DX", VU2MY, VU2NRO/JOS, VU2MYL and PY7ZZ were the first stations to work VU4RBI. Also reported is that "NO CW" operations have been made by the VU4 operators as this was being typed (1900z, Sunday). It seems the team is not sticking to the frequency suggestions on their Web page. Over past weekend activity was mostly on 20/15 meters SSB. However, there were QSNs on 17 meters. It was also reported that they do have plans to put their logs online, but specific details were not provided. It is suggested to watch their Web page for details. Web page is: http://www.niar.org

YA, AFGHANISTAN. Rene, DL2JRM, is expected to become active as YA7X between December 7th and January 5th. Activity will probably be on 160-10 meters CW/SSB. QSL via DL1JJI.

ZK1, NORTH AND SOUTH COOK ISLANDS. Magnus, SM6WET, informs OPDX that he and a team of operators will be active as ZK1WET, ZK1XMY, ZK1SDE and ZK1SDZ from North and South Cook Islands as follows:

Aitutaki Island (South Cook) - January 31st to February 17th
Manihiki Atoll (North Cook) - February 17-24th
Aitutaki Island (South Cook) - February 24th to March 3rd

The DXpedition will concentrate mostly on 17 and 20 meters, although there will be activity on 160-10 meters. Operations will be mostly SSB, but ZK1WET will be active on CW and RTTY. They will have monoband yagis for 10/17/20 meters and verticals for the other bands. Also, look for ZK1WET to be active in the CQWW RTTY WPX Contest. They plan on having a double sided QSL card printed for each station. Do not QSL via the Bureau. QSLing is preferred via M3SDE direct.

ZL, NEW ZEALAND. Serge, RA3XR, is now active as ZL/RA3XR until December 26th. He tells OPDX that he will be active on CW/SSB/RTTY/PSK modes on HF bands. Over the past weekend he was spotted on 40/20/15 meters CW. QSL via his home call.

ZP0, PARAGUAY. Tomas, ZP5AZL, will be active as ZP0R in next weekend's ARRL 10 Meter Contest (December 11-12th) as a Single-Op entry. QSL via W3HNK.

What definition of SPAM includes that post?

If you're so worried about "wasted bandwidth", why did you repost the
entire article just to add your two-line comment? Why did you read it in
the first place?

Here's a clue for you:

Killfile; learn to use it.

>>anyone have a good ideia to build a multiband wire antena?

According to Cebick, W4RNL and his modeling, the best 10m through 40m
antenna is a wire of 44' in lenght, horizontal fed with ladderline.
Gain on these bands as well.

Here is the web page to read this.

Good point Bill, but remember that the Russians were using alot of U.S. goods in their efforts to defeat Nazi Germany. If it werent for the U.S. Merchant Marine they would not have had the initial supplies to keep up the fight.

I believe it was a total team effort on all parts. No one nation should take ownership of the overall defeat of a tyrant or a tyranical government of the time. Each had their own reason for entering and fighting and that is what should be respected.

I probably shouldnt bring this up but remember that the soviets did sign a
non-aggression act/treaty with nazi germany. They were only brought into
the war based on Hitlers ignorance in attacking them. Had he not broken
the treaty I would find it hard to believe that they would have entered
and sacrificed so many and and so much for the "western" powers. Remember
nazi germany just about took stalingrad.

They didn't "sacrifice ....for the western powers." We didn't sacrifice for them. Heck, we were not even formal allies (the official term was "associated Powers"). I never mentioned motivation. There seems to a common bad habit of associating "goodness" on one hand and "bravery" and "sacrifice" on the other.

Paul

What an ASS!

I realize that very few in the UK have the twisted view that you express.

However A crowded country smaller than the state of Oregon, Deeply in debt,
Population about 1.5 times that of California, is not a threat to the US.

Lets see, population is 60,270,708 in UK, vs. 293,027,571 in US.
So your out numbered 5/1
17% of your people are below the poverty line.
Median income is abt $10,000 les than the US.

Your almost entirely unarmed, Treated like children by your government.
You have no Constitution nor a bill of rights.

--
Be not afraid of any man
Who walks beneath the skies,
For be he tall or be he strong,
I will equalize.
- Samuel Colt

--
Laws that forbid the carrying of arms...
disarm only those who are neither inclined
nor determined to commit crimes...
Such laws make things worse for the
assaulted and better for the assailants;
they serve rather to encourage than to
prevent homicides, for an unarmed man
may be attacked with greater confidence
than an armed man.

Walt,

I shall raise a pint of John Smith's in your honour, kind sir, for being the first Usenet poster in a long while that caused me to splort my morning Coca-cola through my nose and onto the formerly-pristine LCD flat-panel.

Of course, I agree completely with most of the bits, although I am somewhat of a fan of American Football. Mind you, living in New York City and rooting for the Giants (ObPremiereship: West Brom, or perhaps slightly worse), I'd likely give that habbit up if -- and only if -- Arsenal would relocate to the Meadowlands with all due speed.

The trouble with the 98% of USA citizens who are not aware of the existence of the rest of the world, or the damage caused by world-wide indiscriminate use of their weapons of mass destruction, is that they are far too childishly patriotic. They natuarally believe their own distorted, hopelessly biased propaganda, fundamentally generated by their international oil and energy, atmospheric-polluting companies.

Iraq, Palestine and other middle-eastern and central Asian countries are heading, slow-motion, towards another Vietnam, Cambodia and other places left poisoned and in ruins. Your boys in the armed services will return home, not necessarily all in black bags, but in the form of many thousands of unemployed hillibillies, drug addicts, detested outcasts of society.

But it need not end in that way. You are all-powerful and rich. Just find some teachers and educate yourselves before it's too late. For everybody's sake on this small overepopulated, underfed Earth.

1721. question re GE Superadio III static

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-09 15:40:27 UTC
From: ronaug <ronaug@earthlink.net>
Message-ID: <LI_td.6072$yr1.461@newsread3.news.pas.earthlink.net>
Source record: 6262

I recently bought a GE Superadio III for listening to talk radio on distant stations. I've noticed that often when I turn it on in the morning, there will be a good bit of static. Sometimes after c. 15-20 minutes, the static will suddenly get very loud, then there is a loud pop, then the static completely disappears and the sound is crystal clear. I have been unable to link this to anything going on in the house, like an appliance being turned off or anything like that.

Does anyone know what is happening, and if it's possible to induce the static-pop-clear thing so that I don't have to wait 15-20 minutes for it to happen? Or some other solution?

Thanks.

ronaug

Kennedy
brothers were constantly at odds with them. In 1962, Bobby clashed with Dean Acheson during the missile crisis. Acheson wanted a surprise attack; Bobby rejected it saying his brother would not go down in history as another Tojo. In 1961, JFK disobeyed their advice at the Bay of Pigs and refused to add air support to the invasion. He was punished for this in Fortune magazine with an article by Time-Life employee Charles Murphy that blamed Kennedy for the failure of the plan. Kennedy stripped Murphy of his Air Force reserve status but - Murphy wrote to Ed Lansdale - that didn't matter; his loyalty was to Allen Dulles anyway. In 1963, Kennedy crossed the Rubicon and actually printed money out of the Treasury, bypassing that crowning jewel of Wall Street, the Federal Reserve Board. And as Donald Gibson has written, a member of this group, Jock Whitney, was the first to put out the cover story about that Krazy Kid Oswald on 11/22/63 (Probe Vol. 4 No.1).

Killing off the Legacy

In 1964, author Morris Bealle, a genuine conservative and critic of the Eastern Establishment, wrote a novel called Guns of the Regressive Right, depicting how that elite group had gotten rid of Kennedy. There certainly is a lot of evidence to substantiate that claim. Th

them. This includes Dean Rusk, Max Taylor, John McCone (Alleged Assassination Plots pp. 154-161). Even McGeorge Bundy, about whom many have had suspicions, denied that Kennedy had ever approved them or been informed of any plots (Ibid. p. 156). To conclude the matter, the two people in on them at this time (1962) said the same, i.e. Richard Helms (Ibid. pp. 148-152) and Bill Harvey (pp. 153-154).

The CIA did try to coax approval from him. The Church Committee took testimony from two people who were quite compelling on this point. They were Tad Szulc, a reporter for the New York Times Washington bureau, and Sen. George Smathers of Florida. In late 1961, Szulc had been called in to speak with the president at the request of Richard Goodwin and Robert Kennedy. After a general discussion of Cuban matters, JFK asked him, "What would you think if I ordered Castro to be assassinated?" Szulc said he didn't think it would help foster change in Cuba, and he didn't think Americans should be associated with such matters. Kennedy replied, "I agree with you completely." Szulc testified that:
He went on for a few minutes to make the point how strongly he and his brothers felt that the United States should never be in a situation of having recourse to assassination.

Szulc's notes of the meeting state:
JFK then said he was testing me, that he felt the same way - he added "I'm glad you feel the same way" - because indeed the U. S. morally must not be part (sic) to assassinations.

The Church Committee also heard testimony from Smathers who stated that once when it was brought up in his presence (presumably by the CIA friendly Smathers), Kennedy got so mad he smashed a dinner plate and told him he did want to hear of such things again (Alleged Assassination Plots p. 124). Smathers furthered this

add.

The choice of Smith in 1997 is as revealing as Demaris in 1977 and Kelley in 1988. Smith writes for the New York Post, which is literally a tabloid in both format and approach. Like Kelley, Smith is a big fan of Sy Hersh. In fact, her column has released several "teaser" items about his upcoming book. In the past she has also flacked for Tony Summers. What do those two writers have that other Kennedy researchers, say John Newman, do not? They have both pushed the angle that the Kennedys were somehow involved with the death of Marilyn Monroe. Smith dutifully mentions both authors in her Vanity Fair piece and writes, as fact, that RFK was at Marilyn's the day she died. Exner herself claims that Summers has offered to supply a new "foreword should she write another book" and Smith sent Exner to see Hersh who, predictably, also endorses her story.

In the article, Smith seems conscious of her questionable qualifications to address the serious subjects of Kennedy and Cuba and the Church Committee. Throughout, she sprinkles in little aphorisms to neutralize any attacks. She quotes Oscar Wilde (not famous for his history books) when she says that history is merely yesterday's gossip. Later on she notes that "today's gossip is tomorrow's headline," a bit self-serving considerin

In 1964, author Morris Bealle, a genuine conservative and critic of the Eastern Establishment, wrote a novel called Guns of the Regressive Right, depicting how that elite group had gotten rid of Kennedy. There certainly is a lot of evidence to substantiate that claim. There were few tears shed by most rightwing groups over Kennedy's death. Five years later, they played hardball again. King and Bobby Kennedy were shot. One would think the coup was complete. The war was over.

That would be underestimating these people. They are in it for the long haul. The power elite realizes that, in a very real and pragmatic sense, assassination isn't enough. You

when he saw it, before the JFK Act when into
effect, justifies even more suspicion about its origin and
intent.

Spoto's book adds more to the suspicion about the document, and perhaps the information in Capell's pamphlet. Spoto notes that on August 3, 1962, the day the above memo was distributed, Kilgallen printed an item in her column saying that Marilyn was "vastly alluring to a handsome gentleman who is a bigger name than Joe DiMaggio" (p. 600). Spoto notes the source for Kilgallen's story as Howard Rothberg, the man named in the memo. This is interesting for more than one reason. First, Spoto writes that Rothberg was "a New York interior designer with no connection at all to Marilyn or her circle." (Ibid.) This means that he was likely getting his "information" through a third, unnamed source. Second, Rothberg's name, and this is part of the sensitive information referred to above, is exposed in the document. This is extraordinary. Anyone who has jousted with the FBI or CIA knows how difficult it is to get "sources and methods" revealed. In fact this is one of the big battles the ARRB had to fight with the FBI. Yet in this document, both the method and the source are open. Third, to my knowledge, Kilgallen never printed anything specific from the document. Why? Assuming for a moment that the document is real, probably because she could not confirm anything in it. But interestingly, right after Kilgallen printed her vague allusion, Winchell began his steady drumbeat of rumors until, as Spoto notes, he essentially printed Capell's whole tale (p. 601). From this, one could conclude that the Angleto

the International Criminal Tribunal for the Former
Yugoslavia in 1993, the International Criminal Tribunal for Rwanda in
1994, and now the International Criminal Court in 2002.61

Therefore, it came as no surprise that immediately upon their coming to power in 2001, the Bush Jr. Leaguers did everything humanly possible to sabotage the International Criminal Court (ICC) precisely because they were then currently planning, preparing and conspiring to commit criminal wars of aggression around the world. The highest level civilian officials of the Bush Jr. administration did not want the International Criminal Court looking over their shoulders while they were committing wanton aggression, crimes against humanity, and war crimes against the Peoples and States of Afghanistan, Iraq, Iran, North Korea, Syria, and elsewhere. The Bush Jr. Leaguers concerted sabotaging of the ICC is what criminal lawyers call an example of their "consciousness of guilt." Iraq for the Iraqis Foreign troops should stay out of Iraq for any reason whatsoever at the behest of the Bush Jr. administration. Otherwise, they too will become legitimate targets of attack from an Iraqi resistance movement to foreign occupation forces that are actively aiding and abetting the U.S./U.K. criminal war of aggression against Iraq for oil and Israel, which was in violation of the United Nations Charter and the Kellogg-Briand Peace Pact as well as the Nuremberg Charter, Judgment and Principles - a Crime against Peace. Iraq should immediately be placed under the direct control and supervision of a United Nations Trusteeship under Chapter XII of the U.N. Charter. A real and independent United Nations Peacekeeping Force should be deployed to Iraq under the auspices of the U.N. General Assembly (not the U.S. co-opted U.N. Security Council) pursuant to its powers under the Uniting for Peace Resolution (1950). The U.S. and U.K. aggressor

But there is a method to the misnoming. For Davis, it is necessary to suggest a kind of "royal family" ambience to the Kennedys and, with it, the accompanying aura of familial and assumed "divine right." One of the author's aims is to establish the clan as part of America's ruling class, with more power and influence than any other. He is clear about this early on, when he writes that Joe Kennedy Sr. was richer than either David or Nelson Rockefeller (p. 133). As any student of wealth and power in America knows, this is a rather amazing statement. In 1960, according to John Blair's definitive study The Control of Oil, the Rockefeller family had controlling interest in three of the top seven oil companies in America, and four of the top eight in the world. They were also in control of Chase Manhattan Bank, one of the biggest in the nation then and the largest today. They also owned the single most expensive piece of real estate in the country, Rockefeller Center in New York City. The list of private corporations controlled by them could go on for a page, but to name just two, how about IBM and Eastern Airlines. I won't enumerate the overseas holdings of the family but, suffice it to say, the Kennedys weren't in the same league in that category. JFK knew this. As Mort Sahl relates, before the 1960 election, he liked to kid Kennedy about being the scion of a multimillionaire. Kennedy cornered him once on this topic and asked him point blank how much he thought his family was worth. Sahl replied, "Probably about three or four hundred million." Kennedy then asked him how much he thought the Rockefellers were worth. Sahl said he had no idea. Kennedy r

The man who thinks Oswald shot at Kennedy (and
believes John Davis' Mafia Kingfish is as close as we will get to
a conspiracy alternative to Oswald), does not ask the question as
to why the Truitts seem to be siding with Angleton. That is,
unlike Bradlee's version, there are no hints of Angleton breaking
into places unexpectedly. Also indicative of this is that
Angleton, a source for Rosenbaum in 1976, said the diary was to
be entrusted to the Truitts. Yet Anne Truitt signed off on the
1995 L. A. Times letter saying it was meant to be handled by
Angleton himself. Both cannot be true. This is interesting
because it implies a relationship between the two couples. And
his wife's loyalty to Angleton is proven.

Truitt and Leary add Drugs

As noted earlier, Jim Truitt gave this curious tale its first
public airing in 1976, on the heels of the Church Committee. From
there, the Washington Post (under Bradlee) picked it up. There
had been an apparent falling out between Truitt and Bradlee and
Truitt said that he wanted to show that Bradlee was not the
crusader for truth that Watergate or his

conference entitled
"Second Thoughts on Race in America." This might have been called the Washington Post take on race in the eighties since it featured such Kay Graham-Ben Bradlee employees as Richard Cohen, Juan Williams, and Joe Klein. Today, these two see themselves as armed guards protecting America from any renaissance of sixties activism after Reagan. They are quite open about this and Kennedy's role in it in Destructive Generation: "Just as Eisenhower's holding action in the Fifties led to JFK's New Frontier liberalism in the Sixties...so the clamped-down Reaganism of the Eighties has precipitated the current radical resurgence...." Is one to conclude that Clinton is a radical? Was the Kennedy book a put-up job to place them over the top with their right-wing sponsors? Or do they really find Kitty Kelley credible? Could they really not have known that Priscilla Johnson McMillan was doing the same thing with Kennedy that she had recently done with Oswald in her book Marina and Lee? To put it another way: if your function is to discredit a decade, what better way to do it than to smear the man most responsible for ushering it in?

A Question of Character,
But Not Kennedy's

Which brings us to Thomas Reeves. By the nineties, the negative literature on the Kennedys had multiplied so much that it was possible just to put it all together and make a compendium of it. In 1991, Reeves did just that with his book A Question of Character. It obediently follows the path paved by its noted predecessors. In fact, many of his footnotes are to Davis and to Collier and Horowitz. Although Reeves is another Ph. D., he never questions the faulty methodology I have pointed out. On the contrary, by ignoring the primary sources, he can actually state that

the assassination conspiracy, the cinching piece of the puzzle, would be "a reel of tape of Oswald getting briefed by Giancana" (Anson p. 120). With what serious people have learned about Oswald today, through work by Phil Melanson, John Newman, and John Armstrong, this is preposterous. The Blakey-Davis whim about the Mafia hiring a "hit man" who couldn't hit the side of a barn and used a $12.95 bolt action rifle to do the job, went out the window when the HSCA closed down. But "crack" reporter Hersh still buys into it. As he does the idea that Sirhan killed Bobby Kennedy, proven by the fact that he wrote a blurb praising Dan Moldea's 1995 whitewash of that case.

Behind all the sordid details of these articles there is a bigger picture to be outlined. One of the main parts of it is the increasing ascendancy of tabloid journalism into the major media outlets, and with it, its concomitant attachment to the lives of celebrities. More often than not, that translates into the endless search for sleaze and scandal. This chain on the lives of the Kennedys has been well described in these articles. The overall tendency has become so prevalent that, as many have noted, tabloid sales in the U.S. have declined of late because the m

Ron Rosenbaum filled this role for the 20th anniversary). The latest edition, with Exner aware of the JFK Act, was done at the beginning of what was originally to be the last year of the Review Board. Smith wrote the piece before the extra year was granted by Congress. Smith's friendliness with Hersh, seems to further this. For according to the ARRB's original timetable, the Vanity Fair piece would arrive at the beginning of its last year and Hersh's attack book in October, right when the Review Board was originally set to shut down. This would make a nice pincers movement with which to smother the Board's serious and blockbuster work amid sexy smears about abortions and Marilyn Monroe (Hersh).

In historical perspective, the Times and Safire, and the Post and Ben Bradlee (who, as we shall see, also embraced Exner) opened the flood gates to all kinds of National Enquirer type stories about JFK's private life. Rumors about Monroe, numerous secretaries, these all started to get tossed about. A prominent one about to be recycled emerged just a year after Exner. It was promulgated again by Bradlee's Post via The National Enquirer.

Mary Meyer

Mary Pinchot was the niece of that early conservationist hero Gifford Pinchot. She married CIA officer, and Allen Dulles prot�g�, Cord Meyer. Mary's sister was named Tony and was married to Ben Bradlee. Mary and C

Behind the image, what was Jack really like? Could one, at this early date, cut through the cotton candy and find the real man? (p. 10)

In several ways, this is a revealing passage. First of all, the authors apparently accept the Washington Post version of Watergate-i.e. that Nixon, and only Nixon, was responsible for that whole range of malfeasance and that Bob Woodward and Carl Bernstein got to the bottom of it. Second, it seems to me to be a curious leap from the politically misunderstood shenanigans of Watergate to the formative years of John Kennedy's college prep days and early adulthood, which is what this book is about. It takes JFK from his days at the exclusive Choate School in Connecticut to his first term as a congressman i.e. from about 1934 through 1947. I don't understand how comparing the political fallout from Watergate with an examination of Kennedy's youthful years constitutes a politically valid analogy. Third, the Blairs seem a bit behind the curve on Nixon. If they wanted to find out the "truth" about Nixon all they had to do was examine his behavior, and some of the people he employed, in his congressional campaign against J

be tough to be a security
guard of the mind, trying to control any ghosts rising from the ashes. Which, of course, is why Hersh has to hide his real feelings about his subject. That's the kind of threat the Kennedys posed to the elite: JFK was never in the CFR (Imperial Brain Trust p. 247); Bobby Kennedy hated the Rockefellers (Thy Will be Done pp. 538-542). For those sins, and encouraging others to follow them, they must suffer the fate of the Undead. And Marilyn Monroe must be thrown into that half-world with them. At the hands of Bob Loomis' pal, that "liberal" crusader Sy Hersh.

As Anson says, he must just want the money.

Current events, most notably a past issue of Vanity Fair, and the upcoming release of Sy Hersh's new book, extend an issue that I have dealt with in a talk I have done several times around the country in the last two years. It is entitled "The Two Assassinations of John Kennedy." I call it that because there has been an ongoing campaign of character assassination ever since Kennedy was killed.

In the talk to date, I've dealt primarily with the attacks on Kennedy from the left by Noam Chomsky and his henchman Alexander Cockburn which occurred at the time of the release of Oliver Stone's JFK. But historically speaking, the attacks on the Kennedys, both Jack and Robert, have not come predominantly from the left. The attacks from the right have been much more

absolve Kennedy, they actually provide a
motive for the CIA to get rid of him, which is probably why the
media ignored them.

The fact that Kennedy had clean hands was a bitter pill to
swallow. The establishment organized a furious counterattack.

Frank Church was accused of being a partisan. The Democrats were
charged with "protecting" the Kennedys. There was an exchange of
letters in the press between David Eisenhower and one of Bobby
Kennedy's sons over the issue. Finally, a solution appeared. Her
name was Judith Campbell Exner.

All of this essential background is usually left out of any
discussion of the following. It can't be. As we shall see, in
many ways it is crucial to an understanding of some events that -
without this precis - seem to take place in a vacuum: motiveless,
random, out of place; yet in Exner's case, recurring at regular
intervals. As we shall see the promulgators of the following, are
very aware of the results of the Church Committee.

Exner To The Rescue

The committee had found that Hoover had a meeting with President
Kennedy on March 22, 1962. Through his investigation of Sam
Giancana, the Director had discovered that an acquaintance of his
- Campbell - had called Kennedy at the White House on numerous
occasions. Once Kennedy was told of this, the calls to the White
House stopped. Campbell's name was included in the first draft of
the report. But in deference to her privacy and the fact that she
denied ever communicating any messages between the two, the
committee - by a unanimous vote - did not name her in the final
draft. She was referred to th

Marilyn Monroe were just
stories. The original story was invented by a so-called
journalist, a right-wing zealot who had a history of
spinning wild yarns. It spread like wildfire, of course, and
J. Edgar Hoover was right there, gleefully fanning the
flames. (The Bureau p. 56)

The Capell/Winchell/Hoover triangle sowed the seeds of this
slander. But the exposure of this triangle does more. In the
Vanity Fair article in which Judith Exner dumped out the latest
installment of her continuing saga, Liz Smith revealed that she
apprenticed at the feet of Walter Winchell in New York (January
1997 p. 32). This may explain why she took up her mentor's
cudgel.

Capell's work is, as Spoto notes in his Afterword, a frightful
piece of reactionary paranoia. But there are two details in his
pat anti-Kennedy tract that merit mention. First, Capell is
probably the first to propagate the idea that RFK was indirectly
responsible for his brother's murder. He does this by saying (p.
52), that commie sympathizer Bobby called off the investigation
of the shooting of General Edwin Walker in April of 1963, thus
allowing that crazed Communist Oswald to escape and later kill
JFK. This piece of rant has been modified later to fit into the
stilted mosaics of people like Davis and Waldron. What makes it
so fascinating is that, through the FBI's own files, we now have
evidence that Capell was deliberately creating a fiction: he had
information that Oswald was not a communist, but a CIA agent.

The second point worth examining about Capell's screed is the
part where he begins laying out the "conspiracy" to kill Marilyn,
specifically, RFK's motive for murder. Capell writes:
But what if she were helped along into the next world by
someone who would either benefit financially or who feared
she might disclose something he wished to conceal. Suppose,
for example, a married man were involved, that he had
promised to marry her but was not sincere. Suppose she had

manipulating
overseer to his sons and, at the same time, make him into a status-seeking iconoclast whose beliefs and sympathies are contra to those of America. The problem with this is dual. First, it is the typical "like father, like son" blanket which reeks of guilt, not just by association, but by birth. Second, the blatant ploy does not stand scrutiny because what makes John and Robert Kennedy so fascinating is how different their politics and economics were from Joe Kennedy's and how fast the difference was exhibited. To use just two examples from JFK's first term in the House, Kennedy rejected his father's isolationist Republican type of foreign policy and opted for a more internationalist approach when he voted for the Truman Doctrine and Marshall Plan. Second, Kennedy voted to sustain Truman's veto of Taft-Hartley which would weaken unions and strengthen American big businessmen-people like his father. From there on in, the splits got wider and wider. It is this father-son dichotomy that none of these books cares to acknowledge let alone explore-which reveals their intent. (An exception is the Blairs' book, which does acknowledge the split on pp. 608-623.)

In their approach to JFK, Collier and Horowitz take up where the Blairs left off. In fact, they play up the playboy angle even more strongly than the Blairs. When Kennedy gets to Washington in 1947, this note is immediately struck with "women's underthings stuffed into the crevices of the sofa" (p. 189) and a "half-eaten hamburger hidden behind books on the mantel" (Ibid). The problem here is there is no source given for the first observation and the hamburger is sourced to none other than CIA-Washington Post crony Joe Alsop, the man who, as Don Gibson pointed out, talked LBJ into forming the Warren Commission (Probe Vol. 3 #4 pp. 28-30).

This is typical of the book's low scholarly standard. Both authors have advanced degrees from Cal Berkeley. Both had done some solid academic work in t

is "a garbled account." What had happened was
that through the FBI's discovery of a wiretapping favor done for
Maheu's contact in the plots (Chicago mobster Sam Giancana)
Hoover had learned of the CIA-Mob link and forwarded his
knowledge to Robert Kennedy. Kennedy turned it over to Courtney
Evans, his FBI liaison, and asked him to get back with all the
known details. He was finally briefed on it in May of 1962. There
can be no doubt about his reaction. As one of Bobby's CIA
briefers stated: "If you have seen Mr. Kennedy's eyes get steely
and his jaw set and his voice get low and precise, you get a
definite feeling of unhappiness."

In a memo of a meeting Hoover had with RFK after this briefing,
Hoover wrote: "The Attorney General told me he wanted to advise
me of a situation in the Giancana case which had considerably
disturbed him" [emphasis added]. For his own part, Hoover wrote
of his talk about the matter with the AG:
I expressed great astonishment at this [the association] in
view of the bad reputation of Maheu and the horrible
judgment in using a man of Giancana's background for such a
project. The Attorney General shared the same views.

Kennedy had made it clear to the CIA that if they were to have
any more of these types of ideas about using these characters,
they would have to go through the Justice Department first, i.e.

him. But what RFK did not know is that, as the I. G. Report
states:
It should be noted that the briefing of Kennedy was
restricted to Phase One of the operation, which had ended
about a year earlier. Phase Two was already underway at the
time of the briefing, but Kennedy was not told of it.

In fact, on the same day that RFK was briefed, the CIA's
Sheffield Edwards (one of the briefers) along with William Harvey
agreed to falsify the record by saying all future plots had to be
authorized by the Director of the CIA. They weren

title of the
upcoming book by Sy Hersh, of whom Kelley is a great admirer. In this new version, Exner now said that she was seeing Sam Giancana at Kennedy's bidding. She even helped arrange meetings between JFK and Giancana and JFK and Roselli. Some of the meetings took place at 1600 Pennsylvania Avenue. Why would Kennedy need personal consultation with gangsters like Sam and John? To cinch elections on his ruthless way to the White House and later to arrange the liquidation of Castro. Kelley adds that the latter meetings were done for operation MONGOOSE. But Exner's time sequence does not jibe with the lifespan of that operation and, as the record shows, Castro's assassination was not on the MONGOOSE agenda. In spite of that explicit record, Kelley adds that historians have never been able to pinpoint Kennedy's role in those plots, thereby ignoring the abundant evidence unearthed by the Church Committee which says he had none. Nevertheless, Kelley and Exner will now exhume the hidden history of those times for People. Let's examine their excavation.

Exner says that Kennedy needed help in West Virginia in the 1960 primary. So her first secret assignment for Kennedy was to arrange a meeting with "Sam Flood" for JFK. (By a coincidence, Kennedy also knew Giancana by the very same alias that Exner did, even though he had fifteen others.) After the meeting, with Exner waiting outside, Kennedy emerged beaming. He was so exuberant he wanted to pay for a mink coat for his girl. And of course, he won the election. On the heels of this success, Exner arranged another meeting between Kennedy and Giancana. (In an insider aside, Exner assures us that Giancana called the president "Jack"). In the ensuing exchanges of sealed envelopes between the two, Exner didn't open any of them. In another aside, Kennedy cutely tells her, "Don't let him [Giancana] turn your head."

Later, JFK wanted meetings with Roselli too. After a s

> off or anything like that.

First you need to find out if the problem is environmental, or something to
do with the radio. If the interference is envrionmental, then problem may
not be being created in your house, it could be at a neighbors.

Does the problem only occur in the morning?

If you left the radio off for an extended period then turned it on at night,
do you still have the interference?

If the static only occurs at certain times of day, look for something on a
timer, either at your house or in a nearby -- street lights cycling off
perhaps.

Try using the radio in a different location, away from your house -- if you
still have the problem, then it is most likely something to do with the radio.

Try leaving the radio on all night, with the volume turned all the way down.
Do you still have the interference when this happens -- if so, then the
problem is local and not internal to the radio.

of
individual or collective self-defence if an armed attack occurs against a Member of the United Nations, until the Security Council has taken measures necessary to maintain international peace and security." Contrary to conventional wisdom and widespread propaganda, it was the Bush Jr. administration and the Tony Blair government which perpetrated an "armed attack" against Iraq and thus triggered Iraq's "inherent right" of individual and collective self-defense under U.N. Charter article 51. Not surprisingly, no U.N. Member State came to the defense of Iraq. Rather, Iraq became the first victim of this Nazi Doctrine of Preventive Warfare propounded by Bush Jr. and Tony Blair. From the perspective of international legal history, it is Bush Jr. and Blair who constitute the real "axis-of-evil"- along the lines of Hitler and Mussolini. In this regard, Article 6 of the 1945 Nuremberg Charter provides in relevant part as follows: . . . . The following acts, or any of them, are crimes coming within the jurisdiction of the Tribunal for which there shall be individual responsibility: (1) Crimes against peace: namely, planning, preparation, initiation or waging of a war of aggression, or a war in violation of international treaties, agreements or assurances, or participation in a common plan or conspiracy for the accomplishment of any of the foregoing; . . . . Leaders, organizers, instigators and accomplices participating in the formulation or execution of a common plan or conspiracy to commit any of the foregoing crimes are responsible for all acts performed by any persons in execution of such plan.

To the same effect is the Sixth Principle of the Principles of International Law Recognized in the Charter of

I would gladly
topple all the Camelots, and King Arthurs, or Sir Lancelots,
to give her that chance. . . . Francis Ford Coppola, who
directed The Godfather, says it best: Men of power and the
criminals in our society are distinguished only by their
situation, not their morality.

In other words, as far as Exner and he are concerned, there is
little difference between the Kennedys, Sam Giancana, and Johnny
Roselli.

Judith Exner: My Story

The book itself is more of the same. The aim is to make Exner as
attractive as possible; more personally attractive than those
around her, especially Kennedy, his clan, and circle. Giancana
and Roselli are just your average Italian-American good guys. To
Exner, they might as well have owned Domino's Pizza. And Demaris
places her frankness beyond question. She says that she will tell
the truth, even about people and events she doesn't care to. It
is her vow to tell the whole story. Exner inherited a lot of
money from her grandmother (in the twenty year adult span of the
book, she only mentions one job of a few weeks duration). In her
early years she gravitated toward the Hollywood acting colony,
since her sister and first husband were thespians. She fell in
with the California-Malibu jet set: Dean Martin, Frank Sinatra,
Sammy Davis et. al. She says she prefers the company of men over
women and her book shows it. She is flying from one to another so
often that, at times it is hard to keep track of where she is:
Los Angeles, Palm Springs, Miami, Chicago, Washington etc. She
met JFK through Sinatra. Kennedy immediately fell for her.

According to Exner, it was not just physical. Kennedy became a
dopey mooner in her hands. He talked of leaving his wife for her.
At times the pressures of his life got so intense he wanted to
escape with her to a deserted island. Since he can't bear to

they printed it they asked Kennedy about it. He referred them to Pierre Salinger, his press secretary. Salinger had already heard the charge from rightwing commentator Fulton Lewis. He had all his points lined up and proved the story false. Bradlee's account in Conversations With Kennedy (pp. 43-49) seems to suggest that Truitt and Bradlee still worked on the story after they were shown it was wrong.

Also intriguing is a flourish added in Rosenbaum's version, which appears heavily reliant on the Truitts and Angletons as sources. Rosenbaum writes that Mary's diary, although usually laid upon her bedroom bookcase, was found in a locked steel box in her studio. Rosenbaum doesn't probe as to why it was not found in its usary&resting place. The locked steel box is not a part of any other version of the story I know, including Tony Bradlee's, and, in all versions, she supposedly found the diary. Of course, a locked box suggests intrigue, but it strains reality. Are we to believe that every time Mary wanted to make an diary entry she would first fumble for her keys? Even in her own bedroom while she's living alone?

Of course, Rosenbaum makes nothing of the two most obvious paradoxes in the entire tale. Almost everyone agrees that, while the Meyers were married, she was knowledgeable about his CIA activities and that Cord Meyer was close to Angleton. Repo

of Chicago. Chickenhawks to a man. Bush Jr.
too. The American Power Elite are more than happy to send the children of poor Blacks, Latinos and Whites off to kill and be killed in Afghanistan, Iraq, and elsewhere. Just like their elitist predecessors did a generation ago in Vietnam, Cambodia, and Laos. Class warfare indeed. Finally, in September 2002 the Bush Jr. administration adopted and officially approved "the National Security Strategy of the United States," that was transmitted to the U.S. Congress as a declaration of official policy by the United States of America, fully embracing this reprehensible, criminal, and Nazi doctrine of preventive warfare.38 I will not waste the reader's precious time here analyzing this criminal document in extenso. But it reads like a Nazi war planning document that could have been introduced into evidence before the Nuremberg Tribunal.

Certainly its most odious language is: ". . . we recognize that our best defense is a good offense. . ." In other words, the United States government has publicly admitted in an official government document that it is now prepared to wage offensive warfare against its chosen adversaries around the world irrespective of the requirements of the United Nations Charter, the Kellogg-Briand Peace Pact, as well as the Nuremberg Charter, Judgment, and Principles, inter alia. I could file this official U.S. government document with the International Court of Justice in The Hague as proof-positive that it is now the official policy of the United States government to wage criminal wars of aggression against other U.N. member states in violation of the most elementary principles of the contemporary international legal order that would be too numerous to list here. What lawyer

pre-release attack against the
film was unprecedented in movie history. That's because it was
more than just a movie. It was a message, with powerful political
overtones that dug deeply into the public psyche: a grand
political conspiracy had killed the last progressive president.

That Vietnam would have never happened if Kennedy had lived. That
JFK was working for accommodation with Castro at the time of his
death. That the country has not really been the same since.
The preemptive strike was successful in slowing up the film's
momentum out of the starting block. But the movie did increase
the number of people who believe the case was a conspiracy into
the ninety-percent range. The following year, in anticipation of
the 30th anniversary of the murder, Gerald Posner got the jump on
the critics with his specious book on the case. The media hailed
him as a truth-teller. The critics were shut out. No nonfiction
book in recent memory ever received such a huge publicity
campaign-and deserved it less.

Looming in the Background

After Jim Marrs debated Posner on the Kevin McCarthy show in
Dallas, he chatted with him. Marrs asked him how he came to do
the book. Posner replied that an editor at Random House, one Bob
Loomis, got in contact with him and promised him cooperation from
the CIA with the book. This explains how Posner got access to KGB
turncoat Yuri Nosenko, who was put on a CIA retainer in the late
seventies. At the time of Posner-mania, Alan Houston wrote Mr.

Loomis, who also edited the Posner book. In a reply dated
10/27/93, Loomis revealed much about himself:
I have no doubt that you really believe what you are saying, but
I must tell you that your letter is one of the best indications
I've seen yet as to why the American public has been misled by
ridiculous conspiracy theories.

You have proved nothing insofar as I can see, except

and his
footnotes. So are people like Haspiel and Jeane Carmen. Carmen is another late-surfacing intimate of Monroe. Carmen professes to have been Monroe's roomie when she lived on Doheny Drive, before she bought her famous home in Brentwood. She began circulating her story after Slatzer did his bit. Of course, Marilyn's neighbors at Doheny, and her other friends, don't recall her (Spoto p. 472). But Summers welcomes her because she provides sexy details about Marilyn's torrid romance with Bobby. A third peg in Summers' edifice is Ralph de Toledano. Summers describes him as a "Kennedy critic" in the paperback version of his book (p. 453). This is like saying that Richard Helms once did some work for the CIA. De Toledano was a former OSS officer who Bill Donovan got rid of because he was too much of a rabid anticommunist. After the war, he hooked up with professional Red baiter Isaac Don Levine of the publication Plain Talk. Levine was another spooky journalist whom Allen Dulles, while he was on the Warren Commission, considered using to write incriminating articles about Oswald (Peter Scott, Deep Politics and the Death of JFK p. 55). Later on, de Toledano found a home at former CIA officer and E. Howard Hunt pal Bill Buckley's National Review. If one were to translate the Summers trio of Slatzer, Carmen, and de Toledano to the JFK case, one could say that he wedded Ricky White to Beverly Oliver and then brought in

grow up to become warmongers like Wolfowitz or totalitarians like Ashcroft! The University of Chicago is an intellectual and moral cesspool. A Course on Oil and Gas Law

I will not waste the reader's time here by cataloguing, reviewing, and refuting all the factoids of the Bush Jr's pro-Israeli Straussian Neo-Con war propaganda campaign against Iraq.21 But there were certainly multiple reasons for this Bush Jr. war of aggression against Iraq besides Israel. Of course there also came the Bush Family vendetta against Iraqi President Saddam Hussein and his Family, now having rubbed out his two sons and a teenage grandson. Having been born and raised on the Southside of Chicago right near Al Capone's old headquarters as well as the site of his St. Valentine's Day Massacre, I know gangsters when I see them in operation. But at the top of the Bush Jr./Sr. hit-list was oil and the fact that Iraq possessed about 11% of the world's oil reserves Indeed, prior thereto it was the thirst and lust for oil and natural gas by the American Power Elite22 that was really behind the Bush Jr. administration's aggression against Afghanistan in order to gain direct access to the rich oil and natural gas fields of Central Asia, once again using the terrible tragedy of September 11th as public justification for a pre-planned war of aggression under the pretext of "combating international terrorism."23 According to the Bush Jr. administration's version of events, 15 of the 19 hijackers on September 11th were from Saudi Arabia, but then for some mysterious reason America had to attack, invade, and occupy Afghanistan. All of the Bush Jr. apparatchiks are still lying about, dissembling over, and covering up who ultimately was responsible for the terrible tragedy of September 11th , and why no one in the

United Nations

To the same effect was Security Council Resolution 1500 of 14 August 2003, which "Welcomes the establishment of the" U.S. puppet-council in Iraq under Chicago's pro-Israeli Straussian Neo-Con CIA asset Chalabi, and established the so-called United Nations Assistance Mission for Iraq (UNAMI), whose headquarters in Baghdad was promptly car-bombed five days later.50 Security Council Resolutions 1441 (2002), 1472 (2003), and 1500 (2003) just go to prove how subservient the United Nations Organization itself has become to the imperialist enterprises of the United States government.51 Corrupting and corroding world order wherever it goes. Throughout this sordid affair, U.N. Secretary General Kofi Annan basically operated as an errand-boy for the United States government despite the requirements of Chapter XV of the U.N. Charter establishing the U.N. Secretariat as one of the six independent organs of the United Nations Organization, and in particular, of Charter article 100, paragraph 1 mandating the absolute independence of the Secretary General and the U.N. Secretariat from taking instructions by any U.N. Member State: In the performance of

his
prosecution of Alger Hiss. These all happened before 1951, two decades before Watergate. Nothing in JFK's political career compares with them.

The book's ill-explained origin is not its only problem. In its final form, it seems to be a rush job. I have rarely seen a biography by a veteran writer (which Clay Blair was) so poorly edited, written, and organized. The book is nearly 700 pages long. It could have been cut by a third without losing anything of quality or substance. The book is heavily reliant on interviews which are presented in the main text. Some of them at such length-two and three pages-that they give the volume the air of an oral history. To make it worse, after someone has stopped talking, the authors tell us the superfluous fact that his wife walked into the room, making for more excess verbiage (p.60). And on top of this, the Blairs have no gift for syntax or language, let alone glimmering prose. As a result, even for an interested reader, the book is quite tedious.

The Blairs spend much of their time delving into two areas of Kennedy's personal life: his health problems and his relationsh

G'day all,

I am (used to be..) a ham radio op, and due to
my current state of radio inactivity, am thinking of
buying a decent receiver. I'm just assuming that it's
possible to get better quality than going for a transceiver,
and anyway, I'm not particularly interested in transmitting,
at the moment..

I want good coverage (frequency and modes) and good sensitivity..
what else? Good output audio quality perhaps... controllable
via PC...

Suggestions? Any good reviews available on the net?
What about digital broadcasting on HF.. where's that going?

Thanks for your ideas,
Sunil

Radio Reviews at URL:
http://www2.rnw.nl/rnw/en/features/media/productreviews/receivers/rx_curr.html
AND
http://www.eham.net/reviews/products/8
AND
http://www.dxing.com/rx/rxindex.htm

Specs to consider are:
Sensitivity

Dynamic range

Selectivity

Frequency Stability and Accuracy

Cross -Modulation

Gain Compression

Intermodulation Distortion

Phase Noise

See URL -- for spec details
http://comms.hypermart.net/reference/specif.shtml

For Example Good sensitivity without good dynamic range is a poor choice
The basic requirements for the receiver front-end stage are:

a.. Large dynamic range
b.. Low noise figure
c.. Power gain consistent with good sensitivity and signal to noise ratio.

SWL Listeners prefer synchronous detection see URL:
http://www.radio-electronics.com/info/receivers/synchdet/sync_det.php

And some SWL stations broadcast in SSB

Digital SW info at URL:
http://www.novia.net/~sadams/My_Pages/ShortWave/DRM_Digital_Shortwave.html

Also you might use the Google search engine -- lots more on receivers on the
web.

> world."

Another typically Ham-Shank viewpoint...

180,000 Iraqis dead for 1000 Amercians? Nice balance. What did the average Iraqi do to deserve your "protection"? Where was the threat to the US from Iraq? I don't believe any Weapons of mass destruction were found. Nor any links to Al Qaeda. And we all know what links your former president had with the Bin Laden family. 'Nuff said. Peace

Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, N3SL, W3UR & The Daily DX, K4UUE, K4VUD, N4AA & QRZ DX, N4BAA, K8YSE, N8TT, NE8Z, DL1EK & The DX News Letter, EA5RM, EA7JX, EI3IO, F5CWU & La Gazette du DX, F5NQL & UFT, HS0ZAA/W2ZWW, I1JQJ/IK1ADH & 425 DX News, I1HYW, IZ8BRI, JI6KVR & JA-IOTA Islands News, OH2BN, OH9MM, ON4MA, ON5NT, PA7DA, PC0H and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/December, through Sunday, 12th/December there were 228 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9Q, 9U, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E3, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0S, PZ, R1FJ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VK9X, VP2M, VP5, VP6, VP8, VP9, VQ9, VR, VU, VU4, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3Y, PETER I ISLAND (Update). NODXA and OPDX received the following update (Press Release #8) from Bob/K4UEE and Ralph/K0IR. "Counting the days": "The Peter I Dxpedition team members are counting down the final 30 days until their departure from home and their rendezvous with other team members

in Punta Arenas, Chile. The 40 ft. sea container was loaded with the help of members of the SEDXC and is now just a few days away from arrival in Valparaiso, Chile. Upon clearing Chilean customs, the container will be trucked the 1500 miles to the port in Punta Arenas. The team will begin arriving Jan. 11 for a scheduled departure on Jan. 14th. Here is the itinerary for the Expedition:
Team Itinerary:
Jan. 12, 2005 Team meets in Punta Arenas, Chile
Jan. 13 Expedition equipment loaded onto the vessel Antarctic Dream
Jan. 14 Depart Punta Arenas goes direct Peter I.
Jan. 19-21* Arrive Peter I, move ashore via helicopter
Jan. 21-Feb. 4* Radio operations, ship stands offshore during entire operation
Feb. 5* Depart Peter I
Feb 10 Arrive Punta Arenas
* Weather dependent

The Expedition website has been expanded and now includes pages with basic information for the non-ham viewer, information such as 'What is a Dxpedition', 'Prior Dxpeditions to Peter I', 'Tell me about Peter I Island', etc.. The idea is to help inform and interest others, outside the ham community, in our hobby and adventure. All the members of the team ask you to assist them in this regard: Talk to your local school, Boy or Girl Scout troop, Kiwanis Club, Rotary, the local press, etc. about the Peter I website. Encourage them to follow along as the Dxpedition unfolds - to the most isolated island on Earth. The website can be found at:
http://www.peterone.com
Iridium Satellite, LLC has graciously agreed to be a sponsor of the Peter I Dxpedition and has provided equipment that will allow the team to stay in touch with home, provide daily uploads of log information, and daily updates from the team including pictures of interest. Also, the worldwide pilots, through our chief pilot, Don, N1DG, will have the ability to relay feedback from you about missed or unusual band openings, suggestions, and other timely information to help us get you in the log.
This is a huge undertaking and very, very expensive. The team members are funding 74% of the total cost and need your help with the remaining expenses. Your contribution will be very much appreciated. Send contributions to either: K4UUE, F2JD, JA1ELY or ZL2AL. Check the website for an easy to use donation form."

A6, UNITED ARAB EMIRATES (IOTA Activity). Ghis, ON5NT, informs OPDX that after their A61AV/p operation (QSL via ON5NT) to AS-124 (which netted 3000 QSOs) in the beginning of December, they will be on the road again. Look for A61Q/p to be active from Jazirat Al Siniyah off the coast of the Emirate of Umm Al Qaywayn in the United Arab Emirates. This island has been approved for IOTA and counts for AS-021. With Abu Dhabi Island being deleted from the IOTA directory on February 1, 2005, AS-021 would become very rare. Only a handful of IOTA chasers worked A6XT in the 70's from Das Island. The operators will be Abdullah/A61Q, Mohammed/A61AV, Alex/RV6LNA and Ghis/ON5NT. Operators Abdullah/A61Q, Mohammed/A61AV and Alex/RV6LNA will arrive on Al Siniyah Island in the (local) afternoon of

December 17th. Ghis, ON5NT, will join them in the (local) morning of December 18th. They will stay on the island until December 20th, around 1600 local time. The UAE/A61 is at GMT+4. They will be active mainly on 21260, 14260 and 7060 khz. Also look for CW on 21040, 14040, +/- 10103 and +/- 7003 kHz. QSLs for the A61Q/p operation from AS-021 are via ON5NT: Ghis Penny, P.O. Box 93, BE-9700 Oudenaarde, Belgium. Regular QSL cards for A61Q from his home still go via EA7FTR.

ANTARCTIC NEWS.....
Due to some changes in the schedule, operator VU3BPZ is flying from Mumbai on December 11th to South Africa and from there to India's Maitri Base (WAP IND-03). This will cause a delay in his activity.

2nd Antarctic Activity Week. The WAP (Worldwide Antarctic Program) has announced their "2nd Antarctic Activity Week" which will be held from February 21-27th, 2005. The WW stations wishing to participate in this "2nd AAW" event just have to apply through their Ham organization, according to their country's rules, for a special callsign with ANT in their suffix, and try to be active during the above mentioned week. Operators in Argentina for many years now, have celebrated their "Dia de la Antartida Argentina", which is normally held every year on the 22nd of February, so this year the WAP 2nd AAW will fall within that date. The WAP's aim is to stay close to the researchers and personnel who are spending their time away from home and away from the families studing the Antarctic life and its secrets. Last year the participation was great with several ANT station such as IR1ANT, IR0ANT, TM0ANT, II7ANT, IO8ANT as well as others that were active for that week. This year the WAP has more time to prepare, and they hope that more stations will participate. For any question, please feel free to write to WAP (Worldwide Antarctic Program) @ I1HYW or IZ8BRI. Address and E-mails are OK on QRZ.com. Also, visit the WAP Web site for updates at: http://www.ddxc.net/wap

THE BIG GUY TO BE ACTIVE. Yep, the word from our Finnish friend is that the real Santa Claus is to be active in December as OH9SCL (Santa Claus Land) before he makes his world-wide tour. Activity will take place from the Finnish Lappland, Arctic Circle, on all bands and modes. The "BIG GUY" will be active from the VERY NORTH! Special activity will take place December 17-19th. It is known that Santa is busy before Christmas, so he has N7NG, OH2BH, OH3BHL, OH9KL, OH9MDV, OH9MM, OH9RJ and OH9VC handling the radio traffic part of the preparatory activities! QSL via OH9UV.

FO/M, MARQUESAS ISLANDS. By the time you read this, operators Michel/F6COW, Dominique/F6EPY and Radi/F6GNZ should be active as FO/F6COW, FO/F6EPY and FO/F6GNZ, respectively from Hiva Hoa, Marquesas (OC-027), until December 23rd. They should have two stations active and are expected to operate mostly CW and SSB with some digital modes (PSK31, RTTY, SSTV). Activity will be on 80-10 meters, with some 160m if conditions allow, with a priority on the lower bands. For more details visit the following Web page at: http://perso.wanadoo.fr/dominique.auprince
QSL via their home callsigns. Suggested frequencies are:

CW - 3515, 7015, 10118, 14015, 18095, 21015, 24905 and 28015 kHz
SSB - 3780, 7075, 14215, 18135, 21215, 24985 and 28465 kHz
Digital - 7035, 10145, 14085, 21085 and 28085 kHz.

IOTA NEWS.....
AS-140. Manjurul/S21AM and Dave/EI3IO will operate from Char Dakhin Shahbazpur (Bhola Island), from February 4-th, 2005. A special callsign is being sought from the Bangladesh licensing authority. There will be two 100 watt CW/SSB MF/HF stations operational, and activity on all bands is planned, subject to antenna availability. A 30m communications tower is on-site and half slopers are being considered for 160 meters and 80/30 meters. QSL via EI3IO. Logs will be uploaded to LoTW and eQSL.

EU-016. (IOTA/LH Activity) Fredy, DE0MST, will lead a team of operators to activate the Lighthouse Struga (LH-0815) on Lastovo Island, May 14-21st. The callsign will be 9A0CI (IOCA group). Operators mentioned will be 9A6AA, 9A2WJ, 9A3KB, DJ3XG, DF9MV, DJ1MHS, DL5MFL, DL9CHR and DE0MST. More details are forthcoming.

SA-039. A team of operators from the Southern Group of Montevideo which includes CX2ABC, CX5BW and WQ4O (with EA5KM and EA5RM coming from Spain for this DXpedition), will be active with the callsign CW5R from the Island of Lobo, between January 5-11th (dates could be changed due to weather conditions). They will use directional monobander antennas for 40-10 meters and dipoles for 30, 80 and 160 meters. Activity will be on all modes, including digital. The antennas for the low bands will be installed on the lighthouse of the island. Lighthouse reference numbers are: WLOTA LH-0799 and ARLHS URU-002. The QSL Manager will be announced later. There will be online logs after the operation at: http://webs.ono.com/cw5r

OC-137. Steve, G0UIH, finished-up his activity as 3D2FI from Viti Levu (OC-016) and will head further south to North Stradbroke Island. He will be active as VK2IAY/4 from December 14-17th. Activity will be SSB only on or around the IOTA frequencies on 20/17/15 meters. QSL via G0UIH, direct or by the bureau. More details can be found on the Web page at: http://www.maxproduction.co.uk/vk2iay/vk2iay2004.htm

KG4, GUANTANAMO BAY (Update). Jose Castillo, N4BAA, updates OPDX that the three member group from the VADXCC (VA DX Club) will activate KG4 (Guantanamo Bay, Cuba), January 15-22nd. Callsigns will be as follows:
KG4SB - Jose - QSL to N4BAA
KG4WV - Bill - QSL to W4WV
KG4AS - Tip - QSL to N4SIA
Activity will be on 160-6 meters operating on ALL modes. Jose will have SSTV for those who desire it!

OH0, ALAND ISLAND. An international team of operators will activate OH0I in the CQ WW RTTY WPX Contest (February 12-13th) as a Multi-Multi entry.

QSL via OH3BHL.

OO, BELGIUM. Marc, ON4MA, informs OPDX that in the year 2005, look for Belgium operators to use the "OO" prefix during the entire year. This prefix is being used in celebration of 175th anniversary of Belgium's existence.

PJ4, NETHERLANDS ANTILLES. Dr. Rick, NE8Z, will be active as PJ4/NE8Z from Bonaire, February 4-13th. Activity will be mostly CW/SSB on the WARC bands and 6 meters. Rick mentions that he will use a Kenwood TS680s with an Ameritron AL-84 Amp into a Cushcraft R-7 Vertical (40-10m). He will also use a Yaesu FT-857 into a Cushcraft 3 element yagi on 50 mHz. QSL via NE8Z: Dr. Rick Dorsch, P.O. Box 616, Hamburg, MI 48139 USA.

QSL INFO AND NEWS.....
D2U QSLS. Rod, EA7JX, QSL Manager for D2U, informs OPDX that he has not heard from Joao, D2U, for 6 months. He mentions that Joao told him he sent logs via E-mails, but it seems Rod did not receive them. Rod states that he is sorry for the delay for all the DX stations that sent him envelopes, and he is sure once Joao sends him the logs, he'll answer them quickly. Rod is also QSL Manager for: LU5FF, LQ0F, L45FF, L25FF, L73F, AY5FF, L59EOC, LW9EOC, YN9HAU, D2U, YX1DIG, YV1DIG, YW1D, YW6P, CO3JO, VK3FY and VK3FY/DU8.

NOT THE MANAGER. Tom, N6BP, states that he is not the QSL Manager for C6AKQ. He also mentions that he will no longer return any cards, but instead throw them in the trash. The correct QSL route for C6AKQ is via N4BP.

TOP 5 QSL MANAGER NOMINATIONS (Update). John, K1XN, of the "Go-List" informs us that nominations of the "TOP 5 MANAGERS" has been brisk. He states, "If this rate of response remains level, we will have a record number of nominations again this year. Please remember this is just an opinion survey based upon the responses to your QSL requests for this year 2004 only." John states, "We have several hundred nominations to date, but only 28 different managers nominated." The survey continues until February 1st, 2005. To see the list of those QSL Managers nominated in 2003 to the TOP 5 list and the TOP 5 of the Top 5, visit the GOLIST Web site at this URL: http://golist.net/top_5.htm
If you wish to nominate the 5 best QSL Managers this year, send their callsigns to John via: golist@golist.net

VK4UC QSL MANAGER CHANGE. Kim, daughter of N3SL, is assuming the duties of QSL Manager for John, VK4UC. Cards are on order and expected in early January. John has forwarded nearly 4 pounds of cards received via the VK Bureau to N3SL for processing. About 50 direct cards also were included and will be answered at the same time. They ask that those awaiting cards to please not send another until the bureau system has had a chance to work. John's logs have already been uploaded into LoTW, and a log search will be available at: http://www.qsl.net/n3sl/manager.htm

S9A & S9BB WRAP-UP. The following is an excerpt from a press release received by Jarmo, OH2BN. It has been edited to fit this week's bulletin. The press release states:
"OH2BH and OH2PM now safely back home from Sao Tome, Africa, are busy changing their suntanned outfits to those that will be needed on the Antarctic Peter I expedition (3Y0X) within the next few weeks.
Sao Tome was fun, and with limited manpower they were able to push the QSO total to nearly 25,000. Conditions turned out surprisingly unstable, varying from day to day. The tropical noise came lower at times, allowing the team to make a number of 160M/80M contacts. In particular, 80M CW signals were easier to copy with sharp filters regardless of the noise.
Congratulations to those who made it thru. The log search is up and running at: http://www.df3cb.com/logsearch/s9bb/
The statistics show reasonable results on all bands, probably providing at least one contact for those in need. See the log search website and judge for yourself whether Sao Tome might be your potential destination when spinning the globe in search of new adventures.
The group is grateful to Mike, K7IR at SteppIR for their support and to Charles, S9SS and Lesley, S9YL for their on-site patronage. Also, the crew at S9A & S9BB (OH2BH-OH2PM-OH2TA) wish the DX community a merry Christmas and good luck in contacting the ongoing VU4 expedition."
S9BB & S9A Total QSOs 24617
NORTH AMERICA Total QSOs 9115
EUROPE Total QSOs 12686
ASIA Total QSOs 1637

SPECIAL DUTCH ACTIVITY. Look for the following Dutch stations to be active during the last 2 weeks of 2004 from The Netherlands:
PA6EU - Amsterdam PE6EU - Valkenburg - Maastricht
PB6EU - The Haque and Scheveningen PF6EU - reserved for Groningen
PC6EU - Rotterdam PG6UE - Noordwijk
All these stations will be active because of the last final weeks of the Dutch EU-Presidency. QSL Manager is PA7DA.

SPECIAL EVENT. Look for special event station PC100H (Papa Charlie One Zero Zero Hotel) to be activated from 0700z, December 18th until 1900z December 19th, to commemorate the 100th anniversary of the founding of the Dutch Coastal Radio Station PCH/Scheveningen Radio. Activity will be on 160-10 meters including some WARC bands on CW/SSB/RTTY/PSK31. Also, 2 meters SSB/FM. Suggested frequencies are:
2m - 144.250 (SSB) and 145.250 (FM) MHz
CW - 1830, 3530, 7030, 10130, 14030, 18090, 21030 and 28030 kHz
SSB - 1850, 3650, 7050, 14250, 18150, 21250 and 28250 kHz
RTTY - 10145
QSL via PA1HR. Further information (frequencies, modes and operating hours) will be available via: http://www.remeeus.nl/pch/pc100h/pc100h_uk.htm

VU4, ANDAMAN ISLANDS (Update). Early last week rumors were flying around stating that officials stopped the VU4RBI and VU4NRO operation. Naturally, these turned out to be just rumors. Jim, N8TT, was informed by Jose, VU2JOS, that "Our VU4 Dxpedition will continue till 31 Dec 2004 and there is no truth to the rumour that it has been stopped by officals." Meanwhile,

the activity continues and John, HS0ZAA/W2ZWW, in Minburi, Thailand, states that he talked to Bharthi, VU2RBI, and was told there are 2 separate stations operating with 5 operators, and they are on the air 24 hours per day on the following frequencies:
VU4RBI - 7075, 14250, 21240, 18130, 24930 and 28430 kHz
VU4NRO - 14190 kHz
Only the 5 operators are licensed to operate on these bands, and they will be listening up 5 or 10 kHz on each band. These above frequencies are still not written in stone, and it is recommanded to also watch QSNs on your local/telnet cluster. Reportedly, the team has one beam installed without a rotor.
Charles Harpole, K4VUD, will be traveling to Andaman Isalnds and should be there on December 14th. However, he states that he will be there as a tourist to photograph and video the VU4 Dxpedition. As a non-India citizen, Charles does not have an operating permit for that location. He does hold a one-year India license, VU3CHE, but it is licensed for operations in New Delhi ONLY. Charles does state that he will carry all the advice (he has received) on operating practices and propagation openings to the team."
He will be there for 2 weeks. Charles also mentioned this past week that the reason the team is not using the announced frequencies has to do with "unusual odd noise QRM" on these intended operating frequencies. Remember, the NIAR is the ultimate source for news of this operation. Their Web is: http://www.niar.org

ZF2, CAYMAN ISLANDS. Jim, N6TJ, will be active as ZF2TJ in the ARRL DX CW Contest (February 19-20th) as a Single-Op/All-Band/High-Power entry. Activity will be from ZF2NT's QTH. QSL via VE3HO.

> A6, UNITED ARAB EMIRATES (IOTA Activity). Ghis, ON5NT, informs OPDX that
> after their A61AV/p operation (QSL via ON5NT) to AS-124 (which netted
> 3000 QSOs) in the beginning of December, they will be on the road again.
> Look for A61Q/p to be active from Jazirat Al Siniyah off the coast of
> the Emirate of Umm Al Qaywayn in the United Arab Emirates. This island
> has been approved for IOTA and counts for AS-021. With Abu Dhabi Island
> being deleted from the IOTA directory on February 1, 2005, AS-021 would
> become very rare. Only a handful of IOTA chasers worked A6XT in the 70's
> from Das Island. The operators will be Abdullah/A61Q, Mohammed/A61AV,
> Alex/RV6LNA and Ghis/ON5NT. Operators Abdullah/A61Q, Mohammed/A61AV and
> Alex/RV6LNA will arrive on Al Siniyah Island in the (local) afternoon of
> December 17th. Ghis, ON5NT, will join them in the (local) morning of
> December 18th. They will stay on the island until December 20th, around
> 1600 local time. The UAE/A61 is at GMT+4. They will be active mainly on
> 21260, 14260 and 7060 khz. Also look for CW on 21040, 14040, +/- 10103
> and +/- 7003 kHz. QSLs for the A61Q/p operation from AS-021 are via ON5NT:
> Ghis Penny, P.O. Box 93, BE-9700 Oudenaarde, Belgium. Regular QSL cards
> for A61Q from his home still go via EA7FTR.
>
> ANTARCTIC NEWS.............
> Due to some changes in the schedule, operator VU3BPZ is flying from
> Mumbai on December 11th to South Africa and from there to India's Maitri
> Base (WAP IND-03). This will cause a delay in his activity.
>
> 2nd Antarctic Activity Week. The WAP (Worldwide Antarctic Program) has
> announced their "2nd Antarctic Activity Week" which will be held from
> February 21-27th, 2005. The WW stations wishing to participate in this
> "2nd AAW" event just have to apply through their Ham organization,
> according to their country's rules, for a special callsign with ANT
> in their suffix, and try to be active during the above mentioned week.
> Operators in Argentina for many years now, have celebrated their "Dia
> de la Antartida Argentina", which is normally held every year on the
> 22nd of February, so this year the WAP 2nd AAW will fall within that
> date. The WAP's aim is to stay close to the researchers and personnel
> who are spending their time away from home and away from the families
> studing the Antarctic life and its secrets. Last year the participation
> was great with several ANT station such as IR1ANT, IR0ANT, TM0ANT,
> II7ANT, IO8ANT as well as others that were active for that week. This
> year the WAP has more time to prepare, and they hope that more stations
> will participate. For any question, please feel free to write to WAP
> (Worldwide Antarctic Program) @ I1HYW or IZ8BRI. Address and E-mails
> are OK on QRZ.com. Also, visit the WAP Web site for updates at:
> http://www.ddxc.net/wap
>
> THE BIG GUY TO BE ACTIVE. Yep, the word from our Finnish friend is that

> the real Santa Claus is to be active in December as OH9SCL (Santa Claus
> Land) before he makes his world-wide tour. Activity will take place from
> the Finnish Lappland, Arctic Circle, on all bands and modes. The "BIG GUY"
> will be active from the VERY NORTH! Special activity will take place
> December 17-19th. It is known that Santa is busy before Christmas, so he
> has N7NG, OH2BH, OH3BHL, OH9KL, OH9MDV, OH9MM, OH9RJ and OH9VC handling
> the radio traffic part of the preparatory activities! QSL via OH9UV.
>
> FO/M, MARQUESAS ISLANDS. By the time you read this, operators
> Michel/F6COW,
> Dominique/F6EPY and Radi/F6GNZ should be active as FO/F6COW, FO/F6EPY
> and FO/F6GNZ, respectively from Hiva Hoa, Marquesas (OC-027), until
> December 23rd. They should have two stations active and are expected
> to operate mostly CW and SSB with some digital modes (PSK31, RTTY, SSTV).
> Activity will be on 80-10 meters, with some 160m if conditions allow,
> with a priority on the lower bands. For more details visit the following
> Web page at: http://perso.wanadoo.fr/dominique.auprince
> QSL via their home callsigns. Suggested frequencies are:
> CW - 3515, 7015, 10118, 14015, 18095, 21015, 24905 and 28015 kHz
> SSB - 3780, 7075, 14215, 18135, 21215, 24985 and 28465 kHz
> Digital - 7035, 10145, 14085, 21085 and 28085 kHz.
>
> IOTA NEWS.............
> AS-140. Manjurul/S21AM and Dave/EI3IO will operate from Char Dakhin
> Shahbazpur (Bhola Island), from February 4-th, 2005. A special

What definition of spam includes these weekly posts?

Why do you feel compelled to read them?

Why did you have to re-post the entire article to merely add your comment?

So what's worse, bonehead? 363 lines of on topic, ham radio and DX
related information legitimately posted in the appropriate newsgroups?

Or your 385 lines of duplicated text that you couldn't manage to edit
preceded by (top posted) the above off topic lines of unwarranted
complaint?

You are part of the problem. You are an idiot.

HYPE ALERT! HYPE ALERT! HYPE ALERT!

Reg Edwards wrote:
> The trouble with the 98% of USA citizens who are not aware of the existence
> of the rest of the world,

Actually, we are all too aware. Even today, the foundation of our
country is based on immigration. Point to any one schoolchild ignorant
in geography and histor, and he or she will point to a grandparent from
the old country.

or the damage caused by world-wide indiscriminate
> use of their weapons of mass destruction,

We've only deployed two weapons of mass destruction in anger: at
Hiroshima and Nagasaki. True, we've made quite a few atmospheric and
underground tests since then, but *none* of them have actually been used
against a target. And as far as I know, even though the US stockpiles
chemical weapons we never even considered germ warfare.

Or are you speaking merely of the damage caused by deterrence? All that
managed to accomplish was the quiet collapse of the Warsaw Pact.

is that they are far too
> childishly patriotic.

True, we teach patriotism to children, and hopefully this childish
patriotism becomes an adult version based on government by
consent of the governed. The true test of this is our continued
willingness to pay taxes.

They natuarally believe their own distorted,
> hopelessly biased propaganda, fundamentally generated by their international
> oil and energy, atmospheric-polluting companies.

Sorry now. The last propaganda I have ever heard of has been generated
by speechwriters in the Republican, Democratic, Libertarian, and Green
parties. I don't notice the speechwriters being in the pay of multinats.
>
> Iraq, Palestine and other middle-eastern and central Asian countries are
> heading, slow-motion, towards another Vietnam, Cambodia and other places
> left poisoned and in ruins.

Not our fault. There was conflict and chaos enough caused by regional
despots, absolute monarchs, and fanatics willing to see the human race
extinct rather than see even a single person free of the yoke of thier

own religious totalitarianism. Our involvement is slowing this
downhill slide, not exacerbating it.

Your boys in the armed services will return
> home, not necessarily all in black bags, but in the form of many thousands
>

of unemployed hillibillies
Hey, those hillbillies were unemployed before they joined the army to
give themselves college educations and their families a better shot at
the middle class.

, drug addicts,
Soldiers now get therapy as part of their health package. Battle
fatigue is now a recognized illness that even the most gung-ho general
would fail to confuse for cowardice. Further, the Vietnam era US army
had just as huge a drug problem as the rest of society. In modern
times drug addiction rates by veterans are less than our population as a
whole.

detested outcasts of society.
Only because we treated them that way when they came home.

>
> But it need not end in that way. You are all-powerful and rich. Just find
> some teachers and educate yourselves before it's too late.

For everybody's
> sake on this small overepopulated,

A canard. The Western democracies are actually experiencing a
population decline. China and India are presently undergoing
industrial revolutions that are helping greatly to stabilize the
rate of population increase. Africa and South America are still
big problems, caused by persistent poverty, tyrranical governments,
and tribalism in lieu of the rule of law.

underfed Earth.

Another canard. The hunger problem is not caused a lack of production
capacity, but from the inability of much of the people to find work to
earn money to buy the food produced by their neighbors.

Capitalism itself causes
uneven distribution of resources, but as the world has seen, any other
system acheives worse results. Dorothy Day said it best that to tie
worth of a person to usefulness was to sin against the inherent dignity
of that person.

If we had a worldwide welfare state, our world could support a hundred
times its present population.

This is the one instance where the Roman Catholic Church actually has it
right.

Actually, it's NOT SPAM. It's specifically authorized to post [weekly] on "rec.radio.amateur.misc" (where I'm seeing it). As for whether or not it's allowed on the ".dx" group, check the "rec.radio" newsgroup hierarchy unified charter and guidelines document (google reports its availability at 5+ web sites).

Ever wonder why I did not challenge "AR Newsline's" postings here? Simple: The charter allows it to be psoted to ".misc" (but not to ".policy" where I did bitch about it).

I haven't read the charter for r.r.a.dx, but I can't help but think
that somehow, by any definition or construction, a long time (since
the early '90s at least; maybe even longer), well regarded DX bulletin
is going to be tolerated, if not permitted, on a DX newsgroup.

spam patrol, whatever that is, sounds like a big whining pussy. He
even whined twice in response to me.

Betcha a hunnert bucks that gets him to respond to me again. Almost
certainly with more whining.

1778. Shipwrecked Ham

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-13 03:24:48 UTC
From: K&#65533;HB <groupk0hb@earthlink.net>
Message-ID: <4Y7vd.9663$0r.5945@newsread1.news.pas.earthlink.net>
Source record: 6218

There was this DXer, who in the valley of the sunspot cycle, decided to take a cruise ship trip in the south Pacific for the first time. It was wonderful, the experience of his life. He was being waited on hand an foot. But, it did not last. A typhoon came up unexpectedly. The ship was blown onto some uncharted reef and sank almost immediately.

The man found himself, he knew not how, swept up on the shore of an island. There was nothing else anywhere to be seen. No person, no supplies, nothing. The man looked around. There were some bananas and coconuts, but that was it. He was desperate, and forlorn, but decided to make the best of it. So for the next four months he ate bananas, drank coconut juice and mostly looked to the sea mightily for a ship to come to his rescue.

One day, as he was lying on the beach stroking his beard and looking for a ship, he spotted movement out of the corner of his eye. Could it be true, was it a ship? No, from around the corner of the island came this rowboat. In it was the most gorgeous woman he had ever seen, or at least seen in 4 months. She was tall, tanned, and her blond hair flowing in the sea breeze gave her an almost ethereal quality. She spotted him also as he was waving and yelling and screaming to get her attention. She rowed her boat towards him.

In disbelief, he asked, "Where did you come from? How did you get here"?

She said, "I rowed from the other side of the island. I landed on this island when my cruise ship sank"

"Amazing", he said, "I didn't know anyone else had survived. How many of you are there? Where, did you get the rowboat? You must have been really lucky to have a rowboat wash-up with you?"

"It is only me", she said, "and the rowboat didn't wash up, nothing else did."

"Well then", said the man, "how did you get the rowboat?"

"I made the rowboat out of raw material that I found on the island", replied the woman. "The oars were whittled from Gum tree branches, I wove the bottom from Palm branches, and the sides and stern came from a Eucalyptus tree".

"But, but, asked the man, what about tools and hardware, how did you do that?"

"Oh, no problem, replied the woman, on the south side of the island there is a very unusual strata of alluvial rock exposed. I found that If I fired it to a certain temperature in my kiln, it melted into forgeable ductile iron. I used that for tools, and used the tools to make the hardware. But, enough of that, she said. Where do you live?"

At last the man was forced to confess that he had been sleeping on the beach. "Well, let's row over to my place, she said." So they both got into the rowboat

and left for her side of island.

The woman easily rowed them around to a wharf that led to the approach to her place. She tied up the rowboat with a beautifully woven hemp rope. They walked up a stone walk and around a Palm tree, there stood an exquisite bungalow painted in blue and white.

"It's not much, she said, but I call it home. Sit down please, would you like to have a drink?" "No, said the man, one more coconut juice and I will puke."

"It won't be coconut juice, the woman replied, I have a still, how about a Pina Colada?

Trying to hide his continued amazement, the man accepted, and they sat down on her couch to talk.

After a while, and they had exchanged their stories, the woman asked, "Tell me, have you always had a beard?" "No", the man replied, "I was clean shaven all of my life, and even on the cruise ship". "Well if you would like to shave, there is a man's razor upstairs in the cabinet in the bathroom." So, the man, no longer questioning anything, went upstairs to the bath room. There in the cabinet was a razor made from a bone handle, two shells honed to a hollow ground edge were fastened on to its end inside of a swivel mechanism. The man shaved, showered and went back down stairs..

"You look great, said the woman, I think I will go up and slip into something more comfortable." So she did.

And, the man continued to sip his Pina Colada. After a short time, the woman returned wearing fig leafs strategically positioned and smelling faintly of gardenia.

"Tell me, she asked, we have both been out here for a very long time with no companionship. You know what I mean. Have you been lonely, is there anything that you really miss? Something that all men and woman need. Something that it would be really nice to have right now."

"Yes there is, the man replied, as he moved closer to the woman while fixing a winsome gaze upon her, "Tell me ... Do you happen to have a 20-meter rig around. This place HAS to be a New One for DXCC!"

Sir Walter your fears are realized

The sunspots were roaring and the Old Dxer was working DX night and day.
The faithful XYL had had it with his QRZing and blew her stack.
"DX DX DX - thats all you ever think about!" she groaned
"Why I'll bet you don't even remember our wedding date!!

"I mostly certainly do" was the immediate reply.
"It was June 14th, 1958 - Thats the night I worked
the XT1, the CR&#65533;, and the G3NYY DXpedition!

This is a free country and God is whatever you want to make him or it or ..... I prefer to believe we are just another animal period. Godless yes but I have and most Godless people that I have known and still know have high morals. I do question yours because of your current ignorant statement. Party affiliation has nothing to do with it.

I an nameless because I do not trust the current administration period or for that matter most God fearing people. I have gotten this way over time. Just tell me how many people in your church you really trust.

The current adminstration probably doesn't read the DX newsgroup, so
you're safe here with us.

Is it Whacko Week at the Zoo or what? The DX newsgroup is starting to
look like the results of a program to install AOL and internet service
at mental institutions.....

Do a web search someday on your name or id and you will find every
posting you have ever posted will show up in the search. Newsgroups are
great for the government to find out about lunies or people that don't
agree with them.

You didn't know?
AOL has lost significant market share, and has just rolled
out a new marketing push. Free computers with AOL
at mental institutions must be part of that plan.

I understand W20Y was the Ham who used this originally

SPACE CADETS _ VERSION 1
CQ CQ CQ - No Lids, No Kids, No Space Cadets -- "Attributed to the late W2OY, Mike, back in the late 40's on 75 meters when it was a Class "A" only band.
Mike was known around the northeast for this everytime he called CQ."

Contributer name withheld

SPACE CADETS - VERSION 2
If you didn't hear W2OY, you missed a one-of-a-kind. Actually, he said, "CQ CQ CQ. No kids, no lids, no school bus riders or space cadets. No kings, no queens, no jacks. This is the NO PHONETICS station, W2OY." I heard that hams in his town got so worked up over his antics, that somebody sneaked into his yard one night and drove a pin through his coax, but I have no way of knowing whether this story is true.

Contributer name withheld

1800. 6M

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-16 17:18:40 UTC
From: James <jimmyt@wilkshire.net>
Message-ID: <10s3grdfrgbcfdc@corp.supernews.com>
Source record: 6241

Is any one working the 6M band? Been off for awhile but listening.

1801. Re: 6M

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-16 17:49:15 UTC
From: Caveat Lector <oldcl@rome.com>
Message-ID: <vUjwd.64425$Af.43445@fed1read07>
Source record: 6242

Main 6M skip via sporadic E propagation (Es) is during the months of June and July
Nearly 80% of the yearly totals of Es propagation take place from May through August, with maximums occurring in June or July with June being the more common.

A lower but significant occurrence takes place in the months of November and December. March usually exhibits a definite minimum of Es. However, Es can occur on any day of the year and these are termed off-peak openings.

During last year's summer months from here in So Cal, I worked 48 US states (got Alaska and Hawaii, Need KY and AR). Some double hop openings had the band wall to wall with SSB (and some FM and CW) signals from all over the USA and some Caribbean

Last month (November) there were some Es openings to the NW USA from So Calif

You can use the telnet Packet cluster to follow openings on 6M, URL:

http://www.cpcug.org/user/wfeidt/Misc/cluster.html

Just type in SH/DX/21 50

That is show last 21 spots for 50 MHz

You might take a look at AC6V's DX101x which now covers 6M.

http://ac6v.com/DXSAMPLE.htm

Also Ken Neubeck, WB2AMU, has written the guide to the "Magic Band" -- available at World Radio Magazine URL:

http://www.wr6wr.com/

Be aware that unlike the HF bands, except for local contacts, the six meter band can be closed for long periods of time, so listening and tuning on 6M can be an exercise in futility.

There are ways however to snag the openings -- covered nicely in the above books.

Go to K1JT's site, http://www.pulsar.princeton.edu and download a copy of
WSJT. Set up just about any kind of horizontally polarized antenna and with
just a few watts you can be regularly working up to 1200 miles on meteor
scatter. It beats waiting months for an E's opening.

Well this one works
http://pulsar.princeton.edu/

When you put in the www it doesnt work as the original poster stated
http://www.pulsar.princeton.edu/

And you really want to go to where I first stated
http://pulsar.princeton.edu/~joe/K1JT/

To get to the WSJT Home Page

Maybe the German providers vary -- hi hi

December 20, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, KA2AEV, NG3K, W3UR & The Daily DX, K4UUE, K4VUD, N4AA & QRZ DX, N4JF, K6JAT, K8YC, K8YSE, W0YG, CT1GFK, DL1EK & The DX News Letter, DL2VFR, DL5EBE, F5CWU & La Gazette du DX, F5NQL & UFT, G3SWH, I1JQJ/IK1ADH & 425 DX News, I1HYW, IZ8BRI, IZ8CCW, IZ8CGS & Mediterraneo DX Club, JI6KVR & JA-IOTA Islands News, PA2R, VA3RJ & ICPO, VK4FW and XE1KK for the following DX information.

SPECIAL EDITOR'S NOTE: Once again, where did this year go? Anyway, my family (wife/OPDX's chief proof-reader Linda, Teddy [TJ], Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy Holiday and Season's Greetings". Because the holiday falls on a weekend day, I am going to do my best to release a bulletin next weekend..... 73 and Have a Great Holiday de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/December, through Sunday, 19th/December there were 215 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FP, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T31, T32, T5, T7, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP8, VP9, VQ9, VR, VU, VU4, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work

First Worry Later" (WFWL).

3D2, FIJI. Jim/K6JAT and his XYL, Lilah/KE6EHD will be off on vacation to Matangi Island (OC-016) from January 1-7th. They have procured the callsigns 3D2TJ and 3D2EG, respectively. Jim plans on some casual DXing on 40-10 meters SSB with a FT-857D barefoot into a vertical or wires. QSL via their home callsigns.

3Y0X PETER I ISLAND DXPEDITION (Update). Bob, K4UEE, informs OPDX that the 3Y0X DXpedition team can now take contributions toward the Peter I DXpedition via PayPal and Credit Cards. Just go to the Web site and follow the directions at: http://www.peterone.com
Please be sure to include your callsign!
TOPBAND NEWS. Bob, K4UEE, also informed the 160m enthusiasts on the Topband Mail Reflector that this will be only the third DXpedition to Peter I Island and only the second to offer 160m QSOs. The 3Y0PI DXpedition in 1994 made a little over 300 QSOs on topband. Obviously, this means that most 160m ops today still need Peter I Island for a new one. They are planning a very large operation with eight full-KW stations and a low power 30m station. Modes include CW, SSB and various digital options. There are fifteen antennas in their inventory and many spares. On 160m, they will be running full power to a heavy-duty version of the Battle Creek Special (BCS) antenna (the very same antenna that produced 1250 QSOs from VK0IR in 1997). The BCS will be dedicated to 160m. Additionally, they are planning at least one 3 element wire beam on the ice and maybe more. There will be five experienced topband operators fighting each other to have the opportunity to put you in the log on 160m. Operators are Bob/K4UEE, Pertti/OH2PM, Eric/K3NA, Andy/UA3AB and Alan/K5AB.

4X0, ISRAEL (Castle Activity). Just a reminder that Jan/4X1VF, Ilya/4Z1UF, Shalom/4Z4BS, Mark/4Z4KX, Ruben/4Z5FI, Ruslan/4Z5LA and Yuli/4X6HP will operate for the first time after 16 years from the famous historical site - "MASADA Castle" near the Dead Sea this week. They will use the special callsign 4X0MS, starting at 1000z Friday, December 24th, through 1000z Sunday, December 26th. They plan to operate with two complete stations on CW/SSB on 80-10 meters. QSOs are good for the "Holyland Award" program. The square will be L22BS. QSL Manager is Shalom, 4Z4BS. To get more information about this site, please visit the Web page at: http://www.bibleplaces.com/masada.htm

5T, MAURITANIA. Operators Phil/G3SWH, Jim/G3RTE, Jean/ON8RA and Adriano/ON5GA will be active as 5T0CW from Nuachachott between February 24th and March 4th. Activity will be CW only on all bands 160-10 meters. Propagation permitting, they plan to have at least one station on the air on a 24 hour a day basis. QSL via G3SWH, either direct with SAE and return postage or via E-mail for a bureau reply or via the bureau. Phil's E-mail is: phil@g3swh.demon.co.uk

8Q, MALDIVES. Paolo, IK2QPR, will be active as 8Q7PR from Dunikolhu Island, Baa Atoll, Maldive (AS-013), January 9-17th. Using only 100 watts and a vertical antenna, activity will be CW/SSB on 40/30/20/17/15/12/10 meters. QSL via his home callsign IK2QPR: Paolo Fava, via Bertani 8, 46100 Mantova,

Italy.

CDXA OFFICERS FOR 2005. John Scott, K8YC, CDXA Editor, informs OPDX that on Thursday, December 9th, the Carolina DX Association (CDXA) held its "Annual Meeting" along with its annual "Holiday Party". The following were nominated and elected to serve as officers for the 2005 calendar year:
President: Ted Goldthorpe, W4VHF
Vice President: Tom Wright, N4HN
Sec./Treasurer Jim Miller, K4SQR
Newsletter Editor: John Scott , K8YC
Cluster Manager: Joe Simpkins, K4MD
Assoc. Cluster Mgr: Paul Sturpe , W3GQ
Webmaster: Wayne Setzer, WB4BXW
Visit the CDXA's Web page at: http://www.cdxa.org/

CT2ITZ (Pirated Activity). It seems someone is pirating Paulo's, CT2ITZ, callsign on a PacketCluster and putting out false and missing information on the net. Naturally, this aggravates everyone, especially the owner of the callsign (Paulo). Please ignore this lonely individual who is looking for attention (this is what he wants) and do not take it out on Paulo.

DXPEDITION PICTURES ON THE WEB. Pictures of the recent A61AV/p operation from Sirat Al Khawr Island (AS-124) can be viewed at:
http://www.mdxc.org/a61av-p

EY8, TAJIKISTAN. Nodir. EY8MM, will be active in the upcoming CQ WW 160m CW Contest (January 29-30th) as a Single-Op entry. He states that he will have a full size delta vertical and beverages.

GJ2, JERSEY. Richard, K2WR, will be active as GJ2A or MJ0AWR during the CQ WW 160m CW Contest (January 29-30th) as Single-Op entry. QSL via K2WR. There will be some pre-contest activity, and he will concentrate on 80/40/30/17/12 meters CW.

HI, DOMINICAN REPUBLIC. Curt, W3HQ, will do a two week operation on 160m from here. Look for him to be active as HI/W3HQ and to be active in the CQ WW 160m CW Contest (January 29-30th) as a Single-Op entry. QSL via W3HQ. For E-mail skeds use: fclambert@infonale.com

IOTA NEWS.....
AS-079. Take, JI3DST, will be active as JI3DST/JS6 from Miyako Island, December 29th to January 5th. Activity will be on 160-6 meters CW, SSB, SSTV and RTTY. QSL via JI3DST (QRZ.com).

NA-200. Yuri/XE1UN, Alberto/XE1NK and Ramon/XE1KK will operate from Tamalcab Island on the rare Quintana Roo State South Group as XF3T from 1800z, December 21st to 0000z, December 24th, during local daylight hours. They will be active with two stations on 40-10 meters, including the WARC bands, on SSB, CW and PSK31. QSL via N1NK.

J2, DJIBOUTI. Yves, F5PRU, is currently active from here for the next four months. His stay is job/work related. His callsign is J20FH (This

prefix is given to hams who stay less than 6 months in Djibouti). His activity will be limited to his spare time. Look for him on CW/SSB and maybe some digital, on 80-10 meters. Also, look for Yves during the two parts of the French REF Contest which takes place on each of the last full weekends of January (CW) and February (SSB). QSL to F5PRU via the French REF Bureau; preferred (when he returns).

KC4, ANTARCTICA. Brent, KD4VMM/KC4, is active now from Palmer Station (K-10 for the Antarctica Award and USA-23 for the WAP) on Anvers Island (AN-012). Watch 14243 kHz between 2330-0100z. QSL via KD4VMM:
Brent A. Evers, 5211 Al Jones Drive, Shady Side, MD 20764, U.S.A.

LU2, ANTARCTICA. Look for LU2ZD, the Primavera Base, to be activated in January by an operator named Paolo (home callsign not provided). His flight to the Antarctic Peninsula will be on the 7th or 9th of January. Primavera Base is only open during the summer season, and any activity on the ham bands will be together with QSL Manager Henry, LU4DXU. At the moment they are still trying to organize a suitable transceiver for this operation. More details will be forthcoming soon.

OO, BELGIUM (Update on Special Activity). Egbert, ON4CAS/N1TOI, UBA Award Manager, informs OPDX that to celebrate the 175th anniversary of Belgium's independance, Belgian stations may use the special prefix "OO" instead of "ON" during 2005. The UBA will take part in the celebrations by issuing an offical commemorative award. The "175 Years Belgium Award" can be earned by contacting stations using the OO prefix between January 1st and December 31st, 2005. A sum of at least 175 points are required for the award. For more details on how to earn points and a picture of the award, please visit the following Web page at: http://www.uba.be/hf/awards/175yr_en.html

QSL INFO AND NEWS.....
I0QHN/KC4 QSL MANAGER CHANGE. Egidio, IZ8BRI, informs us the original QSL Manager chosen by the operators was Gianni Varetto, I1HYW, but do to his busy schedule, the WAP Staff and Dr. Mario Pillon, I0QHM, agreed to use Luigi Cervasio, IK8OZZ, a well known WAP Antarctic QSL Manager. QSLs already sent to, and/or received from Gianni, I1HYW, will be forwarded to IK8OZZ. It was mentioned that the QSLs will not be sent out before the operators return home (with pictures for the QSL and logs). This will happen at the end of March 2005.

Gianni, IZ8CGS, Antarctica Award Manager, informs OPDX that there are many online logs seachers for Antarctica stations on the following MDXC Web page at: http://www.mdxc.org/antarctica/log.htm

QSL KH0PR via JJ8DEN. Operator was Yoshi who was active from the Island of Rota (OC-086) in the Marianas Islands.

LLDXT & PRIVATE LOGS NOW ON LOTW! Rob, PA2R, informs OPDX that last month he had uploaded all of the following logs files to the "Logbook of The World" (LoTW). Over 350,000 records have been added to the Database! The logs are still open for normal QSL if you wish. Here are the callsigns for those logs:

HB0/PA3ERC, VP5C (1995), VP5/PA3BBP, VP5/PA3ERC, VP5/PA3EWP,
VP45/PA3EWP, FG/PA3BBP, FG/PA3ERC, FG/PA3EWP, FG/PA3FQA, TO5C (1996),
J79BP, J79RC, J79WP, J79QA, J77C (1996), FM/PA3BBP, FM/PA3ERC,
FM/PA3EWP, FM/PA3FQA, J6/PA3BBP, J6/PA3ERC, J6/PA3EWP, 9Y4/PA3BBP,
9Y4/PA3ERC, 9Y4/PA3EWP, 6Y5/PA3ERC, 6Y5/PA3EWP, ZF9/ZF2RC, ZF9/ZF2WP,
PJ7/PA5ET, PJ7/PA4WM, PJ7/PA3EWP, PJ7/PA3GCV, PJ7/PA4WM, PJ7/PA4EA,
FS/PA5ET, FS/PA4WM, FS/PA3EWP, FS/PA3GCV, FS/PA4WM, FS/PA4EA, V47ET,
V47WM, V47WP, V47CV, V47WM, V47EA, VP2EET, VP2EWM, VP2EWP, VP2ECV,
VP2EWM, VP2EEA, 8Q9RC, 8Q9WP, V26EA, V26ET, V26FM, V26WP, VP2MPA,
8P9JR, 8P9JS, 8P9JT , 8P9JU , J3/PA3EWP, J3/PA5ET, J3/PA7FM, J38PA
(2001), J8/PA3EWP, J8/PA5ET, J8/PA7FM, J8PA (2001), J75ET, J75EA,
J75ZH, J75WP, J75PA (2002), VP2MET, VP2MEA, VP2MWP, VP2MPA, VP2MCV
and VP2MWM (2002), OY7ET, OY7QA, OY7TW, OY7WB, OY7WP, OY8PA (2003),
3D2PA (2004), T30PA (2004) and T33PA (2004), PA3ERC, PA63ERC, PA5ET
and finally PA2R.

If you participate in the "Logbook of The World" program you will
probably get a lot of new band slots and/or new countries! Uploading
logs is free see how to register at: http://www.arrl.org/lotw/

V26B ON THE LOTW. Mike, KA2AEV, reports the V26B logs are now available
on LoTW back to 1995 (he thinks). He states, "We're having problems
finding a copy of the 1993 and 1994 logs, but we expect this problem
to be solved shortly."

VK9LA & VK9LW QSL CARD STATUS. Bill, VK4FW, reports that he is half-
way through answering cards received. All cards are being done on a
"as received basis by date". Bill states, "Some of you will be lucky
to get them before xmas. I hope to have all cards in the mail by late
next week." Statistics on the operation are available on the Web at:
http://www.odxg.org
VK4FW's mail address is: Bill Horner, P.O. Box 513, Nambour, 4560,
Australia.

VK9XG QSL CARD STATUS. Charlie, W0YG, reported this past week that
he should be caught up on mailing all the QSL cards for his recent
VK9XG operation. He states, "For those who have a tendency to use the
bureau, please use LoTW instead. I will upload the logs to LoTW
sometime in the future when I debug the busted calls which is normal
for any DX operation."

SOUTH SHETLAND ACTIVITIES.....
HF0 - A new operator is now in place at the Polish Antarctic Base
Station Henryk Arctowski (SP-01 for the Antarctica Award) on
King George Island, South Shetlands (AN-010). The operator is
Marek, SP3GVX, who is expected to operate as HF0POL through
November 2005. QSL via SP3WVL: Tomasz Lipinski, skr. poczt. 78,
69-100 Slubice, Poland.

OL0 - Jarda, OL0ANT, is currently active from the small Czech "ECO
Nelson" Base Station on Nelson Island (AN-010), South Shetlands.
Activity is until January 10th. His equipment consists of a

battery powered Kenwood TS570D and a vertical antenna for the ususal bands (no WARC). Ham radio activity is mainly of a demonstrative nature. Length of operation and the uses of power depends on the status of his battery. Most of his activity has been on 40 meters CW between 0300-0700z. There was one QSNs on 30 meters around 0345z. QSL via OK1FOW: Jaroslav Jirus, Angolska 609, CZ - 160 00 Praha 6, CZECH REPUBLIC. A new WAP reference number was just issued for the Czech "ECO Nelson Base" station on Nelson Island: CZE-01. Also, the new reference number for the Antarctica Award is: OK-01. The Lat/Long: 62°14'30"S 58°58'48"W. For more information about the "ECO Nelson" base can be found at: http://www.antarctica.cz

VP8 - Jordan "Danny" Yankov, LZ2UU (VP8/LZ2UU), is once again stationed at the Bulgarian base St. Kliment Ohridski (LZ-02 for the Antarctica Award) on Livingston Island, South Shetlands (AN-010). Danny has served as radio engineer for the past eleven Antarctic seasons, and this year he is also the base commander. QSL via his home callsign: Jordan Radkov Yankov, P.O. Box 196, 7200 Razgrad, Bulgaria

SPECIAL EVENT. Look for special event station TM7VM to be active until December 30th . Activity started for the first time on December 16th, to celebrate the opening of the Millau Viaduct (South France, which is said to be the highest one in the world). This viaduct is 343 meters above the ground at its highest part. The activity is organized by the Millau ARC (F6KSM) under the leadership of Patrick, F5UJZ, who is also the QSL Manager. During the year 2005, the special event station will be activated 9 more times. The dates will be announced at a later time. A technical Web page about this viaduct (in English, Spanish and French), is available at : http://www.viaducdemillaueiffage.com/

VU4, ANDAMAN ISLANDS (Update). Charles Harpole, K4VUD, continued to provide updates on the VU4 operations throughout the week to the DX community. He is now in Port Blair and should be there until just about the end of the operation. He reports that he is taking pictures and video of the VU4 operation. Charles states that there are three stations up and operating now. Bharathi's station is in the Hotel Sinclairs. Saraha's operating location is in a dorm room of a local college. Ram's location was in a rented room in a small apartment building, but now he has moved to the Port Blair Science Center where the public can watch the ham radio action. The antenna farm is growing on VU4-land. Charle states that there is a 7 element tribander at 60 ft. above the hotel roof, inverted Vees everywhere, 80m dipole, SteppIR at 15 feet above Science Center roof, and the newly arrived WARC Cushcraft yagi installed at the college dorm. With most of the activity being on SSB and some CW, there has been some activity on PSK and Slow-Scan TV. Look for 40 and 80 meters to get a lot more attention for the next two weeks. The suggested frequency is around 3.503-5 MHz, the approved frequency. Charles mentioned over weekend that Mr. Suri, VU2MY, head of NIAR, has arrived there and is arranging publicity for all the operators all over India. He is cheering the operators on and giving

them lots of encouragement to stay awake and keep the bands hot with their calls!!! Charles is also encouraging all amateur radio operators to be on their best behavior over the next several days as the DXpedition will be hosting several Indian government officials. He also predicts that many youngsters will get VU licenses because of the interest this DXpedition has generated.

The "DX Newsletter" provides the following VU4RBI and VU4NRO operating schedule as follows:
0000 UTC 21240, 21285 kHz; 0100Z: 21240, 21285; 0200Z: 14240, 21240; 0300Z: 21285, 24931; 0400Z: 21285, 24931; 0500Z: 18121, 21285, 24931; 0600Z: 18121, 21285; 0700Z: 18121, 21285; 0800Z: 18121, 21285, 24931; 0900Z: 24931; 1000Z: 24931; 1100Z: 21285, 24931; 1200Z: 14191, 21285, 24931; 1300Z: 14191; 1400Z: 14191; 1500Z: 14191; 1800Z: 14265; 2100Z: 14265; 2200Z: 14265 kHz.

QSL via the National Institute of Amateur Radio (NIAR), Rajbhavan Road, Hyderabad-500 082, Andhra Pradesh, INDIA. HOWEVER, do not include cash in your mail, states Mr. Suri, VU2MY. He also hopes to post on the NIAR Web site a list of all callsigns of received QSLs. If you want to make a donation, please do that by other means rather than the ordinary mail. The team is working on the chance of a stateside QSL address also, but nothing definite at this time. Remember, the NIAR is the ultimate source for news of this operation. Their Web page is: http://www.niar.org

WLH CHANGES. Ric, DL2VFR, informs OPDX that there has been some major changes to the "World LightHouse Program". The entire list of LH had to be reviewed and corrected. The "World LightHouse Program" (WLH) has changed its name to "World Lighthouse On The Air" (WLOTA). A lot more LHs will count now - some LHs were deleted. In order to cope with the large number of LHs in the world, the list of LH counting had to be restricted based on a fixed standard. A multi-national crew has been working on the new award program. The new LH-list is almost completed. For more details and the rules, please visit their new Web site at: http://www.wlota.com

ZD7 & ZD8, ST. HELENA AND ASCENSION ISLAND. Martin, G3ZAY, is expected to be visiting Ascension Island (AF-003) and St. Helena (AF-022) over the Christmas period. Look for him to be on Ascension Island between December 21-22nd and again January 3-7th. Martin will be on St. Helena Island between December 24th and January 1st as ZD7ZA. While on Ascension Island, Martin will activate the Ascension Island Lighthouse (WLOTA LH-0299). QSL via his home callsign.

Are you using ZoneAlarm? There have been reports of ZA causing file
corruption in other contexts, so maybe it's the culprit here too.

Just a guess ...

1819. Anyone in south central ohio work the Andaman Islands?

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-20 02:59:12 UTC
From: Chet H <Chet@nowhere.com>
Message-ID: <41C63FF3.5020909@nowhere.com>
Source record: 6160

Hey all...

Recently relocated to Columbus,OH and haven't an antenna up yet
and of course theres a major expedition....
Wondering if anyone within an hour or so of columbus has worked him
and if it would be possible to plan a time that I could stop over and
take a chance???

Thanks in advance...

Chet

|Oh boy.
|
|Why not just ask them to work the expedition for you, using your
|callsign? You could just send the QSL card.

I had a local big gun (now SK) call me once and ask me to telephone
him. I did and he reported to me that *I* had worked TYA11 on such
and such a freq and time.

I told him in no uncertain terms that *I* hadn't worked the guy and
wouldn't be sending a QSL, and that in the future, I would do my own
DXing.

But I heard of another guy, recently divorced and QRT, who *worked*
them the same way and maintained his "honor roll" status.

Wes, N7WS, who found and worked the VU4 with my own station, all by
myself.

Ah Sir Walter -- Happy Holidays Old Chap

But on the other hand, I know many DXers who are very pure
1. No DX Nets
2. No Lists
3. No packet cluster assist
4. Always worked from their own station
5. Will not accept relays or help from others in getting the report
6. QRP or 100 Watts Only

I qualify for 1,2,4,5,and sometimes 6 - I go QRO as needed (;-)
Guilty of number 3 (;-)

On the other hand -- a local has one away from honor roll -- all on the DX nets. Yuk like shooting fish in a barrel
For other readers -- Yeah I know -- ya got a vertical -- so do I.

Your LaJolla Connection

Well I would qualify for 1,2,5, and 6. Most of the time I qualify for 4 but
if I'm at a friend's house I may use their radio. I worked several stations
from my OM's home before we were married. But I did all my own work to
break the pileup. It wasn't one of us calls, gets them, and then hands the
mic over for the next person. One of us would call til he/she got them,
then the other person would call until he/she also got them.

I and my OM are both hams and have separate stations. However, we
frequently "borrow" each other's setup just to keep from having to swap
antenna cables all the time since we have different antennas.

Just a suggestion here:

The installer for the base program itself comes as a ZIP file sure
enough, but the update is just the EXE file. Perhaps the original
poster was accidentally downloading the most recent version (update)
instead of the originall installer app?

1838. 7 BANDER ANTENNA XP707 FROM SOMMER FOR SALE !

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-21 17:17:54 UTC
From: Jos&#65533; Lopes <fartolopes@mail.telepac.pt>
Message-ID: <41c85ac0$0$26967$a729d347@news.telepac.pt>
Source record: 6180

I am interested in sailing my hf antenna above mentioned that is in very
good conditions.
Reason: need to renew and create a new set up of antennas.
Antenna: Sommer (DJ2UT Beam)
Model: XP 707
Bands: 10, 12, 15, 17, 20, 30 and 40 meters
Balun: The balun furnished with the Sommer antennas is a low-loss
air core type using RG142 (BU) Teflon cable. The balun will handle 2.9 kW
continuous output at 30 MHz with a loss of only 0.05 dB.
This antenna it still on my tower and working very well.
For price please send one email to:
fartolopes@mail.telepac.pt

The transports costs will be at the resposability of the buyer.
If you are interestes we can sed some actual pictures, and for all the
informations concerning gain and front/back, please go to the oficial site:

http://www.sommerantennas.com/beaminfo.html

Best 73, Lopes - CT1CJJ

1839. 20M 4 element antenna for sale!

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-21 17:28:16 UTC
From: Filipe Lopes <ct1ilt@mail.telepac.pt>
Message-ID: <41c85d2e$0$26944$a729d347@news.telepac.pt>
Source record: 6182

Hi all,

OH2BZ/CT1FJK is sailing his 4 element monobader, still packed.

This antenna was bought to the Finnish antenna : http://ct1ilt.cybton.com
Never used
This antenna has 4 elements, with 15+ boom at 75/80mm storm-WX boom.

Name your Price to ct1ilt@mail.telepac.pt

Transport costs from CT1FJK's house to buyer will be at Buyers
responsability.

73's Filipe CT1ILT

1843. A DX group with 976 serious members

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-23 02:39:20 UTC
From: The Enforcer <ENF@zilch.com>
Message-ID: <pdqyd.136$Q%4.80@fed1read06>
Source record: 6184

Tired of all the trash and nonsense here ?
More and more of the serious DXers are joining the Yahoo groups, one group has 976 members.
They are moderated and subscribing is required. Thus no trash, OT's, and other idiotic posts.
See URL:
http://groups.yahoo.com/search?query=dx&sc=-1&sg=10&ss=1

Exit stage right

In support of the Enforcer
Well go to google group archives
http://groups-beta.google.com/group/rec.radio.amateur.dx/about

Example 310 posts in rec.radio.amateur.dx in Nov 2004

But going thru the posts --you will see dozens of posts on "Stupid
Americans"
NOTHING to do with DX. And there are more posts on this than any other
topic.
The "Stupid Americans" threads are horrid -- full of nationalistic stupidity
and obscenities.

You can count the posters if you want but it is the same old people ranting,
swearing, insulting each other on OT's
But nowhere near 976 people visit this group -- IT IS FULL OF JUNK

And I object to all the Ham Radio bashing that goes on here.
This group is NOT representative of the Ham Radio community or Dxing.

Some good DX topics here --- but very little

I am off to Yahoo DX group
Not one OT post or junk there
http://groups.yahoo.com/group/dx-list/

Yeah I know about the door

(all chopped finely)
and season well.
Place in a large bowl and cool.
Add seasoned breadcrumbs and a little of the tomato gravy,
enough to make the mixture pliable.
Divide the stuffing among the cabbage leaves then roll.
Place seam down in a baking pan.
Ladle tomato gravy on top,
and bake at 325&#65533; for 30 - 45 minutes.

Umbilical Cordon Bleu

Nothing is so beautiful as the bond between mother and child,
so why not consume it?
Children or chicken breasts will work wonderfully also.

4 whole umbilical chords (or baby breasts, or chicken breasts)
4 thin slices of smoked ham, and Gruyere cheese
Flour
eggwash (milk and eggs)
seasoned bread crumbs
1 onion
minced
salt
pepper
butter
olive oil

Pound the breasts flat (parboil first if using umbilical
cords so they won?t be tough).
Place a slice of ham and cheese on each, along with some minced onion
then fold in half, trimming neatly.
Dredge in flour, eggwash, then seasoned breadcrumbs;
allow to sit for a few minutes.
Saut&#65533; in butter and olive oil until golden brown,
about 6 minutes on each side.

Shish Kababes

As old as the hills, this technique has employed seafood, beef, pork, lamb,
poultry, and vegetables; just about anything can be grilled, and young humans
are no exception!

High quality marinade (Teriyaki and garlic perhaps)
1 inch cubes of tender meat, preferably from the nursery

Onions
bell peppers
Wooden or metal skewers

1866. India - use of 10.1 MHz?

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-25 20:40:12 UTC
From: "J. Mc Laughlin" <jcm@power-net.net>
Message-ID: <10srk0ko7prfadf@corp.supernews.com>
Source record: 6104

I have looked through the WEB site of the Indian amateur radio group but can not find a list of frequencies that may be used by Indian radio amateurs.

The best frequency from VU4 to the central part of NA is 10.1 MHz. Does anyone know if that band may be used?

When one looks at the propagation from VU4 at the end of December with a low SSN on a map, it is clear that CW is needed to hear a 100 watt station in the central part of NA. It is also clear that weak openings are short.

and marinate for several hours.
Place seasoned flour in a paper or plastic shopping bag,
drop pieces in a few a time, shake to coat thoroughly,
then deep fry in hot oil (350°) for about 15 minutes.
Drain and place on paper towels.

Miscarriage with Mustard Greens

Why waste it? Otherwise, and in general, use ham or salt pork to season greens.
The technique of smothering greens can be used with many vegetables;
green beans work especially well. Meat is not necessary every day, don?t
be afraid to alter any dish to vegetarian tastes.

1 premature baby, born dead
Large bunch of mustard greens
2 white onions, 1 cup chopped celery
Vegetable oil (or hog fat)
Salt, pepper, garlic, etc.

Lightly brown onions, celery, garlic and meat in large heavy pot.
Add a little water and the greens (which should be thoroughly cleaned and washed).
Smother slowly for at least 2 hours, adding small amounts of water
when it starts to stick.
Stir frequently.
When ready - serve with rice, grilled smoked sausage, green salad, and iced tea

6 cloves garlic
bunch green onions, chopped

Cut the children?s butts and the beef roast into pieces
that will fit in the grinder.
Run the meat through using a 3/16 grinding plate.
Add garlic, onions and seasoning then mix well.
Add just enough water for a smooth consistency, then mix again.
Form the sausage mixture into patties or stuff into natural casings.

Stillborn Stew

By definition, this meat cannot be had altogether fresh,
but have the lifeless unfortunate available immediately after delivery,
or use high quality beef or pork roasts (it is cheaper and better to
cut up a whole roast than to buy stew meat).

1 stillbirth, de-boned and cubed
&#65533; cup vegetable oil
2 large onions
bell pepper
celery
garlic
&#65533; cup red wine
3 Irish potatoes
2 large carrots

This is a simple classic stew that makes natural gravy,
thus it does not have to be thickened.
Brown the meat quickly in very hot oil, remove and set aside.
Brown the onions, celery, pepper and garlic.
De-glaze with wine, return meat to the pan and season well.

in,
wrap till remaining corner is left.
Brush with egg, seal, and allow to sit on the seal for
a few minutes.
Fry the rolls:
325° if using egg roll wraps, 350° for spring roll wraps.
Deep fry in peanut oil till crispy golden brown, drain on paper towels.

Lemon Neonate

Turkey serves just as well, and in fact even looks a bit like a
well-dressed baby. By the time you turn the child?s breast into
cutlets, it will be indistinguishable. The taste of young human,
although similar to turkey (and chicken) often can be wildly
different depending upon what he or she has consumed during its
10 to 14 months of life...

4 well chosen cutlets (from the breasts of 2 healthy neonates)
2 large lemons (fresh lemons always, if possible)
Olive oil
Green onions
Salt
pepper
cornstarch
neonate stock (chicken, or turkey stock is fine)
garlic
parsley
fresh cracked black pepper

Season and saut° the cutlets in olive oil till golden brown, remove.
Add the garlic and onions and cook down a bit.
Add some lemon juice and some zest, then de-glaze with stock.
Add a little cornstarch (dissolved in cold water) to the sauce.
You are just about there, Pour the sauce over the cutlets,

her good
silver soup tureen and her great grandchildren (crawfish, crab or
lobster will work just as well, however this dish is classically
made with crawfish).

Stuffed infant heads, stuffed crawfish heads, stuffed crab or lobster shells;
make patties if shell or head is not available
(such as with packaged crawfish, crab, or headless baby).
Flour
oil
onions
bell peppers
garlic salt, pepper, etc.
3 cups chicken stock
2 sticks butter
3 tablespoons oil

First stuff the heads, or make the patties (see index)
then fry or bake.
Set aside to drain on paper towels.
Make a roux with butter, oil and flour,
brown vegetables in the roux, then add chicken stock and
allow to simmer for 20 minutes.
Add the patties or stuffed heads, and some loose crawfish,
lobster, long piglet, or what have you.
Cook on low for 15 minutes, then allow it to set for at least
15 minutes more.
Serve over steamed rice; this dish is very impressive!

Stuffed Cabbage Rolls

Babies really can be found under a cabbage leaf -
or one can arrange for ground beef to be found there instead.

8 large cabbage leaves
1 lb. lean ground newborn human filets, or ground chuck
Onions
peppers
celery
garlic
soy sauce
salt pepper, etc
Olive oil
breadcrumbs
Tomato Gravy (see index)

Boil the cabbage leaves for 2 minutes to soften.
In skillet, brown the meat in a little olive oil,
then add onions, peppers, and celery (all chopped finely)
and season well.
Place in a large bowl and cool.
Add seasoned breadcrumbs and a little of the tomato gravy,
enough to make the mixture pliable.
Divide the stuffing among the cabbage leaves then roll.
Place seam down in a baking pan.
Ladle tomato gravy on top,
and bake at 325° for 30 - 45 minutes.

Umbilical Cordon Bleu

Roast Child with Cornbread Stuffing

Turkey may be substituted for this classic holiday feast.
Although time consuming, this dish seems to take longer than it actually does;
as the entire house is filled with such a heavenly aroma,
the waiting becomes almost unbearable.
```

1 whole child, cleaned and de-headed
1 batch cornbread stuffing (see index)
½ cup melted butter

Remove the giblets from the infant and set aside.
Stuff the cavity where the child?s genitals and anus were located
using ½ cup per pound of meat.
Tie the arms flat to the body, then pull the skin flaps up to close the cavity.
Now tie the thighs up tight to hold it all together.
Place breast side up in a large metal roasting pan.
Bake in 325° oven covered for 2 hours.
Remove cover, stick a cooking thermometer deep into one of the
baby?s buttocks and cook uncovered till thermometer reads 190°,
about

then allow it to set for at least
15 minutes more.
Serve over steamed rice; this dish is very impressive!

Stuffed Cabbage Rolls

Babies really can be found under a cabbage leaf -
or one can arrange for ground beef to be found there instead.

8 large cabbage leaves
1 lb. lean ground newborn human filets, or ground chuck
Onions
peppers
celery
garlic
soy sauce
salt pepper, etc
Olive oil
breadcrumbs
Tomato Gravy (see index)

Boil the cabbage leaves for 2 minutes to soften.
In skillet, brown the meat in a little olive oil,
then add onions, peppers, and celery (all chopped finely)
and season well.
Place in a large bowl and cool.
Add seasoned breadcrumbs and a little of the tomato gravy,
enough to make the mixture pliable.
Divide the stuffing among the cabbage leaves then roll.
Place seam down in a baking pan.
Ladle tomato gravy on top,
and bake at 325° for 30 - 45 minutes.

Umbilical Cordon Bleu

Nothing is so beautiful as the bond between mother and child,
so why not consume it?
Children or chicken breasts will work wonderfully also.

4 whole umbilical chords (or baby breasts, or chicken breasts)
4 thin slice

the waiting becomes almost unbearable.

1 whole child, cleaned and de-headed
1 batch cornbread stuffing (see index)
&#65533; cup melted butter

Remove the giblets from the infant and set aside.
Stuff the cavity where the child?s genitals and anus were located
using &#65533; cup per pound of meat.
Tie the arms flat to the body, then pull the skin flaps up to close the cavity.
Now tie the thighs up tight to hold it all together.
Place breast side up in a large metal roasting pan.
Bake in 325&#65533; oven covered for 2 hours.
Remove cover, stick a cooking thermometer deep into one of the
baby?s buttocks and cook uncovered till thermometer reads 190&#65533;,
about another hour.

Pro-Choice Po-Boy

Soft-shelled crabs serve just as well in this classic southern delicacy.
The sandwich originated in New Orleans, where an abundance of abortion clinics
thrive and hot French bread is always available.

2 cleaned fetuses, head on
2 eggs
1 tablespoon yellow mustard
1 cup seasoned flour
oil enough for deep frying
1 loaf French bread
Lettuce
tomatoes
mayonnaise, etc.

Marinate the fetuses in the egg-mustard mixture.
Dredge thoroughly in flour.
Fry at 375&#65533; until crispy golden brown.
Remove and place on paper towels.

Holiday Youngster

One can easily adapt this recipe to ham, though as presented,
it violates no religious taboos against swine.

1 large toddler or small child, cleaned and de-headed
Kentucky Bourbon Sauce (see inde

in 500&#65533; oven for 20 minutes, reduce oven to 325&#65533;.
Bake till medium rare (150&#65533;) and let roast rest.
Pour stock over onions and drippings, carve the meat and
place the slices in the au jus.

Bisque &#65533; l?Enfant

```
Honor the memory of Grandma with this dish by utilizing her good
silver soup tureen and her great grandchildren (crawfish, crab or
lobster will work just as well, however this dish is classically
made with crawfish).

Stuffed infant heads, stuffed crawfish heads, stuffed crab or lobster shells;
make patties if shell or head is not available
(such as with packaged crawfish, crab, or headless baby).
Flour
oil
onions
bell peppers
garlic salt, pepper, etc.
3 cups chicken stock
2 sticks butter
3 tablespoons oil

First stuff the heads, or make the patties (see index)
then fry or bake.
Set aside to drain on paper towels.
Make a roux with butter, oil and flour,
brown vegetables in the roux, then add chicken stock and
allow to simmer for 20 minutes.
Add the patties or stuffed heads, and some loose crawfish,
l

Would it be asked too much to post the information here to give us an idea what you are talking about?

You really need to read up on the concept of usenet.

No I do not -- give a man a fish and he will back every day for another
fish - maybe 3 times a day huh

Teach him how to fish and he earns his and your respect.

Most of the questions here can be found by using Google

The answer is at the URL I gave -- if it is too much trouble to simply click
on the URL, then remain in ignorance.

I am not going to type out or copy and paste answers -- but I will give
URL's with answers

Dear Mr. Left Coast:

The Indian rules that came into effect in 1979 only include 10 kHz of
80m, 7 to 7.1 MHz, 14 to 14.35 MHz, 21 to 21.45 MHz, and 28 to 29.7 MHz.
[max. of 150 watts input]

One expects that some additions were made after 1979.

Thank you for the reference.

Mac N8TT

This reference suggests, among other things, that the 18 MHz and 25 MHz band was added. No date given.

http://www.qsl.net/vu2ngb/freq~band.html

This site seems to be more current. 10.1 MHz is not mentioned.
http://hamradioindia.com/HRI-RULES/IWTA.htm

The chances this December of more than a few of us in the north-central part of NA working VU4 is small. In view of the earthquake, all of this is moot.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 691
BID: $OPDX.691
December 27, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1NK, W2CE, NG3K, W3HNK, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, K7ZD, WB7OJV, K8YSE, NW0L, DL1EK & The DX News Letter, DL5EBE, EA5RM, F5CWU & La Gazette du DX, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, I1HYW, IV3IYH, IZ8BRI, J6KVR & JA-IOTA Islands News, JH0MGJ, SM7CRW, SQ9FMU, TA3J, TA3YJ, VA3RJ & ICPO, VE7HA, VK4AAR and the ARRL Letter for the following DX information.

SPECIAL EDITOR'S NOTE: It's hard to believe that next week's issue will be in 2005. Where did this year go? Anyway, my family (wife/OPDX's chief proof-reader Linda, Teddy [TJ], Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy New Year". Also, we would like thank the many who have contributed information over the year (there are too many to list). REMEMBER, without them there would not be an OPDX Bulletin. I would also like to thank the many who sent holiday greetings over the past week.....
73 and Good Luck in the New Year de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 19th/December, through Sunday, 26th/December there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1U, 4X, 5B, 5H, 5R, 5T, 5U, 5V, 5X, 5Z, 6Y, 7O, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FO/M, FR, G, GD, GI, GM, GU, GW, HA, HB, HC, HC8, HI, HK, HL, HM, HP, HR, HS, HZ, I, IS, J2, J6, JA, JT, JW, JY, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VP8, VP8/h, VP9, VQ9, VR, VU, VU4, XE, XU, YA, YB, YI, YK, YL, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

8R, GUYANA. Craig, AH8DX, will be active as 8R1/AH8DX during the ARRL DX SSB Contest (March 5-6th) as a Single-Op/All-Band/High-Power entry. QSL via AH8DX.

CQ CELEBRATES ITS 60TH. During the first 60 days of 2005, you will be hearing stations signing "/60". The reason is CQ is celebrating its 60th anniversary with a special "CQ Gang" on-air event (CQ's first issue was published in January, 1945). CQ Amateur Radio Magazine invites all Amateur Radio operators around the world to join in on the celebration and take part in the on the air event between January 1st and March 1st. Who can sign "/60"? Any ham ever associated with CQ as a staff member, contributing editor or author--as well as current subscribers to CQ, CQ VHF and Popular Communications may sign "/60" after their call signs. An endorseable cerificate will be available. Also, a CQ club station, WW2CQ, will be active from various parts of the U.S. during the event. There will be separate certificates available for working WW2CQ in all callsign districts from which it is active. All the complete rules for the "CQ Gang 60th Anniversary" activity appears in the December 2004 issue of CQ Magazine and on the CQ Web site at:
http://www.cq-amateur-radio.com/CQ60 Award Dec04.pdf

FT5W, CROZET ISLAND. Nicolas/F4EGX and Jean Paul/F5BU will take part in a job related mission on Crozet Archipelago at the beginning of 2005. They are hoping to do some ham activity during their spare time. They expect to depart (via a ship) on January 9th and are scheduled to arrive on Possession Island (AF-008 and DIFO FT-009) around February 5th. They expect to begin their activity on the 12th. They will stay on the island until the end of March, and their return to Metropolitan France is expected between the beginning of April and no later than the 15th. At this time (December 21th), they are awaiting for their callsigns. Nicolas, F4EGX, will not be active on HF bands. The reason given is that the CMR03 directives about the possibility of using the HF Bands without Morse code proof exam has not yet been put into effect in the French overseas territories; one being Amsterdam Archipelago. Without this permission, he will be only on 6, 2 and 70cm bands QRP, using FM mode. QSL via F6APU. Nicolas does have a Web page at: http://F4EGX.free.fr
Jean Paul, F5BU, will be active on SSB, mainly 14278 kHz. QSL cards go via F5BU.

HI OPERATION CHANGE. Curt, W3HQ, reports that due to the malaria situation in the Dominican Republic, he has been forced to reconsider his HI tour during the 160 meter contest in January. However, he is considering other islands such as VP2 Tortola, instead. More details are forthcoming as he gets confirmation of travel arrangements.

IOTA/USI/LIGHTHOUSE ACTIVITY. Look for W5TLH to activate several islands and lighthouses between December 27th and January 2nd. Here are the following lighthouses to be activated:
Halfmoon Reef Lighthouse (ARLHS reference USA-363)

Aransas Pass Lighthouse (USA-018)
Matagorda Island Lighthouse (WLH K-096, ARLHS USA-482)
* If time and weather permits they will activate the following
historical locations at:
Corpus Christi Lighthouse (USA-1137)
Saluria Lighthouse (USA-1139)
Swash Lighthouse (USA-1182).
The lighthouse activations will result in the activation of several islands
in the IOTA NA-092 group as follows:
San Jose Island (USI TX-005, Refugio county Texas)
Matagorda Island (USI TX-010S, Calhoun county Texas)
Mustang Island (USI TX-011S, Nueces county Texas).
Activity will be on 40 and 20 meters SSB. QSL via W5LTH (QRZ.com). For
more information, check the W5AZN Web site for further details at:
http://www.w5azn.com

IOTA NEWS.....
EU-166. Operators IT9SSI, IZ8CGS, IZ8FWN, IZ8CCW and possibly others
will be active as IO9TA, January 7-9th, from Lunga Island
(IIA TP-021 and MIA MI-055). Activity will be on all bands
SSB and CW with 2 stations 24 hours a day. For more info,
please visit the Web page at: http://www.mdxc.org/io9ta/

EU-175. Ulf, DL5AXX, will be active as CU7/DL5AXX from Ilha do Faial
now through January 3rd. He is on holiday with his family
here. He will try not to disturb his family's peace and
will try to listen for Asia on CW on the lowbands every
evening. QSL via his home callsign, direct or by the bureau.

SA-039. (Update) Members from the "Radio Grupo Sur of Montevideo"
will be on the air as CW5R from Lobos Island from January
7-11th. Dates may be changed depending on weather conditions.
Operators include Lupo/CX2ABC, Pedro/CX5BW and Orestes/WQ4O
together with Javi/EA5KM and Toni/EA5RM who are travelling
from Spain especially for this DXpedition. They expect to
use monoband antennas on the high bands and dipoles on the
lower bands which will be installed on the top of Lobos
lighthouse (ARLHS URU-002 and WLOTA LH-0799). They will be
active on all modes including digital. QSL Manager will be
CX2ABC. There will be online logs available after their
operation on the following Web page. For updates and more
information, please visit the Web page at:
http://www.dx-men.com

KP2, U.S. VIRGIN ISLANDS. John, KP2/KL7JR, continues to be active as
KP2/KL7JR on St. Croix (NA-106). He checks into the 247 DX Net (14.247
kHz, Mon-Fri) most days at 2100z. John informs OPDX that he will try
to concentrate on 12 and 17 meters SSB until April 2005. For E-mail
skeds, send message to: kl7jr@aol.com
QSL with SASE to QRZ.com address.

LIGHTHOUSE ACTIVITY. Tom, G0PSE, plans to activate the Anvil Point Lighthouse (ARLHS ENG-001) on Wednesday, December 29th, or Thursday, December 30th. The special event callsign GB2APL has been applied for. If the special callsign is not granted in time, the callsigns G0PSE/P and M0AOD/P will be used. Activity will be on 40-10 meters SSB and CW.

NH2, GUAM. Kuro, JH0MGJ, will be active as AL5A/NH2 from March 18-20th. Activity will be on 40-10 meters CW/SSB. Kuro informs OPDX that he will be listening for weak stations in NA and EU. QSL is "OK" via the JARL Bureau.

PACIFIC ACTIVITY. Look for Aki, JA1KAJ, to be active as YJ0AKA from Efate (OC-035) on the Island of Vanuatu now through January 2nd. Activity should be on 80-10 meters CW/SSB/RTTY/SSTV. He will head to New Caledonia after this operation and be active as FK/JA1KAJ from January 3-9th. QSL via his home callsign, direct or by the Bureau.

PY0, FERNANDO DE NORONHA. Look for Bill, W9VA, to be active as PY0FF during the ARRL DX CW Contest (February 19-20th). His operating class is to be announced later. Bill will be on Fernando de Noronha, February 16-22nd. Before and after the contest, he will be mostly on the WARC bands and 6 meters using his personal callsign PY0ZFO. QSL all via W9VA.

QSL INFO AND NEWS.....
Roberto, IV3IYH/9N7CQ (also DJ5CQ, NQ5W, VE3MXQ), informs that Bureau QSL cards for 9N7CQ can be requested online at the following URL:
http://www.df3cb.com/9n7bcc/oqrs/
Bureau cards can also be requested via E-mail to the QSL Manager IK2ILH at the following address: ik2ilh@libero.it
Please do not send your card via the bureai if you requested a card online or via E-mail. QSLs have been ordered and should be ready in a few weeks.

The log book of the recent A52CDX Buthan expedition by the members of Clipperton DX Club (in October/November 2004), is now online at:
http://www.f5lmj.net/Bhoutan2004/a52cdx.htm

AY1ZA QSLS. Rick, NE8Z, reports on QSLs for AY1ZA: "I am NOT the QSL Manager for AY1ZA or LU1ZA. I do not have blank QSLs nor the logs. Henry, LU4DXU, sends me registered/airmail packages of 100 QSLs/SAEs per package to mail out from the USA. The postal rates in LU has risen so high, he can not afford to mail individual SAEs from Argentina. I receive the packages and then send out the SAEs via airmail from Michigan the same day received. As of 12-12-04 I have mailed out about 800 AY1ZA and LU/Z QSLs. More SAEs are on their way to me now. Please be patient. You will receive your card via me if it was sent and received by LU4DXU in Argentina."

Sergey (Jack), RA3SL, informs that Andrej, RW3VZ, states that all the logs for BW3/UA3VCS and BW4/UA3VCS are lost. Artyom, UA3VCS, became a "Silent Key" in July 2004.

NOT THE QSL MANAGER. Marty, NW0L, reports that somehow NW0L has been INCORRECTLY listed as the QSL Manager for PJ2T in one or more QSL

Manager lists. The correct QSL Manager for PJ2T is N9AG.

Nilay, TA3YJ (QSL Manager for TC2K4J), states that all TC2K4J QSL cards and TA40SK awards have been mailed. Details are on the Web page at: http://www.geocities.com/tc2k4j

VP8 LOGS ONLINE. The logs for VP8WWW, VP8WFW, VP8WPF, VP8WMJ and VP8DXL are all online at: http://www.gtdx.com/logs/searchvp8.html

The logbook for VQ9M's operations in 2002 has been uploaded to eQSL and LoTW. Direct requests (green stamp or sase, no IRCs please) may still be mailed to WB7OJV.

SPECIAL EVENT. Look for special event station, HA200CVM, to be active during January. Activity is dedicated in remembrance of the poet Csokonai Vitez Mihaly. QSL via HA0NAR; Bureau cards are "OK".

SPECIAL EVENT. John, SM7CRW, will be using the special callsign SF50A between January 1, 2005, and December 31, 2005. He is celebrating his 50th year of hamming and promises an exclusive QSL for everyone who works him and requests it.

SPECIAL EVENT. Look for special event station SQ75FMU to be active between January 1-20th and February 15 to March 15th. Activity is to celebrate the 75th anniversary of Polish Amateur Radio Union "PZK". QSL via SQ9FMU, by the bureau or direct to: Robert Prorok, P.O. Box 113, 41-800 Zabrze. QSL cards will be sent to all after March 15th, 2005.

TA, TURKEY. Berkin, TA3J, will be active as TA3J/60 from Antalya between 0000z January 1st and 2359z March 1st. Special callsign is for the "CQ/60 Operating Activity" and the "CQ Gang Award" (See "CQ CELEBRATES ITS 60TH" above). Activity will be on 160/80/40/20/15/10/2 meters, 70cm and the WARC bands, on all modes. QSL via Nilay, TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. No eQSL. SWL QSL cards are "OK". Homepage for this activity is: http://www.geocities.com/ta3j60

V4, NEVIS. Just a reminder that Larry, KJ4UY, is expected/should be active now as V47UY from Nevis Island (NA-104) until January 2nd. As this was being typed, no QSNs were reported yet. Activity should be 160-6 meters. QSL via his home callsign.

VP8, ANTARCTICA (Change of plans). There is a good chance that Mike, VP8CMH/mm, will become active from Rothera "T" Base on Adelaide Island (IOTA AN-001 and WAP GBR-20) signing VP8ROT despite previous announcements. Here is a short note from Mike: "I hope to be back in Rothera in around January 25-27th. Our itinerary has just been changed, so I will be going there in a few weeks time..... ice willing."

VU4, ANDAMAN ISLANDS (Update). As this was being typed Sunday morning, December 26th, word came out that a major earthquake (8.9 magnitude) hit the Indonesia area from the eastern Indian Ocean. Reports of many deaths and severe injuries are reported. The effects of the earthquake were very strong in India and tsunami waves have caused problems on

the Andamanns. Charles Harpole, K4VUD, who usually provides updates on the VU4 operations daily, did not Sunday. However, on the air reports and InterNet sources indicate that the VU4 team is fine. Reports also state VU4RBI is now on low power and providing emergency communciations. There is an interesting Web page to view the current earthquakes. Please visit: http://earthquake.usgs.gov/recenteqsww/Quakes/quakes_big.html Let's hope that the reports about the VU4 team are true, and they are all in good health.
In Charle's updates on the VU4 operations this past week, he mentioned that the team is using paper logs. However, a SWL volunteer is taking the logs and typing the QSOs into a computer. The hand logs will be kept to solve any questions that may come up as QSL requests come in. Charles did mention he will explain to the VU4 team the possible use of the LoTW and hope later that all logs can be loaded there. On Thursday, December 23rd, Charles stated that the "team has now passed the 30,000 QSO mark and has mounted HF signals on SSB, CW, Slowscan TV, RTTY, and PSK on all bands -- including all 3 WARC -- from 160-6 meters."

YA, AFGHANISTAN. Look for YA5Y to be active in the CQ WW 160m CW Contest (January 29-30th) as a Single-Op/Low-Power entry. Activity will be 100 watts with a dipole up 15m. QSL via DL5SE by the DARC Bureau.

ZB2, GIBRALTAR. Operators Wolf/DL4WK, Frank,DL7UFR, and Rolf/DL7VEE will be active as ZB2/homecall from December 29th to January 4th. They plan to have two stations active on CW/SSB/RTTY on all bands from 160-6 meters. QSL via their home callsigns; the Bureau is "OK".

ZF2, CAYMAN ISLANDS. Pete, N2LM, will be active from the Grand Cayman Island (NA-016) this week as ZF2PD until January 4th. Activity will be on 80-10 meters SSB and RTTY. QSL via his home callsign.

ZK2, NIUE. Murray, VE7HA, and his wife Konomi, have plans to head to Niue next year; probably the February through March timeframe. He informs OPDX that he has spoken with the Telecom in Niue this past week, and they indicated getting a licence is no problem. He has asked for a special callsign or prefix for contest work, but is not sure if he will get it. Otherwise, hopefully his request for ZK2HA will be met. He will be using a standard 100 watt transceiver with a Steppir BiggIR vertical antenna which covers 40- 6 meters continuously. Expected time on the island is about two months. With no active locals, it seems he is on his own as far as making plans to get on the air there. Planned operation will probably be mostly SSB, but he states that it would be fun to try other modes. However, Murray states, "I have no experience or equipment for newer digital modes, so that is unlikely." More details are forthcoming once he has more concrete information.

More like "JERK Patrol."

You've already been told that the newsgroup charter ALLOWS this weekly posting.
Posts that are on topic and/or specifically allowed are not spam.

You seem afraid to reveal your identity.... If you were a real person, you
wouldn't have to obfuscate your "alt.net" return address. Regardless, quoting
the entire message in your reply is more of a bandwidth waste than the original
message ever was.

1894. Send you dxpedition announcemets to BerlinRadio, the DXers webradio station located in Germany

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-27 04:59:25 UTC
From: "Tom A. Kolbe (BerlinRadio)" <tom.kolbe@berlinradio.info>
Message-ID: <339j5bF3tssc2U1@individual.net>
Source record: 6135

To all ham radio dxers!

BerlinRadio is Germanys first webradio station for ham radio dxers, bc dxers and swls. We are streaming in german language. Our livestream can be opened from our homepage http://www.berlinradio.info. It would be a great pleasure for us to receive your announcements, if you should plan a dxpedition. Our listeners are located worldwide and - of course - in the german speaking countries.

If you would like to send us your announcements, you can do that via e-mail to: wwdx@berlinradio.info in english or german, whatever you want.

We will release your announcements in our program, which is called "Weltweit DX" (in english "Worldwide DX") every Friday at 19.15 UTC, every Saturday at 20.15 UTC, in our so called "DX Spots" over the week at different times and on our homepage in german language.

It would be great to hear from you :-)!
Thanks in advance!

Kind regards

Tom A. Kolbe DL1RTK
BerlinRadio Team
Host of "Weltweit DX"

1896. Gezocht Elevatierotor

Newsgroup: rec.radio.amateur.dx
Date: 2004-12-27 19:17:16 UTC
From: Ampe PD0HF <frank@ampe.nl>
Message-ID: <33b5dtF3td0duU1@individual.net>
Source record: 6137

Ik zoek een Elevatierotor bv een Yaesu G-550 of een ander merk.

Als je iets over hebt en je wilt het kwijt laat het mij dan weten
graag met opgave van merk en eventueel de prijs.

The VU4 DXpedition is suspended, so you don't need your green stamps to get a QSL from them. But those green stamps are urgently needed to save potentially hundreds of thousands of lives around the Bay of Bengal. Dig deep on this one.

The following aid agencies are accepting contributions for assistance that they or their affiliates are providing for those affected by the earthquake and tidal waves in Asia. U.S. organizations are members of InterAction, a coalition of relief, development and refugee assistance agencies.

Might want to be a tad careful rushing to contribute to every "charity" with the words "Asian Flood" or the like in them.

Ever hear of profiteering? It is a sickness that some folks have..they wait to pounce on victims and "contributors" alike after every hurricane or any other genuine disaster. Ask some of the folks in Florida who get ripped off after every hurricane by "charities" and "home improvement" contractors to rebuild their damaged residences. All they need is an address, webpage and a 800 number. Many don't even have that and just drive the streets and knock on doors.....

My advice is to pray for disaster relief workers....

Absolutely, then give only to those concerns you are familiar with, such as
Red Cross, Etc. Don't need to fund any "Nigerian Banking Scam", Eh/ 73's

Another classic "Hansism" where Hans opens his mouth and inserts
his foot. There are widely broadcasted warnings not to contribute
to many charities, because of their direct connection to Muslim
interests and their history of diverting donated money from the victims
to support the radical Muslim Jihad (that's global war on terrorism for
you Hans. We know you have trouble with big words.)

I'm not sure if International Red Cross is any better than the American Red Cross or any of the other agencies I've listed, and I don't want to start a fight about it so in any case, for those who want to follow Steve's good advice, here is the contact information:

International Committee of the Red Cross
19 avenue de la Paix
CH 1202 Geneva
Switzerland
Phone ++ 41 (22) 734 60 01
http://www.icrc.org

73, de Hans, K0HB

Hey Kenny,

They're all reputable charity organizations. For further detail see
http://www.amishrakefight.org/gfy

With warmest personal wishes for the new year.

de Hans, K0HB

The following may be a better URL for the Red Cross International
Response Fund

https://www.redcross.org/donate/donation-form.asp

==========
You can help those affected by the recent tsunamis in South Asia, the
humanitarian crisis in Sudan and Chad, and countless other crises around
the world each year by making a financial gift. This fund enables us to
provide immediate and long-term support through supplies, technical
assistance, and other support to those in need.
==========

It is a secure site that accepts credit cards. We just made a donation
to the Red Cross International Response Fund

Dick - AA5VU
